Sub: Outcome of Board Meeting held on April 18, 2018

Dear Sir,

Pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we wish to inform you that the Board of Directors of the Company at their meeting held today i.e. April 18, 2018, approved the following:

- (A) 1. The Audited Standalone and Audited Consolidated Financial results of the Company for the financial year ended March 31, 2018. The copy of the said results along with the audit report issued by the Statutory Auditors and a press release are enclosed herewith.
2. The Board noted the vacation of office of Mr James Aird as an Alternate Director to Mr Norman Keith Skeoch w.e.f. April 17, 2018, due to arrival of Mr Norman Keith Skeoch for attending the Board Meeting held on April 18, 2018.
3. The 18th Annual General Meeting of the Company will be held on July 20, 2018 at 3.30 pm at Yashwantrao Chavan Pratishthan Auditorium, Gen. Jagannath Bhonsale Marg, Next to Sachivalaya Gymkhana, Mumbai - 400021. The Register of Members and Share Transfer Books shall remain closed from July 16, 2018 to July 20, 2018 (both days inclusive) for the purpose of 18th Annual General Meeting.
- (B) The Board also approved the following proposal, subject to the approval of the shareholders of the Company at their forthcoming Annual General Meeting:

Formulation of employee stock option scheme namely 'Employee Stock Option Scheme – 2018' with the authority to create and grant from time to time, in one or more tranches, not exceeding 31,00,000 employee stock options exercisable into not

exceeding 31,00,000 equity shares of face value of Rs 10 each of the Company to the eligible employees of the Company and that of the eligible employees of the subsidiary company(ies) of the Company in terms of SEBI (Share Based Employee Benefits) Regulations, 2014;

Please note that the said Board Meeting commenced at 3.30 p.m. and concluded at 5.00 p.m.

Please note that the window for trading in equity shares of the Company by its employees and directors will open from April 21, 2018.

You are requested to take note of the above and arrange to bring this to the notice of all concerned.

Thanking You,

For HDFC Standard Life Insurance Company Limited

Narendra Gangan
EVP, Company Secretary &
Head- Compliance & Legal

Notes:

- Analytical ratios have been calculated as per definition given in IRDAI Analytical ratios disclosure
- The persistency ratios are calculated in accordance with the IRDAI circular no. IRDA/ACT/CIR/MISC/035/01/2014 dated January 23, 2014 and hence are with a lag of one month
- Group business, where persistency is measurable, has been included in the calculations. Rural business is excluded in the calculation of the persistency ratios.
- The persistency ratios for the quarter ended March 31, 2018 have been calculated for the policies issued in the December to February period of the relevant years. E.g.: the 13th month persistency for the current year is calculated for the policies issued from December 2016 to February 2017. The persistency ratio for quarter ended December 31, 2017 and March 31, 2017 have been calculated in a similar manner.
- The persistency ratios for the year ended March 31, 2018 have been calculated for the policies issued in the March to February period of the relevant years. E.g.: the 13th month persistency for the current year is calculated for the policies issued from March 2016 to February 2017. The persistency ratio for year ended March 31, 2017 has been calculated in a similar manner.

Auditor's Report on Standalone Financial Results for the quarter and year ended March 31, 2018 of HDFC Standard Life Insurance Company Limited

To The Board of Directors of
HDFC Standard Life Insurance Company Limited

1. We have audited the accompanying standalone financial results of HDFC Standard Life Insurance Company Limited as at and for the quarter and year ended March 31, 2018 being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and IRDA Circular reference: IRDAI/F&I/ REG/CIR/208/10/2016 dated 25th October 2016, ("Standalone financial results") which have been approved by Board of Directors on April 18, 2018.
2. These standalone financial results have been prepared on the basis of the standalone financial statements prepared in accordance with the measurement and recognition principles specified in paragraph 3 below, which is the responsibility of the Company's management. The management's responsibility also includes the design, implementation and maintenance of internal control relevant to the preparation of the standalone financial results that is free from material misstatement, whether due to fraud or error.
3. Our responsibility is to express an opinion on these standalone financial results based on our audit of such standalone financial statements, which have been prepared by the Company's Management in accordance with the recognition and measurement principles specified under Section 133 of the Companies Act, 2013 ("the Act") read with Rule 7 of the Companies (Accounts) Rules, 2014 issued thereunder, including the relevant provisions of the Insurance Act, 1938 (the "Insurance Act"), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act") and other accounting principles generally accepted in India, to the extent considered relevant and appropriate for the purpose of these standalone financial results and which are not inconsistent with the accounting principles as prescribed in the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 (the "Regulations") and orders/directions/circulars issued by the Insurance Regulatory and Development Authority of India ("IRDAI") to the extent applicable.

4. We conducted our audit in accordance with the Standards on Auditing and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the standalone financial results are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts disclosed as standalone financial results. An audit also includes assessing the accounting principles used and significant estimates made by management. We believe that our audit provides a reasonable basis for our opinion.
5. In our opinion and to the best of our information and according to the explanations given to us these standalone financial results:
 - i. are presented in accordance with the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and IRDAI IRDA Circular reference: IRDAI/F&I/REG/CIR/208/10/2016 dated 25th October 2016 in this regard; and
 - ii. give a true and fair view of the standalone net profit and other financial information for the quarter ended March 31, 2018 as well as the standalone financial results for the year ended March 31, 2018.

Other Matters

6. The actuarial valuation of liabilities for life policies in force is the responsibility of the Company's Appointed Actuary (the "Appointed Actuary"). The actuarial valuation of these liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at March 31, 2018 has been duly certified by the Appointed Actuary and in his opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by the Insurance Regulatory and Development Authority of India ("IRDAI") and the Institute of Actuaries of India in concurrence with the Authority. We have relied upon the Appointed Actuary's certificate in this regard for forming our opinion on the valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists, as contained in the standalone financial statements of the Company.
7. The Statement dealt with by this report has been prepared for the purpose of filing with stock exchanges. This Statement is based on and should be read with the audited standalone financial statements of the company for the year ended March 31, 2018 on which we issued an unmodified audit opinion vide our report dated April 18, 2018.

Restriction of Use

8. This report is addressed to the Board of Directors of the Company and has been prepared for and only for the purposes set out in paragraph 7 above. This report should not be otherwise used by any other party for any other purpose.

Notes :

- Analytical ratios have been calculated as per definition given in IRDAI Analytical ratios disclosure.
- The persistency ratios are calculated in accordance with the IRDAI circular no. IRDA/ACT/CIR/MISC/035/01/2014 dated January 23, 2014 and hence are with a lag of one month.
- Group business, where persistency is measurable, has been included in the calculations. Rural business is excluded in the calculation of the persistency ratios.
- The persistency ratios for the quarter ended March 31, 2018 have been calculated for the policies issued in the December to February period of the relevant years. E.g.: the 13th month persistency for the current year is calculated for the policies issued from December 2016 to February 2017. The persistency ratio for quarter ended December 31, 2017 and March 31, 2017 have been calculated in a similar manner.
- The persistency ratios for the year ended March 31, 2018 have been calculated for the policies issued in the March to February period of the relevant years. E.g.: the 13th month persistency for the current year is calculated for the policies issued from March 2016 to February 2017. The persistency ratio for year ended March 31, 2017 has been calculated in a similar manner.

Notes:

1. The above results of the company for the quarter and year ended March 31, 2018 were reviewed by the Audit Committee and subsequently approved by the Board of Directors at its meeting held on April 18, 2018.
2. These financial results have been prepared in accordance with the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, to the extent applicable, and IRDAI Circular IRDA/F&I/REG/CIR/208/10/2016 dated October 25, 2016 on publication of financial results for Life Insurance companies.
3. The figures of quarter ended March 31, 2018 are the balancing figures between audited figures in respect of the full financial year ended March 31, 2018 and the published year-to-date figures upto the third quarter of the current financial year, i.e. nine months ended December 31, 2017.
4. During the quarter ended March 31, 2018, the Company has allotted 27,66,821 equity shares of face value of ₹ 10 each pursuant to exercise of employee stock options.
5. Figures of the previous period have been regrouped wherever necessary, in order to make them comparable.
6. In accordance with the requirements of IRDAI Master Circular on "Preparation of Financial Statements and Filing Returns of Life Insurance Business" dated December 11, 2013, the Company will publish the financials on the company's website not later than May 18, 2018.
7. The above standalone and consolidated financial results have been audited by joint statutory auditors of the Company.

Auditor's Report on Consolidated Financial Results for year ended March 31, 2018 of HDFC Standard Life Insurance Company Limited ("hereinafter referred to as the Holding Company"), and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group")

To The Board of Directors of
HDFC Standard Life Insurance Company Limited

1. We have audited the accompanying consolidated financial results of the Group as at and for the year ended March 31, 2018 being submitted by the Holding Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and IRDA Circular reference: IRDAI/F&I/REG/CIR/208/10/2016 dated 25th October 2016, ("Consolidated financial results") which have been approved by the Board of Directors on April 18, 2018.
2. These consolidated financial results have been prepared on the basis of the consolidated financial statements prepared in accordance with the measurement and recognition principles specified in paragraph 3 below, which is the responsibility of the Holding Company's management. The respective Board of Directors of the companies included in the Group are responsible for selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal controls, that were operating effectively for ensuring the accuracy and completeness of accounting records, relevant to the preparation of the consolidated financial results that give true and fair view and are free from material misstatement, whether due to fraud or error which have been used for the purpose of consolidated financial statements by the Directors of the Holding Company.
3. Our responsibility is to express an opinion on these consolidated financial results based on our audit of such consolidated financial statements, which have been prepared by the Holding Company's Management in accordance with the recognition and measurement principles specified under Section 133 of the Companies Act, 2013 ("the Act") read with Rule 7 of the Companies (Accounts) Rules, 2014 issued thereunder, including the relevant provisions of the Insurance Act, 1938 (the "Insurance Act"), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act") and other accounting principles generally accepted in India, to the extent considered relevant and appropriate for the purpose of these consolidated financial results and which are not

inconsistent with the accounting principles as prescribed in the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 (the "Regulations") and orders/directions/circulars issued by the Insurance Regulatory and Development Authority of India ("IRDAI") to the extent applicable.

4. We conducted our audit in accordance with the Standards on Auditing and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial results are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts disclosed as consolidated financial results. An audit also includes assessing the accounting principles used and significant estimates made by management. We believe that our audit provides a reasonable basis for our opinion.
5. In our opinion and to the best of our information and according to the explanations given to us these consolidated financial results:
 - i. are presented in accordance with the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and IRDAI IRDA Circular reference: IRDAI/F&I/REG/CIR/208/10/2016 dated 25th October 2016 in this regard; and
 - ii. give a true and fair view of the consolidated net profit and other financial information for the year ended March 31, 2018 as well as the consolidated financial results for the year ended March 31, 2018.

Other Matters

6. The actuarial valuation of liabilities for life policies in force is the responsibility of the Holding Company's Appointed Actuary (the "Appointed Actuary"). The actuarial valuation of these liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at March 31, 2018 has been duly certified by the Appointed Actuary and in his opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by the Insurance Regulatory and Development Authority of India ("IRDAI") and the Institute of Actuaries of India in concurrence with the Authority. We have relied upon the Appointed Actuary's certificate in this regard for forming our opinion on the valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists, as contained in the consolidated financial statements of the Group.

7. We did not audit the financial statements of two subsidiaries, whose financial statements reflect total assets of Rs. 1,227,644 (in '000') and net assets of Rs. 1,074,764 (in '000') as at March 31, 2018, total revenue of Rs. 142,440 (in '000'), net loss of Rs 18,004 (in '000') and net cash flows amounting to Rs 4,253 (in '000') for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management, and our opinion on the consolidated financial statements insofar as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-sections (3) and (11) of Section 143 of the Act insofar as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.
8. The consolidated financial results dealt with by this report has been prepared for the purpose of filing with stock exchanges. This Statement is based on and should be read with the audited consolidated financial statements of the group for the year ended March 31, 2018 on which we issued an unmodified audit opinion vide our report dated April 18, 2018.

Restriction of Use

9. This report is addressed to the Board of Directors of the Holding Company and has been prepared for and only for the purposes set out in paragraph 8 above. This report should not be otherwise used by any other party for any other purpose.

6. Based on individual APE excluding GST. UL: Unit Linked, Trad: Traditional, Par: Participating & CA: Corporate Agents. Percentages are rounded off
7. On total new business premium including Group. Percentages are rounded off

Snapshot for the full year ending Mar 31, 2018:

- **Private Market Share:** Consistently ranked amongst the top 3 private players in individual and group business category with market share of 13.2% based on Individual WRP and 29.5% based on Group business (*on received premium*) during 11M FY18. Market share of 19.0% based on overall new business received premium during 11M FY18;
- **Total Premium:** Registered strong growth of 21% to ₹ 235.6 Bn, aided by healthy new business growth of 32% and stable growth of 13% in renewal business;
- **Persistency Ratio:** The persistency ratios continue to trend strongly across various cohorts. While 13th month persistency increased to 87% (FY17: 84%), 61st month persistency was at 51% compared to 59% last year. This reduction was primarily due to the impact of specific cohort of business written in FY13;
- **Assets Under Management:** Robust growth of 16% to ₹ 1,066.0 Bn, with underlying Debt: Equity mix of 61:39;
- **Embedded Value:** Embedded Value (*IEV methodology*) at ₹ 152.2 Bn as on Mar 31, 2018. Operating return on Embedded Value (*EVOP/Opening Embedded value*) at 21.5%;
- **New Business Margins:** The value of new business (VNB) grew by 39% to ₹ 12.8 Bn. New business margins (*post overrun*) grew to 23.2% for the year ended Mar 31, 2018;
- **Profit After Tax (PAT):** PAT showcased strong growth of 24% to ₹ 11.1 Bn. Insurance profit (Policyholder surplus) comprised of 76% of the total PAT for the year ended Mar 31, 2018;
- **Dividend:** Paid interim dividend (₹ 1.36 / share) amounting to ₹ 3.3 Bn including Dividend Distribution Tax (*DDT*), implying dividend payout ratio of 30% in FY18;

- **Networth and Solvency ratio:** Networth increased by 24% to ₹ 47.2 Bn as at Mar 31, 2018. Maintained stable solvency ratio at 192%;
- **Product Portfolio:** Maintained a balanced product mix with ULIPs contributing 57% and Conventional products forming 43% of the Individual APE. Continued focus on protection business, thereby contributing 26% of total new business premium (FY17: 22%). 25% of our individual policies sold during FY18 were protection business policies (FY17: 25%);
- **Distribution Mix:** The Company has a diversified distribution mix, backed by strong presence across the country through 414 HDFC Life offices, along with wide access to the branches of our 149 bancassurance and 22 non-traditional ecosystem partnerships as on Mar 31, 2018. Cross-selling to group customers formed 6.2% of the individual new business policies sold during FY18.

Update on Q4 FY18 Performance:

- Registered healthy growth in Individual APE of 11%;
- Total group business grew by 24%
- Total premium grew by 24% during Q4 FY18;
- Profit after tax grew by 40% to ₹ 3.5 Bn for the quarter;
- Operating Expenses / Total Premium of 12.3%

Commenting on the performance, Mr. Amitabh Chaudhry, MD & CEO, HDFC Life said “The Company continues to harness the long term growth potential of the sector, with specific focus on protection. The Company had a robust year with strong growth and it continued to deliver consistent performance across all metrics. The balanced product mix, diversified distribution network and customer centric approach has helped deliver profitable growth and thereby adding to shareholder value. In line with the stated strategy, the Company will continue to work hard and invest in leveraging technology and re-imagine the life insurance business.”

Definitions and abbreviations

- **Annualized Premium Equivalent (APE)** - The sum of annualized first year regular premiums and 10% weighted single premiums and single premium top-ups
- **Assets under Management (AUM)** - The total value of Shareholders’ & Policyholders’ investments managed by the insurance company. AUM includes investments disclosed in the Balance sheet under Schedule 8, 8A, 8B & loans in the nature of investments included in Schedule 9
- **Conservation ratio** - Ratio of current year renewal premiums to previous year's renewal premium and first year premium
- **Embedded Value Operating Profit (EVOP)** - Embedded Value Operating Profit (“EVOP”) is a measure of the increase in the EV during any given period, excluding the impact on EV due to external factors like changes in economic variables and shareholder-related actions like capital injection or dividend pay-outs

- **First year premium** - Premiums due in the first policy year of regular premiums received during the financial year. For example, for a monthly mode policy sold in March 2018, the first monthly instalment received would be reflected as First year premiums for 2017-18 and the remaining 11 instalments due in the first policy year would be reflected as first year premiums in 2018-19, when received
- **New business received premium** - The sum of first year premium and single premium, reflecting the total premiums received from the new business written
- **Operating expense** - It includes all expenses that are incurred for the purposes of sourcing new business and expenses incurred for policy servicing (which are known as maintenance costs) including shareholders' expenses. It does not include commission.
- **Operating expense ratio** - Ratio of operating expense (including shareholders' expenses) to total premium
- **Operating return on EV** - Operating Return on EV is the ratio of EVOP (Embedded Value Operating Profit) for any given period to the EV at the beginning of that period
- **Persistency** - The proportion of business renewed from the business underwritten. The ratio is measured in terms of number of policies and premiums underwritten
- **Premium less benefits payouts** - The difference between total premium received and benefits paid (gross of reinsurance)
- **Renewal premium** - Regular recurring premiums received after the first policy year
- **Solvency ratio** - Ratio of available solvency margin to required solvency margin
- **Total premium** - Total received premiums during the year including first year, single and renewal premiums for individual and group business
- **Weighted received premium (WRP)** - The sum of first year premium received during the year and 10% of single premiums including top-up premiums

About HDFC Life

HDFC Standard Life Insurance Company Limited ('HDFC Life' / 'Company') is a joint venture between HDFC Ltd., India's leading housing finance institution and Standard Life Aberdeen, a global investment company.

Established in 2000, HDFC Life is a leading long-term life insurance solutions provider in India, offering a range of individual and group insurance solutions that meet various customer needs such as Protection, Pension, Savings, Investment, and Health. As on Mar 31, 2018, the Company had 30 individual and 10 group products in its portfolio, along with 8 optional rider benefits, catering to a diverse range of customer needs.

HDFC Life continues to benefit from its increased presence across the country having a wide reach with 414 branches and additional distribution touch-points through several new tie-ups and partnerships

comprising 149 bancassurance partners including NBFCs, MFIs, SFBs, etc and 22 partnerships within non-traditional ecosystems. The Company has a strong base of financial consultants.

Note:

1. Group premium numbers for FY17 have been re-classified, based on IRDA guidelines issued during the year

Driving balance in product and distribution

Balanced product mix (based on Individual APE)

Stable distribution mix (based on Individual APE)

Increasing share of protection products (as % of total NBP)

Stable distribution mix¹ (based on total NBP)

Note:

5 1. Group premium numbers for FY17 have been re-classified, based on IRDA guidelines issued during the year

Diversified distribution platform driving growth across cycles

Bancassurance and non traditional ecosystem partners

- 149 bancassurance partners (10 partners added in Q4 FY18)
- Top 15 bancassurance partners have over 11,200 branches
- 22 partners across non traditional ecosystem partners
- HDFC group entities sourced 13% of total group business and 38% of total new business in FY18

Individual agents

- 77,048 individual agents
- Increase in average agent productivity by 24% to Rs 81,036

Direct sales

- 1,200+ frontline sales staff across direct sales channels, including group sales, online, digital sub-channels and web aggregators

Broker and other tie-ups

- Over 45 tie-ups including 21 significant insurance brokers and over 29 insurance marketing firms

Select bancassurance partners

Growth in channels in FY18 (based on Individual APE)

Continued innovation across products and distribution

Pension guaranteed product

New

- Offers attractive guarantee immediately, on annuity income that starts from a chosen retirement date in the future

Cardiac care product

- Launched unique health product, providing for cardiac treatment covering multiple incidences of same illness. It also offers the option of income benefit on occurrence of a major cardiac illness.

Group health product

- Niche offering to leverage our distribution partnerships and offer health opportunities for the customers

Joint product partnership with Apollo Munich

- Click2Protect Health product launched in August 2017, in partnership with Apollo Munich

Fast growing number of lives insured on group platform

(In mm)

Increasing customer base provides unique opportunity to cross-sell¹

Business Mix (%)				
- Product (UL/Non par savings/Non par protection/Par)	(5)	56/9/5/30	52/9/4/35	57/9/5/28
- Indl Distribution (CA/Agency/Broker/Direct)	(5)	75/12/4/9	72/12/5/11	71/11/5/14
- Total Distribution (CA/Agency/Broker/Direct/Group)	(6)	40/8/2/7/43	32/7/2/7/52	33/7/2/10/48
- Share of protection business (Basis APE)		7.3%	7.8%	11.3%
- Share of protection business (Basis NBP)		17.2%	21.8%	25.9%

Notes:

1. EVOP (Embedded value operating profit)/Opening EV
2. Calculated using net profit and average share capital including share premium
3. Calculated using net profit and average net worth for the period (Net worth comprises of Share capital, Share premium and Accumulated profits/(losses))
4. Persistency ratios (based on original premium) as per methodology specified in IRDA circular no. IRDA/ACT/CIR/MISC/035/01/2014 dated January 23, 2014. Group business, where persistency is measurable, has been included in the calculations.
5. Based on individual APE excluding service tax. UL: Unit Linked, Trad: Traditional, Par: Participating & CA: Corporate Agents. Percentages are rounded off
6. Based on total new business premium including group. Percentages are rounded off

Profits breakup

Rs bn

- Steady increase in underwriting profits backed by healthy existing business surplus, neutralising impact of new business strain caused by growth in business

Analysis of change in IEV

Analysis of change in EV – FY18

(Rs bn)

- Healthy operating return on EV delivered over a period of time
- Positive persistency, mortality and operating variances, reflecting favourable experience compared to actuarial assumptions

Note:

11 1. Calculated as EVOP (Embedded Value Operating Profit) to Opening EV

Indian Embedded Value (IEV)¹

- Higher proportion of VIF at 68% of the total Embedded value
- TVFOG includes cost of guarantees for conventional participating products

Notes:

1. Please refer to the report from Milliman, detailed explanation of components provided in the Appendix to the presentation
2. PVFP pertains to Overall (Individual + Group) business

Sensitivity analysis – FY18

Analysis based on key metrics ¹	Scenario	% Change in VNB ²	Change in VNB Margin ²	% Change in EV
Change in				
Reference rate	Increase by 1%	0.27%	0.06%	-1.80%
	Decrease by 1%	-1.71%	-0.40%	1.93%
Equity market movement²	Decrease by 10%	-1.24%	-0.29%	-1.84%
Persistency (Lapse rates)	Increase by 10%	-5.63%	-1.31%	-1.75%
	Decrease by 10%	6.06%	1.41%	1.87%
Maintenance expenses	Increase by 10%	-2.18%	-0.51%	-0.63%
	Decrease by 10%	2.17%	0.51%	0.63%
Acquisition Expenses	Increase by 10%	-14.16%	-3.30%	NA
	Decrease by 10%	14.16%	3.30%	NA
Mortality / Morbidity	Increase by 5%	-5.19%	-1.21%	-0.77%
	Decrease by 5%	5.20%	1.21%	0.77%
Tax rate³	Increased to 25%	-14.38%	-3.35%	-7.55%

- The NBM impact⁴ of the Product Committee recommendations (for increase in surrender value on non linked products) has been broadly assessed, assuming no other changes in product features or distribution costs. Overall NBM impact is expected to be <1% based on FY18 business. The actual impact would depend on the final regulatory changes

Notes:

1. Please refer to the report from Milliman

2. Post overrun total VNB for Individual and Group business

3. The tax rate is assumed to increase from 14.56% to 25% and hence all the currently taxed profits in policyholder/shareholder segments are taxed at a higher rate. It does not allow for the benefit of policyholder surplus being tax-exempt as was envisaged in the DTC Bill.

4. Based on internal company analysis

Capital position

Rs bn

- Stable solvency ratio, despite consistent growth in underlying business – RSM¹ increased @ CAGR of 24% between FY15-18

Delivering superior customer service

Enhancing customer service

- Digital touch-points - "My Account" online portal, "HDFC Life" mobile app and email service; Traditional touch-points - call center support, IVRS¹ and branches
- Automation in servicing for consistent experience

Efficient claims settlement

- Rule engines and predictive technology for claims processing
- Average turnaround time of 3 days for claim settlement, upon receipt of all supporting documentation

High claims settlement ratio

Consistent improvement in persistency ratio

Notes:

1. IVRS - Interactive Voice Response System
2. Including individual and group claims based on number of claims that are settled as a percentage of the number of claims received

Update on key focus areas (1/2)

Improving efficiency

- **Employee productivity** increased by 10% to Rs 2.8 mn
- **Average ticket size** per policy has increased to Rs 46,796
- Leveraging **usage of mobility tools** for productivity improvement

Long term orientation

- Total number of **bancassurance relationships** increased to 149 (FY17: 117)
- **Active customer base** rose by 63% to 84.8 mm
- **Average individual new business policy term** of 14.4 yrs (FY17: 14.0 yrs)

Rising protection

- **Share of protection** based on new business received premium (Indl+Group) has increased to 25.9% of the total new business (FY17: 21.8%)
- **Total new business sum assured**¹ has increased by 22% to Rs 4.7 trillion

Customer satisfaction

- 99%+ **Claims settlement ratio** (Indl+Group)
- **Average customer complaints** (per '000 policies sold) reduced by 14%
- **New business policy issuance TATs**² at 4 days

Notes: All growth numbers are with respect to FY18 over FY17;

Update on key focus areas (2/2)

Enhancing use of technology

- ~99.9% **policy applications submitted** via digital medium
- ~74% of **Renewal payment** through online modes
- ~96% of front line **sales force active on digital platforms**
- 54% of post sales verification calls completed through **InstaVerify** (video based authentication mobile app)
- Leveraging **automation and robotics**: 88 internal processes automated
- 44,000+ queries and transactions processed through policy servicing mobile app **InstaServ**

D

India Life Insurance

Growth opportunity – Under-penetration vs global benchmarks

Life insurance penetration (2016)

Life insurance density US\$ (2016)

Protection gap (2014)

India life insurance penetration (FY08-17)

India life insurance density US\$ (FY08-17)

- India has the highest protection gap in the region, as growth in savings and life insurance coverage has lagged behind economic and wage growth
- Protection gap has increased over 4x in last 15 years with significantly low insurance penetration and density

Note: Penetration as measured by premiums as % of GDP, Density defined as the ratio of premium underwritten in a given year to the total population

Source: Swiss Re (Based on respective financial year of the countries), MOSPI

Growth opportunity – Favourable demographics

Life expectancy (Years)¹

Population composition (bn)²

- India's insurable population is anticipated to touch 750 million in 2020
- India is currently one of the world's youngest nation, offering great opportunity for long term savings and investment plans
- Demand for retirement policies to rise with increasing life expectancy, declining birth-rates and proportion of India's elderly population expected to increase by almost 50% by 2030
- Emergence of nuclear families and increasing life expectancy to facilitate need for pension and protection based products

Source:

1. United Nations World Populations Prospects Report (2015)
2. World bank report on Global Saving in 2030

Life insurance – A preferred savings instrument

Household savings composition

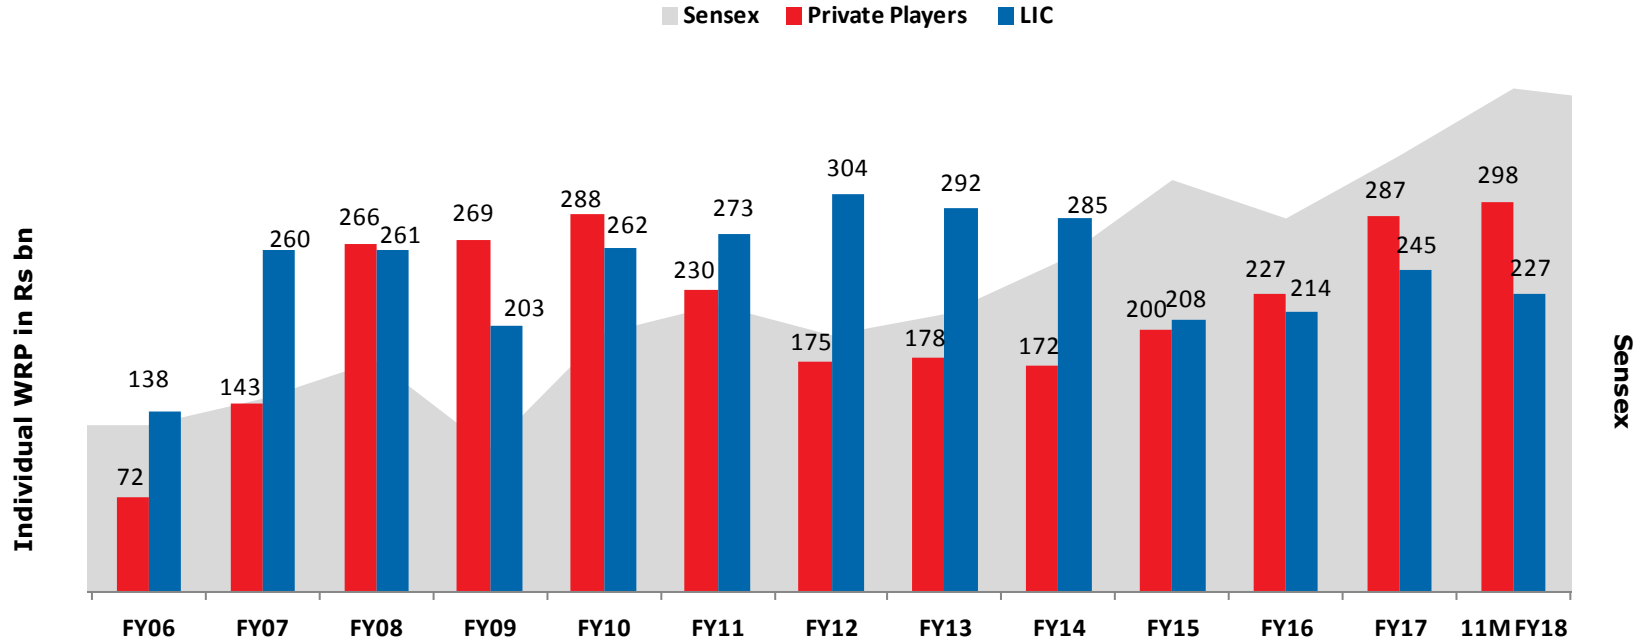

Financial savings mix

- Increasing preference towards financial savings with buoyant equity market returns, along with impact of demonitisation on physical assets return profile
- Increasing share of life insurance within financial assets, as it caters to long-term saving and protection needs
- Various government initiatives to promote financial inclusion:
 - Implementation of JAM trinity – around 310 mn new savings bank accounts opened in around last 3 years
 - Launch of affordable PMJJBY and PMSBY social insurance schemes
 - Atal Pension Yojana promoting pension in unorganized sector
 - Set up of Small Finance Banks and Payment Banks to increase financial inclusion

Industry new business¹ trends

Private players market share

FY06	34%	FY07	35%	FY08	50%	FY09	57%	FY10	52%	FY11	46%	FY12	37%	FY13	38%	FY14	38%	FY15	49%	FY16	52%	FY17	54%	11MFY18	57%
------	-----	------	-----	------	-----	------	-----	------	-----	------	-----	------	-----	------	-----	------	-----	------	-----	------	-----	------	-----	---------	-----

LIC	88%	0%	-22%	29%	4%	11%	-4%	-2%	-27%	3%	15%	15%
Overall	92%	31%	-10%	17%	-9%	-5%	-2%	-3%	-11%	8%	21%	22%

- Private sector gained higher market share than LIC for the first time in FY16, post FY11 regulatory changes
- Based on individual WRP private sector has outpaced LIC in last 3 years

Private industry – Market share trends

Top 7 private players vs other players

- Amongst private insurers, insurers with a strong bancassurance platform continue to dominate with increasing market share of the total private individual new business

Notes:

- Basis Individual Weighted Received Premium (WRP) as disclosed by IRDAI, Life Insurance Council
- Top 7 players based on FY17 business numbers, comprising of ICICI Pru, SBI Life, HDFC Life, Max Life, Kotak Life, Bajaj Allianz and Tata AIA

Private industry – Product and distribution mix

Product mix¹

Distribution mix²

- Reduced distributors' payout and high expense structure led many players to move to traditional products over last few years, however the focus is changing towards linked products with improved equity market performance and increase in share of Banca
- Increasing thrust on protection business to help improve the new business margins
- Banca sourced business has consistently increased on the back of increasing reach of banks while share of Agency has declined post regulatory changes in FY11
- Direct channel share has also doubled as compared to FY11 while Broker share has been similar

Embedded value: Methodology and Approach (1/2)

Overview

Embedded Value (EV) consists of:

- **Adjusted Net Worth (ANW)**, consisting of:
 - Free surplus (FS);
 - Required capital (RC); and
- **Value of in-force covered business (VIF)**: Present value of the shareholders' interest in the earnings distributable from assets allocated to the covered business, after making sufficient allowance for the aggregate risks in the covered business.

Components of Adjusted Net Worth (ANW)

- **Free surplus (FS)**: FS is the market value of any assets allocated to, but not required to support, the in-force covered business as at the valuation date. The FS has been determined as the adjusted net worth of the Company (being the net shareholders' funds adjusted to revalue assets to market value), less the RC as defined below.
- **Required capital (RC)**: RC is the amount of assets attributed to the covered business over and above that required to back liabilities for the covered business. The distribution of this to shareholders is restricted. RC is set equal to the internal target level of capital equal to 170% of the factor-based regulatory solvency requirements, less the funds for future appropriations ("FFA") in the participating funds.

Embedded Value: Methodology and Approach (2/2)

Components of Value in-force covered business (VIF)

- **Present value of future profits (PVFP):** PVFP is the present value of projected distributable profits to shareholders arising from the in-force covered business determined by projecting the shareholder cash flows from the in-force covered business and the assets backing the associated liabilities.
- **Time Value of Financial Options and Guarantees (TVFOG):** TVFOG reflects the value of the additional cost to shareholders that may arise from the embedded financial options and guarantees attaching to the covered business in the event of future adverse market movements. The intrinsic value of such options and guarantees is reflected in the PVFP.
- **Frictional costs of required capital (FC):** FC represents the investment management expenses and taxation costs associated with holding the RC. VIF includes an allowance for FC of holding RC for the covered business. VIF also includes an allowance for FC in respect of the encumbered capital in the Company's holdings in its subsidiaries.
- **Cost of residual non-hedgeable risks (CRNHR):** CRNHR is an allowance for risks to shareholder value to the extent that these are not already allowed for in the TVFOG or the PVFP. In particular, the CRNHR makes allowance for:
 - asymmetries in the impact of the risks on shareholder value; and
 - risks that are not allowed for in the TVFOG or the PVFP.

CRNHR has been determined using a cost of capital approach. CRNHR is the present value of the cost of capital charge levied on the projected capital in respect of the material risks identified.

Embedded Value: Economic assumptions¹

Years	Forward rates %		Spot rates %	
	As at Mar 31, 2018	As at Mar 31, 2017	As at Mar 31, 2018	As at Mar 31, 2017
1	6.57	6.18	6.36	6.00
2	7.26	6.74	6.69	6.26

- **APE (Annualized Premium Equivalent)** - The sum of annualized first year regular premiums and 10% weighted single premiums and single premium top-ups
- **Conservation ratio** - Ratio of current year renewal premiums to previous year's renewal premium and first year premium
- **First year premiums** - Regular premiums received during the year for all modes of payments chosen by the customer which are still in the first year. For example, for a monthly mode policy sold in March 2018, the first instalment would fall into first year premiums for 2017-18 and the remaining 11 instalments in the first year would be first year premiums in 2018-19
- **New business received premium** - The sum of first year premium and single premium.
- **Operating expense** - It includes all expenses that are incurred for the purposes of sourcing new business and expenses incurred for policy servicing (which are known as maintenance costs) including shareholders' expenses. It does not include commission.
- **Operating expense ratio** - Ratio of operating expense (including shareholders' expenses) to total premium
- **Renewal premiums** - Regular recurring premiums received after the first year
- **Solvency ratio** - Ratio of available solvency margin to required solvency margins
- **Total premiums** - Total received premiums during the year including first year, single and renewal premiums for individual and group business
- **Weighted received premium (WRP)** - The sum of first year premium and 10% weighted single premiums and single premium top-ups
- **13th month persistency** - Percentage of contracts measured by premium, still in force, 13 months after they have been issued, based on reducing balance approach

Disclaimer

This presentation is for information purposes only and does not constitute an offer or invitation to sell or the solicitation of an offer or invitation to purchase any securities ("Securities") of HDFC Standard Life Insurance Company Limited ("HDFC Life" or the "Company") in India, the United States, Canada, the People's Republic of China, Japan or any other jurisdiction. This presentation is not for publication or distribution, directly or indirectly, in or into the United States (including its territories and possessions, any state of the United States and the District of Columbia). Section 1 Introduction

1.1. Background

- 1.1.1. Pursuant to the engagement letter dated 26 March 2018, Milliman Advisors LLP (“Milliman”) has been engaged by HDFC Standard Life Insurance Company Limited (“HDFC Life”, “you”, “your”, “the Company”) to perform the following tasks:
- a. to carry out a review of the methodology and assumptions adopted by the Company in developing the following (together referred to as the “Results”):
 - the Indian Embedded Value (“IEV”) as at 31 March 2018;
 - the value of one year of new business (“VNB”) for new business sold during the year ending 31 March 2018;
 - an analysis of the movement of IEV from 31 March 2017 to 31 March 2018; and
 - the sensitivity results on the IEV and the VNB referred to above.
 - b. to perform a model point level review of the actuarial models used by the Company to develop the Results in respect of 10 products of the Company that are representative of its business; and
 - c. to perform a review of the aggregation templates used by the Company to extract / collate the Results.
- 1.1.2. We are pleased to summarise the outcome of our review and the various Results in this Report.
- 1.1.3. The methodology and assumptions adopted in the development of the Results are chosen to comply with the requirements of the Actuarial Practice Standard 10, Version 1.02 (“APS10”). However, as this Report is not developed for the purpose of an initial public offering (“IPO”) of the Company, it should not be considered as a formal report as envisaged in APS10.
- 1.1.4. This Report should be read in its entirety, including the reliances and limitations set out in Section 5, as individual Sections, if considered in isolation, may be misleading.

1.2. Structure of the Report

- 1.2.1. The Sections of this Report are set out as follows:
- **Section 2: Results and our opinion** – sets out the Results and our opinion thereon based on our review.
 - **Section 3: Methodology** – describes the methodology adopted in deriving the Results.
 - **Section 4: Assumptions** – describes the assumptions made in deriving the Results.
 - **Section 5: Reliances and limitations** - sets out the reliances and limitations applicable to our work and to this Report.

1.3. Abbreviations used in the Report

- 1.3.1. The main abbreviations used in this Report are summarised below:
- ANW – Adjusted net worth
 - APE – Annualised premium equivalent
 - APS10 – Actuarial Practice Standard 10, version 1.02
 - CRNHR – Cost of residual non-hedgeable risks
 - FC – Frictional cost of required capital

- FFA – Funds for future appropriation
- FS – Free surplus
- IAI – Institute of Actuaries of India
- IEV – Indian Embedded Value
- INR – Indian Rupees
- PVFP – Present value of future profits
- RC – Required capital
- TVFOG – Time value of financial options and guarantees
- ULIP – Unit-linked insurance plan
- VIF – Value of in-force business
- VNB – Value of new business

Section 2 Results and our opinion

2.1. Results

Indian Embedded Value

2.1.1. The IEV of HDFC Life as at 31 March 2017 and as at 31 March 2018 is set out in the table below:

Components of IEV	As at 31 March 2017	As at 31 March 2018
Free surplus (FS) (A)	12,738	11,939
Required capital (RC) (B)	28,694	36,600
Adjusted net worth (ANW) (C = A + B)	41,432	48,539
Present value of future profits (PVFP) (D)	88,629	110,261
Time value of financial options and guarantees (TVFOG) (E)	(185)	(207)
Frictional cost of required capital (FC) (F)	(852)	(1,132)
Cost of residual non-hedgeable risks (CRNHR) (G)	(4,319)	(5,300)
Value of in-force business (VIF) (H = D + E + F + G)	83,273	103,621
Indian embedded value (IEV) (I = C + H)	124,705	152,160

Amounts in INR million; Figures may not add up due to rounding

Value of new business and other performance measures

2.1.2. The VNB as at 31 March 2018, in respect of all new business sold during the year ending 31 March 2018 is set out in the table below:

Components of VNB	As at 31 March 2018
VNB before TVFOG, FC and CRNHR (A)	15,567
TVFOG in respect of new business (B)	(57)
FC in respect of new business (C)	(823)
CRNHR in respect of new business (D)	(1,870)
Value of new business (VNB) (E = A + B + C + D)	12,817
New business annualised premium equivalent ("APE" ¹) for the year ending 31 March 2018	55,326
VNB Margin (=VNB / APE)	23.2%

Amounts in INR million; Figures may not add up due to rounding

Notes:

(1) APE is calculated as 100% of annualised premium for regular and limited premium plans and 10% of single premium

Analysis of movement of IEV

- 2.1.3. The analysis of movement of the IEV from 31 March 2017 to 31 March 2018 is set out in the table below:

Components	IEV
Opening IEV as at 31 March 2017 (A)	124,705
Opening adjustments (B)	-
Adjusted opening IEV (C = A + B)	124,705
VNB added during the year (D)	12,816
Expected return on existing business	
At reference rate (E)	8,179
At expected excess 'real world' return over reference rate (F)	2,262
Variance in operating experience	
Persistency (G)	600
Mortality (H)	996
Expenses (I)	274
Others (J)	120
Change in operating assumptions (K)	1,578
IEV operating earnings (L = B + D + E + F + G + H + I + J + K)	26,825
Economic variances (M)	511
Change in economic assumptions (N)	2,083
IEV total earnings (O = L + M + N)	29,419
Capital contributions / (dividends paid out) (P)	(1,963)
Closing IEV as at 31 March 2018 (Q = A + O + P)	152,160

Amounts in INR million; Figures may not add up due to rounding

Sensitivity analysis

- 2.1.4. The sensitivity analysis in respect of the IEV as at 31 March 2018 and the VNB in respect of new business written in the year ending 31 March 2018 is set out in the table below:

No.	Scenario	IEV	% change in IEV as compared to the base scenario	VNB	% change in VNB as compared to the base scenario
	Base scenario	152,160		12,817	
1	An increase of 100bps in the reference rates	149,416	(1.8%)	12,852	0.3%
2	A decrease of 100bps in the reference rates	155,095	1.9%	12,598	(1.7%)
3	Equity values decrease by 10% ⁽¹⁾	149,357	(1.8%)	12,659	(1.2%)
4	An increase of 5% (multiplicative) in mortality / morbidity	150,986	(0.8%)	12,152	(5.2%)
5	A decrease of 5% (multiplicative) in mortality / morbidity	153,331	0.8%	13,484	5.2%

No.	Scenario	IEV	% change in IEV as compared to the base scenario	VNB	% change in VNB as compared to the base scenario
6	10% increase (multiplicative) in the policy / premium discontinuance rates and partial withdrawal rates	149,497	(1.8%)	12,095	(5.6%)
7	10% decrease (multiplicative) in the policy / premium discontinuance rates and partial withdrawal rates	155,005	1.9%	13,594	6.1%
8	10% increase in acquisition expenses	N.A.	N.A.	11,002	(14.2%)
9	10% decrease in acquisition expenses	N.A.	N.A.	14,633	14.2%
10	10% increase in maintenance expenses	151,196	(0.6%)	12,538	(2.2%)
11	10% decrease in maintenance expenses	153,124	0.6%	13,096	2.2%
12	Assumed tax rate increased to 25%	140,677	(7.5%)	10,975	(14.4%)

N.A. – Not Applicable; Amounts in INR million; Figures may not add up due to rounding

Notes:

(1) The equity values are decreased as at 31 March 2018.

2.2. Opinion

- 2.2.1. Based on the work carried out by us and subject to the detailed reliances and limitations set out in this Report, we are of the opinion that:
- the methodology and assumptions used by the Company to develop the Results set out in this Report are reasonable; and
 - the Results have been prepared materially in accordance with the requirements of APS10 and based on the methodology and assumptions described in this Report.

Section 3 Methodology

3.1. Overview

- 3.1.1. This Section sets out the significant aspects of the methodology used by the Company in the preparation of the Results.
- 3.1.2. HDFC Life writes a broad range of products including unit-linked insurance plans, participating insurance plans and non-participating plans, covering both individual and group products. The Results set out in this Report are in respect of all covered business of the Company consisting of all such lines of business written.

3.2. IEV and VNB

Definition of IEV

- 3.2.1. The IEV set out in this Report consists of the following components:

- Adjusted net worth (“ANW”), consisting of:
 - Free surplus (“FS”) allocated to the covered business;
 - Required capital (“RC”); and
- Value of in-force covered business (“VIF”).

FS

- 3.2.2. The FS is the market value of any assets allocated to, but not required to support, the in-force covered business as at the valuation date.
- 3.2.3. The FS has been determined as the adjusted net worth of the Company (being the net shareholders’ funds as shown in the audited financial statements, adjusted to revalue assets to market value), less the RC as defined below. The adjustment to market value reflected here is in respect of all assets of the Company other than those in the policyholders’ participating funds, the market value of which is reflected in calculating the VIF arising from the participating business.

RC

- 3.2.4. RC is the amount of assets attributed to the covered business over and above that required to back liabilities for covered business, the distribution of which to shareholders is restricted. The amount of RC is presented from a shareholders’ perspective and is net of funding sources other than shareholder resources.
- 3.2.5. The RC is set equal to the internal target level of capital equal to 170% of the factor-based regulatory solvency requirements, less the funds for future appropriations (“FFA”) in the participating funds.
- 3.2.6. In projecting the RC the Company has also allowed for funding the same with the projected FFA.

VIF

- 3.2.7. The VIF includes the value to shareholders arising from the expected renewal premiums on the in-force business, including any foreseeable variations in the level of renewal premiums, but excludes any value arising from future new business (i.e. the new business that may be written after the valuation date).

- 3.2.8. The VIF consists of the following components:
- the present value of future profits (“PVFP”); adjusted for
 - the time value of financial options and guarantees (“TVFOG”);
 - the frictional costs of required capital (“FC”); and
 - the cost of residual non-hedgeable risks (“CRNHR”).

PVFP

- 3.2.9. The PVFP is the present value of projected distributable profits to shareholders arising from the in-force covered business, determined by projecting the post taxation shareholder cash flows from the in-force covered business and the assets backing the associated liabilities.
- 3.2.10. The distributable profits also include the release to shareholders of amounts from the participating business FFA, calculated based on the policyholder bonuses projected to be declared from such amounts.

TVFOG

- 3.2.11. The TVFOG reflects the value of the additional cost to shareholders that may arise from the embedded financial options and guarantees attaching to the covered business in the event of future adverse market movements. The intrinsic value of such options and guarantees is reflected in the PVFP.
- 3.2.12. Wherever necessary, the Company has used a stochastic method to calculate the TVFOG.

FC

- 3.2.13. The VIF includes an allowance for the FC of RC for the covered business. The FC represents the investment management expenses and taxation costs associated with holding the RC.

CRNHR

- 3.2.14. The CRNHR is an allowance for risks to shareholder value to the extent that these are not already allowed for in the TVFOG or the PVFP. In particular, the CRNHR makes allowance for:
- asymmetries in the impact of the risks on shareholder value; and
 - risks that are not allowed for in the TVFOG or the PVFP (e.g. operational risk).
- 3.2.15. The Company has also considered whether an additional allowance is required for uncertainty in the ‘best estimate’ of shareholder cash flows resulting from non-hedgeable risks (both symmetric and asymmetric).
- 3.2.16. The CRNHR has been determined within the Results using a cost of capital approach. The CRNHR is the present value of the cost of capital charge levied on the projected capital in respect of the material risks in the Company’s business, which include mortality, catastrophe, lapse (including mass lapse), expense and operational risks. The Company has determined the cost of capital charge to be 3.5%.

New business and renewals

- 3.2.17. The VNB calculated reflects the additional value to shareholders created through the activity of writing new business over the year ending on the valuation date, and includes the value arising from the expected renewal premiums on that new business. The VNB is calculated as at the valuation date (in the same way as the VIF).
- 3.2.18. The VNB is based on the non-economic assumptions applicable as at 31 March 2018. The economic assumptions are based on the reference rates at the beginning of each financial quarter during which the new business is sold.
- 3.2.19. The VNB takes into account the actual acquisition commissions and acquisition expenses incurred in

the full year up to 31 March 2018.

3.3. Analysis of movement of IEV

3.3.1. The various components of the analysis of movement of IEV are derived as set out in the table below.

Components	Description
Opening IEV as at 31 March 2017	Opening IEV using the opening economic and non-economic assumptions.
Opening adjustments	Nil
VNB added during the period	As per the approach described in Section 3.2.17 to Section 3.2.19.
Expected return on existing business	Calculated as: (1) Unwind of the opening VIF and ANW at the opening reference rates; (2) Expected excess 'real world' investment return during the year over the opening reference rates on VIF, ANW and VNB.
Variance in operating experience	The difference between 'actual' and 'expected': a. Policy cancellation / lapse / surrender rates (net of reinstatements), partial withdrawal rates, and premium discontinuance rates (net of premium revival); b. Mortality / morbidity rates; and c. Expenses. Any remaining difference is recognized and shown as 'other variance'.
Change in operating assumptions	The impact of changes of non-economic assumptions from the opening IEV to the closing IEV. Also includes the impact of all changes in the statutory reserving basis from the opening IEV to the closing IEV.
Economic variances	The difference between the actual investment return and the expected 'real world' rates during the year ending 31 March 2018.
Change in economic assumptions	Calculated as the change in the opening VIF and the VNB due to the update of the reference rate yield curves assumed from the opening IEV (or quarter specific VNB calculations) to the closing IEV.
Capital contributions / (dividends paid out)	Actual capital infusions from / (dividends paid to) the shareholders (including dividend distribution tax incurred) during the year ending 31 March 2018.
Closing IEV as at 31 March 2018	Calculated using the closing economic and non-economic assumptions.

3.4. Sensitivity results

3.4.1. The various sensitivity analyses carried out are listed in Section 2.1.4 earlier in the Report.

3.4.2. The sensitivity analyses are carried out for one parameter at a time and do not include changes in other parameters not explicitly mentioned.

3.4.3. The sensitivity results as at 31 March 2018 are calculated by:

- first calculating the percentage change in the sensitivity results as compared to the base IEV and

- VNB results as at 28 February 2018; and
- then applying the same percentage change to the base IEV and VNB results as at 31 March 2018.

Section 4 Assumptions

4.1. Overview

- 4.1.1. This Section provides a description of how the significant assumptions used in the calculation of the Results are derived.
- 4.1.2. The economic assumptions are chosen so as to be internally consistent and are determined, so far as possible, with the intention that projected cash flows are valued in line with the prices of similar cash flows that are traded on the capital markets in India as at the valuation date.
- 4.1.3. The non-economic projection assumptions are set to be 'best estimate' assumptions (where 'best estimate' reflects the mean expectation of outcomes of that risk variable) and have been determined on a going concern basis, assuming the continuation of the economic and legal environment currently in place in India.

4.2. Demographic assumptions

- 4.2.1. The best estimate demographic assumptions, specific to different product types, are set based on the Company's own recent experience. This includes assumptions for mortality, morbidity, policy / premium discontinuance rates, partial withdrawal rates and revival rates.

4.3. Expenses, inflation and commission

- 4.3.1. The expense assumptions are set after considering an analysis of the Company's actual expenses for the years ending 31 March 2017 and 31 March 2018 for the IEV results as at the applicable valuation dates respectively. All expenses incurred by the Company during the year ending 31 March 2018 have been reflected in the assumed unit costs.
- 4.3.2. When setting the expense assumptions the Company has not anticipated any productivity gains / cost efficiencies after the applicable valuation date.
- 4.3.3. The assumed expense inflation rate applied to per policy expense loadings is 7.5% p.a. for the valuation as at 31 March 2017 and 6.5% for the valuation as at 31 March 2018.
- 4.3.4. The commission rates for different products are based on the actual commission payable (if any) to the distributors.

4.4. Policyholder bonuses

- 4.4.1. The assumed bonus rates used in the projection are set in accordance with the Company's internal bonus management framework.
- 4.4.2. After ten years from the applicable valuation date, a part of the projected FFA is used to increase bonus payments to policyholders each year thereafter, with the associated transfer to shareholders included in the computation of the value to shareholders arising from the participating business.
- 4.4.3. At the end of the projection period, some assets ("residual FFA") remain in the participating funds as unallocated surplus. In line with relevant regulations, the shareholders' interest in the residual FFA is taken to be 10% of its market value.

4.5. Reinsurance

- 4.5.1. In the calculation of Results, the Company has allowed for the cost (and benefit) of proportional reinsurance treaties by explicitly modelling the same at the policy level.

4.6. Asset values

- 4.6.1. The IEV results are based on the market value of assets as at the applicable valuation date without any smoothing.

4.7. Reference rates

4.7.1. The reference rates assumed are set out in the table below:

Tenor (years)	Reference rates					
	For VIF		For VNB			
	31 March 2018	31 March 2017	31 March 2017	30 June 2017	30 September 2017	31 December 2017
1	6.57%	6.18%	6.18%	6.42%	6.29%	6.55%
5	8.20%	7.61%	7.61%	7.29%	7.44%	8.07%
10	8.30%	7.85%	7.85%	7.52%	7.77%	8.42%

30	7.87%	7.86%	7.86%	7.54%	7.80%	8.29%

4.8. Taxation

- 4.8.1. In calculating the Results, the Company has reflected an allowance for future taxes expected to be incurred. This includes both corporate tax and service tax (or Goods and Services Tax, "GST").
- 4.8.2. The rate of income tax applied to surplus emerging from life assurance business is set equal to 14.42% until 31 March 2018 and 14.56% thereafter. The rate of taxation applied to pension business is zero.
- 4.8.3. The income tax reflected in the Results assumes that a proportion of projected profits are tax exempt, given the tax deductions available to the Company on account of dividend income from investments in equity shares and income from investments in tax free bonds being considered as exempt from income tax.
- 4.8.4. The assumed service tax / GST rates are as follows:
- from 1 April 2017 to 1 July 2017: 15%; and
 - from 1 July 2017 onwards: 18%.

4.9. Statutory reserving and capital requirements

- 4.9.1. The Company has prepared the projections assuming the application of and continuation of the valuation bases adopted by its Appointed Actuary, which are set to comply with the applicable regulations and professional guidance issued for this purpose.

Section 5 Reliances and limitations

5.1. Reliances

- 5.1.1. As set out in our engagement letter dated 26 March 2018, the scope of our work covers the following:
- to review the methodology and assumptions adopted by the Company for compliance with the relevant IEV principles;
 - to conduct independent model-point level checking of HDFC Life's actuarial models in respect of top 10 products of the Company; and
 - to perform a review of the aggregation templates used by the Company to extract / collate the Results.
- 5.1.2. This Report has been prepared solely for use by the management of HDFC Life for inclusion in the Company's public disclosures and result announcements. It should not be relied upon for any other purpose or by any third party. Milliman does not intend to benefit or create a legal duty to any third party recipient of its work.
- 5.1.3. Although the methodology and assumptions adopted in the development of the Results set out in this Report are set to comply with the requirements of the Actuarial Practice Standard 10, Version 1.02 ("APS10"), this Report is not developed for the purpose of initial public offering ("IPO") of the Company and therefore should not be considered as a formal report as envisaged in APS10.
- 5.1.4. The Report is intended to provide certain actuarial information and analyses that would assist a qualified actuary, technically competent in the area of actuarial appraisals, to develop an estimate of the components of economic value as described earlier in this Report. In order to fully comprehend the Report, any user of the Report should be advised by an actuary with a substantial level of expertise in areas relevant to this analysis to appreciate the significance of the underlying assumptions and the impact of those assumptions on the Results. The Report must be considered in its entirety as individual Sections, if considered in isolation, may be misleading.
- 5.1.5. In carrying out the work and producing this Report, we have relied on information supplied by the management and staff of HDFC Life. Reliance was placed on, but not limited to, the general accuracy of all the information provided to us.
- 5.1.6. We have obtained a management representation letter from HDFC Life, stating that the data and information provided to us is accurate and complete and that there are no material inaccuracies and omissions therein and as represented in this Report.

5.2. Limitations

- 5.2.1. Unless explicitly stated, we have performed no audit or independent verification of the information furnished to us. To the extent that there are any material errors in the information provided to us, the Results may be affected as well.
- 5.2.2. An actuarial assessment of the components of value of a life insurance company will not necessarily be consistent with the value of a life insurance company or a portfolio in the open market and should not be interpreted in that manner. Rather, it is derived from a projection of future earnings and, therefore, reflects the value of the earnings potential of a block of in-force or new business under a specific set of assumptions. The value of any business enterprise is a matter of informed judgment. Different parties will arrive at different values depending upon their outlook, their assessment of the future operating assumptions, and upon the opportunities they see for the Company in the future.
- 5.2.3. The Results shown in this Report are based on a series of assumptions as to the future operating experience. It should be recognised that actual Results will differ from those shown in the Report, on account of changes in the operating and economic environment and natural variations in experience. To the extent actual experience is different from the assumptions underlying this Report, the future

projected profits from which the Results are derived will also differ. This Report includes various sensitivity results to illustrate how vulnerable the various results are to changes in assumptions for the key risks. The Results shown are presented at the applicable valuation dates stated in this Report and no warranty is given by Milliman that future experience after these applicable valuation dates will be in line with the assumptions made.

- 5.2.4. The projections and values presented in this Report have been determined on a “going concern” basis, and assume a stable economic, legal and regulatory environment going forward. The reader of this Report should be aware that any change in the general operating environment would add a high degree of uncertainty to the Results presented.
- 5.2.5. Unless explicitly stated, the Results do not consider any external (including regulatory and taxation) developments after 31 March 2018.
- 5.2.6. None of the values or projections set out in this Report include any allowance for withholding or other taxes (such as dividend distribution tax) that may apply to the payment of future shareholder dividends or on remittances out of India.
- 5.2.7. The allowance for taxation reflected in the Results is based on Company’s interpretation of the applicable taxation laws in India. It may be noted that neither Milliman nor its employees are experts in taxation matters. Given this, we do not make any representation on the appropriateness or otherwise of the approach adopted in allowing for taxation in the Results.
- 5.2.8. In the Results presented in this Report, no allowance is made for any claims against HDFC Life other than those made by policyholders under the normal terms of life insurance business and reflected in the Company’s audited financial statements.
