Auditor's Report on Standalone Financial Results for the quarter and nine months ended December 31, 2017 of HDFC Standard Life Insurance Company Limited

To The Board of Directors of
HDFC Standard Life Insurance Company Limited

We have audited the accompanying standalone financial results of HDFC Standard Life Insurance Company Limited for the quarter ended December 31, 2017 and the standalone year to date financial results for the period April 01, 2017 to December 31, 2017 being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and IRDA Circular reference: IRDAI/F&I/REG/CIR/208/10/2016 dated 25th October 2016. These standalone quarterly financial results as well as the standalone year to date financial results have been prepared on the basis of the interim standalone financial statements, which are the responsibility of the Company's management and have been approved by the Board of Directors on January 19, 2018.

Our responsibility is to express an opinion on these standalone quarterly financial results and standalone year to date financial results based on our audit of such condensed interim standalone financial statements, which have been prepared by the Company's Management in accordance with the recognition and measurement principles laid down in Accounting Standard ('AS') 25, "Interim Financial Reporting", specified under Section 133 of the Companies Act, 2013 ("the Act") read with Rule 7 of the Companies (Accounts) Rules, 2014 issued thereunder, including the relevant provisions of the Insurance Act, 1938 (the "Insurance Act"), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act") and other accounting principles generally accepted in India, to the extent considered relevant and appropriate for the purpose of standalone quarterly financial results as well as the standalone year to date financial results and which are not inconsistent with the accounting principles as prescribed in the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 (the "Regulations") and orders/directions/circulars issued by the Insurance Regulatory and Development Authority of India ("IRDAI") to the extent applicable.

We conducted our audit in accordance with the Standards on Auditing and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial results are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts disclosed as financial results. An audit also includes assessing the accounting principles used and significant estimates made by management. We believe that our audit provides a reasonable basis for our opinion.

In our opinion and to the best of our information and according to the explanations given to us these standalone quarterly financial results as well as the standalone year to date financial results:

- I) are presented in accordance with the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and IRDAI IRDA Circular reference: IRDAI/F&I/REG/CIR/208/10/2016 dated 25th October 2016 in this regard; and
- II) give a true and fair view of the standalone net profit and other financial information for the quarter ended December 31, 2017 as well as the standalone year to date financial results for the period April 01, 2017 to December 31, 2017.

Other Matters

The actuarial valuation of liabilities for life policies in force is the responsibility of the Company's Appointed Actuary (the "Appointed Actuary"). The actuarial valuation of these liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at December 31, 2017 has been duly certified by the Appointed Actuary and in his opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by the Insurance Regulatory and Development Authority of India ("IRDAI") and the Institute of Actuaries of India in concurrence with the Authority. We have relied upon the Appointed Actuary's certificate in this regard for forming our opinion on the valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists, as contained in the interim standalone financial statements of the Company.

Notes :

- Analytical ratios have been calculated as per definition given in IRDAI Analytical ratios disclosure.
- The persistency ratios are calculated in accordance with the IRDAI circular no. IRDA/ACT/CIR/MISC/035/01/2014 dated January 23, 2014 and hence are with a lag of one month.
- Group business, where persistency is measurable, has been included in the calculations. Rural business is excluded in the calculation of the persistency ratios.
- The persistency ratios for the quarter ended December 31, 2017 have been calculated for the policies issued in the September to November period of the relevant years. E.g.: the 13th month persistency for the current year is calculated for the policies issued from September 2016 to November 2017. The persistency ratio for quarter ended September 30, 2017 and December 31, 2016 have been calculated in a similar manner.
- The persistency ratios for the nine months ended December 31, 2017 have been calculated for the policies issued in the December to November period of the relevant years. For eg: the 13th month persistency for current year is calculated for the policies issued from December 2015 to November 2016. The persistency ratio for nine months ended December 31, 2016 have been calculated in a similar manner.
- The persistency ratios for the year ended March 31, 2017 have been calculated for the policies issued in the April to March period of the relevant years. E.g.: the 13th month persistency for the current year is calculated for the policies issued from April 2015 to March 2016.

In line with our stated strategy, we will continue to work hard and invest in leveraging technology and re-imagine the life insurance business.”

Definitions and abbreviations

- **APE (Annualized Premium Equivalent)** - The sum of annualized first year regular premiums and 10% weighted single premiums and single premium top-ups
- **Assets under Management (AUM)** - The total value of Shareholders’ & Policyholders’ investments managed by the insurance company. AUM includes investments disclosed in the Balance sheet under Schedule 8, 8A, 8B & loans in the nature of investments included in Schedule 9
- **Conservation ratio** - Ratio of current year renewal premiums to previous year's renewal premium and first year premium
- **Embedded Value Operating Profit (EVOP)** - Embedded Value Operating Profit (“EVOP”) is a measure of the increase in the EV during any given period, excluding the impact on EV due to external factors like changes in economic variables and shareholder-related actions like capital injection or dividend pay-outs
- **First year premium** - Premiums due in the first policy year of regular premiums received during the financial year. For example, for a monthly mode policy sold in March 2016, the first monthly instalment received would be reflected as First year premiums for 2015-16 and the remaining 11 instalments due in the first policy year would be reflected as first year premiums in 2016-17, when received
- **New business received premium** - The sum of first year premium and single premium, reflecting the total premiums received from the new business written

Embedded Value: Methodology and Approach (1/2)

Overview

Embedded Value (EV) consists of:

- **Adjusted Net Worth (ANW)**, consisting of:
 - Free surplus (FS);
 - Required capital (RC); and
- **Value of in-force covered business (VIF)**: Present value of the shareholders' interest in the earnings distributable from assets allocated to the covered business, after making sufficient allowance for the aggregate risks in the covered business.

Components of Adjusted Net Worth (ANW)

- **Free surplus (FS)**: FS is the market value of any assets allocated to, but not required to support, the in-force covered business as at the valuation date. The FS has been determined as the adjusted net worth of the Company (being the net shareholders' funds adjusted to revalue assets to market value), less the RC as defined below.
- **Required capital (RC)**: RC is the amount of assets attributed to the covered business over and above that required to back liabilities for covered business, the distribution of which to the shareholders is restricted. The RC is set equal to the higher of 'Minimum Regulatory Capital' (MRC) and 'Internal Capital', less FFA in the participating fund.

Embedded Value: Methodology and Approach (2/2)

Components of Value in-force covered business (VIF)

- **Present value of future profits (PVFP):** PVFP is the present value of projected distributable profits to shareholders arising from the in-force covered business determined by projecting the shareholder cash flows from the in-force covered business and the assets backing the associated liabilities.
- **Time Value of Financial Options and Guarantees (TVFOG):** TVFOG reflects the value of the additional cost to shareholders that may arise from the embedded financial options and guarantees attaching to the covered business in the event of future adverse market movements. The intrinsic value of such options and guarantees is reflected in the PVFP.
- **Frictional costs of required capital (FC):** FC represents the investment management expenses and taxation costs associated with holding the RC. VIF includes an allowance for FC of holding RC for the covered business. VIF also includes an allowance for FC in respect of the encumbered capital in the Company's holdings in its subsidiaries.
- **Cost of residual non-hedgeable risks (CRNHR):** CRNHR is an allowance for risks to shareholder value to the extent that these are not already allowed for in the TVFOG or the PVFP. In particular, the CRNHR makes allowance for:
 - asymmetries in the impact of the risks on shareholder value; and
 - risks that are not allowed for in the TVFOG or the PVFP.

CRNHR has been determined using a cost of capital approach. CRNHR is the present value of the cost of capital charge levied on the projected capital in respect of the material risks identified.

- **APE (Annualized Premium Equivalent)** - The sum of annualized first year regular premiums and 10% weighted single premiums and single premium top-ups
- **Conservation ratio** - Ratio of current year renewal premiums to previous year's renewal premium and first year premium
- **First year premiums** - Regular premiums received during the year for all modes of payments chosen by the customer which are still in the first year. For example, for a monthly mode policy sold in March 2017, the first instalment would fall into first year premiums for 2016-17 and the remaining 11 instalments in the first year would be first year premiums in 2017-18
- **New business received premium** - The sum of first year premium and single premium.
- **Operating expense** - It includes all expenses that are incurred for the purposes of sourcing new business and expenses incurred for policy servicing (which are known as maintenance costs) including shareholders' expenses. It does not include commission.
- **Operating expense ratio** - Ratio of operating expense (including shareholders' expenses) to total premium
- **Renewal premiums** - Regular recurring premiums received after the first year
- **Solvency ratio** - Ratio of available solvency margin to required solvency margins
- **Total premiums** - Total received premiums during the year including first year, single and renewal premiums for individual and group business
- **Weighted received premium (WRP)** - The sum of first year premium and 10% weighted single premiums and single premium top-ups
- **13th month persistency** - Percentage of contracts measured by premium, still in force, 13 months after they have been issued, based on reducing balance approach
