Vision:

The most successful and admired life insurance company, which means that we are the most trusted Company, the easiest to deal with, offer the best value for money and set the standards in the industry. "The most obvious choice for all".

Values:

Values are the most critical elements that reflect the conduct of an organisation during its day-to-day operations. Our Values are the pillars that guide everyone at HDFC Life.

Our Parentage and Subsidiaries

Our Parentage

HDFC Ltd. was promoted in October 1977 as a Public Limited Company specialising in providing housing finance primarily to individual households and corporates for the purchase and construction of residential housing. HDFC Ltd. is India's first retail housing finance company and is currently one of the largest originators of housing loans in the country. As at March 31, 2018, HDFC Ltd. had mortgage loan assets of ₹ 3,995 billion (US\$ 61.3 billion). Since inception, HDFC Ltd. has financed over 6.3 million housing units. About 76% of shareholders in HDFC Ltd. are foreign investors. HDFC Ltd's market capitalisation as at March 31, 2018 stood at approximately US\$ 47 billion. Over the years, the HDFC Group has emerged as a leading financial conglomerate in India with a presence in banking, life and general insurance, asset management, venture capital and education finance segments.

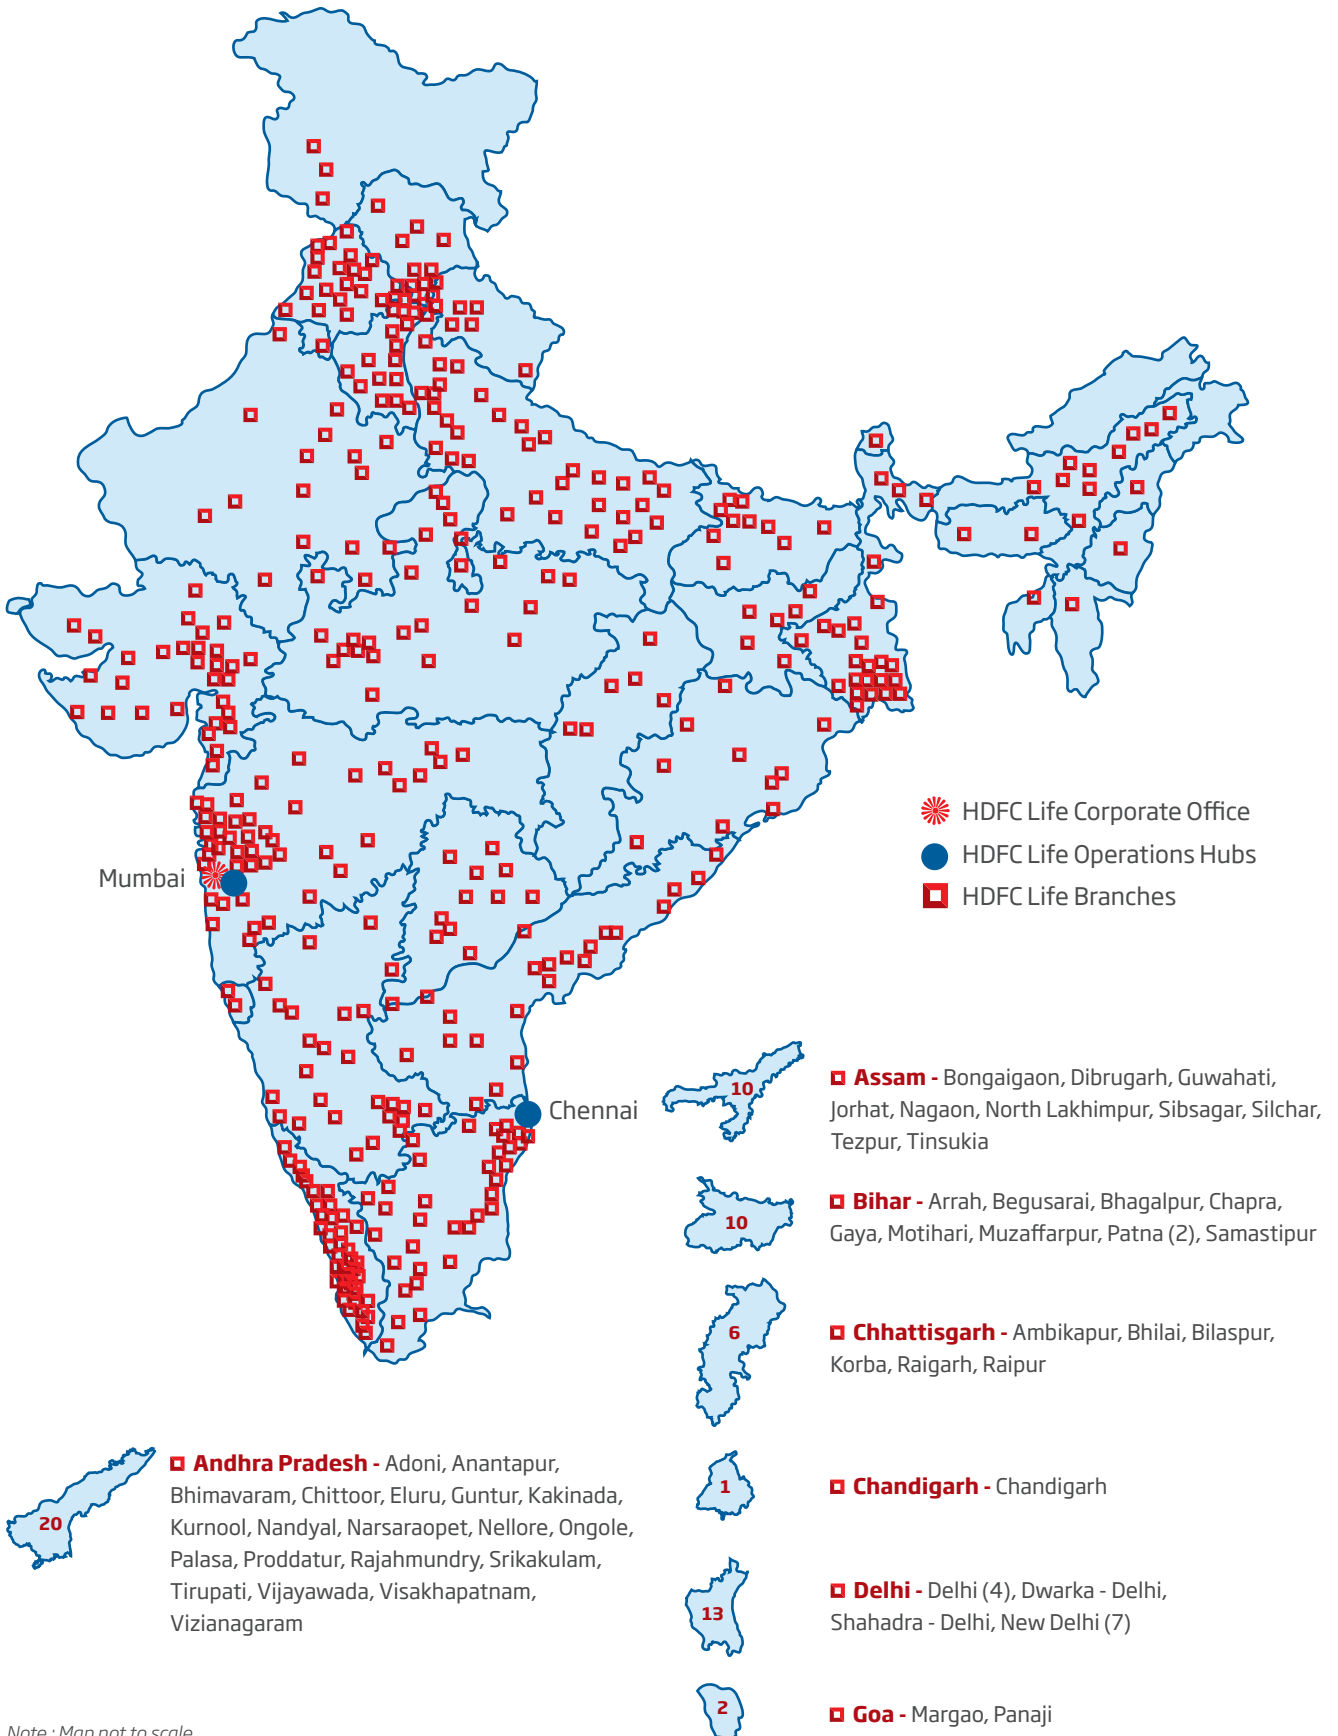

Standard Life Aberdeen PLC is a leading global investment and a FTSE 100 Company listed on the London Stock Exchange. Headquartered in Scotland, it has offices in 50 locations worldwide and employs around 9,000 people. The Standard Life Aberdeen Group was formed by the merger of Standard Life PLC and Aberdeen Asset Management PLC on August 14, 2017. Its expertise and resources enable it to offer a wide range of investment solutions and services designed to meet its clients' needs today, tomorrow and for the long-term. It manages, administers and advises on £655 billion of assets worldwide (as at December 31, 2017). It strives to deliver world-class investment solutions while operating ethically, encouraging good practices among companies it invests in, and providing support and expertise for the benefit of the communities in which it operates.

Subsidiaries

HDFC Pension Management Company Limited, a wholly-owned subsidiary of HDFC Life Insurance Company Limited, started its operations in FY 2014. With 232,629 Customers and AUM of ₹ 2,560 Crs as on March 31, 2018, HDFC Pension is the fastest growing Pension Fund Manager under the National Pension System (NPS) architecture. Amongst Private Pension Fund Managers, HDFC Pension is #1 in total number of Corporates as well as total Subscribers (Corporate + Retail) registered with the Company for NPS.

HDFC International Life & Re is a wholly-owned subsidiary, in the Dubai International Financial Centre (DIFC). It was established with the primary objective of offering life reinsurance capacity in the UAE and other GCC nations. During FY 2018, it earned a Gross Income of US\$ 1.9 million. It continues to operate with technical profit, which is testimony to the strength of its underlying underwriting and risk assessment processes.

Chairman's Message

Dear shareholders,

HDFC Life was one of the first private life insurer to be granted a license and it began its operations in October 2000. We had a simple and compelling vision for the Company. We wanted to secure the lives of our customers by giving them the best value for their money. We wanted to provide and preserve the self-respect of our customers. Over the past 18 years, your Company has strived hard to stay true to this objective as it navigated multiple business cycles. FY 2018 was an important year for HDFC Life as the Company had a successful public listing on Indian Stock Exchanges. The focus of your Company on long-term sustainability instead of short-term gains, its adherence to the values of its promoter groups (HDFC Ltd. and Standard Life Aberdeen plc) and the high quality of its business were factors acknowledged by reputed foreign and domestic institutional investors and retail investors alike. This belief is humbling and spurs your Company to achieve more. It is also a reminder to me of your trust in HDFC Life and in the larger HDFC group of companies.

FY 2018 was a good year for the life insurance industry. The positive effects of higher digital adoption that were a direct result of demonetisation last year and the continued trend of "financialisation" of savings contributed to a healthy 19% growth in the individual weighted received premium for the industry. Your Company took these changes in its stride and saw a 32% increase in the individual weighted received

premium and a 21% increase in total premium. Your Company has a stated goal of pursuing profitable growth and this was reflected in the Company increasing its New Business Margin

The Company registered a growth of 16% in its Assets Under Management (AUM) while the New Business Margin (NBM) increased to 23.2% in FY 2018.

(NBM) to 23.2% in FY 2018 from 22.0% in FY 2017. The Company registered a growth of 16% in its Assets Under Management (AUM) while the Indian GAAP profits grew at 24% over last year. The continuing efforts by the Company at offering a better product mix to its customers, achieving cost-efficiencies and improving the quality of its business have led to an increase in Market Consistent Embedded Value (MCEV) of the Company by 22%.

In my note to you in the previous few years, I have stressed on the huge opportunity that is available in the life insurance industry in India. The widespread adoption of smartphone and the affordability of data usage are speeding up the realisation of this opportunity. Your Company has been at the forefront of technology investments and it has made significant progress on its digital insurer journey. The Company continues to build its distribution network of agents, deepen its Bancassurance relationships and open new partnerships with NBFCs, Fintechs and non-traditional players (e-commerce, payments, loyalty etc.). The Agency channel grew by 19% in FY 2018 with a 41% increase in the number of agents. The new agency model, with a greater focus on training and productivity, was rolled out in FY 2018. It is an important landmark in the Company's vision for a more productive and higher quality tied agency. The Bancassurance channel saw a healthy growth of 28% in FY 2018. Investments made in partner integration should assist the Company in maintaining privileged relationships in the multi-tied environment.

While it is important to keep an eye out for emerging trends, the fundamentals of building a long-term and sustainable business have not changed. These are time and context invariant factors - a deep commitment to customers' interests, creating customer-friendly products and managing risks - and these are core to the Company's way of doing business.

Premium from non-traditional relationships doubled in FY 2018 on the back of increased engagement with existing partners and formation of new tie-ups. The Company has a dedicated team that works towards forming synergic partnerships.

At the same time, your Company has been working to disrupt itself from within. There are multiple initiatives that are underway, where the Company is 'reimagining insurance', using data science, Artificial Intelligence/ Machine Learning and new age technology tools (cloud computing, robotics, and mobility) that will deliver faster, more seamless and contextual solutions to its customers. It is often difficult to separate the hype from the truth when it comes to certain new technologies. The Company has been careful and discerning on the initiatives to pursue that will serve its customers and distribution partners better.

While it is important to keep an eye out for emerging trends, the fundamentals of building a long-term and sustainable business have not changed. These are time and context invariant factors - a deep commitment to customers' interests, creating customer-friendly products and managing risks - and these are core to the Company's way of doing business.

FY 2018 saw the successful launch of several innovative products including Cardiac Care, Guaranteed Pension Plan and Group Health Shield. The phase 3 of the mobility initiative, the creation of a data lake and advanced analytics has made the customer onboarding and service experience frictionless.

The complete implementation of the technology transformation initiative in the customer servicing area has led to significant reduction in customer response times (from days to minutes), improvement in claim settlement experience and reduction in frauds. Your Company has also made significant progress in other key customer-focussed metrics like reduction in complaints, improvement in persistency across most cohorts and management of surrenders in line with assumptions.

The two subsidiaries of your Company - HDFC Pension and HDFC International, delivered strong performance in FY 2018. We have a huge need for retirement solutions in our country and this need will grow as the working populace ages. HDFC Pension has outpaced its competition among the private pension fund managers and now has a market share of more than 20% with ₹ 2,560 Crs of AUM. HDFC International (HILRCL) is doing better than its business plan and is poised to be a significant player in the GCC markets with our emerging focus on international business.

The Company derives its strength and goodwill from its employees. They continue to be its most valuable asset and the Company remains committed to their development and well being. Employee engagement index has improved in FY 2018 compared to last year on the back of enhanced investments made in skill development, emphasis on values and greater engagement across the Company.

Your Company has been at the forefront of giving back to the community and society over the years through its comprehensive Corporate Social Responsibility (CSR) programme. During the year, the Company undertook over 15 projects that made an impact on more than 1 lac beneficiaries. The Company will continue to place emphasis on its social responsibility while it focusses on business growth and expansion.

A stable regulatory environment, positive macroeconomic conditions and a resolute push by the Government towards financialisation and social security bode well for the life insurance sector. The opportunity continues to be huge and the options to harness this potential have increased manifold. The competitive intensity will continue to be high in the industry leading to high degree of 'short-termism' among players. I believe HDFC Life with its demonstrable strengths - a sustainable business model, experienced management team, a strong brand, committed employees and a willingness to change and adapt - has a vantage position and it will continue to lead the way in this industry. In a way, it is a chip off the old block.

I would once again, like to thank all the shareholders for their support and trust during a memorable year for HDFC Life.

From the desk of the MD & CEO

Dear shareholders,

We insured a record 3.3 Cr Indians in FY 2018. It's a metric that has deep significance for every single one of us at HDFC Life. We are a nation of rising aspirations with a deep societal belief that our tomorrow will be better than our today. This optimism is justified but it is also fragile. A single episode of illness or an untimely demise often derails a family's hope of upward mobility. Our mission at HDFC Life is simple. We strive to keep that flame of hope burning for Indians through our products that insure their lives and their health. That's why the 3.3 Cr number matters. It is a measure of

how many lives we have enriched last year. But in a country of 130 Cr people, it is also a stark reminder that our work has just begun.

The Indian life insurance industry continued the trend of healthy growth it has witnessed over the last 3 years. The overall sector grew at 19% (individual WRP) with the private sector growing at 24%. The broader trends of "financialisation" of assets, greater awareness of insurance among customers and wider availability of life insurance products across multiple distribution channels have continued to work

in favour of the industry. We are in a wonderful phase in the evolution of our industry. We are getting more competitive among ourselves, our products get more customer centric every year and we are using technology and digital means to reach and serve our customers better every day.

Over the last 18 months, we also had the public listing of the 3 largest private life insurers in the country. This has led to more transparency about the business models of life insurers and deeper awareness about the opportunities and risks in our

business among the investors. Global and domestic investors are valuing life insurance companies in India very attractively. They see the rapidly unfolding opportunity of the Indian market and the high quality business models run by the Indian life insurers as long-term opportunities.

HDFC Life had a successful debut on the bourses. The investors have recognised our strengths – our parentage, a business model that has successfully navigated different business cycles and a customer-first culture. We are humbled by the trust placed on us and we take our responsibility with a deep sense of sincerity. We will do our best to manage the quarter on quarter expectations while staying absolutely committed to our clearly articulated vision and strategy. We will endeavour to deliver performance while building long-term vitality in our business.

We had a strong year of performance in FY 2018. The Company saw a 21% increase in total premium to ₹ 23,564 Crs. We saw robust growth across premium categories - 30% in first year regular premium, 33% in single premium and 13% in renewal premium. Every major distribution channel saw growth in double digits and the total new business premium grew by 32% to ₹ 11,350 Crs. We were ranked #1 in total new business

premium and in Group business (basis received premium) among private life insurers. We believe in profitable growth and our focus on efficiencies, productivity and a judicious product mix has led to a steady growth of New Business Margin (NBM) over the years. We ended FY 2018 with industry-leading NBM of 23.2%. We also increased our Indian GAAP profits by 24% to ₹ 1,109 Crs.

Long-term success in life insurance requires a fine balancing act between pursuing growth and maintaining a high quality book of business through checks and balances. This is further complicated by the speed of changes around us. The speed of digital adoption in India, the rise of the millennial generation, the changing preference to financial assets

Our sustained investment in technology over the years has been ahead of the curve in the industry. We now have a technology platform that allows us to reimagine every single customer journey.

and emergence of new customer ecosystems (like ecommerce, payments etc.) make this moment ripe for disruption within life insurance business. We have been ahead of the curve in thinking about these changes and looking to disrupt ourselves from within. We have further consolidated our thinking and our strategic response in the last 6 months. I am sharing with you our areas of focus, which are in line with our stated strategy articulated during our listing process.

We will continue to focus on protection segment. India is underinsured and the protection gap in India stands at 92% (the highest among all countries in Asia-Pacific as per a Swiss Re 2014 report). We believe bridging this gap and enriching lives of Indians is our responsibility. Today, we stand out among our peers with protection business contributing to 26% of total new business premium. We have created a protection-focussed solutions team to continue to grow this business.

We have built an agile multi-distribution platform that has enabled us to have over 170 distribution partners who deliver our solutions to customers. We made significant progress in FY 2018 in making this platform frictionless, modular and configurable for the wide variety of

We are excited about the emerging ecosystems where customers are increasingly aggregating and we have tested multiple models of engagement with them. We are reimagining life insurance sales and service journeys with these partners that will reduce friction for customers in the onboarding process and deliver customised products for them.

We have the ability to service our customer anytime, anywhere and through anyone using our InstaServe platform (more than 44,000 queries have already been answered through this).

our partners and agents. The nature of partners ranges from traditional banks, NBFCs, MFIs, payments banks, small finance banks to those in ecommerce, telecom, healthcare, media and other emerging ecosystems. We are excited about the emerging ecosystems where customers are increasingly aggregating and we have tested multiple models of engagement with them. We are reimagining life insurance sales and service journeys with these partners that will reduce friction for customers in the onboarding process and deliver customised products for them.

We believe there are other white spaces and micro markets available and these will form the growth engines and profit pools of the future for us. We are doubling our data science team to help us achieve this.

Our sustained investment in technology over the years has been ahead of the curve in the industry. We now have a technology platform that allows us to reimagine every single customer journey. Our entire onboarding process is paperless, cashless and potentially presence-less. We have the ability to service our customer anytime, anywhere and through anyone using our InstaServe platform (more than 44,000 queries have already been answered through this). In my note to you last year, I had mentioned about our intention of having a mid-office platform that can digitise every single element of the life insurance value chain. I am happy to share we have made significant progress here that is delivering ease and convenience to our customers. More than 85% of our servicing requests are now serviced in less than 8 hours with over 70% serviced in less than 4 hours. Our

We continue to use data science and research to develop deep insights into the needs of the customers. We have used these to develop another set of innovative products during the year. These include:

- Guaranteed pension product with attractive guarantees on annuity income
- Cardiac care product covering multiple incidences of same illness
- Group health product
- Term and Health combination product in partnership with Apollo Munich Health Insurance

The performance of the two subsidiaries of HDFC Life has also been noteworthy in FY 2018. HDFC Pension Ltd., with an AUM of over ₹ 2,560 Crs, has become the largest privately-owned pension fund management company in India.

efforts at automation over the last 2 years have meant we have over 85 bots deployed to provide accurate and instant processing of tasks. We have deployed advance analytics and predictive technologies for claim processing leading to an average turnaround time of 3 days for claim settlement. Our fraud analytics model and customer propensity models have been improvised and are used extensively by our partners. We have made pioneering efforts in developing a data lake that runs on cloud infrastructure. It allows us to use enterprise data to enable the right decision to be made at the moment of truth with the customer. We are doubling down on our efforts in digital transformation and I will continue to communicate how it is enabling our business in my future communication to you.

The performance of the two subsidiaries of HDFC Life has also been noteworthy in FY 2018. HDFC Pension Ltd., with an AUM of over ₹ 2,560 Crs, has become the largest privately-owned pension fund management company in India. Pension is a huge opportunity in India

and with a market share of more than 20%, HDFC Pension is well poised for the future. HDFC International (HILRCL), our other subsidiary that started operations in FY 2016, saw strong growth in FY 2018 and positions us well in exploring interesting opportunities in the GCC markets.

While we create value for customers, partners and shareholders, we remain committed to our mission of enriching the lives of the communities and society at large. Swabhimaan, our CSR initiative, focusses on four key areas of education, health, livelihood and environmental sustainability. The Company undertook over 15 projects in FY 2018 and impacted more than 1 lac beneficiaries with a total spend of ₹ 9.8 Crs.

The opportunity in the Indian life insurance industry remains sizeable and attractive. The means of getting to the prize are changing. It will need newer skills, intelligent use of technology and execution excellence. We remain alert to the possibilities and we continue to push the boundaries within HDFC

Life to be best positioned to service this opportunity.

I would like to take this opportunity to thank all my colleagues at HDFC Life for going the extra mile to serve our customers every day at work. I will remain grateful to the shareholders for their trust and their continued support in our journey. And, my gratitude to the customers who make all our efforts worth it.

The Flagship Initiative of HDFC Life

HDFC Life's flagship initiative 'New Zeal' - is a platform that provides assistance in daily activities (not restricted to medical care) of the senior citizens left behind by their children moving out for better career prospects to different cities and even countries. The assistance is not just provided in the comfort of their home, but by a mere click of a button. 'New Zeal' ensures quality, trustworthy and customised services to the elderly. The 'Care Specialists' help elders by doing all mundane and special activities like collecting their medical reports, accompanying them for hospital visits, help with shopping, bill payments, social visits, finding medical services, maintenance services at home etc., and thus providing them all the extra help that lonely senior citizens would require. The pilot project was launched last year and so far has catered to more than 800 senior citizens in Chennai and Bengaluru.

"To care for those, who cared for us once is a great honour."

How Our CSR Interventions Have Enriched Lives...

CSR Interventions in Education

HDFC Life believes that every individual is entitled to the Right to Education. We aim to accomplish this through various projects designed around educating the marginalised and backward sections of the society. Our projects in education have impacted 8,444 beneficiaries across the country. We believe that our journey has just begun.

Some of the Education projects are:

Bala Janaagraha

The programme aims to encourage the youth of India to become informed, responsible and active citizens by making good citizenship values an integral part of their education. It enables critical thinking towards addressing local civic challenges. The programme has empowered 3,185 students across 30 schools in Bengaluru, enabling them to undertake projects pertaining to issues around their city and proposing solutions and alternatives to resolve these.

Isha Vidhya

This initiative has supported a school in Dharmapuri, Tamil Nadu, by providing 2 buses and 1 fully equipped digital classroom which has helped 200 plus children. The school buses have ensured a reduction in expenses incurred on transportation by the parents of these children, whereas the digital classroom has provided improved learning.

Swabhimaan

Through this initiative, 300 orphaned and abandoned children, across 4 locations including Kolkata, Guwahati, Bhubaneswar and Rourkela were supported for their entire education. The children were provided with support for school expenses, tuition expenses and extracurricular activities.

Bright Future

This initiative has helped in providing a nurturing environment for children and youth from marginalised communities to transform their passion into gainful employment, through career guidance, life skills development, and mentorship. This initiative has helped 2,133 children across 4 schools in Mumbai and 1,197 parents, teachers and youth.

Teach for India

This intervention has helped reach out to 550 plus children in 7 low income schools in Pune and Mumbai. The focus of this initiative is upon introducing unique teaching methodologies in schools to improve the quality of education and grasping of knowledge.

“Education is not a preparation for life; education is life itself.”

CSR Interventions in Health Sector

Being in the business of insuring lives, HDFC Life understands and cherishes the importance of health. We consider it extremely important to make people value their own health and that of the people around them.

“Health care is not a privilege. It’s a right.”

- Rod Blagojevich

Some of the Health Projects undertaken in FY 2018:

Healthy Baby Wealthy Nation - another flagship initiative of HDFC Life

Addressing the pressing need to improve the situation of child health and nutrition, since February 2015, we have undertaken a project in 6 districts of West Bengal to improve the nutritional status of 0-5 year olds through a three-pronged, comprehensive approach of generating community awareness on child health and nutrition in the target communities.

Safe Drinking Water for Remote Villages

This project aims to promote entrepreneurial-based, community-level, decentralised safe drinking water solutions for 6 villages in Maharashtra. The project ensures water round the clock. The community engagement starts with the village Panchayat, increasing awareness about water and health related issues to 5,093 households with 25,501 people residing.

Change for Childhood Cancer

This initiative is focussed on aiding children with cancer and their families to cope with and ensure completion of treatment and avoid abandonment of cancer treatment in children. Under this initiative, we set up 2 Cankids Hospital Support Units (CHSUs) in a hospital at Chennai and an accommodation facility for these patients in Adyar. This intervention has impacted around 300 children and parents.

Evolution

This initiative has helped improve the health and hygiene of 10 municipal schools in Maharashtra, consisting of 2,549 students, by undertaking behavioural awareness session on health and hygiene, menstrual hygiene and value-based education. This awareness amongst the children and access to better sanitation and water facilities will lead to an increase in their attendance.

Other Initiatives

Gulzar

This initiative has provided permanent shelters to **244 individuals** across **50 underprivileged families**, who were victims of the devastating floods in the state of Jammu & Kashmir in FY 2014. These families belonged to different districts in Jammu & Kashmir including Bandipora, Baramullah, Pulwama, Anantnag and Kulgam.

The families were provided with comfortable, sustainable and dignified housing enabling them to be able to start afresh, leaving the scars of the devastating flood behind them.

Enhancing Value. Enriching Lives.

In the last 17 years of our business, we endeavoured to embody the values of our promoters while delivering value to our customers. Post listing we aim to take this a step further and deliver value to our investors who have reposed their faith in us.

The year 2017 has been significant for us. We got listed. Listing is a key milestone in the journey of an organisation. For us at HDFC Life, listing also meant stepping into adulthood after having completed 17 years of business under the parentage of two financial behemoths - HDFC Ltd. and Standard Life Aberdeen. In the last 17 years of our business, we endeavoured to embody the values of our promoters while delivering value to our customers. Post listing we aim to take this a step further and deliver value to our investors who have reposed their faith in us.

In our relentless pursuit for business growth, we have ensured the growth is holistic and that we take all our stakeholders with us.

The drive to enrich lives while enhancing value for all our stakeholders has helped us deliver holistic growth. We believe customers, distributors, shareholders and our employees are at the centre of our evolution.

Serving customers effectively has been our key focus area since inception. At every step of our journey we have strived to provide them the best of products and services. We have always emphasised on providing need-based solutions relevant throughout the customer life cycle. Our product innovations aim to offer customers protection against a diverse set of risks and contingencies, provide them with avenues to channelise savings as

per their risk preference and enable them to build a corpus for retirement and contingencies. By leveraging the power of technology, we aim to continue nurturing and strengthening our deep-rooted emotional relationship with customers. The effort is to sustain a level of service that is faster, error-free and more meaningful without compromising on the required human touch. We strive to inspire confidence in our customers that we will stand by them and their families during the moments of truth.

We see distributors, the face of the Company, as our ambassadors representing HDFC Life to our customers. Consistent efforts are made to train our distributors so that they sell right, provide excellent customer service and develop a lasting relationship with the customers. In an era of open architecture, we strive to become the preferred partners of our distributors. We have been

working to deepen the integration between ourself and our distributors' environments through technological amalgamation, customised solutions, transparent processes, more relevant incentives and a responsive and open culture.

Serving customers and building an attractive value proposition for the distributors cannot happen without well-equipped and motivated employees. We offer our employees exposure to a rich cross-functional experience and leadership interactions. Our aim is to empower our employees with ideas, tools and experiences that are aligned to their aspirations, making HDFC Life a long-term career option. Equal emphasis is laid on the values of excellence, people engagement, integrity, customer centricity and collaboration as being the way of life at HDFC Life. We aspire to be an employer of choice, today and tomorrow.

We are humbled by the faith reposed in us by our shareholders who recognise our strengths and back us to leverage them effectively. Our leadership team and all other employees go to work recognising the enormous responsibility of living up to the shareholders' expectations, vested in them. We are constantly on the lookout for newer avenues

of growth that complement the strengths of the Company and enhance value for the shareholders. For the next leap, the focus is on achieving high performance in the core business and building vitality within the organisation to chase new ideas. We are focussed on innovating wisely and exploring newer profit pools to ensure long-term wealth creation for our shareholders.

As a listed Company, our stakeholder group has expanded. We have always believed in giving back to the society. We now see ourselves playing a bigger role to serve the society, beyond the realms of our core business activities. Through Swabhimaan, our CSR initiative, we are partnering with institutions in the areas of education, health, environmental sustainability and livelihood. We closely track progress on each initiative and have a planned pipeline for FY 2019. We are also empowering employees to be socially responsible corporate citizens and contribute time and effort towards the initiatives.

Giving back goes beyond our CSR programme and extends to our core business; this includes giving customers peace of mind today and in adverse times, partnering with distributors in a transparent environment and providing employees multiple avenues for growth and development. In today's fast-changing business environment, we strive for HDFC Life to be recognised as a long-term oriented Company driven by positive growth pursuits, that is built on a foundation of excellence and ethics.

Enabling Technology. Enriching Customer Experience.

Digitalisation of all servicing aspects - customer contact points, on-boarding, requests and transactions were the prime development area for FY 2018. To enable this, we have leveraged new age technological capabilities like artificial intelligence, natural language processing and robotics.

At HDFC Life, we endeavour to offer a consistent and digitally enabled customer experience throughout the policy lifecycle.

We aim to assist customers realise policy needs instantly and effortlessly. Digitalisation of all servicing aspects - customer contact points, on-boarding, requests and transactions were the prime development area for FY 2018. To enable this, we have leveraged new age technological capabilities like artificial intelligence, natural language processing and robotics. These initiatives have contributed significantly to improving customer experience on resolution time and quality at lower costs.

New Customer Service Portal

Our revamped customer portal, My Account, was launched with additional features such as social login and a host of servicing options such as policy holder address change, name updates, nominee & beneficiary updates, bank account updates, etc. The new portal is mobile responsive and aims at building a high utility, responsive, cross-browsing portal as a one-stop platform for all customer needs.

Elle, our Chatbot

Elle, our recently launched chatbot, is available 24*7 with an option of agent assistance during working hours. It delivers real-time responses to queries about policy details, and requests for premium receipts and other statements. Customers can also access some frequently asked

questions at the ease of a click, eliminating the need to type the query. Elle is equipped with natural language processing capabilities and can chat with customers in a conversational interface.

Neo, our Twitter bot

We are now on social media with our Twitter bot, Neo. It is the first step towards servicing on social media - a touchpoint for our millennial customer base. Neo caters to top frequently asked queries and has a 3,900 and counting follower base.

SPOK, our Email Bot

SPOK provides automated email responses to customer requests for premium receipts, annual statements, etc. It also sorts, prioritises and provides suggestions to our human agents on handling complex customer

queries. With NLP capabilities, it boosts precision and turnaround time for customers reaching out to us via email.

Integration with HDFC Bank Netbanking

Customers of HDFC Bank who hold policies with us can now access their Insurance details on the HDFC Bank Netbanking portal. They can view policy details, fund summary and payment summary.

The key feature offered is a simplified payments process through HDFC Bank NetBanking which completes the transaction in just 3 clicks.

Premium Payments

We further eased the renewal payment process for our NRI customers by enabling payments through international cards. Additionally, with eSI and SI-on-cards, customers can now seamlessly register for standing instructions online in a paper-free mode.

InstA, focusing on internal customers

We are empowering our employees and partners on a chat-based platform, 'InstA'. It is a natural language processing, self-learning tool that acts as a comprehensive knowledge repository to arm all customers facing functions with an easy to use virtual assistant, enabling quick and better responses to customer queries.

InstaServe, taking service to where the customer is

While our online capabilities grow, we are also digitalising the physical contact points - HDFC Life branches and sales force support. 'InstaServe' application enables efficient and

easy policy servicing with features like accessing policy details, updating contact details and performing transactions with secure OTP authentication.

Customer Servicing and Policy Servicing (CSPS)

CSPS, the new platform for all customer transactions and requests, was launched this year, resulting in a paradigm shift in TATs and quality. It has enabled instant servicing capabilities at the branch and other touchpoints, agile flow with configurable rules and an enterprise wide customer view. CSPS also offers a powerful lead management system and analytics models for persistency.

Electronic Policy Document

Adoption of dematerialised policy documents, which are maintained in electronic form by our Insurance Repository partners, grew by leaps and bounds this year. We were equipped to manage this surge in customer demand with an automated policy issuance process and over 1 lac policies were issued in Demat mode this year.

Pre Conversion Verification

In the previous year, FY 2017, we had launched a mobile app 'InstaVerify' to provide unique and personalised experience in customer verification while on-boarding. This year, 'InstaVerify' was enhanced with vernacular options and an additional capability of offline use in weak network areas.

Enabling Brand. Enriching Lives.

‘Sar Utha Ke Jiyo’ is not just a tagline; it reflects and underlines our brand philosophy and our reason for existence. It is our promise to customers to help them and their families lead a life of pride and self-reliance. Communicating this brand promise, clearly and convincingly to our customers has been the focus of our marketing efforts.

We started the year by launching ‘Click 2 Protect 3D Plus’, a protection plan that insures the customer against Death, Disability and Disease. We launched this product with a digital media-led campaign communicating how it helps customers protect their family from a life of compromises.

In July, we launched our first brand store on Amazon.com for the digital audience on the e-commerce platform major. This helped us in amplifying awareness about our products as well as driving traffic to our website.

Recognising that younger audiences today are a potential segment, we focussed our efforts on this segment in the second quarter. Today, India’s working youth in the age group of 20-35 comprises about 64% of its total population. With rising aspirations and increasing disposable incomes to match, the working youth have become one of the most important drivers of India’s growing economy.

We specifically targeted this newly employed young generation, who are eager to achieve their dreams and not averse to taking risks along the way. The primarily digital-driven campaign was launched with a social experiment which breaks the common perception of today’s young individuals being careless and irresponsible. Instead, it presents them as responsible, goal-oriented individuals, who believe in planning and are financially aware. We launched the ‘#YoungandResponsible’ campaign, aimed at flipping the adage - Young and Restless on its head. We ensured that our communication to this key segment was created in their language and on platforms of their choice.

Further, the general misconception among young individuals is that insurance is their parent’s domain of financial planning. To break this misconception, we created a

character called ‘Captain Life’ - the only superhero with the power to secure an individual’s loved ones. The character was revealed at Comic-Con Bengaluru in November 2017. We saw good participation from the attendees at this event and the audience actively interacted with the character. Through fun comic strips and activities with our very own character, we took on this stereotype head-on.

In November, we launched a multimedia campaign to create awareness for our IPO. The campaign began with an announcement in Mumbai and continued with a roadshow which traversed across the country, covering the cities of Delhi, Kolkata, Jaipur, Rajkot and Ahmedabad. The Company listed successfully on the BSE and NSE on November 17, 2017 and has continued its inspired run till date.

In the critical business months of Q3-Q4, we launched a campaign on goal-based financial planning through Unit Linked Insurance Plans. This campaign emerged from an insight that consumers mainly invest in plans to save for future financial goals, of which planning for their children’s future was the top priority. Our campaign portrayed how a father, planning a secure future for his child also wants to make him self-reliant. It

At HDFC Life, 'Enabling Brand, Enriching Lives' goes beyond customers to include lasting long-term relationships with our channel partners.

highlighted the issue of bullying and conveyed a message that even though parents are inherently wired to be protective towards their children, they also want their children to be prepared to face the world on their own. The film pitched our Savings & Insurance Plans while highlighting the brand thought of Apno ko apne dum pe jeena sikhao, an interpretation of Sar utha ke jiyo. To further emphasise goal-based planning and enhance the brand affinity amongst channel partners and customers, we launched the experiential campaign 'Pledge to secure your dream'. This activation was done across high footfall channel partner branches & HDFC Life branches across the country.

Post this Savings & Investment campaign, we turned our attention to the retirement category. In February 2018, we launched our new product Pension Guaranteed Plan and promoted it as an investment opportunity that ensures a lifelong monthly income.

At HDFC Life, 'Enabling Brand, Enriching Lives' goes beyond customers to include lasting long-term relationships with our channel partners. This year, we launched multiple initiatives aimed at both strengthening these existing partnerships and attracting newer partners to join us in our journey. Last year, we launched our 'Partnering

with Pride' initiative. This year we took this initiative ahead with all our new partners ensuring that their onboarding process was smooth. To ensure that there is sufficient understanding about different products, a series of Facebook live sessions were launched in January this year. The series, called Insurance Decoded, saw participation from the top management of HDFC Life and some of our prominent partners. In May, we launched 'InTouch' newsletter, a one-of-its-kind initiative for the group business customers to stay updated on the organisational initiatives and market outlook.

In July 2017, we launched **our first brand store on Amazon.com** for the digital audience to showcase our online buying facility. This helped us in amplifying awareness about the products as well as driving traffic to our website.

We launched the **'#YoungandResponsible'** campaign, aimed at flipping the adage - Young and Restless on its head. We ensured that our communication to this key segment was created in their language and on platforms of their choice.

Management Discussion and Analysis

A. MACROECONOMIC TRENDS

FY 2018 proved to be a year with a number of exciting developments. Global growth clocked strong gains in 2017, surprising on the upside, led by robust economic expansion in the developed economies. IMF's Global growth estimates for 2017 were raised from 3.4%, estimated at the beginning of the year, to 3.6% by the end of the year. The Euro area economy provided the biggest surprise, growing by 2.3% against the 1.4% forecast by the IMF at the beginning of the year. The US economy, too, expanded 2.3% in 2017, supported by an expansionary fiscal policy.

The stronger global growth imparted strength to commodities, and crude oil, in particular. Brent crude oil prices gained more than 30% during the year. A combination of tight supplies, as OPEC and key non-OPEC producers adhered to the production limits set in place in 2016, and strong demand driven by the robust global growth led to strength in oil prices. Inflation in the developed economies saw an uptick, as the higher energy prices wound their way through the economies, calming down fears of a deflationary spiral. The improvement in growth and inflation outlook led to the respective monetary authorities to start pulling back the extreme monetary accommodation and in some cases, raise interest rates as well. The rising interest rates and withdrawal of the monetary accommodation has led to higher developed markets bond yields, notably US bond yields.

The global factors had an impact on the Indian economy as well. Domestic growth saw a sharp slowdown in the first quarter of FY 2018, as the economy transitioned to the new Goods and Services Tax (GST) regime. The first quarter growth slipped to 5.7%, a 13-quarter low, and rebounded strongly thereafter, clocking 7.7% in the last quarter of the year. The growth for the full year was pegged at 6.7%.

Inflation stayed low through the year as food prices stayed benign and non-food prices remained largely stable. The CPI index hit a series low of 1.46% in June, and recovering thereafter leading to an average CPI inflation of 3.6% for the full year. This compares favourably with the average 4.5% inflation for the previous year. The soft inflation led RBI to cut interest rates at its August Monetary Policy meeting, taking the policy interest rates to a low of 6.0%.

The low inflation over the last year, as well as the previous years, has led to an increase in financial savings in the economy. The lower returns on real assets has also played a role in increasing financialisation of savings. The soft interest rates and comfortable liquidity with banks had led to lower rates on Fixed Deposits, the favourite financial

instrument, and improved flows into other avenues for financial savings - mutual funds and insurance. The inflows into the domestic financial institutions helped the equity markets deliver strong gains over the year, even though foreign investors largely stayed away. Despite the correction seen at the end of the year, due to global factors, the large cap equity indices rose about 10% over the year.

In the currency markets, the Indian Rupee was quite stable through the year. The Rupee appreciated through the initial three quarters of the year, as strong capital inflows from FPIs tilted the economy's external Balance of Payments (BoP) into a surplus. The last quarter, though, saw a reversal of the gains as global risk appetite waned in the face of rising US interest rates, and capital flowed out of Emerging Markets. The Rupee started the year at ₹ 64.77 and ended slightly weaker at ₹ 65.18 against the US Dollar.

A key development for the banking system was the Government's recapitalisation of the PSU banks, as they recognised and provided for all the stressed assets. The recap plan is expected to help restore the health of the banks' balance sheets and provide a firm footing to grow in future.

The pickup in growth in the last quarter of the year helped India regain the tag of the fastest growing major economy in the world. RBI has estimated next year growth at 7.4% as the economy picks up steam based on the efficiency and productivity gains brought about by the introduction of the GST, the implementation of the bankruptcy law, the cleaning up and recapitalisation of banks' balance sheets and forecasts of a normal monsoon.

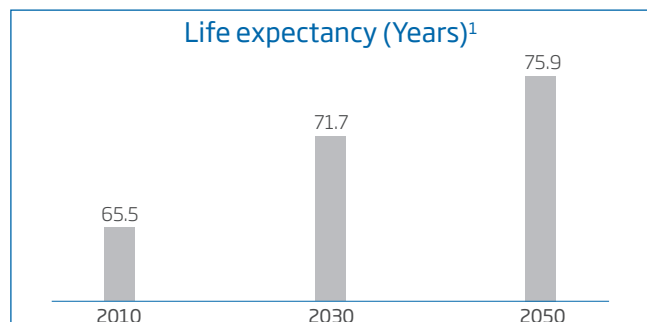

Key Levers Impacting the Life Insurance Industry in India - Opportunities and Threats

Post liberalization of the life insurance industry in India in FY 2000, the industry has seen both highs and lows, driven by a multitude of factors including dynamic regulatory changes, global financial meltdown, evolving consumer behavior and a changing competitive landscape. Life insurers navigated these changes through recalibration of their business models - a tied agency-dominated distribution made way to a multi-channel one, innovation in the product space catered to the varying needs of the customers and processes became more efficient for a better customer experience. Today, with a stable regulatory environment, increasingly aware and digital customer and technological enablers, insurers are in a good position to utilize the existing opportunities.

I. Changing demographic profile

Source: 1. United Nations World Populations Prospects Report (2015)
2. World Bank report on Global Savings in 2030

Asia's third-largest economy, India, is set apart from other leading global economies, which are ageing relatively faster. At present, around 40% of the Indian population is below the age of 20. As per FICCI, India currently has 605 million people below the age of 25, and 225 million in the age group of 10-19 years, ready for higher education. The average Indian age by 2020 will be 29 years as against 40 years in the US, 46 years in Europe and 47 years in Japan.

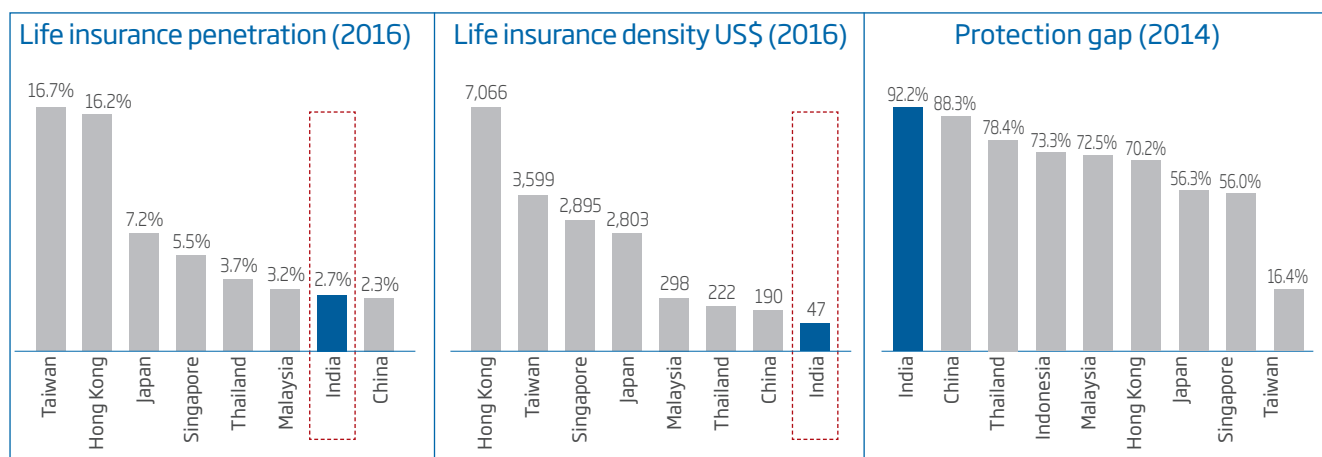

While a majority of the population will be young over the next 10-15 years, the population of today is "ageing", thus driving up the dependency ratio. As per FICCI, India's insurable population is anticipated to touch 750 million by 2020, with a life expectancy at birth of 74 years. Demand for annuity and retirement policies will

rise with increasing life expectancy even as proportion of India's elderly population (> 65 yrs of age) will increase by ~50% to 120 million by 2030.

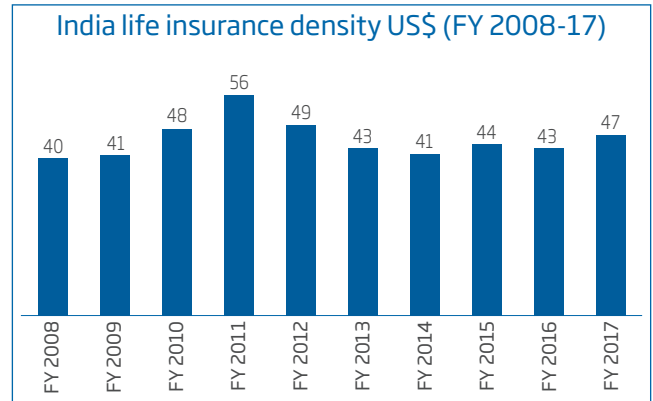

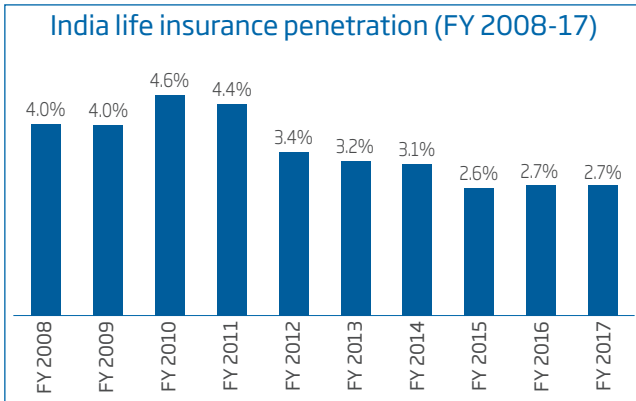

This changing demographic profile implies two things: (i) The young working population would need adequate funds to take care of their long-term savings and pension requirements; and (ii) The income earner would have to ensure the right life cover, with increasing proportion of dependents. This triggers the need for product innovation, increasing digital adoption and simplifying as well as customizing the customer journey for the millennial customer.

India's demographic advantage provides opportunity for continued growth of the life insurance Industry.

II. Low insurance density and increasing protection gap

Management Discussion and Analysis

Source: Swiss Re (Based on respective financial year of the countries), MOSPI
 Note: Penetration is measured by premiums as % of GDP, Density defined as the ratio of premium underwritten in a given year to the total population

As compared to other developed economies, India remains vastly under-insured, both in terms of penetration and density. The penetration of life insurance stood at 2.7% in FY 2017, with a high of 4.6% during FY 2010. The opportunity to penetrate the underserved segments is immense, demonstrated in the regular evolution of the life insurance distribution model.

The 'protection gap' in India is amongst the highest in the world, thus presenting a unique opportunity to offer systematic long-term savings vehicles as well as protection products against both mortality and longevity risks. Additionally, emergence of nuclear families and limited social security instruments create the need for annuity and pension based products.

III. Tech-aided operating models

In India's internet economy, the customer is getting increasingly digital leaving valuable digital footprints - 1.19 Bn+ Aadhaar enrolments, 810 Bn annual page views and 350 Bn annual search queries. However, insurance continues to remain a tightly-coupled, vertically-integrated industry. Hence, the need to forge strategic partnerships with key players from other industries so that we reach newer customers at lower costs. This involves redefining the sales process such that the life insurance journey is embedded firmly within the partner's journey for a frictionless insurance buying experience. At the same time, it is important to deepen our relationships with the existing partners through front-end sales enablement - lead engagement engines, recommendation engines, and deeply integrated technology and processes for a smooth buying and servicing experience.

Today, a customer interacts with a life insurer through multiple channels like mobile app, website, branches, etc. However, the customer experience across these channels is often inconsistent. A holistic 360 degree customer

view is desired for a seamless experience, irrespective of the channel of interaction. Similarly, opportunities lie in revamping core processes through robotics, artificial intelligence for better and faster decision-making.

IV. Government and Regulatory initiatives

Successful delivery of social security schemes in FY 2018, including the Pradhan Mantri Suraksha Bima Yojana (PMSBY) and the Pradhan Mantri Jeevan Jyoti Bima Yojana (PMJJBY) which offer basic insurance at minimal rates through government agencies and private sector outlets has helped increase insurance awareness. FY 2018 was also the year of payment transformation as UPI-based digital payments increased from 26 Mn in Q1 FY 2018 to 500 Mn in Q4 FY 2018 translating to more than 900 Mn transactions valued at ₹ 1 Tn in FY 2018. Greater customer awareness for protection products and higher tech-adoption bodes well for the life insurance sector.

IRDAI continued its push for an insurance model that is beneficial for all stakeholders while keeping the customer firmly at the centre. Regulations on "Protection of policyholders' interests" marked another important step in the journey towards customer-centricity with modified guidelines on policy disclosures, grievance redressal procedures and service fulfilment TATs. The product review committee, constituted to review product regulations, came up with 12 key recommendations concerning product approvals, surrender charges, pension business, among others. The regulator issued guidelines for PE funds/AIFs to be promoters of an insurance venture. This move is likely to introduce best practices and technological advancements to the Indian insurance sector. The regulator also constituted a working group for "Innovations in use of wearable/portable devices". The recommendations of the working group could pave the way for large-scale adoption of technological enablers in life insurance.

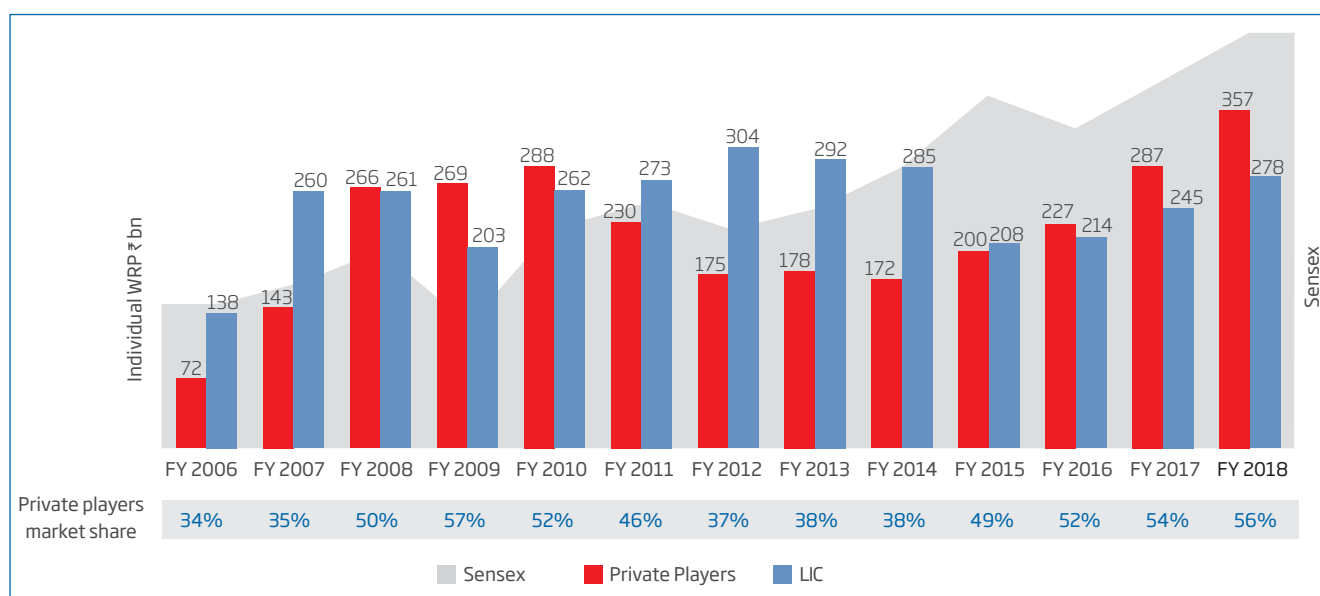

Management Discussion and Analysis

B. LIFE INSURANCE INDUSTRY OVERVIEW

I. Overview

As we move closer to the completion of the second decade of privatization of the life insurance sector, it is important to look back at the journey of the life insurance industry from a monopoly to a market-driven competitive one. Today, there are 23 private companies and 1 state-owned company operating in the life insurance sector in India. Distribution that was once dominated by agency channel has seen the ascendancy of bancassurance and

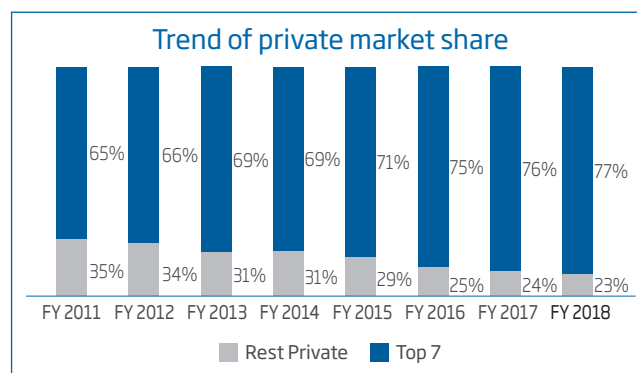

emergence of the online channel. Product innovation has meant customer value proposition has taken priority over interests of other stakeholders. Technology is playing a key role in improving customer experience in onboarding and service. The change has been aided by regulatory interventions at crucial junctures - Protection of policyholders' interests (2002), licensing of corporate agents (2002), linked products circular (2010), linked and non-linked products (2013), registration of corporate agents (2015), management of expenses (2016) among others.

Note: Basis Individual Weighted Received Premium (WRP) as disclosed by IRDAI, Life Insurance Council, HDFC Life Analysis

During FY 2018, life insurance industry grew by 11% to garner ₹ 1,939 Bn of new business premium against ₹1,750Bn in the previous financial year. The private insurers posted strong growth of 24% in individual business while group business saw a muted growth of 4%. LIC recorded a growth of 13% in the individual business and 5% in group business and retained its position as the dominant player in the sector.

However, private insurers continued to further consolidate market share in FY 2018 with the third consecutive year of a majority share of the market. Market share of the private insurers has increased to 56% in FY 2018 based on Individual WRP, after hitting a low of 37% in FY 2012. Key drivers of private sector growth within Individual segment include development of distribution channels, product innovation, digital transformation, capital inflows and a focused customer-centric approach.

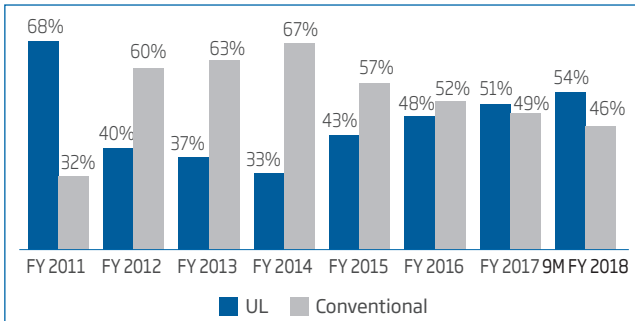

Note: 1. Basis Individual Weighted Received Premium (WRP) as disclosed by IRDAI, Life Insurance Council
2. Top 7 players based on FY 2018 business numbers

We are also seeing polarization within the private sector as the top 7 players by individual WRP account for 77% of the private life insurance market in FY 2018. Distribution arrangements with large banks have played a significant role in the growth of these private players. The bancassurance arrangements are a combination of captive partnerships and strategic alliances.

Management Discussion and Analysis

II. Product Mix across Private Players

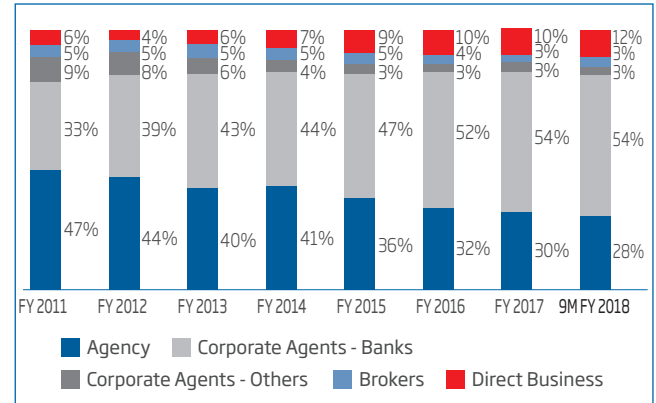

Note: Basis Overall WRP (Individual and Group)
Source: IRDAI and Life Insurance Council data, HDFC Life Analysis

FY 2011 saw regulatory intervention in the unit-linked product structure with expenses attributable to products capped. This resulted in a shift in focus of the insurers from unit-linked to traditional products. A buoyant stock market coupled with establishment of strong bancassurance distribution has allowed insurers to increase the share of unit-linked products since FY 2015.

Traditional products have seen the emergence of “protection” as an important category on the back of higher customer awareness, product innovation and emergence of the digital mode of distribution. Going ahead, the focus on protection products in the life and health space will continue to remain high even as insurers strive for the right balance between traditional savings and unit-linked savings for long-term savings and pension needs of customers.

III. Distribution Mix across Private Players

Note: Based on Individual New business received premium
Source: IRDAI data, Public disclosures and HDFC Life Analysis

Although agency and bancassurance continue to be the two major contributors of new business for private insurers, there is a clear trend of bancassurance assuming an increasingly high share of distribution. From 33% in FY 2011, bancassurance has formed a higher share of the pie every year to reach 54% in 9M FY 2018. Insurers rely on the captive customer base, existing relationships and wide distribution network of banks to form successful bancassurance partnerships. Since these partnerships were exclusive for the life insurers (a bank could distribute life insurance products of only one life insurer), it allowed private players with strong bank partners to consolidate market share. However, with IRDAI allowing each bank to tie-up with up to 3 life insurers, FY 2018 saw banks tie up with new life insurers. This is likely to lead to a healthy competition in the bancassurance space as smaller private players look to forge and develop new bancassurance partnerships to get a higher share of the market.

Companies continue to develop their agency channel with a focus on improving productivity and reducing attrition. Insurers are also leveraging technology to keep the costs of running an agency in check. Government’s push towards digitization and increasing customer awareness is helping the online channel (self and web aggregator) become a vital cog in the distribution landscape.

D. STANDALONE PERFORMANCE OVERVIEW

HDFC Life continues to deliver strong operating and financial performance during the year under review. In line with the stated long-term strategy, the Company has maintained balance across the business. Creating value for all our stakeholders, while maintaining profitable growth, has been the key focus for the Company. The Company is driving this by re-imagining the life insurance business journey by leveraging technology and catering to continuously evolving customer preferences. The standalone results presented below includes detailed analysis across the key financial parameters tracked by the Company.

Income statement analysis

The reported Gross Premium Income representing the total premium earned by the Company witnessed strong

growth of 21% with growth in both individual and group premium. The table below summarizes the performance of the Company over the year. Decline in income from investment is primarily due to lower unrealized gains (mark to market gains) in equity portfolio of Unit Linked segment, attributed to tepid equity market performance during the year (Impact on UL segment is profit neutral for the Company as there is a corresponding reserve increase).

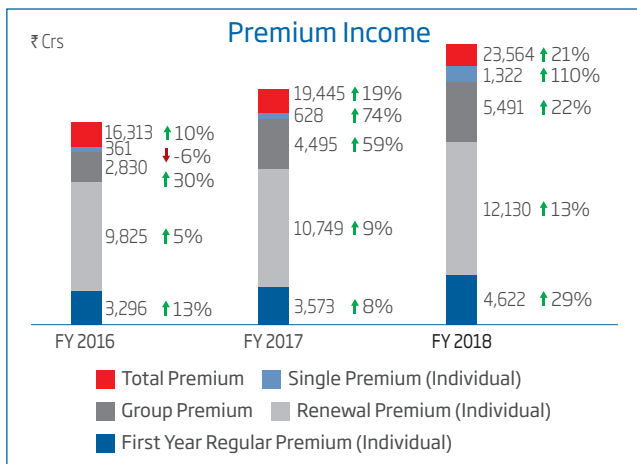

The Company also has been investing in technology platforms, which ensures ease of purchase for consumers while enabling rapid integration with distributors and products. This has resulted in an increase in the operating expense (excluding commission) ratio to 13.5%. The Premium inflows less benefits payouts increased by 10%, reflecting improving quality of business. The result of all the above factors is reflected in the 24% growth in the Profit after tax, which stood at ₹ 1,109 Crs.

Revenue

The total premium collected by the Company during the year observed increase of 21% from ₹ 19,445 Crs in FY 2017 to ₹ 23,564 Crs in FY 2018 due to healthy growth witnessed in new business and stable renewal premium accretion. The first year regular individual premium business rose by 29% from ₹ 3,573 Crs in FY 2017 to ₹ 4,622 Crs in FY 2018. During FY 2018, the Company has added nearly 10.50

lac new policies to its portfolio. The growth in first year premium is primarily driven by our multi-channel approach, coupled with a focus on meeting varied customer needs through our diverse product portfolio of 34 retail products and 11 group products, along with 8 optional rider benefits covering saving, investment, protection and retirement needs of its customers.

The Company's continued emphasis on better quality of business sourcing, customer retention and persistent efforts in customer education has resulted in increase in renewal premium (individual) by 13% from ₹ 10,749 Crs in FY 2017 to ₹ 12,130 Crs in FY 2018. The Company continues to lead in terms of Group business premium which has seen solid growth of 22% increasing from ₹ 4,495 Crs in FY 2017 to ₹ 5,491 Crs in FY 2018 on the back of protection-led Credit Protect business and steady performance in traditional group term insurance and fund based business.

Reinsurance ceded

The increasing proportion of protection business across individual and group segment over the last few years has contributed to the increase in Reinsurance ceded over this period. The reinsurance ceded increased by 13% from ₹ 171 Crs in FY 2017 to ₹ 193 Crs in FY 2018.

Management Discussion and Analysis

The income from investments includes income accrued on investments in the form of interest, dividend, etc. It also includes gains/losses realized from sale of underlying investments and unrealized gains/losses in the unit linked segment i.e. mark to market impact. The investment return in the unit linked segment is directly passed on to the policyholders with corresponding changes in the reserves; shareholders' profits would not have any material impact. The income from investments during the year decreased from ₹ 11,367 Crs in FY 2017 to ₹ 8,875 Crs in FY 2018, primarily due to lower mark to market gains in the unit linked segment compared to previous year. During FY 2018, BSE Sensex increased by 11% as against an increase of 17% in the previous year.

Other segments (non unit) including shareholders' account witnessed an increase in investment income from ₹ 2,811 Crs in FY 2017 to ₹ 3,549 Crs in FY 2018 mainly

due to realized gains increasing by ₹ 119 Crs compared to FY 2017 driven by favorable capital markets and higher interest and dividend income of ₹ 619 Crs on account of higher AUM built by renewals and new business premium.

• Other income

Other income mainly comprises policy reinstatement fees, interest on revival of policies, interest on policy loans, interest on income tax refund, income on unclaimed amount, etc. During the year, other income has increased from ₹ 104 Crs in FY 2017 to ₹ 125 Crs in FY 2018, primarily on account of one-off interest, amounting to ₹ 34 Crs earned in FY 2018 on Income Tax refund. Other income includes income on unclaimed amount of Policyholders of ₹ 41 Crs in FY 2018 and ₹ 62 Crs in FY 2017. The income on unclaimed amount is passed on to policyholders and is reflected in the liability for policyholders.

• Commission

₹ Crs	FY 2018				FY 2017			
	First Year	Single	Renewal	Total	First Year	Single	Renewal	Total
Premium	4,738	6,611	12,215	23,564	3,657	4,964	10,824	19,445
Commission	870	50	155	1,075	647	7	138	792
Commission (%)	18.4%	0.8%	1.3%	4.6%	17.7%	0.1%	1.3%	4.1%

The Company pays commission to its distributors on the premium income collected during the period. Commission rates on select products were revised in conformity with limits specified under IRDAI (Payment of Commission or Remuneration or Rewards to Insurance Agents and Insurance Intermediaries) Regulations 2016 effective from April 1, 2017. The commission expense increased from ₹ 792 Crs in FY 2017 to ₹ 1,075 Crs in FY 2018, an increase of 36%, in line with the underlying business growth, incremental commission rates and change in product mix. The increase in first year and single premium commission ratio reflects the change in product mix.

• Operating expenses

In line with its strategy, the Company has been working to ensure diversification and strengthening its distribution mix and make efficient use of technology to ensure ease of purchase for the customers. The focus on expanding distribution and enhancing use of technology has resulted in an increase in the operating expenses to total premium ratio to 13.5% in FY 2018 versus 12.6% in FY 2017.

In absolute terms, the operating expenses increased by 29%, driven by increase in costs related to employees, marketing, operational, IT and business development expenses, in line with the inflation and growth in business.

Employee-related costs form significant proportion of any insurance company's total costs, considering the nature of business. While the Company continues to focus on right-sizing its branches while improving the reach at the same time, the employee costs and infrastructure costs increased in line with the inflation and business growth potential.

Management Discussion and Analysis

With higher business volumes and various customer oriented initiatives, the Company also saw an increase in outsourcing costs especially telemarketing costs, collection charges and other operations related expenses owing to increase in premium collection through online modes (mainly through credit card). IT expenses increased due to Company's strategy of focusing on building a digital ecosystem across functions and customer interactions to improve organizational efficiencies.

The Company has also increased its spending on advertisement and publicity during the year, with an objective to increase insurance awareness and focus on protection business. There was an increase in the costs pertaining to web and branch branding and marketing campaigns and other operational expenses that are directly linked to the number of new policies acquired and underlying sum assured (Stamp duty and Medical fees).

• Benefits paid

₹ Crs	FY 2018			FY 2017		
	Unit Linked	Traditional	Total	Unit Linked	Traditional	Total
Surrenders & Withdrawals	7,328	996	8,324	5,668	738	6,406
Discontinuance termination	1,434	-	1,434	1,230	-	1,230
Maturity & Money Back (including Annuity)	1,359	1,048	2,407	904	841	1,745
Protection Claims (Death, Health & Rider)	257	691	947	222	398	620
Total Benefits paid	10,377	2,734	13,111	8,024	1,976	10,000

Benefits paid by an insurance company include the payouts made by the Company against claims on maturity, surrender, withdrawals, etc. The benefits paid by the Company during the year has increased to ₹ 13,111 Crs in FY 2018 from ₹ 10,000 Crs in FY 2017. The focus on need-based selling and other persistency-related initiatives have resulted in controlling surrenders and withdrawals. However, increase in surrenders and withdrawals from ₹ 6,406 Crs in FY 2017 to ₹ 8,324 in FY 2018 is owing to lower base effect as there were lesser surrenders in second half of FY 2017 due to lesser walk-ins following demonetisation in Nov'16.

The maturity and money back claims have increased due to higher number of policies completing their policy term and eligibility period for money back payouts respectively, than in the previous year. Also, protection claims have increased in line with expectation, on account of higher protection business written over last few years (Individual term, Group protection and Health).

• Other provisions

In accordance with the requirement of IRDAI accounting regulations, the Company has laid down the impairment accounting policy for recognizing diminution in value of investments and its subsequent reversals in Revenue/ Profit and Loss Account. At each balance sheet date, the management assesses impairment loss, incremental impairment loss and reversal of impairment loss that have been previously recognized. Impairment charge for diminution in the value of investments relates to the impairment loss to the extent of the difference between the re-measured fair value of the security/investment and its weighted average acquisition cost as reduced by any previously recognized impairment loss in Revenue / Profit and Loss Account. Positive charge for diminution in the value of investments in FY 2018 represents the net increase of impairment loss provision on securities during the year owing to fall in valuation price of the impaired securities, beyond the threshold defined in the approved Impairment Policy.

• Change in valuation reserves

₹ Crs	FY 2018				FY 2017			
	Unit	Non Par	Par	Total	Unit	Non Par	Par	Total
Change in Valuation Reserves (net)	3,385	5,186	4,751	13,322	8,073	3,929	4,052	16,055

Note: Non par includes non-unit portion of unit-linked business

Management Discussion and Analysis

Change in valuation reserves reflects change in the actuarial liability in respect of policies in force and for policies in respect of which premium has been discontinued but a liability still exists. The change in unit reserves represents the change in the fund value of policyholders' fund, under unit linked segment. The decrease in change in unit reserves from ₹ 8,073 Crs in FY 2017 to ₹ 3,385 Crs in FY 2018 is in line with reduction in investment income for unit linked segment, mainly driven by unrealized losses on the investments due to equity market movements (Refer note on Income on investment). The increase in change in reserves from other segments i.e. Par and Non Par reflects the increase due to new business and renewal premium payments which increases the liability under these policies.

Change in funds for future appropriation

₹ Crs	FY 2018	FY 2017	Growth
FFA - Profits transferred to Balance sheet for Par business	92	161	-43%

FFA - Profits transferred to Balance sheet for par business reflects the change in surplus arising from par business. The increase in FFA reduced from ₹ 161 Crs in FY 2017 to ₹ 92 Crs in FY 2018, due to higher new business strain in the participating fund due to higher volume of participating business.

Provision for tax

₹ Crs	FY 2018	FY 2017	Growth
Provision for tax (Revenue Account)	176	152	16%
Provision for tax (P&L Account)	18	22	-19%
Total Provision for tax	193	174	11%

The total provision for tax increased from ₹ 174 Crs in FY 2017 to ₹ 193 Crs in FY 2018 on account of increase in income from taxable segments as compared to previous year, leading to a higher provision for tax as compared to previous year.

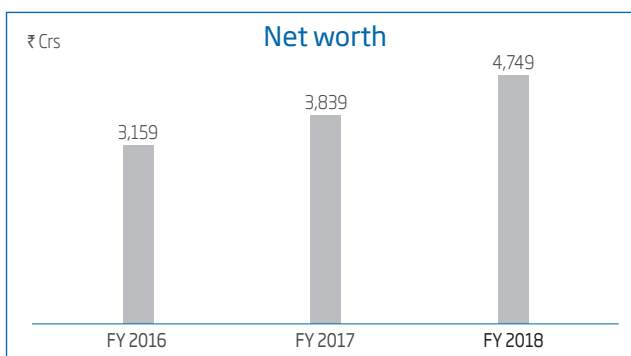

Profitability

The overall Profit after tax rose by 24% from ₹ 892 Crs in FY 2017 to ₹ 1,109 Crs in FY 2018 with profits arising from a strong back book off-setting new business strain resulting from new business growth. The Company also paid dividend of ₹ 329 Crs (including Dividend Distribution Tax) during FY 2018, compared to ₹ 264 Crs paid in FY 2017. The Company had total accumulated profits of ₹ 2,394 Crs as on March 31, 2018.

Capital and Solvency Ratio

The Company had no capital infusion (except through issuance of ESOPs under the relevant ESOP schemes) in the past 6 years signifying strong capital position which provides resilience to our balance sheet to comfortably manage business cycles. The Company is self-sufficient and has generated healthy profits across the years to fund growth opportunities through internal accruals. The overall share capital including share premium was ₹ 2,325 Crs. The net worth witnessed an increase of 24% during the year to ₹ 4,749 Crs as on March 31, 2018.

Management Discussion and Analysis

As against a regulatory minimum requirement of 150%, the Company has a stable solvency ratio of 192% as on March 31, 2018 despite paying dividend of ₹ 329 Crs and achieving healthy growth in new business premium. The Company's investment in its two wholly-owned subsidiaries viz., HDFC Pension Management Company Limited and HDFC International Life and Re Company Ltd is ₹ 28 Crs and ₹ 93 Crs respectively as on March 31, 2018.

Note: 1. RSM represents required solvency margin
 2. Dividend Paid including Dividend distribution tax (DDT)

Analysis of change in EV¹

Note:
 1. Calculated as EVOP (Embedded Value Operating Profit) to Opening EV

Management Discussion and Analysis

The Company delivered healthy operating return on EV over a period of time. The favorable experience compared to actuarial assumptions consistently reflected in positive persistency, mortality and operating variances over the last three years.

The NBM impact⁴ of the Product Committee recommendations (for increase in surrender value on non linked products) has been broadly assessed, assuming no other changes in product features or distribution costs. Overall NBM impact is expected to be <1% based on FY 2018 business. The actual impact would depend on the final regulatory changes.

Notes:

1. Please refer to the report from Milliman.
2. Post overrun total VNB for Individual and Group business.
3. The tax rate is assumed to increase from 14.56% to 25% and hence all the currently taxed profits in policyholder/shareholder segments are taxed at a higher rate. It does not allow for the benefit of policyholder surplus being tax-exempt as was envisaged in the DTC Bill.
4. Based on internal company analysis.

• Fund Performance

The Company has outperformed benchmarks across the major fund categories over both, medium and long-term horizon. The Company continues to strengthen its research capabilities to ensure consistent outperformance and continued to follow its investment philosophy of investing with a longer term

horizon in mind. More than 97% of debt investments in AAA rated and government bonds as on March 31, 2018. As on March 31, 2018, 78% of our unit-linked funds performed better than their respective benchmarks over a five-year period.

E. PERFORMANCE OF SUBSIDIARY COMPANIES

I. HDFC Pension Management Company

HDFC Pension Management Company Limited (“HDFC Pension”), a wholly-owned subsidiary of HDFC Life Insurance Company Limited, started its operations in August 2013. With 232,629 Customers and AUM of ₹ 2,560 Crs as on March 31, 2018, HDFC Pension is the fastest growing Pension Fund Manager under the National Pension System (NPS) architecture.

In FY 2018 it became the largest Private Pension Fund Manager by surpassing AUM of its competitors. Further, amongst Private Pension Fund Managers, HDFC Pension is #1 in total number of Corporates as well as total Subscribers (Corporate + Retail) registered with the Company for NPS. Amongst all the Pension Fund Managers, HDFC Pension is #1 in Corporate Subscribers’ base, #2 amongst all Pension Fund Managers in Net Fund Flow and #2 in Retail Subscriber base and AUM as on March 31, 2018.

Since inception, total number of Corporates and Corporate Subscribers registered by the Company, with the support of group entities HDFC Securities and HDFC Bank and other POPs (Points of Presence) is almost equal to total number of Corporates and Corporate Subscribers sourced by all other Pension Fund Managers put together.

The RFP for selection of Pension Funds was scrapped as government plans to relax FDI rules in the pension space. Confirmation on the same is still awaited. Post the FDI in Pension, fresh RFP to select Pension Fund Managers would be rolled out. There appears to be fair chance that the RFP for both Government and Private business would come together in some time.

II. HDFC International Life and Re Company

HDFC International Life and Re has successfully completed two financial years of operations and is steadily building experience in the GCC Life Reinsurance market. It has accelerated its revenue growth to 10 times the previous year’s numbers and continues to focus on the need for creation of stable and diversified revenue lines.

The business consists of both treaty and facultative reinsurance arrangements assumed from ceding companies, relating to a broad range of life insurance products across Individual Life and Group Life offered by such cedents.

The Company currently offers reinsurance capacity in UAE, Oman and Bahrain and is working towards expanding its footprint across the GCC (Gulf Cooperation Council) and MENA (Middle East & North Africa) regions.

Management Discussion and Analysis

F. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has institutionalized a robust and comprehensive internal control mechanism across all the major processes to ensure reliability of financial reporting, timely feedback on achievement of operational and strategic goals, compliance with policies, procedures, laws, and regulations. The Internal audit function provides independent and reasonable assurance about the adequacy and operating effectiveness of the Internal Controls to the Board and the Audit Committee. Internal audits are conducted by in-house Internal Audit ('IA') team and also by the co-sourced auditor (external chartered accountant firms). All significant audit observations and follow-up actions thereon are periodically reported to the Audit Committee and closely monitored for effective implementation. The internal audit function also tests and reports on adequacy of internal financial controls over financial reporting in line with the requirements of Companies Act, 2013.

The Company has also established an Enterprise Risk Management framework which is aligned to its strategy and values. The Risk management team on a periodic basis performs activities to identify various risks, assess exposure to the risks, develop control strategies, and report the same to the Risk Management Committee (of the Board) and the Risk Management Council (Internal).

G. HUMAN RESOURCES

The Human Resources department at HDFC Life is resolutely working towards making HDFC Life a great place to work. This is being attempted through five key levers that form the bedrock of our people strategy namely our guiding light - HDFC Life Values, competence-driven people development and growth, fostering happiness at work, performance-driven compensation and rewards schemes and technology for people.

HDFC Life values define the way we work at HDFC Life. Right from bringing the right person on board, to promotions, career development and all other business and people initiatives at HDFC Life, values remain our guiding light.

Talent management works on the philosophy of having the most skilled and engaged employees discharging their current roles, while developing a strong bench of ready talent. Internal talent was given ample opportunities to take up managerial roles, through a transparent, fair and scientific Internal Job Posting (IJP) process. Cross functional movements of talent were encouraged and enabled through talent review and assessment process to provide holistic understanding of business to employees.

For us to know the pulse of employee satisfaction at work, we ensure a dipstick snapshot, through employee engagement surveys. Our overall Employee Index Score for the year under review continues to be higher than the IBM 75th Percentile Benchmark, standing testimony to all that we do to keep our employees engaged.

Our employees are among our best assets and indispensable for our continued success. We expect to continue investing in hiring talent and providing competitive compensation programmes to our employees. Competition for qualified personnel in our industry is intense, so our compensation and rewards philosophy has been designed to be competitive with bias for high performance. This helps us in two ways - employees strive to earn more and thus perform and we tend to attract high performers from the market who are ready to walk an extra mile with us.

Aligning to our vision to be the "Digital Insurer" in the country, we have set up ecosystems and sales enablement processes for customer convenience. Replicating the same for employees, the HR journey is being built on the twin substratum of technology and innovation. The HR mobility platform is rapidly transforming employee workforce productivity across the organization.

Audit & Risk Management

ENTERPRISE RISK MANAGEMENT

Risk Management is an integral part of the overall business strategy and planning for any entity. It is essential that an organization has robust risk management policies that are aligned to its strategy and values. As an organization, HDFC Life firmly recognizes Risk Management as an integral building block to proactively manage risks and maximize opportunities related to achievement of its strategic objectives. The Enterprise Risk Management (ERM) framework within the Company operates as a feed-in system to various internal and external stakeholders, Management, and the Board of Directors.

The ERM framework adopted is enabled by the risk oriented enterprise level culture with established risk governance framework, characterized by:

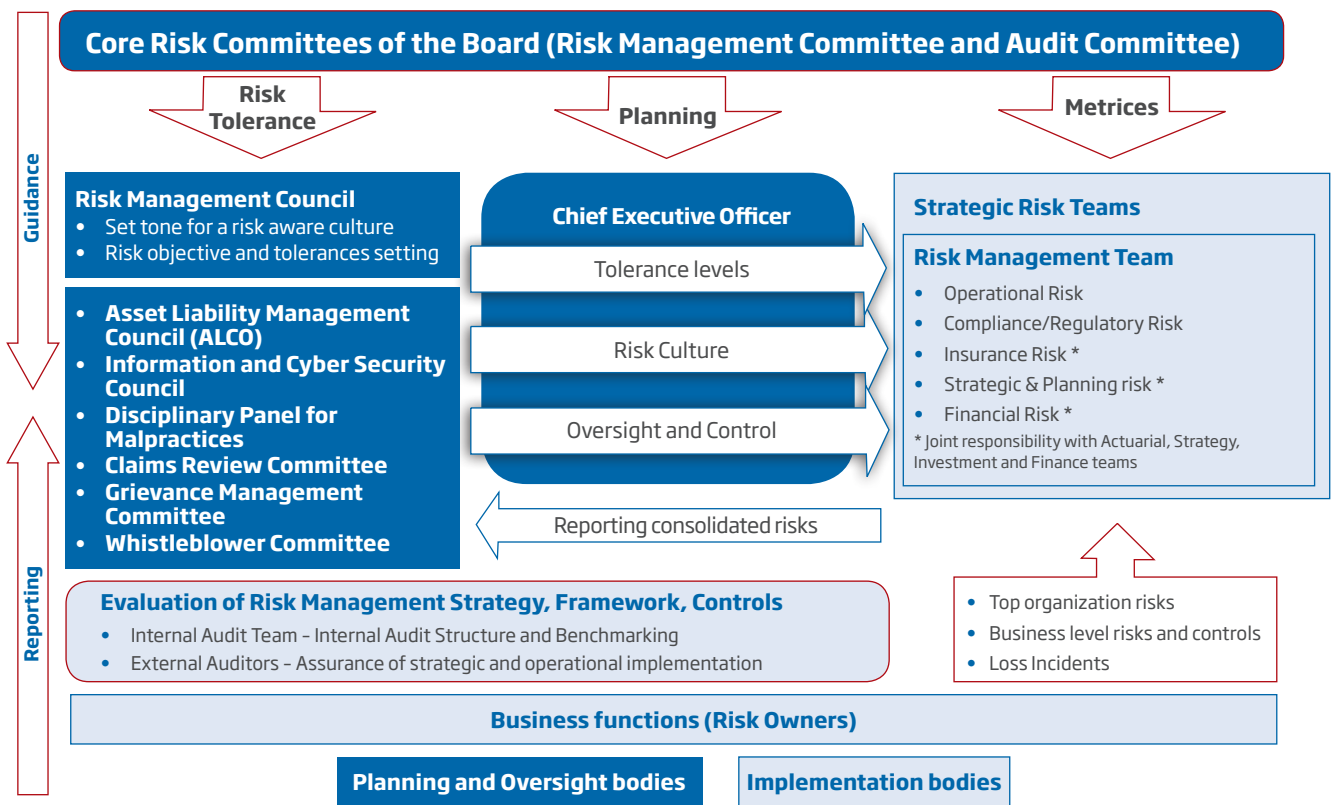

1. Risk management competency throughout the organization with a consensus that risk management is everyone's responsibility
2. An iterative process of identifying and evaluating risks, setting risk treatment strategies, and monitoring results
3. A dedicated Enterprise Risk Team with defined roles and responsibilities, which functions under the guidance and supervision of Chief Risk Officer ('CRO').

4. Risk oversight by Senior Management & Board of Directors, via Risk Management Council and Risk Management Committee respectively

The key objectives of ERM at HDFC Life are:

1. **Ensure** protection of the interests of our policyholders, shareholders, joint-venture partners, employees, all relevant stakeholders and adherence to internally devised value framework
2. **Ensure** complete adherence to applicable regulatory guidelines mandated by regulatory authorities are met unequivocally and maintaining an ethical & strong corporate governance culture
3. **Ensure** proactive identification, assessment, measuring, monitoring, management and reporting of risks with unambiguous objective of minimising risk and maximizing opportunities
4. **Assure** providing a systematic, structured, clear, comprehensive and dynamic mechanism for taking smarter yet informed decision making whilst addressing risk & uncertainty pragmatically
5. **Assure** risk management is tailor-made and not one-size fits all by taking human and cultural factors into account in building lean yet effective processes and promoting a strong risk culture

ERM Framework at HDFC Life

Audit & Risk Management

Tiered Management	Key roles & responsibilities
Planning and Oversight bodies	<ul style="list-style-type: none"> • Determine the strategic direction of the organization and create the environment and the structures for risk management to operate effectively • Guidance for development of Risk Management Framework • Oversight of prudential management of risks, vis-à-vis objectives • Advice and appraise the Board and Management of risks and opportunities, which may significantly impact strategic goals or priorities • Articulate the risk tolerance for the organization • Reviewing trends on malpractices as reported by the risk management team • Review Whistle Blower Policy implementation and treatment of cases as reported • Promote and evangelise the desired risk culture with appropriate rewards/incentives

Risk categories addressed through the ERM Framework

- **Operational Risk** - Risk of loss resulting from inadequate or failed internal processes, people, systems or external events including legal risk
- **Compliance/ Regulatory Risk** - Risks emanating from non-adherence to regulatory, judiciary and legislative mandates and guidelines, leading to fines and penalties
- **Strategy and Planning Risk** - Risks emanating from non-achievement of strategic objectives, deviation from strategic plans, external and internal factors
- **Insurance risk** - Risk arising due to adverse movement of mortality, persistency, morbidity and expense rates
- **Financial Risk** - Comprises of the following nature of risks:
 1. **Market Risk** - Risk of loss resulting from adverse movement in market prices across asset classes and investment positions
 2. **Liquidity Risk** - Market Liquidity Risk is inability to liquidate an asset and Funding Liquidity Risk is inability to meet obligations when due
 3. **Credit Risk** - Risk of loss resulting from the potential that counterparty defaults or fails to meet obligations in accordance with the agreed terms

4. **Asset Liability Mismatch Risk** - Risk due to uncorrelated / unmatched movement in the asset and liability cash flows on existing business and risk of future premiums being invested at low interest rates

RISK MANAGEMENT IN HDFC LIFE

HDFC Life is exposed to different types of risks emanating from both internal and external sources. The Company has in place a Risk Management team, which helps identify, take measures and mitigate each risk. The team is guided by the Company's Risk Management Committee, Risk Management Council and the Senior Management to develop and implement Risk Assurance practices on a pan-organisational basis. The Risk Management team at HDFC Life addresses various types of risks, ranging from those pertaining to strategy (concentration, persistency, direct tax exposure and investment risks) and operations (process, information systems) to those associated with financial processes (cost overruns) to regulatory processes (file and use requirements). Some of the key activities of the team include:

- **Finalising risk tolerances and metrics** - Tolerances for key risks are defined and monitored on a quarterly basis. This aids in management of key risks and evaluation of controls
- **Developing and monitoring risk registers** -

Audit & Risk Management

Function wise risks are identified and assessed for ascertaining the current risk score in each function. Key controls are evaluated for a review of risk inherent to each function of the organization

- **Implementing operational loss database** - All losses due to operational inefficiencies, human errors, and deficiencies in processes, systems or controls are recorded and monitored in an Operational Loss Database and reported to the Risk Management Council and Committee
- **Incident management** - An incident is any event that is not part of the standard operation of a service and causes, or may cause, an interruption to or reduction in the quality of service. Detailed root cause analysis is carried out for the same by respective stakeholders in conjunction with Risk team, which in turn is reported to the Management with impact assessment and corrective actions
- **Preventing enterprise level process risks** - Pre-launch risk assessments are conducted for key processes and critical processes are monitored on a periodic basis depending on the severity of the process.
- **Driving risk awareness** - HDFC Life believes that risk culture is the key to drive a process efficiently and effectively. Thus, risk management training is mandatory for all employees of HDFC Life

The ERM framework at HDFC Life encompasses a comprehensive set of practices, which has been integrated at a grass root level within all functions serving the core business as well as shared services. These practices have been developed with a centralised approach to ensure uniform implementation. The functions within the Audit and Risk Management team, responsible for implementation of Risk Management Practices have been highlighted in the following section.

A. ERM Team

The team performs activities to identify various risks, assess exposure of the risks, develop control strategies, and report the same on timely basis to the Board and Management. Some of the key risk management practices adopted are:

Risk Identification - At the corporate level, risk identification is done by Risk Management Team and identified Risk Owners. The risks are tracked and monitored through deployment of risk management tools like risk registers, risk assessments & mitigation projects. Risk tolerances are defined for each of the corporate risks. The risk is either quantified (where possible) or assigned a qualitative statement,

which forms the basis of the risk appetite. At the functional level, risk identification is undertaken by the relevant functional risk owners through RCSA (Risk and Controls Self Assessment). The RCSA is done with due cognizance to any loss events, audit findings, control lapses or significant developments in external environment. The risk management team aids in assessing the risks and arriving at aggregation of risk scores. Additionally, risks identified in the Functional Risk Registers are managed through developing mitigation strategies, and the same are monitored and reported to relevant governance bodies.

Risk assessments are required for major projects, new products, business practice changes, etc. to ensure that the potential risks are preempted. Risk team's sign off will be a mandatory step for every critical project before going live. This is required to foster a culture of early identification of risks and plan mitigation measures, thus ensuring achievement of process objectives.

Risk Management team conducts regular thematic Risk Reviews based on inputs from Audit Committee of the Board, Risk Management Committee of the Board & Risk Management Council. These reviews include areas under Operations, Finance, Strategy, IT (including Data Leakage, Cybersecurity), HR, Investments etc.

Analysis and Assessment - Based on the levels of risks defined, Risk assessment helps in prioritization of the risks.

Operational Loss Database and Incident Management - All losses due to operational inefficiencies, human errors, and deficiencies in processes, systems or controls are recorded and monitored in an Operational Loss Database and reported to the Risk Management Council and Committee. Incidents are to be reported to Risk team by respective departments. An incident is any event that is not part of the standard operation of a service and causes, or may cause, an interruption to or reduction in the quality of service. Detailed root cause analysis is carried out for the same by respective stakeholders in conjunction with Risk team, which in turn is reported to the Management with impact assessment and corrective actions. Losses incurred on account of such incidents will be incorporated in Operational Loss database as well.

Risk Treatment - In HDFC Life adequate internal controls are established and maintained to control the exposure to each source of risk. This involves the following strategies in order to reduce the risk. Multiple strategies can be used per risk event and strategies may change with time.

Audit & Risk Management

- **Risk avoidance:** In this strategy HDFC Life decides not to engage in activities that would give rise to the risks that it perceives may breach its risk appetite
- **Risk transfer:** In this strategy HDFC Life transfers risks where exposure can be passed to third parties at an acceptable cost
- **Risk mitigation:** In this strategy, HDFC Life ensures that it has adequate controls in place to ensure the risk is within its defined appetite
- **Risk acceptance:** In this strategy, HDFC Life accepts the risk as it typically would be at a residual level where limited controls can be placed or cost of controls outweighs the benefits of controls planned. There is a formalized process of accepting risk by way of signing the RAF (Risk Acceptance Form) by process owner, reviewed by the Risk team.

B. Risk Monitoring and Control Unit ('RMCU', Fraud Management at HDFC Life)

Fraud Risk Management is an integral practice and is central to the ethics and value system of the Company. This is directly influenced by our promises to various stakeholders be it the policyholders, shareholders, or the regulatory authorities governing the industry and law enforcement agencies of safeguarding their interests. The salient objectives with which the Risk Monitoring & Control Unit operates have been institutionalized below:

- Determine the misconduct and fraud risks that can undermine or negatively impact our strategic objectives
- Design and implement anti-fraud programs and controls which are effective in reducing negative incidents or events
- Reduce the exposure to corporate liability, litigation, and sanctions that may arise from violations of stakeholder expectations and law
- Achieve the utmost levels of business integrity through sound corporate governance, transparency, and robust internal controls

Some key fraud risk management practices adopted by the Organization are:

Values Program - The Values Program within HDFC Life has been defined with the objective of imbibing the Values of the organization at all levels starting from senior management to the grass roots level. The program is spearheaded by two Chief Value Officers (CVO) and implementation is driven by the Value Ambassadors and Value Guardians

The Value Ambassadors, along with the CVOs, undertake an outreach programme on Value awareness, mentor the local leadership and 'own' the branches from 'Values' perspective. The Value Ambassadors are supported by 'Value Guardians' in branches, who help in embedding the Values in every employee through execution of various Values initiatives. 'Value Guardians' are the first line of oversight at the branches and help spreading awareness on Values and adherence to it.

Malpractice Matrix - The Malpractice Matrix is an integral part of HDFC Life's Code of Conduct. As an ethics-driven organisation, we realize the importance of having a proactive deterrent in place to ensure that any kind of Malpractice is dealt with, at the right time and with the right action, to ensure minimum adverse impact. The Matrix includes a comprehensive list of malpractices, which we might come across during the course of the Company's operations. Thus, it has been designed to achieve the following objectives:

- To provide a comprehensive framework for monitoring of operational activities
- To take action against the erring parties
- To ensure transparency in dealing with internal and external risks

Disciplinary Panel for Malpractices - A separate panel has been set up comprising of Sr. EVP & Chief Human Resource Officer (Chairperson), ED & Chief Financial Officer, Chief Distribution Officer, Chief Values Officers, EVP - Audit & Risk Management and Company Secretary & Head - Compliance & Legal. Cases with high risk and impact are referred to the Panel for guidance and decision. Additionally, fraud risk assessments carried out by the team are also presented to the Panel to apprise them of fraud risks being faced by the Organization across geographies, channels etc and guidance taken for development of mitigation strategies.

C. Business Continuity Management Group

The Business Continuity Management team operates through a three-tiered strategy. The first step is to create a Business Continuity Plan for the critical business activities of a function or process. The Business Continuity Management Group undertakes the Business Impact Analysis (BIA) while evaluating the processes and services based on the disruption of services to assess customer impact, financial and non-financial impact as well as regulatory impact. Basis this analysis, Recovery Time

Audit & Risk Management

Objective (RTO) of business critical services are identified, which defines time within which services need to be made available and Recovery Point Objective (RPO) is defined which provides maximum targeted period in which data might be lost from a technology service due to an outage or major incident. The Business Continuity Management Group draws inferences from these analyses and devises recovery strategies for stress scenarios such as technology unavailability, people unavailability and site unavailability to minimize potential business loss.

D. Information Security

The Company has a well-defined information security policy including areas of cyber security that ensures all information assets are safeguarded by establishing comprehensive management processes throughout the organization. The Information and Cyber Security Council acts as the internal governance body to monitor and address these risks.

E. Internal Audit

The Company has institutionalised a robust and comprehensive internal control mechanism across all the major processes to ensure reliability of financial reporting, timely feedback on achievement of operational and strategic goals, compliance with policies, procedures, laws, and regulations.

The Internal Audit Function at HDFC Life works closely with other verticals in Audit & Risk Management (ARM), considering relevant material inputs from Risk Control and Self Assessments (RCSAs), risk prevention and mitigation reports etc. Internal audits are conducted by both the in-

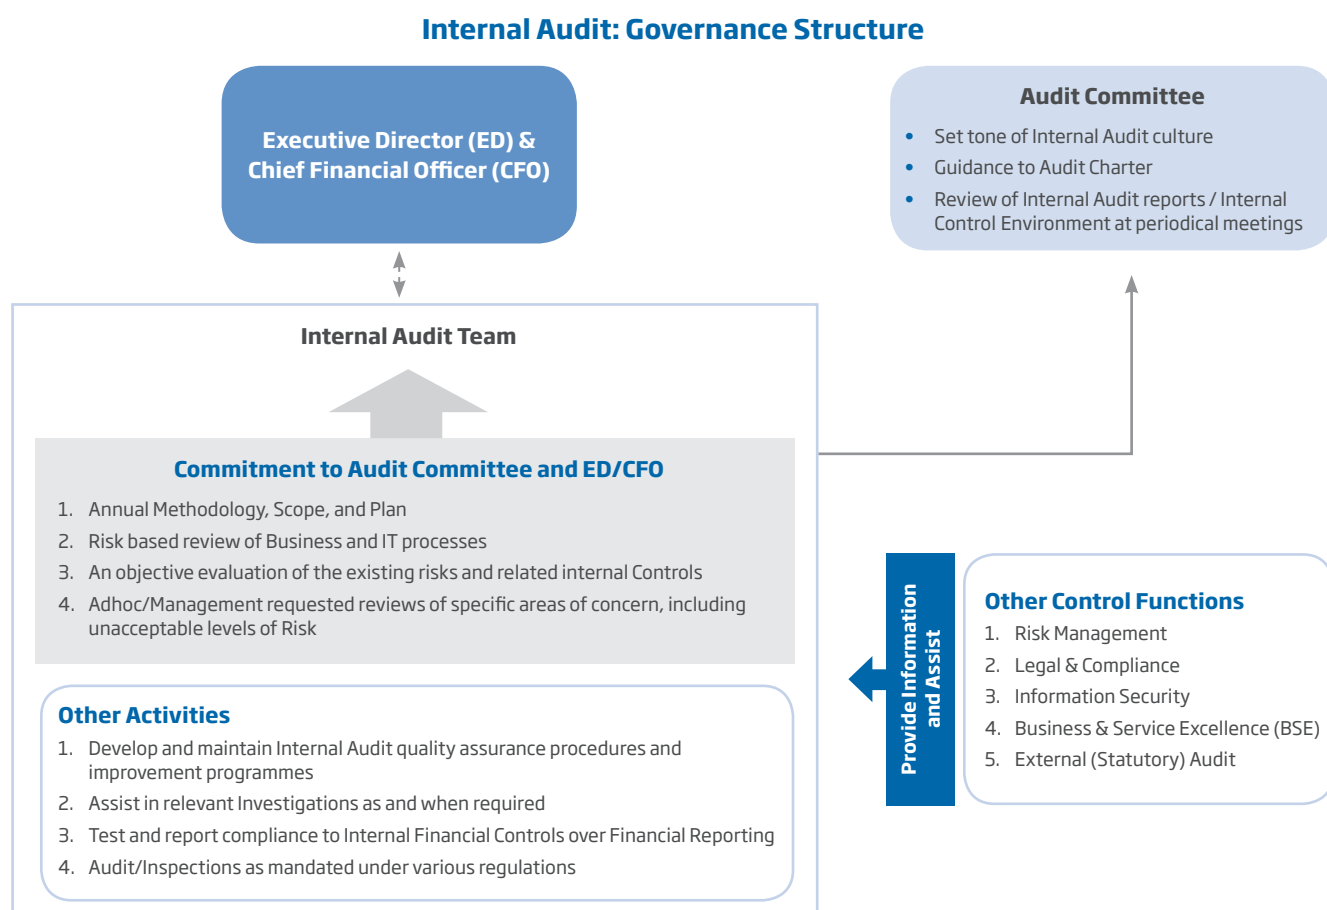

house Internal Audit ('IA') team as well as the co-sourced auditor. The function also undertakes follow-up on audit engagement findings and makes recommendations in line with the approved framework.

Internal Audit Management Framework operates with the following objectives:

- **Scope:** Scope and authority of the Internal Audit activities are well defined in the Internal Audit Charter, approved by the Audit Committee of the Board
- **Approach:** Risk based internal audits are carried out across all departments, functions and branches based on the annual internal audit plan duly approved by the Audit Committee
- **Objective:** To test, objectively and independently, the design and operating effectiveness of the internal control environment
- **Assurance:** To provide independent and reasonable assurance about the adequacy and effectiveness of the Internal Controls to the Board and the Audit Committee
- **Reporting & Monitoring:** The Audit Committee of the Board periodically reviews IA's findings and provides guidance as well. The Management of the Company closely monitors the internal control environment to ensure that IA's recommendations are effectively implemented

Audit & Risk Management

Internal Audit Governance Framework operates in tandem with the following objectives:

Internal Financial Controls

Statutory Auditors are required to report on the adequacy and operating effectiveness of the internal financial controls ('IFC') over financial reporting. However, ensuring adequacy and operating effectiveness of the internal financial controls system still remains with the Management including Directors, and the persons charged with governance in the Company.

The Company has institutionalized a robust and comprehensive internal control mechanism across all the major processes.

Internal audit function, in addition to ensuring compliance to policies, procedures, regulations, processes, etc., also tests and reports on adequacy of internal financial controls over financial reporting.

Business Review and Outlook

Industry Outlook

The growth trajectory in life insurance business continued post demonetisation drive, in FY 2018, aided by the macro-economic factors and demographic profile.

Within the life insurance industry, private life insurers maintained faster growth momentum and consolidated their market share in Individual segment while Life Insurance Corporation of India ("LIC") continues to dominate the Group segment.

Improving macro trends in emerging markets and India, increase in financialisation of savings and robust equity markets was reflected in 24% growth in Individual New Business Weighted Received Premia (WRP) and 4% growth

in Group premia for the private players, during FY 2018. At an industry level, the sector witnessed growth of 19% in Individual New Business WRP and 5% in Group premia during FY 2018.

There has been a steady increase in the proportion of business generated through Bancassurance contributing 54% of total individual reported new business during nine months ended December 31, 2017 across all private players (Source: Public disclosures). On the product front, capital market performance and transparent product structures have helped increase the pull for Unit Linked Insurance Products ("ULIP"). With an objective to boost profitability, private players have also been focusing on protection (Term) business in last few years.

Company Performance Business Performance

The total new business premium during FY 2018 increased by 32%, to ₹ 11,350 Crs versus ₹ 8,621 Crs for last year. Of this, our individual Annual Premium Equivalent ("APE") grew by 31% to ₹ 4,887 Crs and group new business premium showcased strong growth of 22%.

Our total premium during FY 2018 was ₹ 23,564 Crs compared to ₹ 19,445 Crs during FY 2017, registering a robust growth of 21% driven by strong new business growth and 13% growth in our total renewal premium, from ₹ 10,824 Crs, to ₹ 12,215 Crs.

The Company continues to focus on its stated long term strategy as described below:

Driving balance across the business:

HDFC Life continued to widen its presence and distribution touch-points, through several new tie-ups and partnerships comprising 149 Bancassurance partners across NBFCs (Non-Banking Financial Company), MFIs (Micro Finance Institutions), SFBs (Small Finance Bank), etc. and 22 partnerships within non-traditional ecosystems as on March 31, 2018. Last year Company had 126 partnerships across the two sub categories, reiterating our focus on ensuring balance in distribution and enhancing penetration through such partnerships.

HDFC Life has a diversified distribution mix, with Bancassurance channel accounting for 33% of its total new business premium for FY 2018, 7% contribution by Agency Channel, 10% by Direct Channel, 2% by Broker Channel and Group business contributing 48%. Within group segment, protection continued to be a key focus area and formed 50% of the Company's group new business. During FY 2018, all the channels delivered healthy double digit growth over last year and continued to be independently profitable, based on post overrun new business margins.

HDFC Life strives to maintain a balanced product mix with ULIPs contributing 57% and Conventional products forming

Directors' Report

43% of the Individual APE. The Company also continued its focus on protection business, wherein its contribution to individual new business APE increased to 5%, up from 4% in the last year. Contribution of the Protection segment to total new business received premium increased from 22% in FY 2017 to 26% during FY 2018.

The new business sum assured increased by 22% to ₹ 473,445 Crs (from ₹ 388,757 Crs last year), clearly demonstrating the focus on protection driven business. Underlying number of lives insured by the Company during the year increased from 2.1 Cr lives last year to 3.3 Cr lives.

Re-imagining life insurance business, leveraging technology, and catering to continuously evolving customer preferences:

With the increasing digital footprint and adaptation of technology across financial services sector, the Company continues to focus on identifying niche areas to leverage technology and reimagining the life insurance journey. In order to remain competitive, while improving ease of customer on-boarding and servicing, the Company continued to invest in innovation across business operations which are reflected in the new distribution partnership tie ups and new products being sold by the Company.

HDFC Life has been a pioneer in introducing niche products catering to untapped protection and pension needs in India. During FY 2018, the Company continued to drive product innovation, launching new products like Cardiac Care, Group Health, Pension Guarantee Plan etc., targeting varied customer needs.

Digitisation remained a key theme for the Company to migrate customers online, both directly and through deep integration with the partners. These are reflected across enhancements in consumer journey on mobile app, content management system enabling faster rollout of new business rules and e-Insurance account integrations for dematerialisation of insurance policies amongst other things.

HDFC Life continued to focus on mobility driven solutions, which are augmented through asset light operations, paperless customer journey, straight through processing and mobile enabled sales and service approach.

HDFC Life has a technologically advanced and mobile friendly corporate website. During FY 2018, 99.9% of its new business was initiated through digital platforms. 74% of the Renewal payment came through online modes. HDFC Life leverages automation and robotics thereby automating 88 internal processes. About 96% of the front line sales force is active on digital platforms and 54% of post sales verification calls were completed through InstaVerify (video based authentication mobile app). More than 44,000 queries and transactions were processed through policy servicing mobile app InstaServ.

The persistency ratios continue to trend strongly across various cohorts. The 13th month persistency based on total premium including individual and group business increased to 87% versus 84% last year, however 61st month persistency was at 51% compared to 59% last year. This reduction was primarily due to the impact of specific cohorts of business written in FY 2013.

Maintain profitable growth

In FY 2018, HDFC Life earned Profit after tax (PAT) of ₹ 1,109 Crs, versus ₹ 892 Crs in FY 2017, i.e. an increase of 24%. The Company ended FY 2018 with an accumulated profit of ₹ 2,394 Crs, post payment of dividend (including dividend distribution tax (DDT)) of ₹ 329 Crs.

The Embedded Value (IEV methodology) was ₹ 15,216 Crs as on March 31, 2018 with robust Operating return on Embedded Value (EVOP/Opening Embedded value) of 21.5% during FY 2018 versus 21.7% for last year.

HDFC Life continues to maintain healthy post overrun new business margin (based on actual expenses) of 23.2% versus 22.0% for last year.

The Operating expenses (Opex) to total premium ratio was at 13.5%, which reflects continued investment in growth opportunities i.e. strengthening our distribution and technology.

The Assets under Management (AUM) of the Company crossed the milestone of ₹ 1 trillion mark during FY 2018 which reflected a growth of 16% to ₹ 106,603 Crs as on March 31, 2018 versus ₹ 91,742 Crs, as on March 31, 2017 backed by healthy business performance and persistency. HDFC Life maintained a steady debt-equity proportion of 61:39 as on March 31, 2018.

HDFC Life continues to harness the long term growth potential of the sector, with specific focus on protection. The Company had a robust year with strong growth and continued to deliver consistent performance across all metrics. The balanced product mix, diversified distribution network and customer centric approach has helped deliver profitable growth and shareholder value. In line with the stated strategy, the Company will continue to work hard and invest in leveraging technology and re-imagine the life insurance business.

Policyholder and Customer Service

Customer Centricity is a core value at HDFC Life and the Company is constantly working towards empowering the customer to realise all policy specific needs instantly and effortlessly. With this vision, several initiatives spanning departments and policy stages were undertaken during FY 2018 including the following:

1. Improved customer onboarding with faster issuance by deployment of an automated underwriting tool which processes 88% of the applications. 60% customers are now verified through the Instaverify app making it a seamless process, and the Company

Directors' Report

expect this to grow with additional features of offline mode verification and vernacular capabilities. Issuance of policies in Demat mode took off in a big way during FY 2018, with more than 1 lac policies issued.

2. The Company's digital service platforms are aligned to changing customer expectations and enabled with a range of self serve capabilities. The customer service portal - My Account - was revamped this year with new services such as profile updates, nominee changes etc. More than 85% ULIP transactions are now processed through My Account. Our customer mobile app has registered more than 36,000 users and is continuously being enhanced with launch of additional features such as renewals, revivals, policy preview etc.
3. SPOK, the Company's email bot fulfils premium statements and unit statements requests instantly and has catered to thousands of requests. Neo, our bot for Twitter, fulfil requests such as fund value and premium due date etc for customers on the social platform. These automated service options are also available on the Company's online Webchat platform including option of agent assistance. Focusing on availability of service through a customer preferred touch-point the Company leveraged its partner network by integrating with HDFC Bank Netbanking portal for payments and access to policy details. InstaServe, the Company's platform for providing digitally enabled servicing to the customer at branches also saw significant adoption.
4. Newer payment options for renewal are witnessing significant adoption. eSI and SI-on-cards was enabled on QuickPay and MyAccount. Standing instructions can now be registered online without needing the customer to go through burdensome paperwork. Renewals for NRI customers have also been made easier by providing options for payment through international cards. Customer touchpoints are now supported by a robust backend Customer Servicing & Policy Servicing ("CSPS") platform. It has enabled real time resolution or hourly Turnaround Time ("TAT") with more than 90% transaction closure in 24 hours and with better service quality. CSPS also provides a synchronised view of transactions and communications, which is available across touch-points, providing a unified view.

Directors' Report

HDFC Life's product portfolio comprises of solutions catering to the varied individual customer needs across Protection, Pension, Savings, Investment and Health category. HDFC Life also offers different products for varying needs of employers, ranging from term insurance plans for pure protection to voluntary plans such as superannuation and leave encashment.

HDFC Life has continuously focused on creating differentiators to meet customer needs and expectations. The Company has proactively identified and owned niche customer segments and product categories, to drive innovation in the industry. The Company aspires to attain leadership position in select identified segments, by delivering unique sales, products and service experience.

During FY 2018, HDFC Life launched an innovative deferred pension single premium annuity plan known as HDFC Life Pension Guaranteed Plan. This is the only annuity product that can be bought up to 10 years before the planned retirement age with an income guaranteed today that will start at the planned retirement date.

HDFC Life has also introduced HDFC Life Click2Protect 3D plus, which is first of it's kind in the Indian life insurance industry and provides comprehensive cover against death, terminal illnesses and disability, along with competitive premium prices and flexible features such as whole life coverage, various income options and top-up option that increases coverage against the inflation rate.

A niche health product known as HDFC Life Cardiac Care plan was also launched which provides financial support against 18 cardiac ailments.

Given the low penetration of health insurance in India, the Company further explored opportunities in this space in order to increase the spectrum of coverage by introducing HDFC Life Group Health Shield and Click 2 Protect Health.

HDFC Life is the first life insurer to introduce a comprehensive health product under group platform covering Critical Illness, Surgeries, Daily Hospital Cash, Cancer Cover, Cardiac cover and Personal Accident.

Click2Protech Health is a Combi offering wherein the customers can purchase a HDFC Life's Click2Protect 3D plus along with Apollo Munich's Optima Restore as one product at a discounted price. These two products combined into one offer the benefit of comprehensive protection and health indemnity benefits at an affordable cost.

At the end of FY 2018, HDFC Life had 34 Individual and 11 Group products, with 8 Riders available for it's customers.

Human Resource and People Development

What makes HDFC Life a 'Great Place to Work' year on year? This question never ceases to monopolise our thought processes. And not surprisingly, the consistent and vehement answer to this is always found to be inextricably linked to the quality of people that make us who we are.

To preserve this valuable strength, HDFC Life is resolutely working towards making the Company, not just a happy place to work, but the happiest and best place to work! This is being attempted through five key levers that form the bedrock of our people strategy:

A. Our guiding light - HDFC Life Values:

Despite rapid growth in the last few years, the Company continues to cherish its roots and the principles that have enabled this momentum. Being front runners in the industry that secures people's life and money, it is of utmost criticality that the Company's business rules and people processes are designed with the right set of principles reflecting the customer at the center of all our dealings. HDFC Life Values define the way of work at HDFC Life. Right from bringing the right person on board, to promotions, career development and all other business and people initiatives at HDFC Life, Values remain our guiding light. The Company strives to hire the best talent from the market, each of whom is most synergistic with HDFC Life's culture and competence requirements. As an added filter the Company has also institutionalised tests and tools at all the above stages of employee life cycle to weed out those who may potentially not live by organisational requirements.

B. Competence driven people development and growth:

Talent management works on the philosophy of having the most skilled and engaged employees discharging their current roles, while developing a strong bench of ready talent. HDFC Life continued with its robust talent review and development processes, which assessed potential and developmental needs of talent across the board. Output of these reviews aggregated into structured learning interventions that were executed by top institutions like ISB, INSEAD and the IIMs.

Internal talent was given ample opportunities to take up managerial roles, through a transparent, fair and scientific Internal Job Posting (IJP) process. Cross functional movements of talent were encouraged and

Directors' Report

enabled through talent review and assessment process to provide holistic understanding of business to employees. Testimony to the robustness of the process is the fact that the Company was able to fulfill 71% of the vacancies at leadership level through internal talent.

The Company's Learning & Development ("L & D") framework boasts of specialised, talented and experienced resources who ensure that interventions get customised to specific and special training needs, thereby maximising impact and efficacy. During the course of the year, the core focus area has been implementation of the digital learning solution - Mlearn, our mobile learning app which instantly enhanced the learner reach and flexibly.

C. Fostering happiness at work:

To understand the pulse of employee satisfaction at work, HDFC Life undertakes employee engagement surveys. The overall Employee Index Score for the FY 2018 continues to be higher than the IBM 75th Percentile Benchmark, standing testimony to the fact that we keep our employees engaged. HDFC Life's employee connect program, Sparsh is an established platform for employee recognition and connect. This platform also ensures transparency and open dialogue among management and employees. Various awards like Employee of the Year, Employee of the Quarter, Best Values Ambassador etc, reward not just performance, but also alignment to HDFC Values.

D. Performance driven compensation and rewards schemes:

Our employees are our most valuable assets and indispensable for our continued success. HDFC Life expects to continue investing in hiring talent and to provide competitive compensation programs to our employees. As of March 31, 2018, HDFC Life had 17,601 full-time employees. Competition for qualified personnel in our industry is intense, so our compensation and rewards philosophy has been designed to be competitive with bias for high performance. This helps us in two ways - employees strive to earn more and thus perform and the Company tends to attract high performers from the market who are ready to walk an extra mile with us.

E. Technology for people:

Aligning to our vision to be the "Digital Insurer" in the country, the Company has set up ecosystems and sales enablement processes for customer convenience. Replicating the same for employees, the Company's journey is being built on the twin substratums of technology and innovation. The resultant first state of the art output offering, the HR mobile application, has built an enviable

mobility platform that is rapidly transforming employee workforce productivity across the length and breadth of the organisation.

F. Particulars of Employees

The statement containing particulars of employees as required under Section 197 read with Rule 5(1) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, annexed as 'Annexure 5' to the Directors' Report.

In accordance with the provisions of Rule 5(2) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, the names and particulars of the top ten employees in terms of remuneration drawn and of the aforesaid employees are set out in the Annexure to this report. In terms of the provisions of Section 136(1) of the Companies Act, 2013 read with the rule, the Directors' Report is being sent to all shareholders of the Company excluding the said annexure. Any shareholder interested in obtaining a copy of the annexure may write to the Company.

Investments

During FY 2018, there was significant improvement in economic activity across the world. The outlook for the US economy improved markedly as US President unveiled a sharp reduction in domestic corporate tax rates. Other large economies in Europe saw a revival in activity aided by the easy monetary policy maintained by their respective Central Banks. The revival in growth also led to a pick-up in commodity prices and helped the commodity exporting countries to improve their macroeconomic parameters.

Meanwhile, India witnessed a momentous change in its economy over the last year, with the introduction of the Goods and Services Tax (GST). The GST replaced a raft of different State and Central indirect taxes with uniform taxation rates across the country. The GST is expected to improve the efficiency of economic activity as well as help drive the economy to greater formalisation, as businesses that had largely stayed outside the formal reporting framework, join in under the GST regime.

The initial two quarters of the year witnessed a slowdown in economic growth as businesses adjusted inventory and output around the time of the GST introduction. However, the subsequent quarters have seen a rebound in activity. The synchronous growth in global economy and an improvement in the rural economy after a near normal monsoon season has helped sustain the revival in growth.

Earnings growth for listed companies picked up during the year as the revival in growth helped companies report higher revenues and profits. The equity markets had

Directors' Report

another stellar year supported by an increase in domestic financial savings into equities. The positive momentum of the markets was interrupted in the last two months of the year, as risk appetite, globally, took a hit on fears of aggressive rate hikes in the US.

Bond markets, however, had a year of modest gains as bond yields firmed up sharply during the second half of the year. The concerns over a slippage in the fiscal deficit for the Government along with a hardening of global bond yields pushed domestic yields higher.

The investment funds of the Company are managed as per the stated objectives laid down in the Investment Policy, Asset-Liability Management Policy ('ALM'), and respective Funds' objectives. These policies lay down the asset allocation and risk appetite guidelines for different funds, some of which have in-built guarantees. Fund allocation is tracked on a regular basis and is backed with suitable assets. During FY 2018, the asset allocation in the Company's conventional and shareholder funds was in line with the ALM policy.

HDFC Life's total AUM as on March 31, 2018, was ₹ 1,06,603 Crs. This comprised assets of ₹ 57,185 Crs held under the unit-linked funds and ₹ 49,418 Crs held under the conventional funds and shareholders' funds. The corresponding numbers for the previous year were ₹ 53,800 Crs and ₹ 37,942 Crs respectively.

Information Technology

HDFC Life intends to be the leading digital insurer in the country. This aspiration has been embedded into the business and operating model of the Company and all new or existing processes are being made digital ready. All business functions within the organisation are aligned to this objective. The objective of the technology department is to cater to these growing needs by leveraging technology to deliver revenue generating experiences that win, serve, retain customers and grow the business while keeping operational costs low. Technology is applied in areas that add value to distributors, customers & employees:

A. Sales and Distribution

The objective here is to provide distributors a seamless customer onboarding process which integrates with their primary business, avoids redundant data entry, is accessible anywhere, anytime and drives fast processing. The Technology Enabled Business Transformation (TEBT) program has, over the last 24 months, created a service driven architecture that has enabled the Company to be a preferred partner on technology capabilities. The Company has been working with its Bancassurance relationships and integrating with the bank CRM systems. STP (Straight

Through Process) which was implemented for one of the partner banks has now been extended to multiple partners enabling a frictionless customer onboarding process.

HDFC Life continues to use mobility across its business very effectively and new capabilities have been introduced in the current year with a focus on sales productivity. The features include India stack integration with auto form filling (e.g. with Aadhaar including IRIS authentication, and UPI), credit bureau integration, geo-location capabilities, auto financial planning, pre approved offers, expert on call, virtual sales assistant bot among others. The Company has also built an industry first "Uber model" for lead management and fulfillment. This allows the sales person to grab a lead that is geographically nearest to him and reach the customer in the shortest possible time.

HDFC Life has built a high performance platform for its group business especially group credit protect and group health business lines which in addition to allowing seamless integration capabilities to the distribution partners, is capable of processing very high volumes in an extremely short time.

The online business of HDFC Life continues to grow and the Company is cognizant of the need to be constantly more agile and responsive in this space. The Company has therefore embarked on the journey to build the next generation online platform which will allow for a better user experience and deeper partner integration.

B. Customers

The objective here was to provide instant, consistent and predictable service and increase the self service capabilities available to the customer.

Customer Servicing and Policy Servicing module (CSPS) was developed on the digital platform in line with this objective. More than 90% of customer request are now processed over the counter and more than 50% are closed within 10 minutes.

For service requests received via email, the Company has deployed NLP based artificial intelligence capability and on twitter the Company has deployed chats bots which respond to customer request which are objective in nature thereby providing instant response and can manage scale at a very low cost. The Company has developed a virtual service assistant which enables the customer service executive at any touch point to respond to customer queries on any product/process, since inception of the Company, instantaneously. The customer portal, mobile applications (customer app and sales app) have been enhanced with additional servicing capabilities thereby aligning to the objective of self service.

Directors' Report

C. Employees

The last two years have seen a rapid adoption of Robotics Process Automation (RPA) with over 50 Bots running within the Organisation across multiple functions. This has led to productivity gains among the workforce and has provided the capability to cater to the higher growth aspirations of the organisation in a cost efficient manner. Our revamped employee mobile app enables our employee to do multiple activities such as geo based attendance tracking, leave management, learning modules, complaints management, mediclaim etc. Our learning app is designed with self learning nuggets which are short videos/training which can enhance the knowledge of our employees on the go.

D. Technology Update

HDFC Life has established a new technology vertical to focus on the ecosystem partners. This vertical has employees who have started their careers with technologies available on the cloud and hence they are able to connect with their counterparts in the ecosystems which are mostly companies born in the cloud. HDFC Life has partnered with Amazon and is also working with Google to build various capabilities on the cloud which also is powered by infrastructure which can scale on demand. The Company is the first in the Indian financial services industry to create a data lake on the cloud. This data lake is the foundation for our data monetisation strategy and key to our plans with our ecosystem partners. The Company will be experimenting with data science and machine learning based solutions in the coming year. The Company has a strategy to build key capabilities in house and also partner with new age system integrators.

HDFC Life was instrumental in setting up an informal life insurance industry blockchain consortium which was supported by Ernst Young. This consortium identified multiple use cases and created proof of concept for couple of them. The consortium will continue to work to identify and implement some of the use cases in the coming year.

The Information Security Group continues to align with the National Institute of Standards and Technology (NIST) and Federal Financial Institutions Examination Council (FFIEC) for cyber security risk assessment which categorises the risk and provides visibility on the maturity level of the Organisation. A slew of cyber security initiatives have been implemented this year based on the roadmap presented to the Board. The Company has implemented security controls such as Next-Gen Firewall, Advance Persistent Threat Protection, Security Incident and Event Management, Brand Reputation & Anti-Phishing Management, DMARC for Email Security, Cyber Insurance.

HDFC Life has been recertified on ISO 27001:2013. The technology team received 13 industry recognitions this year for achieving excellence in Strategic Enterprise IT deployments including the Celent Model Insurer Asia and Data Center Summit Award.

Awards

The Company received various awards and accolades during the year under review across financial disclosures, customer service, technology, digital solutions, products, human resources, marketing, etc. The Company received the 'Economic Times Great Place to Work' award during FY 2018. The Company also received Gold award at the LACP Vision Awards 2016/17 for the third consecutive year and award for Excellence in Financial Reporting for their Annual Report FY 2017 from ICAI (The Institute of Chartered Accountants of India).

Regulatory Landscape

During FY2018, the Insurance Regulatory and Development Authority of India ("IRDAI" / "Authority") issued various regulations/ guidelines to further aid the growth of industry. Some of the key regulations/ guidelines etc., as notified include:

- Guidelines on Information and Cyber Security for Insurers to ensure that adequate systems and procedures are in place for ensuring that there is no leakage of information and information is shared only on need-to-know basis. Guidelines further prescribed that uniform framework for information and cyber security should be implemented for insurers and an in-built governance mechanism should be put in place.
- IRDAI (Insurance Web Aggregators) Regulations, 2017 notified in April 2017 laid down new provisions for payment of remuneration for direct online sales and allowed selling of existing products through web aggregators including for those products where the web aggregator is not mentioned as a distribution channel in the File & Use document. The web aggregators are now permitted to undertake outsourcing activities through tele-marketing and distance mode.
- A new set of Outsourcing Regulations came into force replacing the erstwhile guidelines on the same providing better clarity and definition of Outsourcing thereby helping in identifying activities to be considered/ excluded from the purview of Outsourcing further bringing clarity in regulatory reporting of such activities.

Directors' Report

- Protection of Policyholders Regulations 2017 were notified in June 2017 replacing the earlier regulations. The new regulations introduced the requirement to have a Board approved policy emphasising on various governance and control mechanisms to ensure that the insurer safeguards the policyholder's interests throughout the policy term and beyond, at the claims stage as well.
- Brokers Regulations were notified in January 2018 replacing the earlier regulations. The said regulation emphasises on business conduct both at the broker and insurer's end. New provisions have been introduced which require filing of regulatory returns to ensure compliance with the obligations mentioned under the said regulations.
- A Master Circular on Unclaimed amounts was notified which broadly consolidates various directives issued by IRDAI on the matter earlier and brings in clarity over time-periods and operational procedures for treating amount due to the policyholder but not yet paid by the insurer for various operational reasons.

Rural and Social Sector Obligations

HDFC Life maintains dedicated focus on undertaking rural business, and endeavors to tailor its products and processes to support these businesses, considering customer needs.

As part of its overall business, the Company has achieved prescribed regulatory targets of social and rural business, as follows:

Remuneration Policy

The remuneration policy, including the criteria for remunerating Non-Executive Directors is recommended by the Nomination & Remuneration Committee and approved by the Board. The key objective of the remuneration policy is to ensure that it is aligned to the overall performance of the Company. The policy ensures that it is fair and reasonable to attract and retain necessary talent, linked to attaining performance benchmarks and involves a judicious balance of fixed and variable components. The remuneration policy is placed on the website of the Company at <https://www.hdfclife.com/about-us/Investor-Relations>. The remuneration paid to the Directors is in line with the remuneration policy of the Company and in compliance with guidelines issued by the Insurance Regulatory and Development Authority of India.

Remuneration of Directors

Non-Executive Directors

The remuneration for Non-Executive Directors consists of sitting fees and remuneration for Independent Directors consists of sitting fees and commission. The fees payable to the Non-Executive Directors including Independent Directors for attending a Meeting of the Board or Committee thereof is decided by the Board of Directors from time to time within the limits prescribed under the provisions of the Companies Act, 2013.

The Board after considering performance of Non-Executive Directors and subject to the approval of members of the Company at the ensuing Annual General Meeting, has approved the proposal for payment of profit related commission for a period of five years effective from FY 2018 to each Non-Executive Independent Director

of the Company. The payments would be subject to the regulatory provisions applicable to the Company and availability of net profits at the end of each financial year. Sitting fees paid to Non-Executive Independent Directors are outside the purview of the above limits.

Details of the remuneration of Non-Executive Directors including Independent Directors are provided in Form No. MGT-9 which is annexed to this report.

Executive Directors

The Nomination & Remuneration Committee determines and recommends to the Board the amount of remuneration, including performance bonus and perquisites, payable to the Executive Directors subject to approval of members of the Company and approval of the Insurance Regulatory and Development Authority of India. The annual increments of the Executive Directors are linked to their performance and are decided by the Nomination & Remuneration Committee.

Details of the remuneration of Executive Directors are provided in Form No. MGT-9 which is annexed as 'Annexure 3' to the Directors' Report.

Disclosures pursuant to IRDAI Guidelines

IRDAI guidelines on Remuneration of Non-executive Directors and Managing Director/Chief Executive Officer/ Whole Time Directors of Insurers (IRDAI Guidelines) issued vide reference no. IRDA/F&A/GDL/LSTD/155/08/2016 dated August 5, 2016 requires the Company to make following disclosures on remuneration on an annual basis in their Annual Report:

Directors' Report

A. Qualitative Disclosures

- i. [Information relating to the design and structure of remuneration processes and the key features and objectives of remuneration policy.](#)

Information relating to the design and structure of remuneration processes

The Nomination & Remuneration Committee ("the Committee") is the body which oversees the remuneration aspects. The functions of the Committee include reviewing and approving, on an annual basis, the corporate goals and objectives with respect to the compensation for the Chief Executive Officer/ Whole Time Director/s. The Committee also evaluates at least once a year the Chief Executive Officer's/ Whole Time Director's performance in light of the established goals and objectives and based upon these evaluations, set their annual compensation, including salary, bonus and equity and non-equity incentive compensations. The compensation structure is within the overall limits as laid down by the members of the Company, and further subject to statutory and regulatory approvals including that of the Insurance Regulatory and Development Authority or such other body or authority as may be applicable.

The Company has under the guidance of the Board and the Committee, followed compensation practices intended to drive meritocracy and fairness. The Committee has oversight over compensation and defines Contribution Management System (CMS) and Variable Pay for Performance (VPP) philosophy for Executive Directors and the organisational performance norms for VPP based on the financial and strategic plan approved by the Board. The Committee assesses organisational performance as well as the individual performance for Executive Directors. Based on its assessment, it makes recommendations to the Board regarding compensation for Executive Directors and VPP for employees, including senior management and key management personnel.

Objectives of remuneration policy

The purpose of the remuneration policy is to put in place a framework for remuneration of Directors, Key Managerial Personnel and other employees, keeping in view various regulatory and other requirements. This policy is guided by the set of principles and objectives as particularly envisaged under Section 178 of the Companies Act 2013, which inter alia include principles pertaining to determining the qualifications, positive attributes, integrity and independence of Director etc.

Key features of remuneration policy

Attract and retain: Remuneration packages shall be designed to attract high caliber executives in a competitive global market and remunerate executives fairly and responsibly. The remuneration shall be competitive and based on the individual responsibilities and performance.

Motivate and reward: Remuneration shall be designed to motivate delivery of the Company's key business strategies, create a strong performance-orientated environment and reward achievement of meaningful targets over the short and long-term.

Non-monetary benefits: The Executives will be entitled to customary non-monetary benefits such as company cars and company health care, telephone etc. In addition thereto, in individual cases company housing and other benefits may also be offered.

- ii. [Description of the ways in which current and future risks are taken into account in the remuneration process](#)

HDFC Life ensures the effectual positioning of the compensation in line with the overall risk framework of the organisation. Different aspects of remuneration have been designed to ensure their applicability over a timeframe and cover the associated risks.

- The total compensation is aligned to the pre-defined balanced scorecard covering the people, financial, customer, and operational indicators of performance.
- The compensation payouts are regulated by compliant guidelines of the Malpractice matrix under the enterprise risk management framework of the organisation. Deferred payouts are guided and controlled by the framework in cases of integrity or any such related parameter.
- Significant component of the remuneration are spread across the time horizon risk in the form of Short Term and Long Term Incentive Plans.

- iii. [Description of the ways in which the insurer seeks to link performance during a performance measurement period with levels of remuneration](#)

HDFC Life follows a compensation philosophy of pay for performance and meritocratic growth in the organisation. There is linkage between pay and performance. In line with Company's pay for performance philosophy the compensation is designed to ensure that every employee will have at least a part of the total Compensation which

Directors' Report

will be linked to individual and/or Company performance. For senior management, the variable payouts depend upon the individual contribution and overall performance of the organisation. The performance is assessed on pre-defined balanced scorecard and the payout rate varies with the level of performance where significant merit increase and variable payouts are awarded to top performers. The organisation strives for higher variabilisation at senior levels thereby ensuring more focus on performance driven payouts.

During the FY 2018, the general business environment had been good for Pension Funds with the industry keeping up the momentum in line with the previous financial year.

The overall Assets Under Management ('AUM') of all the Pension Funds combined, i.e. corporate and retail sector, grew from ₹ 7,017.7 Crs as on March 31, 2017 to ₹ 11,965.8 Crs as on March 31, 2018, registering a growth of approximately 69%. The overall subscriber base of corporate sector grew by nearly 38%, with approximately 1,000 new Corporates joining the National Pension System ('NPS') architecture. The retail sector grew by almost 58%, with 6,91,578 subscribers as on March 31, 2018, in comparison to 4,37,088 subscribers as on March 31, 2017.

During the FY 2018, HDFC Pension registered an AUM growth of approximately 120%, crossing the milestone of ₹ 2,500 Crs and also registered itself as the number one player amongst Private Pension Fund Managers in terms of AUM. As on March 31, 2018, HDFC Pension's AUM stood at ₹ 2,560.3 Crs as compared to ₹ 1,163.0 Crs as at the end of previous financial year. In the Corporate sector NPS, HDFC Pension sourced 525 new corporates in FY 2018 commanding more than 45% market share in that particular space. The Company consolidated itself in the retail sector as well by registering a subscriber growth of 93%.

Legal matter

In 2014, the Pension Fund Regulatory & Development Authority ("PFRDA") issued a Request for Proposal ("RFP") inviting bids from Sponsors to select new pension fund managers. The bid submitted by HDFC Life as a sponsor to HDFC Pension was rejected by the PFRDA on the ground that it did not meet certain eligibility criteria under the RFP. The Hon'ble Delhi High Court, however, set aside the rejection, directing the PFRDA to grant a Letter of Appointment to HDFC Life thereby allowing the Company to continue its business. While the PFRDA issued a letter of appointment to HDFC Life, it also challenged the Hon'ble High Court's decision before the Hon'ble Supreme Court of India by way of a Special Leave Petition ("SLP"). The Hon'ble Supreme Court, by its order dated July 31, 2017, has dismissed the PFRDA's SLP and refused to interfere with the Hon'ble High Court's decision. Accordingly, the Letter of Appointment issued to HDFC Life stands unqualified, with the appointment of HDFC Pension as a pension fund manager being confirmed.

2. HDFC International Life and Re Company Limited ("HDFC International Life & Re")

In FY 2016, HDFC Life established HDFC International Life and Re Company Limited ("HDFC International Life & Re"), a Wholly Owned Subsidiary, in the Dubai International Financial Centre (DIFC). HDFC International Life & Re was established with the primary objective of offering life reinsurance capacity in the UAE and other GCC nations.

HDFC International Life & Re is regulated by the Dubai Financial Services Authority ("DFSA") and is licensed to undertake life reinsurance business in the UAE. It operates in the DIFC, offering reinsurance capacity to ceding insurers. It provides bespoke risk-transfer solutions, prudent underwriting solutions and value added services among others, across individual life, group life and group credit life lines of business. HDFC International Life & Re currently offers reinsurance capacity in UAE, Oman and Bahrain and is working towards expanding its footprint across the GCC (Gulf Cooperation Council) and MENA (Middle East & North Africa) regions.

HDFC International Life & Re's vision is to go deep into the processes of ceding insurers and see how it can impact the overall value chain and life cycle, as a very involved, informed and innovative reinsurer. This will be achieved on the back of technology initiatives and solutions that they intend to bring into the market.

Directors' Report

Financials and Business Outlook

During the FY 2018, HDFC International Life & Re earned a Gross Income of US\$ 1,929,588 while its expenses stood at US\$ 512,866. The period under review ended with a loss of US\$ 260,599.

HDFC International Life & Re continues to operate with technical profit, which is testimony to the strength of its underlying underwriting and risk assessment processes.

HDFC International Life & Re has successfully completed two financial years of operations and is steadily building experience in the GCC Life Reinsurance market. HDFC International Life & Re has expeditiously accelerated with revenue growth of 10 times of the previous year's revenues and has focused on the need for creation of stable and diversified revenue lines. Working closely with clients is the central focus of the strategy and HDFC International Life & Re looks to establish meaningful and long term business associations which are mutually win-win. HDFC International Life & Re has been working with ceding insurers to provide reinsurance support for long term individual life policies and also collaborate on facultative arrangement on group programs.

As HDFC International Life & Re get into the third year of operation, their aim is to continue building compelling reinsurance propositions which enable its clients to either break into new segments, expand market share or offer truly unique customer benefits. They are building technology enabled models which allow for differentiation from existing processes and propositions and look to deliver capital efficiencies by means of bespoke reinsurance and risk solutions.

HDFC International Life & Re's aim is to become partners in the journey of the insurers to help them realise their potential through reinsurance solutions which enable and empower them to innovate and optimise as per the needs of their market segments.

Swabhimaan / Corporate Social Responsibility

As part of its initiatives under Corporate Social Responsibility ("CSR"), the Company has undertaken projects in various areas including Education, Livelihood, Health, and Rural Development. These Projects are undertaken in line with the CSR Policy and are in accordance with Schedule VII of the Act, read with the Rules framed under the said Act.

A more detailed write-up including details of the CSR projects undertaken, their monitoring, details on the implementing agencies, amounts spent and the requisite

As per the provisions of the Act, an extract of the Annual Return of the Company (in the prescribed Form No. MGT.9) has been annexed as Annexure 3 to the Directors' Report, and forms part of this report.

Related Party Transactions

As per Section 177, read with Section 188 of the Act, the Audit Committee of the Board of Directors approves the related party transactions of the Company on a quarterly basis. Related party transactions entered during the year under review were in the ordinary course of business and on an arm's length basis, thus not requiring Board/Shareholders' approval.

The Related Party Transactions policy of the Company ensures proper approval and reporting of the concerned transactions between the Company and related parties. The policy on Related Party Transactions is placed on the Company's website at <https://www.hdfclife.com/about-us/Investor-Relations>.

During the year, there were no material individual transactions with related parties, which were not in the ordinary course of business and on an arm's length basis.

M/s GM Kapadia & Co, Chartered Accountants, reviewed the related party transactions for each quarter, and their report was placed at the meetings of the Audit Committee, along with details of such transactions.

As per Accounting Standard (AS) 18 on 'Related Party Disclosures', the details of related party transactions entered into by the Company are also included in the Notes to Accounts.

Ind AS Roadmap

The Ministry of Corporate Affairs (MCA) issued a press release on January 18, 2016, announcing the Indian Accounting Standards (Ind AS) roadmap for banking, insurance and Non-Banking Financial Companies (NBFCs), requiring companies to prepare Ind AS based standalone and consolidated financial statements for FY 2019 with comparatives of FY 2018. Consequently, IRDAI issued a circular dated March 1, 2016, to guide and facilitate insurance companies towards Ind AS implementation. In compliance with the above circular, the Company has formed a Steering Committee headed by Executive Director and Chief Financial Officer, along with members from cross-functional areas to initiate

Directors' Report

Ind AS implementation process in the Company. The Company has also nominated the nodal officer to IRDAI, to facilitate smooth implementation of Ind AS.

In accordance with the above referred circular dated March 1, 2016, the Company started submitting the proforma Ind AS financial statements from quarter ended December 31, 2016 to IRDAI.

During the FY 2018, the International Accounting Standards Board on May 18, 2017, issued the much awaited IFRS 17 Insurance Contracts which replaces IFRS 4, which was brought in as an interim Standard. The developments around release of IFRS 17 have resulted in the IRDAI reviewing the position in the matter of Implementation of Ind AS in the insurance sector in India.

Consequently, IRDAI issued a circular dated June 28, 2016, approving the Regulatory override whereby the implementation of Ind AS in the Insurance Sector in India has been deferred for a period of two years till 2020-21 and required insurance companies to continue with the quarterly submission of proforma Ind AS financial statements to the IRDAI till the revised implementation date.

Secretarial Audit Report

The Secretarial Audit as required under the Act, was undertaken by M/s NL Bhatia & Associates, Practising Company Secretary. The Auditor has not made any qualification, reservation or adverse remark or disclaimer in his Report for FY 2018.

The Secretarial Audit Report for the FY 2018 is annexed as Annexure 4 and forms part of this Report.

Auditors

M/s Price Waterhouse Chartered Accountants LLP (Firm Registration No. 012754N/N500016), and M/s GM Kapadia & Co, Chartered Accountants (Firm Registration No. 104767W), are the Joint Statutory Auditors of the Company.

The Joint Statutory Auditors have not made any qualification, reservation, adverse remark or disclaimer in their report for FY 2018. Further, during the FY 2018, the Joint Statutory Auditors have not come across any reportable incident of fraud to the Audit Committee or Board of Directors.

As per the IRDAI Regulations, a Statutory Auditor can conduct audit of an insurance Company for a maximum period of 5 years at a time. Further, as per the Act, an audit firm can be appointed as Statutory Auditor for not more than two terms of five consecutive years.

M/s Price Waterhouse Chartered Accountants LLP, and M/s GM Kapadia & Co, Chartered Accountants hold office as joint statutory auditors until the conclusion of 19th Annual General Meeting ("AGM") and 21st AGM respectively, subject to ratification of their appointment by the Members at every AGM.

The Company has received a confirmation from M/s Price Waterhouse Chartered Accountants LLP, and M/s GM Kapadia & Co, Chartered Accountants to the effect that their appointment, if ratified, at the ensuing AGM would be in terms of Sections 139 and 141 of the Companies Act, 2013 and rules made thereunder. The board proposes to the members to ratify the said appointments of M/s Price Waterhouse Chartered Accountants LLP, and M/s GM Kapadia & Co, Chartered Accountants.

Accordingly, in view of the provisions of the Act, and IRDAI Regulations, the members are requested to ratify the proposal for appointment of M/s Price Waterhouse Chartered Accountants LLP, and M/s GM Kapadia & Co, Chartered Accountants for FY 2019. The Resolution seeking ratification of their appointment is included in the Notice of the ensuing AGM.

Employees Stock Option Scheme

In line with the practice of incentivising the employees through issue of stock options, the Company has in the past granted stock options and continues to grant stock options to its eligible employees (including employees of its subsidiary companies) under the various employee stock option schemes formulated from time to time.

During the year under review, there were no instances of loan granted by the Company to its employees for purchasing/ subscribing its shares.

In line with the requirements under the Act, the Company has formulated Employee Stock Option Scheme(s) 2014, 2015 and 2016 for the purpose of administering the issue of Stock Options to its eligible Employees including that

Directors' Report

of its subsidiary companies. There has been no material variation in the terms of the options granted under any of these schemes and all the schemes are in compliance with the SEBI (Share Based Employee Benefits) Regulations, 2014. However, the above Schemes, formulated prior to Initial Public Offering by the Company, were aligned with SEBI (Share Based Employee Benefits) Regulations, 2014 ("Regulations"). The disclosures as required under the Regulations have been placed on the website of the Company at <https://www.hdfclife.com/about-us/Investor-Relations>.

During FY 2018, the members of the Company approved the issuance of 45,00,000 stock options representing 45,00,000 equity shares of ₹ 10 each under Employee Stock Option Scheme-2017 and 5,36,394 stock options representing 5,36,394 equity shares of ₹ 10 each under Employee Stock Option (Trust) Scheme-2017 through a postal ballot. The Nomination & Remuneration Committee of Directors of the Company at its Meeting held on March 14, 2018 had approved the grant of 31,65,606 stock options under Employee Stock Option Scheme-2017 and 5,36,394 stock options under Employee Stock Option (Trust) Scheme-2017.

Material changes and Comments affecting the financial position

There have been no material changes and commitments, affecting the financial position of the Company, which have occurred between the end of the financial year of the Company to which the Balance Sheet relates and the date of this report.

Directors' Responsibility Statement

In accordance with the requirements of Section 134 of the Act, the Board of Directors state that:

- i. In the preparation of the annual accounts, the applicable accounting standards have been followed, along with proper explanation relating to material departures (if any);
- ii. Such accounting policies have been selected and applied consistently, and judgments and estimates made that are reasonable and prudent, so as to give a true and fair view of the Company's state of affairs, as on March 31, 2018, and of the Company's profit for the year ended on that date;

- iii. Proper and sufficient care has been taken for the maintenance of adequate accounting records, in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- iv. The annual accounts have been prepared on a going concern basis;
- v. Internal financial controls have been laid down to be followed by the Company and such internal financial controls are adequate and operating effectively; and
- vi. Proper systems have been devised to ensure compliance with the provisions of all applicable laws, and such systems were adequate and operating effectively.

Appreciation and Acknowledgement

The Directors thank the policyholders, shareholders, customers, distributors, and business associates for reposing their trust in the Company. The Directors also thank the Company's employees for their continued hard work, dedication and commitment; and the Management for continuing success of the business.

The Directors further take this opportunity to thank Housing Development Finance Corporation Limited and Standard Life Aberdeen for their invaluable and continued support and guidance. The Directors also thank the Insurance Regulatory and Development Authority of India, Securities and Exchange Board of India, Ministry of Corporate Affairs, Reserve Bank of India, Pension Fund Regulatory and Development Authority, Life Insurance Council, National Stock Exchange of India Limited, BSE Limited, depositories and other governmental and other bodies and authorities for their support, advice and direction provided from time to time.

ANNEXURE - 1

Report on Corporate Governance for the financial year ended March 31, 2018

Corporate Governance at HDFC Standard Life Insurance Company Limited

Corporate Governance is the framework of an organisation that aims to meet aspirations of all its Stakeholders such as shareholders, management, customers, suppliers, community and its regulators. It is not a discipline which is imposed by a Regulator, but is a culture that guides the Board of Directors, Management and Employees to function in the best interest of all its Stakeholders.

At HDFC Standard Life Insurance Company Limited ("Company" / "HDFC Life"), the philosophy stems from the belief that Corporate Governance is a key element in improving efficiency and growth as well as enhancing investor confidence. At HDFC Life, Corporate Governance is ensured through taking ethical business decisions and conducting business with a firm commitment to values while meeting stakeholder expectations. Accordingly, the Corporate Governance philosophy has been scripted as under:

"As a good corporate citizen, the Company is committed to sound corporate practices based on its vision, values & principles in building confidence of its various stakeholders, thereby paving the way for its long term success and sustenance."

The organisational values at HDFC Life are the foundation of the organisational culture. These values are manifested in policies and processes adopted by the organisation, each business unit and every function. The Company believes that values are the most critical elements that reflect the conduct of an organisation. The Company has inculcated a strong culture of values namely Excellence, People Engagement, Integrity, Customer Centricity and Collaboration.

At the core of its Corporate Governance practice is the Board, which oversees how the management serves and protects the long-term interests of all the stakeholders of the Company. The Company believes that an active, well-informed and independent Board is necessary to ensure the highest standards of corporate governance. The Board is responsible to act in the best interests of the Company and its shareholders. In discharging their duties the Directors shall comply with the Code of Conduct as adopted by the Board.

The Board of Directors ("Board") of the Company have put in place a Corporate Governance Policy ("Policy"). The Policy was approved by the Board in FY 2009 and the same has been assessed and amended from time to time, in the

backdrop of applicable regulatory requirements including the Corporate Governance Guidelines ("Guidelines") prescribed by the Insurance Regulatory and Development Authority of India ("IRDAI"). Further, pursuant to the listing of the Company on stock exchanges in November 2017, the Policy has been modified in line with the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations").

The various elements of the Corporate Governance framework, along with relevant details are described below.

A. Board of Directors

(a) Size of Board

The Company's Board has appropriate mix of Independent and Non-Independent Directors, as well as Non Executive and Executive Directors. During the FY 2018, the composition of Board of Directors was revised with the induction of three new Independent Directors with a view to further diversify / broad base the Board and to comply with the requirements of the SEBI Listing Regulations. Further, two Independent Directors resigned during the period under review. The details of newly appointed Directors as well as Directors resigned during the period forms part of this report.

As a result of the aforementioned changes, the Board of Directors of the Company now comprises of fourteen Directors and two Alternate Directors. The structure of the Board of Directors as on March 31, 2018 is as follows:

- Seven Non Executive Non Independent Directors, including two Alternate Directors;
- Seven Independent Directors; and
- One Managing Director and one Executive Director.

The Directors on the Board of the Company come from diverse backgrounds, and possess a range of expertise, skills and experience. The Company keeps the roles of the CEO and the Chairman separate. None of the Directors of the Company are related to each other.

The composition of the Board is in conformity with Regulatory requirements including the SEBI Listing Regulations and Companies Act, 2013.

C. Other Key Governance Elements

a) Values Framework

At HDFC Life, EPICC values are the bedrock of our existence and day to day life. Values support the vision and shape the culture. It defines the non negotiable behaviours while carrying out day to day activities. Values are embedded and practiced through out the Company through the Values program. The program comprises of monthly sessions to reinforce understanding of values by encouraging employees to discuss 'values in action' stories and through prescribed activities.

The implementation of the Value program is driven by the Value Ambassadors and Value Guardians. Value Ambassadors are employees from the senior management who are the torchbearers of the organisation values. Value Guardians are employees who co-own the values program with the Value Ambassadors at the branch or channel level.

The program is spearheaded by the Chief Value Officers, who are the Sr. EVP & Chief Human Resources officer and EVP - Bancassurance.

The success of the Values program is demonstrated through our latest employee satisfaction survey results. 96% of the employees who participated in the survey were aware of the values and believed their work is consistent with HDFC Life's EPICC values.

b) Performance Evaluation, and Meeting of Independent Directors

The Company has in place a Board Evaluation Framework setting out the process and the criteria for the performance evaluation which has been reviewed by the Board. The said process is also in line with the provisions of the Companies Act, 2013 and Regulations 17 & 19 of the SEBI Listing Regulations which provides for carrying out the performance evaluation of the Individual Directors including Independent Directors and Non-Independent Directors, Managing Director & CEO, Chairperson, Committees of the Board and the Board as a whole.

Further, The Securities and Exchange Board of India ('SEBI') vide circular no. SEBI/HO/CFD/CMD/CIR/P/2017/004 dated January 05, 2017 had come up with a "Guidance Note on Board Evaluation". The Board Evaluation framework of the Company has been appropriately amended to align with this Guidance Note.

The Performance evaluation is carried out on the basis of criteria provided in the Performance Evaluation Forms formulated by the Company.

The Board evaluates annually the performance of Directors, Chairman of the Company, the Board and its Committees. As a part of this evaluation exercise, views/ feedback were sought from Directors through a structured questionnaire eliciting responses on various aspects of Board's functioning, performance of Committee Members and Directors and quality/timeliness of information flow to the Board.

The meeting of Independent Directors was held on March 14, 2018 for the purpose of evaluation of performance of Non Independent Directors, Board

Report on Corporate Governance for the financial year ended March 31, 2018

as a whole, performance of the Chairman and also assessed the quality, quantity and timeliness of flow of information between the Company Management and the Board. The said meeting of Independent Directors was attended by all the Independent Directors.

The responses received were reviewed at the above meeting as well as the Nomination & Remuneration Committee and also the Board, keeping in view the requirements of the Companies Act, 2013. No material adverse observations were made.

During the discussions at the meeting of Independent Directors, the Directors expressed satisfaction on quality, quantity and timeliness of the flow of information between the Company Management and the Board. The Board of Directors felt that Board Committees' performance was satisfactory, and they expressed satisfaction with the conduct and efficiency of the Board Committees' work.

c) Compliance

In accordance with the compliance procedures of the Company, quarterly confirmation on compliances is obtained from the relevant Heads of Departments. The Compliance Officer also places before the Audit Committee and the Board of Directors, a Compliance certificate duly signed by Executive Director & Chief Financial Officer and Managing Director & Chief Executive Officer, confirming compliances, as well as deviations, if any, along with the steps taken to rectify the deviations and prevention of the occurrence in future, as applicable in a given case.

d) Oversight of Subsidiary Companies

With a view to have adequate compliance oversight on the activities of its Subsidiary Companies, apart from the review of business performance, the Company, on a quarterly basis, obtains regulatory/governance updates from each of its subsidiaries. Further, the Board reviews investment and other aspects of subsidiary companies in line with the SEBI Listing Regulations. The Interest Rate Derivative Policy, Derivative Operation Process Manual and its adherence are also placed and discussed at the ALCO.

iv) Cyber Security, and Cyber Security Council

Cyber security landscape and the associated threats are rapidly evolving and changing. The focus on cyber security is increasing rapidly due to many high profile and highly disruptive/damaging security breaches threatening financial industry. Hence there is a need to provide assurance that appropriate cyber security architecture and controls are deployed.

Cyber Security remains a high priority on the agenda of Board and Risk Management Committee, due to the increase in potential threat landscape.

HDFC Life's Information Security Group continues to align with the National Institute of Standards and Technology (NIST) and Federal Financial Institutions Examination Council (FFIEC) based Cyber Security Framework for Risk Assessment which categorises the risk and provides visibility on the maturity level of the Organisation. This framework is a risk-based compilation of guidelines designed to help organisations assess current capabilities and draft prioritised roadmap toward improved Cyber Security posture.

HDFC Life had identified and outlined a 3 year Cyber Security implementation roadmap in FY 2016. Key initiatives implemented and rolled out since Company's Cyber Security journey last year are as follows:

- Cyber Security Gap Assessment - Review of existing infrastructure and building Cyber Response Plan from a cyber security perspective was carried out by renowned industry experts.
- Network Access Control - Focused centralised solution which can control access of non compliant or unauthorised devices on the network.

Report on Corporate Governance for the financial year ended March 31, 2018

- Brand Reputation & Anti-phishing management - HDFC Life believes that deceptive phishing scams and infectious malware attacks represent more than just a danger to customers' personal and financial information, but also a direct assault on revenues and profits, and represent a strategic business problem that can erode customer trust and undermine digital channel adoption. HDFC Life has engaged a leading service partner for managing such threats in the Social environment.
- Advance Persistent Threat protection - Malware threats including ransomware has topped the list of security concerns and has seen massive growth in both the variety and frequency of ransomware attacks in 2017. Protection against advanced malware infections via email and internet route was implemented as per the Cybersecurity roadmap.
- DMARC for Email Security - Phishing and Spoofing social engineering attack are on the rise and used to conduct frauds and steal user data, including login credentials. HDFC Life has configured DMARC to identify unauthorised emails being sent to customer using HDFC Life domain. Objective is to identify and block delivery of fraudulent emails. Currently the solution has been in monitoring mode.
- Cyber Insurance - Insurance policy cover has been renewed to incident losses or expenses such as forensic vendor fees, ransom demand, and fraudulent fund transfers. Due to effective Cyber Security practice implemented at HDFC Life the partner has increased the coverage at same premium.

The Company's key Cyber Security initiatives for the FY 2019 include Next Gen SOC Monitoring, DMARC in Block mode and Enhanced Threat Hunting team.

In order to ensure that a uniform framework for information and Cyber Security is implemented across the industry and a comprehensive governance mechanism is in place within the regulated entities, and with a view to develop a guideline to handle information and Cyber Security related issues, IRDAI formed a working group of insurers. HDFC Life has actively participated as member of the working groups.

The Information and Cyber Security Council which includes Legal, Compliance, Risk, Marketing and Business System & Technology functions as key stakeholders has been ensuring that the necessary guidance and recommendation is provided to the Information Security Group and implementation team.

v) Product Council

The Product Council has been formulated to discuss product ideas, their pricing and prioritisation. The Code of Conduct can be easily accessed at the Company's website. The Company has also set in place various policies with due approvals from its Board/Executive Committees of the Board encompassing the entire gamut of its operations and performance.

Individual policies to avoid unethical behaviour that may include, but are not limited to theft, bribes or kickbacks, sexual or other forms of harassment, values, whistle blowing, malpractice matrix, discrimination, disregard for security, safety, or the environment, unauthorised disclosure of HDFC Life's trade secrets or proprietary information, improper sales practices, improper and unethical advice to customers, fraudulent transactions, conflicts of interest, improper financial or accounting practices, circumvention of internal controls and regulatory norms, breach of Anti Money Laundering ("AML")/Know Your Customer ("KYC") norms, improper political contributions, any action that could potentially compromise on the integrity of HDFC Life's values or any potential criminal conduct are formulated and each and every employee is trained on the effective execution of such policies.

Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

HDFC Life's products are categorised as per the Company's need-based philosophy. We have products across Protection, Savings & Investment, Retirement,

Women's, Children's and Health categories. Over the years, we have launched several traditional & unit-linked products, to cater to the various needs of the customers. Customers have an added advantage of customising their plans, by adding optional benefits called riders, at a nominal price.

HDFC Life has practised responsible business practices since its inception even when the Company was yet to break even. Over the years, the Company has not only progressed economically but has also established consistent commitment to productive economic activity. The reason for its success can be attributed to the innovative practices in both, its products and its operations/services. Insurance industry and system is witnessing new challenges in its traditional business domain due to various new entrants in the market. Insurance business of late has really witnessed a tremendous growth on account of the growing penetration of smartphones, public awareness and digitisation. Keeping that in mind, HDFC Life has launched a large number of innovative products that can be easily accessed through digital media.

The organisation through its Corporate Strategy and New Business models has initiated various measures to meet the challenges.

More information on our products and services can be seen in our Annual Report for FY 2018 and our website www.hdfclife.com.

Principle 3: Businesses should promote the well-being of all employees

HDFC Life believes that talented workforce is the driving force for growth and efficiency. Capable employees create a vibrant and prosperous organisation. Talent Management and Development strategies are designed to achieve this twin objective of personal development and organisational growth. The people development strategy aims at acquiring and developing talent through a series of interventions specific to the life cycle of an employee, his/her role, responsibility and other identified needs.

Employee Strength

HDFC Life is one of the largest employers in the country having **17,601** employees as at the end of FY 2018, of which **3,687** were female employees. As on March 31, 2018, the number of contract workers was **505**, number of MPH (Master Policy Holders) staff was **24,230** and the count of active financial consultants was **77,048**.

Business Responsibility (BR) Report

Employee Benefits

The vision of HDFC Life for its human resources is to create an enabling environment to enhance the efficiency of the organisation.

Human Resources functions at HDFC Life comprise six major verticals:

1. **Talent Acquisition** focusses on quality and timely acquisition of talent at all levels. The strategy is to hire the right people who align and demonstrate HDFC Life values.
2. **Business HR** owns the employee experience end-to-end i.e., partners with business to support employees to achieve their full potential by ensuring basic hygiene factor, having high engagement, growth & development, etc.
3. **Human Resource Development** focusses on identifying, developing and managing talent throughout the organisation to ensure that the best possible incumbents are in the right positions.
4. **Employee Relations** endeavours are geared to build a culture where employees partner the organisation building process.
5. **Learning & Development** initiatives emphasise on capability development at each level to create an environment which allows contribution towards business growth.
6. **Administration** department uses its expertise to cater to the business requirement by providing quality services, by ensuring longevity of the Company's assets & infrastructure, by remaining cost conscious & by liaising with concerned statutory bodies for strictly complying with all the statutory rules & regulations.

Human Rights

Recruitment policy of HDFC Life does not permit any engagement of child labour, forced labour or involuntary labour. There is an Internal Committee (IC) constituted at all the four zones i.e., North (includes Central India), East, South & West (includes Corporate & Mumbai Hub) each across the country. There is an Apex Committee (AC) at the Head Office over and above the ICs. The AC supervises and monitors functioning of the zonal ICs. The Company refrains from any discrimination on the basis of caste, creed, gender or religion and strives to ensure a healthy work-life balance for its employees.

Ensuring ethical & legal standard is the responsibility of every employee of HDFC Life and is reflected in our relationship with internal and external customers. Accordingly, it is essential for each employee to exhibit responsible & ethical business behaviour in all transactions/engagements either with internal or external customers. In this context, the Company encourages, supports and protects whistleblowers that make disclosures of any such suspected instances of unethical/improper behaviour and malpractices and intends to provide a mechanism through the **Whistle Blower Policy ("Policy")** to channelise reporting of such instances/complaints and their resolution in order to ensure proper governance. **No significant complaints were pending as on March 31, 2018.**

Learning & Development

To facilitate capability development through enterprisewide learning to meet the strategic needs of the organisation, HDFC Life invests in its people through capability development programmes for its staff, channel partners - Financial Consultants, Agents of its Bancassurance partners, brokers, etc. For staff, L&D deploys induction programmes to integrate the new joinees to HDFC Life's way of working, conducts refresher training to improve their capability and thereby grow, and conducts product trainings and regulatory training to ensure all staff are up to date with existing and new product and statutory specs. The L&D team also provides leadership development interventions to those who manage teams. State-of-the-art dedicated training rooms and high-class trainers facilitate the trainings at Corporate office, HUB locations and branch offices regularly. We have invested in technology to enable staff and agents to learn online through our portal 'GOAL' at our offices through intranet and also outside our offices through our website. A team of around 300 staff is mapped to cater to all staff in respective departments and channel partners and to 'facilitate capability development through enterprisewide learning to meet the strategic needs of the organisation'.

Principle 4: Businesses should respect the interests of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalised

Insurance is a subject matter of solicitation and customers enter into it by taking risks. The Customer Relations Team at HDFC Life has a vision to ensure satisfactory and meaningful engagements with the customer right from his first interaction with HDFC Life. We strive to provide the best and delightful experiences to our customers at every interaction.

Business Responsibility (BR) Report

We leverage distribution of insurance products through Banks/NBFCs/other corporates through a corporate agency model (single agent architecture), broker model (multi-tier architecture). At HDFC Life, Bancassurance channel is in existence since inception of the organisation and started with a corporate agency tie-up with HDFC Bank, and evolved to other Public Sector and Co-operative Banks including Saraswat Bank and HDFC Group companies. The Channel has major broking houses as its partners. The Channel also involves distribution of Insurance to **NRIs/PIOs** based outside India and has been created with an intent to tap NRI communities across the globe who are keen to have their long-term savings investment and protection solutions in India and have typically found it difficult to complete all their transactions within a short span of time when they visit India. The Channel also has **Rural** under its umbrella. Rural leverages the huge business opportunity that exists in rural India. We achieve this with the help of specially selected rural consultants who sell these insurance products and spread awareness of HDFC Life in rural areas by organising gram sabhas, street plays, hoardings, etc. They also focus on non-regulatory, regulatory rural sales, through distribution expansion and tapping existing rural locations where we have presence, and also institutional tie-ups, and tie-ups with MFIs, NGOs, SHGs, etc.

In line with the Government's social scheme 'Pradhan Mantri Jeevan Jyoti Bima Yojana' to offer benefits of Insurance to masses, we launched **HDFC Life Pradhan Mantri Jeevan Jyoti Bima Yojana Plan**, which is a pure group term insurance product that ensures financial security for the member's family in the event of unfortunate death of the member.

We also have policies designed especially for **women**.

Therefore, in a way the Company is a trustee and custodian of public money and in order to fulfil its fiduciary obligation and responsibilities, it has to maintain and continue to enjoy the trust and confidence of public at large. HDFC Life acknowledges the need to uphold the integrity of every transaction it enters into and believes that the Company's character is judged by its external behaviour.

The Company communicates with the stakeholders through a variety of channels, such as e-mails, website, conference call, Press Meets, Advertising, one-on-one meeting, analysts' meet and consultations. Stakeholder engagement is embedded in all areas of the Company. Feedback through its customer-facing channels, listens to all shareholders' concerns and from its employees

through specifically provided channels, plays a very important role in operations of the business at the Company. The engagement with stakeholders is also done through social media like Facebook & Twitter, and through active participation in a variety of industry and community associations.

Principle 5: Businesses should respect and promote human rights

HDFC Life recognises its responsibility to respect human rights within its sphere of influence which it defines as:

- Employees
- Channel Partners
- Individual Customers
- Corporate Clients
- Local Communities

The Company has a direct obligation to protect the human rights of its employees, including the right to equal opportunities, fair working conditions and protection from discrimination. The Company does not use child labour or forced labour among its staff and seeks to influence its principal suppliers to respect human rights. HDFC Life makes a positive contribution to local and other communities through its CSR initiatives spread across the country.

Principle 6: Business should respect, protect, and make efforts to restore the environment

As a conscientious corporate, we do realise and understand our organisation's responsibility to operate in an environmentally sustainable way by developing, promoting and utilising eco-friendly and resource-efficient services. HDFC Life is committed to keeping its environmental footprint as small as possible and has taken proactive steps to reduce the direct impact of its operations on the environment. From recycling programmes to energy conservation in offices and branches, the Company is also working on reducing its operational footprints on the environment through its CSR activities.

Principle 7: Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner

HDFC Life does not engage in policy advocacy, but is actively involved in consultation/discussion forums with the government and other business chambers and associations like FICCI etc. In taking public policy positions, HDFC Life does not and has not lobbied through any associations.

Business Responsibility (BR) Report

Principle 8: Businesses should support inclusive growth and equitable development

While Corporate Social Responsibility activities have been implemented in the organisation since 2010, the CSR Policy of our Company was prepared in 2013 and then revised in FY 2015-16 to ensure sharper alignment with Section 135 of the Companies Act, 2013. The underlying purpose was to lay down the guidelines and framework for undertaking CSR activities.

The Company has also aligned its CSR Policy to its business philosophy, which highlights the theme of self-respect and independence. HDFC Life has undertaken CSR activities with the primary aim of contributing towards the easing of distress and aiding in the advancement of society, while engaging with stakeholders.

The CSR activities of HDFC Life are conducted across various sectors that are in line with Schedule VII of the Companies Act. Our framework includes:

1. **Education:** HDFC Life believes that every individual is entitled to the Right to Education. We wish to accomplish this through various projects designed around educating the marginalised and backward sections of the society.
2. **Health:** Being in the business of insuring lives, HDFC Life understands and cherishes the importance of health and considers it extremely important to make people value their own health and that of the people around them. By undertaking relevant projects, HDFC Life aims to be the driver of health initiatives for diverse beneficiary groups.
3. **Livelihood:** HDFC Life endeavours to conduct skill-based and vocational trainings in various fields, thus enabling marginalised and backward sections of the society to be equipped with a stable source of income and livelihood.

4. **Environmental Sustainability:** HDFC Life has always advocated the 4 R's of Reduce, Recycle, Reuse and Recharge to reduce negative impacts on the environment. HDFC Life shall undertake projects with specific beneficiaries in alignment to its 4 R philosophy for creating a positive impact on environmental sustainability.

A Board CSR Committee has been constituted which has oversight on overall implementation of CSR framework/Policy. All the CSR projects are identified based on the proposals received through various channels. Assessment of the same, in terms of need, inputs, timelines, funding required, outputs and outcomes is done rigorously. Projects go through due diligence by the core team and are then recommended to the CSR Committee, for confirmation/approval, before taking them up for execution.

Principle 9: Businesses should engage with and provide value to their customers and consumers in a responsible manner

The Customer Relations Team at HDFC Life has a vision to ensure satisfactory and meaningful engagements with the customer right from his first interaction with HDFC Life. We strive to provide the best and delightful experiences to our customers at every interaction. We use our expertise by providing fast and easy access to our customers for making premium payments and improving premium collection through call centre calling, sending SMS & Email for premium reminder. Only 0.29 percentage of customer complaints/consumer cases are pending at the end of the reporting year FY 2018.

In the product brochures/leaflets, HDFC Life explains the product with examples, illustrative case studies which are not necessarily mandated by IRDAI regulations. There are no cases filed by any stakeholder against the Company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behaviour during the last five years and pending at the end of the reporting year. We track consumer satisfaction monthly across sales and service interactions in the Company.

Independent Auditors' Report

TO THE MEMBERS OF HDFC STANDARD LIFE INSURANCE COMPANY LIMITED

Report on the Standalone Financial Statements

1. We have audited the accompanying standalone financial statements of **HDFC STANDARD LIFE INSURANCE COMPANY LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2018, the related Revenue Account (also called the "Policyholders' Account or the "Technical Account"), the Profit and Loss Account (also called the "Shareholders' Account" or "Non-Technical Account") and the Receipts and Payments Account for the year ended March 31, 2018 and summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements to give a true and fair view of the financial position, financial performance and receipts and payments of the Company in accordance with the requirements of the Insurance Act, 1938, as amended by Insurance Laws (Amendment) Act, 2015 (the "Insurance Act"), read with Insurance Regulatory and Development Act, 1999 (the "IRDA Act"), Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report Insurance Companies) Regulations, 2002 ("the regulations"), orders/directions, circulars, guidelines issued by the Insurance Regulatory and Development Authority of India (IRDAI) in this regard and in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 to the extent applicable and in the manner so required. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were

operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these standalone financial statements based on our audit.
4. We have taken into account the provisions of the Insurance Act, the IRDA Act, the Regulations, the Companies Act and the Rules made there under including the accounting standards to the extent applicable and auditing standards and matters which are required to be included in the audit report.
5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Independent Auditors' Report

Opinion

8. Annexure A to Independent Auditors' Report

Referred to in paragraph 12 (i) of the Independent Auditors' Report of even date to the members of HDFC Standard Life Insurance Company Limited on the standalone financial statements for the year ended March 31, 2018.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls over financial reporting of HDFC Standard Life Insurance Company Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements

and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Annexure A to Independent Auditors' Report

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively

A. SIGNIFICANT ACCOUNTING POLICIES

1. Basis of preparation

These financial statements for the year ended March, 31 ('the period'), 2018 are prepared under the historical cost convention, on an accrual basis of accounting in accordance with the accounting principles and in the manner prescribed by the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 ('the Financial Statements Regulations'), the Master Circular on Preparation of Financial Statements and Filing of Returns of Life Insurance Business Ref No. IRDA/F&A/Cir/232/12/2013 dated December 11, 2013 ('the Master Circular') and other circulars issued by the IRDAI from time to time, provisions of the Insurance Act, 1938, as amended from time to time, including amendment brought by Insurance Laws (Amendment) Act, 2015, the Insurance Regulatory and Development Authority Act, 1999 as amended from time to time, the Companies Act, 1956, as amended from time to

time, to the extent applicable and the Companies Act, 2013 and amendments and rules made thereto, as applicable. Pursuant to Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014, whereby till the accounting standards or any addendum thereto are prescribed by the Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing accounting standards notified under Companies Act, 1956, shall continue to apply. Consequently, these financial statements have been prepared also to comply in all material aspects with the accounting standards notified under Section 211 (3C), of the Companies Act, 1956 i.e. Companies (Accounting Standards) Rules, 2006, as amended and to the extent applicable. Accounting policies have been consistently applied to the extent applicable and in the manner so required.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles in India ('Indian GAAP') requires that the Company's management makes estimates and assumptions that affect the reported amounts of income and expenses for the year, reported balances of assets and liabilities and disclosures relating to contingent liabilities as of the date of the financial statements. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances upto and as of the date of the financial statements. Actual results could differ from the estimates. Any revision to the accounting estimates is accounted for prospectively.

2. Revenue recognition

i) Premium income

Premium income including rider premium is accounted for when due from the policyholders and as reduced for lapsation expected based on the experience of the Company. In case of linked business, premium income is accounted for when the associated units are created. Premium on lapsed policies is accounted for as income when such policies are reinstated. Top up premium is considered as single premium.

ii) Income from linked policies

Income from linked policies, which includes fund management charges, policy administration charges, mortality charges and other charges, wherever applicable, is recovered from the linked funds in accordance with the terms and conditions of the insurance contracts and is accounted for as income when due.

Schedules

iii) Income from investments

Interest income on investments is accounted for on an accrual basis.

Amortisation of premium or accretion of discount computed at the time of purchase of debt securities is recognised over the remaining period of maturity/holding on a straight line basis.

Linked business

Death and rider claims are accounted for on receipt of intimation. Maturity claims are accounted for on due basis when the associated units are de-allocated. Surrenders and withdrawals are accounted for on receipt of intimation when associated units are de-allocated. Amount payable on lapsed/discontinued policies are accounted for on expiry of lock in period of these policies. Surrenders, withdrawals and lapsation are disclosed at net of charges recoverable.

Reinsurance claims receivable are accounted for in the period in which the concerned claims are intimated.

Repudiated claims and other claims disputed before judicial authorities are provided for on prudent basis as considered appropriate by management.

6. Investments

Investments are made in accordance with the provisions of the Insurance Act, 1938, as amended from time to time including the amendment brought by the Insurance Laws (Amendment) Act, 2015, the Insurance Regulatory and Development Authority (Investment) Regulations, 2000 and amendments made thereto, the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016, wherever applicable and various other circulars/notifications/clarifications issued by the IRDAI in this context from time to time.

Investments are recognised at cost on the date of purchase, which includes brokerage and taxes, if any, but excludes interest accrued (i.e. since the previous coupon date) as on the date of purchase.

Schedules

A) Classification of investments :

Investments maturing within twelve months from the Balance Sheet date and investments made with the specific intention to dispose them within twelve months from the Balance Sheet date are classified as "short term" investments. Investments other than short term investments are classified as "long term" investments.

B) Valuation of investments

I. Real estate - investment property

Land or building or part of a building or both held to earn rental income or capital appreciation or for both, if any, rather than for use in services or for administrative purposes is classified as "real estate investment property" and is valued at historical cost, subject to revaluation, if any. Revaluation of the real estate investment property is done at least once in three years. Any change in the carrying amount of the investment property is recognised in Revaluation Reserve in the Balance Sheet. Impairment loss, if any, exceeding the amount in Revaluation Reserve is recognised as an expense in the Revenue Account or the Profit and Loss Account.

II. Debt securities

a) Non-linked business, non-unit reserve investments and shareholders' investments

Debt securities, including Government Securities are considered as "held to maturity" and accordingly valued at historical cost, subject to amortisation of premium or accretion of discount, if any, over the period of maturity/holding, on a straight line basis.

Money market instruments like Commercial Papers, Certificate of Deposit, Treasury Bills (T-Bills) and Collateralised Borrowing and Lending Obligation (CBLO) are valued at historical cost, subject to amortisation of premium or accretion of discount over the period of maturity/holding on a straight line basis.

Investments in Venture Funds and Security Receipts are valued at cost, subject to provision for diminution, if any, in the value of such investments determined separately for each individual investment. Fixed Deposits and Reverse Repo are valued at cost.

b) Linked business

Debt securities, including Government Securities are valued at market value, using Credit Rating Information Services of India Limited ('CRISIL') Bond Valuer/CRISIL Gilt Prices, as applicable.

Money market instruments like Commercial Papers, Certificate of Deposits, Treasury Bills (T-Bills) and CBLO are valued at historical cost, subject to amortisation of premium or accretion of discount over the period of maturity/holding on a straight line basis.

Investments in Venture Funds and Security Receipts are valued at the latest available net asset values of the respective underlying funds. Fixed Deposits and investment in Reverse Repo are valued at cost.

Unrealised gains or losses arising on valuation of debt securities including Government Securities are accounted for in the Revenue Account.

Securities with call options are valued at the lower of the values as obtained by valuing the security to the final maturity date or to the call option date by using the benchmark rate based on the matrix released by CRISIL on daily basis. In case there are multiple call options, the security is valued at the lowest value obtained by valuing the security to the various call dates or to the final maturity date. Securities with put options are valued at the higher of the value as obtained by valuing the security to the final maturity date or to the put option date by using the benchmark rate based on the matrix released by CRISIL on daily basis. In case there are multiple put options, the security is valued at the highest value obtained by valuing the security to the various put option dates or to the final maturity date.

Securities with both put and call options on the same day are deemed to mature on the put and call option day and would be valued on a yield to maturity basis, by using the benchmark rate based on the matrix released by CRISIL on daily basis.

III. Equity shares, Equity Exchange Traded Funds (ETFs), Infrastructure Investment Trusts (InvITs) and Additional Tier I Bonds (AT1 Bonds)

a) Non-linked business, non-unit reserve investments and shareholders' investments

Listed equity shares equity ETFs and InvITs are valued at fair value, being the last quoted closing price on the Primary Exchange i.e. National Stock Exchange (NSE) at the Balance Sheet date. In case, the equity shares and equity ETFs are not traded on the Primary Exchange on the Balance Sheet date, the closing price on the Secondary Exchange i.e. Bombay Stock Exchange (BSE) are considered.

Schedules

If the equity shares are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the price at which the equity shares are traded on the Primary or the Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation, provided such previous day price is not more than 30 days prior to the Balance Sheet date.

Equity shares lent under the Securities Lending and Borrowing scheme (SLB) continue to be recognised in the Balance Sheet as the Company retains all the associated risks and rewards of these securities.

In case the equity ETFs and InvITs are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the equity ETFs are valued at the latest available Net Asset Value (NAV). In case of InvITs where the market quote is not available for the last 30 days, the InvITs shall be valued at the latest NAV (not more than 6 months old) as published by the Infrastructure Investment Trust.

Bonus entitlements are recognised as investments on the 'ex-bonus date'. Right entitlements are accrued and recognised on the date the original shares (on which the right entitlement accrues) are traded on the stock exchange on the 'ex-rights date'.

Schedules

IV. Preference Shares

a) Non-linked business, non-unit reserve investments and shareholders' investments

Redeemable preference shares are considered as "held to maturity" and accordingly valued at historical cost, subject to amortisation of premium or accretion of discount.

Listed preference shares other than redeemable preference shares are valued at fair value, being the last quoted closing price on the Primary Exchange i.e. National Stock Exchange (NSE) at the Balance Sheet date. In case, the preference shares are not traded on the Primary Exchange on the Balance Sheet date, the closing price on the Secondary Exchange i.e. Bombay Stock Exchange (BSE) are considered.

If preference shares are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the price at which the preference shares are traded on the Primary or the Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation, provided such previous day price is not more than 30 days prior to the Balance Sheet date.

Unrealised gains or losses arising due to changes in fair value are recognised under the head 'Fair Value Change Account' in the Balance Sheet.

Unlisted preference shares (other than redeemable preference shares) and listed preference (other than redeemable preference) shares that are not regularly traded in active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by Securities Exchange Board of India (SEBI) are valued at historical cost, subject to provision for diminution in the value, if any, of such investments determined separately for each individual investment.

b) Linked business

Listed preference shares are valued and stated at fair value, being the last quoted closing price on the Primary Exchange i.e. the NSE at the Balance Sheet date. In case, the preference shares are not traded on the Primary Exchange on the Balance Sheet date, the closing price on the Secondary Exchange i.e. the BSE are considered.

If preference shares are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the price at which the preference

shares are traded on the Primary or the Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation, provided such previous day price is not more than 30 days prior to the Balance Sheet date.

Unrealised gains or losses arising on such valuations are accounted for in the Revenue Account.

Listed preference shares that are not regularly traded in active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by SEBI, are valued at historical cost, subject to provision for diminution in the value, if any, of such investment determined separately for each individual investment.

V. Mutual funds

a) Non-linked business, non-unit reserve investments and shareholders' investments

Mutual fund units held at the Balance Sheet date are valued at previous business day's Net Asset Value (NAV) per unit. Unrealised gains or losses arising due to changes in the fair value of mutual fund units are recognised under the head 'Fair Value Change Account' in the Balance Sheet.

b) Linked business

Mutual fund units held at the Balance Sheet date are valued at previous business day's NAV per unit. Unrealised gains or losses arising due to change in the fair value of mutual fund units are recognised in the Revenue Account.

VI. Interest Rate Derivatives

Interest Rate derivatives (IRDs) contracted to hedge highly probable forecasted transactions on insurance contracts in life, pension and annuity business are recognised at fair value, on the date on which the interest rate derivative contracts are entered into and are re-measured at the fair value on the Balance Sheet date.

Interest rate derivative contracts for hedging of highly probable forecasted transactions on insurance contracts, are accounted for in the manner specified in accordance with 'Guidance Note on Accounting for Derivative Contracts' issued by the Institute of Chartered Accountants of India (ICAI) in June 2015 effective from FY 2017.

At the inception of the hedge, the Company documents the relationship between the hedging instrument and

Schedules

the hedged item, the risk management objective, strategy for undertaking the hedge and the methods used to assess the hedge effectiveness. Hedge effectiveness is the degree to which changes in the fair value or cash flows of the hedged item that are attributable to a hedged risk are offset by changes in the fair value or cash flows of the hedging instrument. Hedge effectiveness is ascertained at the time of inception of the hedge and periodically thereafter. The portion of fair value gain/loss on the IRD that is determined to be an effective hedge is recognised directly in appropriate equity account i.e. 'Hedge Reserve' under the head 'Credit/(Debit) Fair Value Change Account'. Such accumulated gains or losses that were recognised directly in the Hedge Reserve are reclassified into Revenue Account, in the same period during which the asset acquired or liability assumed affects the Revenue Account. In the event that all or any portion of loss, recognised directly in the Hedge Reserve is not expected to be recovered in future periods, the amount that is not expected to be recovered is reclassified to the Revenue Account. Gains or losses arising from hedge ineffectiveness, if any, are recognised in the Revenue Account. Costs associated with derivative contracts are considered as at a point in time cost.

C) Impairment of investments

The Company periodically assesses at each Balance Sheet date, whether there is any indication of impairment of investments or reversal of impairment loss earlier recognised. An impairment loss is accounted for as an expense and disclosed under the head 'Provision for diminution in the value of investment (net)' in the Revenue Account or the Profit and Loss Account to the extent of the difference between the remeasured fair value of the investments and its acquisition cost as reduced by any earlier impairment loss accounted for as an expense in the Revenue Account or the Profit and Loss Account.

Any reversal of impairment loss, earlier recognised for in the Revenue Account or the Profit and Loss Account, is accounted in the Revenue Account or the Profit and Loss Account respectively.

D) Provision for Non Performing Assets (NPA)

All assets where the interest and/or instalment of principal repayment remain overdue for more than 90 days at the Balance Sheet date are classified as NPA and provided for in the manner required by the IRDAI regulations on this behalf.

E) Transfer of investments from Shareholders' fund to Policyholders' fund

Transfers of investments, other than debt securities, as and when made from the Shareholders' fund to the Policyholders' fund to meet the deficit in the Policyholders' account are made at the cost price or market price, whichever is lower.

Transfers of debt securities, from the Shareholders' fund to the Policyholders' fund are made at the net amortised cost or the market value, whichever is lower.

F) Transfer of investments between non-linked Policyholders' funds

No transfers of investments are made between non-linked Policyholders' funds.

G) Purchase and sale transactions between unit linked funds

The purchase and sale of equity, preference shares, ETF's, InvIT's and Government Securities between unit linked funds is accounted for at the prevailing market price on the date of purchase or sale of investments, if prevailing market price of any security is not available on the date of transfer of investment, then the last available price is considered.

In case of debt securities other than Government Securities, transfer of investments is accounted at previous day valuation price w.e.f. January 1st 2017 (applicable date of IRDAI (Investment) Regulations, 2016). Prior to this, such transfers were accounted at prevailing market price on the date of purchase or sale of investments and if prevailing market price of any security was not available on the date of transfer of investment, then the last available price was considered.

7. Policy liabilities

The actuarial liabilities, for all inforce policies and policies where premiums are discontinued but a liability exists as at the valuation date, are calculated in accordance with the generally accepted actuarial principles and practices, requirements of Insurance Act, 1938 as amended from time to time including amendment brought by the Insurance Laws (Amendment) Act, 2015, regulations notified by the IRDAI and Actuarial Practice Standard (APS) issued by the Institute of Actuaries of India with the concurrence of the IRDAI.

Schedules

The specific principles adopted for the valuation of policy liabilities are set out as per the IRDA (Assets, Liabilities and Solvency Margin) Regulations, 2016 and the APS2 & APS7 issued by the Institute of Actuaries of India.

A brief of the methodology used for various lines of business is as given below:

1. The policy liabilities are valued on policy by policy basis, i.e. each policy is valued separately.
2. The reserves for linked business (individual and group) comprise unit reserves and non-unit reserves. The unit reserves are determined on the basis of NAV of the units outstanding as at the valuation date and non-unit reserves are calculated using gross premium valuation method.
3. The liabilities for individual non-linked non-participating and participating business are calculated using gross premium valuation method and are subject to the minimum floor of surrender value. Additionally, individual non-linked participating policies also have a reference to the asset share of policies at valuation date.
4. The liabilities for one year renewable group protection business are calculated on the unexpired risk premium basis. For other than one year renewable group protection business, the liabilities are calculated using gross premium valuation method.
5. The liabilities for the group non-linked savings products are determined as the higher of policy account balances (including accrued interest/bonuses) and reserves calculated by gross premium valuation method.
6. The liabilities in respect of rider benefits are determined as the higher of unexpired premium reserves and reserves calculated by gross premium valuation method.
7. Additional reserves are determined to:
 - a. allow for the claims that may have occurred already but not yet reported (Incurred But Not Reported)
 - b. allow for the servicing of existing policies if the Company were to close the new business one year from the valuation date (Closure to New Business)
- c. meet the expected liabilities that would arise on the revival of lapsed policies, on the basis of the proportion of the policies expected to be revived based on the revival experience of the Company (Revival Reserve)
- d. allow for the additional amount required to be paid on account of cancellation of policies due to look in, on the basis of the proportion of the policies expected to exercise the look-in option based on the experience of the Company (Look-in Reserve)
- e. allow for the cost of guarantees, wherever applicable

8. Unclaimed amount of policyholders:

Assets held for unclaimed amount of policyholders is created and maintained in accordance with the requirement of IRDAI circular No. IRDA/F&A/CIR/GLD/195/08/124 dated August 14, 2014, IRDA/F&A/CIR/CPM/134/07/2015 dated July 24, 2015, IRDA/F&A/CIR/CLD/114/05/2015 dated May 28, 2015, Master circular on Unclaimed Amount of Policyholders IRDA/F&A/CIR/Misc/173/07/2017 dated July 25, 2017 and Investment Regulations, 2016 as amended from time to time:

- a) Unclaimed amount of policyholders is invested in money market instruments, Liquid mutual funds and / or fixed deposits of scheduled banks which is valued at historical cost, subject to amortisation of premium or accretion of discount over the period of maturity/holding on a straight line basis.
- b) Income on unclaimed amount of policyholders is accreted to respective unclaimed fund and is accounted for on an accrual basis, net of fund management charges.
- c) Unclaimed amount of policyholders liability is determined on the basis of NAV of the units outstanding as at the valuation date.
- d) Amounts remaining unclaimed for a period of 10 years together with all respective accretions to the fund as per the above mentioned regulations are deposited into the Senior Citizen Welfare Fund (SCWF).

Schedules

9. Fixed assets and depreciation/ amortisation

The fixed assets are stated at cost less accumulated depreciation and impairment, if any. Cost includes the purchase price and any cost directly attributable to bring the asset to its working condition for its intended use. Fixed assets individually costing less than ₹ 5,000, being low value assets are fully depreciated in the month of purchase. Subsequent expenditure incurred on existing fixed assets is expensed out except where such expenditure increases the future economic benefits from the existing assets. Any additions to the original fixed assets are depreciated over the remaining useful life of the original asset.

Cost of assets as at the Balance Sheet date not ready for its intended use as at such date are disclosed as capital work in progress. Advances given towards acquisition of fixed assets are disclosed in 'Advance and other assets' in Balance Sheet.

Depreciation/amortisation is charged on pro-rata basis from the month in which the asset is put to use and in case of asset sold, up to the previous month of sale. In respect of expenditure incurred on acquisition of fixed assets in foreign exchange, the net gain or loss arising on conversion/settlement is recognised in the Revenue Account.

Tangible assets

The Company has adopted straight line method of depreciation so as to depreciate the cost of following type of assets over the useful life of these respective assets which are as follows:

Asset class	Useful life of assets (years)
Building	60
Information technology equipment-End user devices [^]	3
Information technology equipment-Servers and network ^{*^}	4
Furniture & Fixtures ^{*^}	5
Motor Vehicles ^{*^}	4
Office Equipment [^]	5

* For these class of assets, based on internal and/or external assessment/ technical evaluation carried out by the management, the management believes that the useful lives as mentioned above best represent the useful life of these respective assets, however these are lower than as prescribed under Part C of Schedule II of the Companies Act, 2013.

[^] For these class of assets, based on internal assessment carried out by the management, the residual value at the end of life being very negligible is considered to be nil.

Leasehold improvements are depreciated over the lock in period of the leased premises subject to a maximum of five years.

Intangible assets

Intangible assets comprising of computer software are stated at cost of acquisition, including any cost attributable for bringing the same to its working condition for its intended use, less accumulated amortisation and impairment, if any. These are amortised over the useful life of the software subject to a maximum of four years. Subsequent expenditure incurred on existing assets is expensed out except where such expenditure increases the future economic benefits from the existing assets, in which case the expenditure is amortised over the remaining useful life of the original asset.

Any expenditure for support and maintenance of the computer software is charged to the Revenue Account.

10. Impairment of assets

The Company periodically assesses, using internal and external sources of information and indicators, whether there is any indication of impairment of asset. If any such indication of impairment exists, the recoverable amount of such assets is estimated. An impairment loss is recognised where the carrying value of these assets exceeds its recoverable amount. The recoverable amount is the higher of the asset's net selling price and their value in use, which is the present value of the future cash flows expected to arise from the continuing use of asset and its ultimate disposal. When there is an indication that an impairment loss recognised for an asset in earlier accounting periods is no longer necessary or may have decreased, such reversal of impairment loss is recognised, except in case of revalued assets.

11. Loans

Loans are valued at historical cost (less repayments), subject to adjustment for accumulated impairment losses and provision for NPA, if any.

Schedules

12. Foreign currency transactions

In accordance with the requirements of Accounting Standard (AS) 11, "The Effects of Changes in Foreign Exchange Rates", transactions in foreign currency are recorded in Indian Rupees at the rate of exchange prevailing on the date of the transaction, at the time of initial recognition. Monetary items denominated in foreign currency are converted in Indian Rupees at the closing rate of exchange prevailing on the Balance Sheet date. Non-monetary items like fixed assets, which are recorded at historical cost, denominated in foreign currency, are reported using the closing exchange rate at the date of transaction. Non-monetary items other than fixed assets, which are recognised at fair value or other similar valuation, are reported using exchange rates that existed when the values were determined.

Exchange gains or losses arising on such conversions are recognised in the period in which they arise either in the Revenue Account or the Profit and Loss Account, as the case may be.

13. Segmental reporting

Identification of segments

As per Accounting Standard (AS) 17 on "Segment Reporting", read with the Financial Statements Regulations, the Company has prepared the Revenue Account and the Balance Sheet for the primary business segments namely Participating Life (Individual & Group), Participating Pension (Individual & Group), Participating Pension Group Variable, Non Participating Life (Individual & Group), Non Participating Pension (Individual & Group), Non Participating Life Group Variable, Non Participating Pension Group Variable, Non Participating - Annuity, Non Participating - Individual & Group Health, Unit Linked - Individual Life, Unit Linked - Individual Pension, Unit Linked - Group Life, Unit Linked - Group Pension. Since the business operations of the Company are given effect to in India and all the policies are written in India only, this is considered as one geographical segment.

Allocation methodology

The allocation of revenue, expenses, assets and liabilities to the business segments is done on the following basis:

- a) Revenue, expenses, assets and liabilities, which are directly attributable and identifiable to the respective

business segments, are directly allocated for in that respective segment; and

- b) Revenue, expenses, assets and liabilities which are not directly identifiable to a business segment though attributable and other indirect expenses which are not attributable to a business segment, are allocated based on one or combination of some of the following parameters, as considered appropriate by the management in adherence with the policy approved by the board of directors :
- i) effective premium income
 - ii) number of policies
 - iii) number of employees
 - iv) man hours utilised
 - v) premium income
 - vi) commission
 - vii) sum assured
 - viii) mean fund size
 - ix) operating expenses
 - x) benefits paid

The accounting policies used in segmental reporting are the same as those used in the preparation of the financial statements.

14. Employee benefits

A) Short term employee benefits

All employee benefits payable within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries and bonuses, short term compensated absences, premium for staff medical insurance (hospitalisation), premium for Employee Group Term Insurance Scheme, Employee State Insurance Corporation Scheme, Employee Deposit Linked Insurance Scheme and Employee Labour Welfare Fund Scheme are accounted for in the period in which the employee renders the related service. All short term employee benefits are accounted for on an undiscounted basis.

B) Post-employment benefits

The Company has both defined contribution and defined benefit plans.

Schedules

(i) Defined contribution plans:

The Superannuation Scheme, Employee Provident Fund Scheme (Company contribution) and the National Pension Scheme (Company contribution) are the defined contribution plans. The contributions paid/payable under the plan are made when due and charged to the Revenue Account on an undiscounted basis during the period in which the employee renders the related service. The Company does not have any further obligation beyond the contributions made to the funds.

(ii) Defined benefit plans:

The Gratuity plan of the Company is the defined benefit plan, which is a funded plan. The gratuity benefit payable to the employees of the Company is in compliance with the provisions of "The Payment of Gratuity Act, 1972". The present value of the obligations under such defined benefit plan is determined on the basis of actuarial valuation using the projected unit credit method, which considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. The discount rate used for actuarial valuation is based on the yield of Government Securities. The Company fully contributes the net ascertained liabilities under the plan to the HDFC Life Insurance Company Limited Employees Group Gratuity Plan. The Company recognises the net defined benefit obligation of the gratuity plan, taking into consideration the defined benefit obligation using actuarial valuation and the fair value of plan assets at the Balance Sheet date, in accordance with Accounting Standard (AS) 15 (Revised), 'Employee Benefits'. Actuarial gains or losses, if any, due to experience adjustments and the effects of changes in actuarial assumptions are accounted for in the Revenue Account, in the period in which they arise.

C) Other long term employee benefits

Other long term employee benefits include accumulated long term compensated absences and long term incentive plans.

Accumulated long term compensated absences are entitled to be carried forward for future encashment or availment, at the option of the employee subject to Company's policies and are accounted for based on

actuarial valuation determined using the projected unit credit method.

Long term incentive plans are subject to fulfilment of criteria prescribed by the Company and are accounted for at the present value of future expected benefits payable using an appropriate discount rate.

Actuarial gains or losses, if any, due to experience adjustments and the effects of changes in actuarial assumptions are accounted for in the Revenue Account, as the case may be, in the period in which they arise.

15. Employee Stock Option Scheme(ESOS)

The Company has formulated Employee Stock Option Scheme 2005 (ESOS 2005), Employee Stock Option Scheme 2010 (ESOS 2010), Employee Stock Option Scheme 2011 (ESOS 2011), Employee Stock Option Scheme 2012 (ESOS 2012) and, ESOS (Trust) 2017 which are administered through the HDFC Standard Life Employees Stock Option Trust ("the Trust") and Employee Stock Option Scheme 2014 (ESOS 2014) and Employees Stock Option Scheme 2015 (ESOS 2015), Employee Stock Option Scheme 2016 (ESOS 2016), Employee Stock Option Scheme 2017 (ESOS 2017) which are directly administered by the Company. The schemes provide that eligible employees are granted options that vest in a graded manner to acquire equity shares of the Company. The options are accounted for on an intrinsic value basis in accordance with the Guidance Note on Accounting for Employee Share based Payments, issued by the Institute of Chartered Accountants of India (ICAI). The intrinsic value is the amount by which the value of the underlying share determined by an independent valuer exceeds the exercise price of an option. The intrinsic value of options, if any, at the grant date is amortised over the vesting period.

16. Provisions, contingent liabilities and contingent assets

Provisions are accounted for in respect of present obligations arising out of past events where it is probable that an outflow of resources will be required to settle the obligation and the amounts of which can be reliably estimated. Provisions are determined on the basis of best estimate of the outflow of economic benefits required to settle the obligation at the Balance Sheet date. Where no reliable estimate can be made, a disclosure is made as contingent liability.

Contingent liabilities are disclosed in respect of;

Schedules

- a) possible obligations arising out of past events, but their existence or otherwise would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or
- b) present obligations that arise from past events, where it is probable but not likely that an outflow of resources embodying economic benefits will be required to settle the obligations or a reliable estimate of the amounts of the obligations cannot be made.

Contingent assets are neither accounted for nor disclosed.

17. Leases

A) Finance leases

Leases under which the lessee assumes substantially all the risk and rewards of ownership of the asset are classified as finance leases. Such leased asset acquired are capitalised at fair value of the asset or present value of the minimum lease rental payments at the inception of the lease, whichever is lower.

B) Operating leases

Leases where the lessor effectively retains substantially all the risk and the benefits of ownership over the lease term are classified as operating leases. Leased rental payments under operating leases including committed increase in rentals are accounted for as an expense, on a straight line basis, over the non-cancellable lease period.

18. Taxation:

A) Direct tax

- I) Provision for income tax

Provision for income tax is made in accordance with the provisions of Section 44 of the Income Tax Act, 1961 read with Rules contained in the First Schedule and other relevant provisions of the Income Tax Act, 1961 as applicable to a company carrying on life insurance business.

- II) Deferred tax

In accordance with the provisions of the Accounting Standard (AS) 22, "Accounting for Taxes on Income", with respect to the carry forward of losses under the Income Tax regulations, the deferred tax asset is recognised only to the extent that there is a virtual certainty supported by convincing evidence that future taxable income will be available against which the deferred tax asset can be realised.

B) Indirect tax

The Company claims credit of service tax / goods and services tax on input services, which is set off against service tax / goods and services tax on output services. As a matter of prudence, unutilised credits towards service tax / goods and services tax on input services are carried forward under 'Schedule 12 -Advances and Other Assets' in the Balance Sheet, wherever there is reasonable certainty of utilisation.

19. Funds for Future Appropriations

The Funds for Future Appropriations (FFA), in the participating segment, represents the surplus, which is not allocated to policyholders or shareholders as at the Balance Sheet date. Transfers to and from the fund reflect the excess or deficit of income over expenses respectively and appropriations in each accounting period arising in the Company's Policyholders' Fund. Any allocation to the par policyholders would also give rise to a transfer to Shareholders' Profit and Loss Account in the required proportion.

20. Earnings per share

In accordance with the requirement of Accounting Standard (AS) 20, "Earnings Per Share", basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. Potential equity shares are treated as dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations.

21. Cash and cash equivalents

Cash and cash equivalents for the purposes of Receipts and Payments Account comprise of cash and cheques in hand, bank balances, fixed deposits with original maturity of three months or less, CBLO, Reverse Repo, highly liquid mutual funds and highly liquid investments that are readily convertible into measurable amounts of cash and which are subject to insignificant risk of change in value. Receipts and Payments Account is prepared and reported using the Direct Method in accordance with Accounting Standard (AS) 3, "Cash Flow Statements" as per requirements of Para 2.2 of the Master Circular.

#Statutory demands and liabilities in dispute, not provided for, relate to the show cause cum demand notices/assessment orders received by the Company from the respective tax authorities. The Company has filed appeals against the demand notices/assessment orders with the appellate authorities and has been advised by the experts that the grounds of appeal are well supported in law in view of which the Company does not expect any liability to arise in this regard.

*As per IRDAI Master Circular on Unclaimed Amounts of Policyholders dated July 25, 2017, the unclaimed amount of policyholders outstanding for a period of more than 10 years as on September 30, 2017 has been transferred to Senior Citizen's Welfare Fund on March 01, 2018. The transferred amount has been disclosed here as a contingent liability as required by the Circular.

2. Pending litigations

The Company's pending litigations other than those arising in the ordinary course of insurance business comprise of claims against the Company primarily on account of proceedings pending with Tax authorities. The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed the contingent liabilities as applicable, in note 1 above.

3. Actuarial assumptions

The policyholders' actuarial liabilities are determined based on assumptions as to the future experience of the policies. The principal assumptions are related to interest, expenses, mortality, morbidity, persistency, and additionally in the case of participating policies, bonuses and tax. The assumptions are based on prudent estimates of the future experience, and hence include margins for adverse deviations over and above the best estimate assumptions. A brief of the assumptions used in actuarial valuation is as below:

a) Interest rate assumptions:

The valuation rate of interest is determined based on the expected return on existing assets, current asset mix, expected investment return on the future investment taking into consideration the asset classes mix and expected future asset mix. The interest rates used for the valuation vary according to the type and term of the product and are in the range of 5.20% to 7.00% (Previous year ended March 31, 2017: 5.20% to 7.35%).

b) Expense assumptions:

The expense assumptions are set on the basis of the expense analysis. These are fixed renewal expenses and investment expenses charged as a % of fund. The renewal and claim expenses are increased at an inflation rate of 6.5% p.a.

c) Mortality assumptions:

Mortality assumptions are set in accordance with Clause 5(2) of Schedule II of the IRDAI (Assets, Liabilities and Solvency Margin of Life Insurance Business) Regulations, 2016, in reference to

Schedules

the published Indian Assured Lives Mortality table (2006-08) and are based on the latest experience analysis of the business.

In the case of annuity benefits, mortality assumption is based on the LIC Annuitants (1996-1998) table.

d) Morbidity assumptions:

Morbidity assumptions are set in accordance with Clause 5(3) of Schedule II of the IRDAI (Assets, Liabilities and Solvency Margin of Life Insurance Business) Regulations, 2016, in reference to the published CIBT 93 Table and are based on the latest experience analysis of the business.

e) Persistency assumptions:

The persistency assumptions are also based on the most recent experience of the Company and vary according to the premium frequency and type of the product.

f) Provision for free-look period:

If a policy which is in force as at the valuation date is subsequently cancelled in the free-look period,

then there could be a strain in the policyholder fund on account of the amount payable on free-look cancellation, to the extent the amount is higher than reserves held for that policy. In order to avoid the future valuation strain as a result of the free-look cancellations, reserves on account of the above are held. The free-look reserve is calculated as total strain for all policies that are eligible for free-look cancellations at the valuation date, multiplied by a factor, representing the expected assumptions for free-look cancellations.

g) Bonus rates:

The bonus rates for the participating business as required to be declared in the future is based on the interest expected to be earned as per the valuation assumptions.

h) Tax:

The tax rate as applicable to insurance companies carrying on insurance business is 14.42 % p.a. (For the year ended March 31, 2017 14.42% p.a.)

4. Employee benefits

5. Employee Stock Option Scheme (ESOS)

- (i) The Company has granted options to employees under the ESOS 2005, ESOS 2010, ESOS 2011 and ESOS 2012 and ESOS (Trust) 2017 schemes. These schemes are administered by the HDFC Standard Life Employees Stock Option Trust. The Trust had subscribed to the capital of the Company and also acquired shares of the Company from Housing Development Finance Corporation Limited, the holding company. The options are granted to the employees from these tranches of shares. For all the grants, the mode of settlement is through equity shares. All the grants have graded vesting. The exercise price of ESOS 2005 is based on the holding cost of the shares in the books of the Trust and that of ESOS 2010, ESOS 2011 and ESOS 2012 is based on the fair market value as determined by the Category I Merchant Banker registered with SEBI. The exercise price, of the options granted under ESOS (Trust) 2017 is based on the market price of the shares of the Company, as defined in the ESOS (Trust) 2017 scheme.
- (ii) The Company has also granted options to its employees under the ESOS 2014 scheme, ESOS 2015 scheme, ESOS 2016 scheme and ESOS 2017 scheme. The said schemes are directly administered by the Company. For all the grants, the mode of settlement is through equity shares. All the grants have graded vesting. The exercise price of ESOS 2014, ESOS 2015 and of ESOS 2016 schemes is based on the fair market value as determined by the Category I Merchant Banker registered with SEBI. The exercise price, of the options granted under ESOS 2017 is based on the market price of the shares of the Company, as defined in the ESOS 2017 scheme.
- (iii) The Company follows the intrinsic value method of accounting for stock options granted to employees. The intrinsic value of the options issued under the above referred schemes is 'Nil' as the exercise price of the option is the same as fair value of the underlying share on the grant date and accordingly, no expenses are recognised in the books. Had the Company followed the fair value method for valuing its options,

Schedules

the charge to the Revenue Account/Profit & Loss Account for the year would have been aggregated to ₹ 144,712 thousands (Previous year ended March 31, 2017 ₹ 224,706 thousands) and the profit after tax would have been lower by ₹ 77,997 thousands (Previous year ended March 31, 2017 ₹ 122,056 thousands). Consequently, Company's basic and diluted earnings per share would have been ₹ 5.49 and ₹ 5.46 respectively (Previous year: ₹ 4.41 and ₹ 4.38 respectively).

(iv) Exercise Period under the various ESOS:

The Company's shares were listed on National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) on November 17, 2017. Prior to listing, for all grants issued under the ESOS 2010, ESOS 2011, ESOS 2012, ESOS 2014, ESOS 2015 and ESOS 2016 schemes, the vested options were required to be exercised by the employees within five years from the date of vesting or the date of an Initial Public Offering (IPO) whichever is later subject to the norms prescribed by the Nomination & Remuneration Committee. Under ESOS 2005, the vested options were required to be exercised by the employees within three years from the date of vesting subject to the norms prescribed by the Nomination & Remuneration Committee. Post listing of the company's shares, vested options under all ESOS schemes are required to be exercised by the employees within five years from the date of vesting subject to the norms prescribed by the Nomination & Remuneration Committee.

Salient features of all the existing grants under the seven schemes are as stated below:

Method of computation of fair value of options:

The fair value of options has been calculated using the Black-Scholes model. The key assumptions used in Black-Scholes model for calculating fair value of options as on the date of grant are as follows:

ESOS Scheme	Risk Free Interest Rate	Expected Life	Expected Volatility*	Expected Dividend Yield
ESOS 2010	7.19% - 7.72%	3.50 - 6.50 years	48.80% - 51.88%	0.00%
ESOS 2011	8.28% - 8.30%	3.50 - 5.50 years	46.75% - 48.12%	0.00%
ESOS 2012	8.19% - 8.74%	1.37 - 3.45 years	30.44% - 36.53%	0.00%
ESOS 2014	7.73% - 8.28%	1.75 - 3.75 years	33.23% - 37.15%	1.06%
ESOS 2015	7.41% - 7.58%	1.75 - 3.75 years	34.21% - 38.38%	1.04%
ESOS 2016	6.57% - 6.80%	1.75 - 3.75 years	10.00%	0.88%
ESOS 2017	6.76% - 7.27%	1.75 - 3.75 years	28.96%	0.74%
ESOS (Trust) 2017	6.76% - 7.27%	1.75 - 3.75 years	28.96%	0.74%

*Volatility of a matured enterprise in the industry which is listed on BSE has been used as a basis for estimation of expected volatility of options. In the case of ESOS 2016, the expected volatility has been assumed at the rate of 10% since the company was unlisted as on the date of the grant.

IRDA/F&I/INV/CIR/138/06/2014 dated June 11, 2014 ('the IRDAI circular on Interest Rate Derivatives') and Investment Regulation, 2016 allowing insurers to deal in rupee interest rate derivatives, the Company has in place a derivative policy approved by Board which covers various aspects that apply to the functioning of the derivative transactions undertaken to substantiate the hedge strategy to mitigate the interest rate risk, thereby managing the volatility of returns from future fixed income investments, due to variations in market interest rates.

- a) The Company during the financial year 2017-18, has not transacted in exchange traded Interest Rate Future (IRF) transactions and total notional principal amount of exchange traded interest rate futures outstanding at the end of the year is ₹ Nil. However, the Company during the previous financial year 2016-17, as part of

its Hedging strategy, entered into exchange traded Interest Rate Future (IRF) transactions to hedge the interest rate sensitivity for highly probable forecasted transactions as permitted by the IRDAI circular on Interest Rate Derivatives.

Exchange Traded Interest rate futures are standardised interest rate derivative contracts traded on a recognised stock exchange to buy or sell a notional debt security or Government Bond (GOI) or Treasury Bill (T-Bill) of at a specified future date, at a price determined at the time of the contract with an objective to lock in the price of an interest bearing security at a future date.

The fair value for IRF instrument is considered as the daily settlement price on NSE. If the settlement price is not available on NSE, then the daily settlement price on BSE is considered for valuation of IRFs.

Qualitative Disclosures on risk exposure in Fixed Income Derivatives:

Overview of business and processes:

a) Fixed Income Derivative Hedging instruments:

Derivatives are financial instruments whose characteristics are derived from the underlying assets, or from interest and exchange rates or indices. These include forward rate agreements, interest rate swaps and interest rate futures.

The Company uses derivative instrument (IRF) to minimise exposure to fluctuations in interest rates on plan assets and liabilities. This hedge is carried in accordance with its established policies, goals and applicable regulations. The Company does not engage in derivative transactions for speculative purposes.

b) Derivative policy/process and Hedge effectiveness assessment:

The Company has well defined Board approved Derivative Policy and Process document setting out the strategic objectives, regulatory and operational framework and risks associated with interest rate derivatives along with having measurement, monitoring processes and controls thereof. The accounting policy has been clearly laid out for ensuring a process of periodic effectiveness assessment.

The Company has clearly identified roles and responsibilities to ensure independence and accountability through the investment decision, trade execution, to settlement, accounting and periodic reporting and audit of the Interest Rate Derivative exposures. The overall policy, risk management framework for the Interest Rate Derivatives are monitored by the Risk Management Committee.

c) Scope and nature of risk identification, risk measurement and risk monitoring:

The Risk Management Policy and Derivative Policy as approved by the Board sets appropriate market limits such as sensitivity limits and value-at-risk limits for exposures in interest rate derivatives.

As the IRFs are traded and settled by the recognised stock exchanges i.e. National Stock Exchange or Bombay Stock Exchange, the risk of counterparty failure would not exist, however the following risks pertaining to hedging using IRFs still exist:

i) Roll over risk

Futures contracts traded in the markets usually expire in 1-3 months. Since the period for which the hedge is established is longer, it necessitates frequent roll-overs from contracts approaching expiry into new contracts. Roll over risk is the cost involved in rolling over futures contracts. The financial impact of this risk can be reduced by actively managing the roll-over from existing contracts into new contracts.

ii) Basis Risk

Basis risk is the risk arising out of a mismatch in the tenure of the risk to be hedged and the tenure of available interest rate future contracts. The financial impact of this risk can be reduced to some extent by purchasing futures contracts so as to match the tenure of the risk to be hedged.

All financial risks of the derivative portfolio are measured and monitored on periodic basis.

27. Subsidiaries:

The Company has two subsidiaries, for which information is given as under:

- i. HDFC Pension Management Company Limited ("HDFC Pension") is a wholly owned subsidiary of HDFC Standard Life Insurance Company Limited and has been a licensed pension fund manager since 2013. Since then, HDFC Pension has been a preferred pension fund manager and the asset under its management have grown to over

₹ 2,560 Crs. In 2014, the Pension Fund Regulatory & Development Authority ("PFRDA") issued a Request for Proposal ("RFP") inviting bids from Sponsors to select new pension fund managers. The bid of HDFC Life to this RFP was rejected by the PFRDA on the ground that it did not meet certain eligibility criteria under the RFP. The Hon'ble Delhi High Court, however, set aside the rejection, directing the PFRDA to grant a Letter of Appointment to HDFC Life thereby allowing

Schedules

HDFC Pension to continue its business. While the PFRDA issued a letter of appointment to HDFC Life, it also challenged the Hon'ble High Court's decision before the Hon'ble Supreme Court of India by way of a Special Leave Petition ("SLP"). The Hon'ble Supreme Court, by its order dated July 31, 2017, dismissed the PFRDA's SLP and refused to interfere with the Hon'ble High Court's decision. Accordingly, the Letter of Appointment issued to HDFC Life stands unqualified, with the appointment of HDFC Pension as a pension fund manager being confirmed.

- ii. 'HDFC International Life and Re Company Limited' is a wholly owned foreign subsidiary incorporated in Dubai on January 10, 2016 under the DIFC (Dubai International Finance Centre) Companies Law No. 2 of 2009 under registration number 2067. HDFC International Life & Re Company is regulated by the Dubai Financial Services Authority ("DFSA") and is licensed to undertake life reinsurance business in the UAE. In future, the Company intends to also undertake life insurance business in other jurisdictions, with necessary regulatory permissions and approvals.

The Master Circular on Unclaimed amount of Policyholders issued by IRDAI on July 25th, 2017, has defined "Unclaimed Amounts of Policy holders" as those amounts which are outstanding for more than six months past due date or settlement date of such amount. Hence, management has identified the unclaimed amounts based on the above definition as at 31st March 2018. In the earlier periods such amounts were identified by the management as unclaimed, basis internal criteria. As per the IRDAI guidelines, such unclaimed amounts were invested in a specific unit linked fund w.e.f April 1, 2016 and hence the unclaimed amounts for earlier periods cannot be reclassified/regrouped. The corresponding amount outstanding for more than year past due date as at March 31, 2017 would aggregate ₹ 40,263 lacs.

7. Application and Investments of Life Insurance Funds

The Company certifies that no part of the life insurance fund have been directly or indirectly applied in contravention of the provisions of the Insurance Act, 1938 (4 of 1938) (amended by the Insurance Laws (Amendment) Act, 2015), and in accordance with IRDA (Investment) - Regulations, 2000 and Orders/directions issued by IRDAI thereafter, except for investment deviations in relation to the Investment regulation changes which has been communicated to the Authority.

8. Overall Risk Exposure and Mitigation Strategies

Enterprise Risk Management framework forms the core of all operations at HDFC Life. It enables risks to be identified, assessed, controlled and monitored consistently, objectively and holistically. The company

Management Report for the year ended March 31, 2018

has a Risk Management Team in place guided by the Company's core Risk Management Committee, Risk Management Council and Senior Management to develop and implement risk assurance practices on a pan-organizational basis. The mitigation strategy with respect to various risks as covered under the current Risk Management framework is:

a) Insurance Risk

Due to its inherent nature of business, the Company exposes itself to a large number of risks. The risks may relate to expenses it incurs in carrying on its business, mortality and morbidity rates and persistency of its policyholders.

Expense Risk - The Company seeks to minimise its expense risk by the use of stringent expense control mechanism.

Mortality and Morbidity Risk - The Company seeks to minimise mortality and morbidity risks by diversifying its business portfolio, adhering to appropriate underwriting norms, intensive monitoring of the retention limits and diversification of the risk through reinsurance arrangements with financially sound reinsurers.

Persistency Risk - The Company analyses all the assumptions used in product pricing and calculation of embedded value and ensure that the same is in line with the actual experience. Also, strategic measures and initiatives are undertaken to ensure that the persistency ratios remain healthy.

The Company seeks to minimise potential impact of all insurance risks by an on-going monitoring, including review of assumptions, of insurance risk experience, implementation of appropriate controls, and adjusting its products, processes and plans accordingly.

b) Investment Risks - Market Risk, Credit Risk and Liquidity Risk

Investment Performance can be affected due to systematic risks which involves factors that affect the overall economy and unsystematic risk which is specific to Investee Company or industry.

The Company seeks to manage its investment risk by ensuring investments are made in high quality assets, which matches its liabilities both by nature and term to the extent that is necessary and possible. The Company has constituted an Investment Committee, which acts as the policy making body for the investment operations. The Investment Committee periodically discusses the investment strategy, portfolio structures, performance of the portfolio and related issues and ensure that the company has well defined investment policies & processes to manage all the investment risks. All Regulatory and Internal norms are built in the Investment system, which monitors the Investment limits and exposure norms on real-time basis. The Company also uses

MSCI Barra One application for performance attribution and risk analysis.

c) Asset-Liability Mismatch Risk

The risk arises due to mismatch caused by market factors, between the asset and liability cash flows. The Company's ALM Policy lays down the Investment / Asset Allocation strategy to manage risks for various liabilities depending on their nature and tenure. The Company has constituted an internal Asset Liability Management Committee (ALCO) that monitors asset liability mismatch risk along with other market and insurance risks and it also formulates, implements and reviews strategies to achieve the stated financial objectives given the risk tolerance. The results, monitoring and mitigation strategies of ALCO are also placed at each Risk Management Committee.

d) Operational Risk

By nature of its business, the Company is exposed to various types of operational risk, which arise from various sources including inadequate record keeping, failures of systems and established controls, employee error, and internal/external frauds. The Company seeks to minimise the impact of these risks by regular monitoring of processes, systems and procedures, implementation of controls, adherence to malpractice matrix for controlling frauds and ensuring back-ups for both systems and data are maintained. Necessary insurance taken for all identified operational risk of the company are also reviewed at regular intervals.

The Company takes a holistic approach to identify, measure, control and monitor fraud risk through the Fraud Risk Management Policy and also formulated a separate vertical (Risk Monitoring & Control Unit, RMCU) to design and implement anti-fraud programs and controls which are effective in reducing negative incidents or events and negative surprises.

Business interruption risk also forms an integral part of operations risk. Since the Company can face a host of disasters that range from minor to catastrophic like fire/data center failure/earthquake etc. which can impact day-to-day operations, the Company seeks to minimise the risk by having a robust Business Continuity Plan (BCP) in place to manage such business interruption risks. Disaster recovery site has been set up to carry critical processes in adverse scenario. Business continuity drills are carried on yearly basis for critical processes and outsource partners to manage business interruption risks.

The Company has a well defined information security policy including areas of cyber security that ensures all information assets are safeguarded by establishing comprehensive management processes throughout the organization.

Management Report for the year ended March 31, 2018

e) Compliance Risk

Sound compliance management process and information systems with a strong control culture have proven effective in managing compliance risk. Accountability & authority for compliance are clearly defined and enforced. Compliance tracker is maintained by the compliance department to manage timelines that are of regulatory nature. All regulatory reporting are published on periodic basis to the relevant stakeholders and timely submission of the reports due is ensured. Appropriate controls and systems are implemented to identify compliance problems and assess performance. The Company also has in place a self assessment compliance mechanism which is to be adhered by all departments.

f) Strategic Risk

Strategic risk is associated with an organisation's mission and future business plans. Detailed analysis is conducted every year to gauge changes in macro economic factors, government policies and regulatory environment. In addition, movement on these parameters are discussed with the Board every quarter along with the management's point of view and recommended action plan. In addition to this, the Life Council and IRDAI share the organisation's view point on steps to increase life insurance penetration, reduce impact of regulatory changes.

The Internal audit department performs regular risk based audits and reports the findings to the Audit Committee on regular basis. The Company's internal auditors review the processes, systems and procedures regularly. Reports of the auditors and the updates by risk management team as well as the actions taken are reported to the Audit Committee and Risk Management Committee of the Board respectively.

Internal Financial Controls: The Company has institutionalised a robust and comprehensive internal control mechanism across all the major processes. The internal audit, in addition to ensuring compliance to policies, regulations, processes etc., also test and report adequacy of internal financial controls with reference to financial reporting/statements. The statutory auditors provide an audit opinion on adherence to Internal Financial Controls.

9. Operations in other Countries

The Company has a liaison office in Dubai which primarily engages in marketing and promotional activities. The Company has a 100% wholly owned foreign subsidiary 'HDFC International Life and Re Company Limited' incorporated in Dubai under the DIFC (Dubai International Finance Centre) Companies Law on January 10, 2016 to carry out life reinsurance business. The amount of capital for this subsidiary is invested outside India and in foreign currency and hence the company is exposed to currency risk.

10. Ageing of Claims

VI. Interest Rate Derivatives

Interest Rate derivatives (IRDs) contracted to hedge highly probable forecasted transactions on insurance contracts in life, pension and annuity business are recognised at fair value, on the date on which the interest rate derivative contracts are entered into and are re-measured at the fair value on the Balance Sheet date.

Interest rate derivative contracts for hedging of highly probable forecasted transactions on insurance contracts are accounted for in the manner specified in accordance with ‘Guidance Note on Accounting for Derivative Contracts’ issued by the Institute of Chartered Accountants of India (ICAI) in June 2015 effective from FY 2017.

At the inception of the hedge, the Company documents the relationship between the hedging instrument and the hedged item, the risk management objective, strategy for undertaking the hedge and the methods used to assess the hedge effectiveness. Hedge effectiveness is the degree to which changes in the fair value or cash flows of the hedged item that are attributable to a hedged risk are offset by changes in the fair value or cash flows of the hedging instrument. Hedge effectiveness is ascertained at the time of inception of the hedge and periodically thereafter. The portion of fair value gain/loss on the IRD that is determined to be an effective hedge is recognised directly in appropriate equity account i.e. ‘Hedge Reserve’ under the head ‘Credit/(Debit) Fair Value Change Account’. Such accumulated gains or losses that were recognised directly in the Hedge Reserve are reclassified into Revenue Account, in the same period during which the asset acquired or liability assumed affects the Revenue Account. In the event that all or any portion of loss, recognised directly in the Hedge Reserve is not expected to be recovered in future periods, the amount that is not expected to be recovered is reclassified to the Revenue Account. Gains or losses arising from hedge ineffectiveness, if any, are recognised in the Revenue Account. Costs associated with derivative contracts are considered as at a point in time cost.

The historical cost of those investments whose reported value is based on fair value are:

Independent Auditors' Report

TO THE MEMBERS OF HDFC STANDARD LIFE INSURANCE COMPANY LIMITED

Report on the Consolidated Financial Statements

1. We have audited the accompanying consolidated financial statements of **HDFC STANDARD LIFE INSURANCE COMPANY LIMITED** ("hereinafter referred to as the Holding Company"), and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") (refer Schedule 16 to the attached consolidated financial statements), comprising of the consolidated Balance Sheet as at March 31, 2018, the related Consolidated Revenue Account (also called the "Policyholders' Account" or the "Technical Account"), the Consolidated Statement of Profit and Loss Account (also called the "Shareholders' Account" or "Non-Technical Account") and the Consolidated Receipts and Payment Account for the year then ended, and a summary of significant accounting policies and other explanatory information prepared based on the relevant records (hereinafter referred to as "the Consolidated Financial Statements").

Management's Responsibility for the Consolidated Financial Statements

2. The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated receipts and payments of the Group in accordance with accounting principles generally accepted in India including the provisions of The Insurance Act, 1938 (the "Insurance Act") (amended by the Insurance Laws (Amendment) Act, 2015), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations"), orders/directions/circulars issued by the Insurance Regulatory and Development Authority of India (the "IRDAI") in this regard and the Accounting Standards specified under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014. The Holding Company's Board of Directors is also responsible for ensuring accuracy of records including financial information considered necessary for the

preparation of Consolidated Financial Statements. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act and the Rules made thereunder including the accounting and auditing standards and matters which are required to be included in the audit report.
4. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.
5. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view, in order to design audit procedures that are appropriate

Independent Auditors' Report

in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

6. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in Paragraph 8 under the Other Matters paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

7. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Insurance Act, the IRDA Act, the IRDA Financial Statements Regulations and the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the consolidated state of affairs of the Group as at March 31, 2018, the related Consolidated Revenue Account (also called the "Policyholders' Account" or the "Technical Account"), the Consolidated Profit and Loss Account (also called the "Shareholders' Account" or "Non-Technical Account") and the consolidated Receipts and Payments Account for the year ended on that date.

Other Matters

8. We did not audit the financial statements of two subsidiaries, whose financial statements reflect total assets of ₹ 1,227,644 (in '000') and net assets of ₹ 1,074,764 (in '000') as at March 31, 2018, total revenue of ₹ 142,440 (in '000'), net loss of ₹ 18,004 (in '000') and net cash flows amounting to ₹ 4,253 (in '000') for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management, and our opinion on the consolidated financial statements insofar as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-sections (3) and (11) of Section 143 of the Act insofar as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.

9. The actuarial valuation of liabilities for life policies in-force and policies where premium is discontinued is the responsibility of the Holding Company's Appointed Actuary (the "Appointed Actuary"), which has been certified by the Appointed Actuary in accordance with the regulations, as mentioned in paragraph 12 (g) below. Accordingly, we have relied upon the Appointed Actuary's certificate for forming our opinion on the consolidated financial statements of the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the report of the other auditor.

Report on Other Legal and Regulatory Requirements

10. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - (b) In our opinion, proper books of account as required by law, maintained by the Holding Company and its subsidiaries included in the Group incorporated in India including relevant records, relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and records of the Holding Company and the reports of the other auditors.
 - (c) The Consolidated Balance Sheet, the Consolidated Revenue Account, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained by the Holding Company, its subsidiaries included in the Group incorporated in India, including relevant records relating to the preparation of the consolidated financial statements.
 - (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 to the extent they are

Independent Auditors' Report

not inconsistent with the accounting principles prescribed in the Regulations and orders / directions issued by the IRDAI in this behalf.

- (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2018 taken on record by the Board of Directors of the Holding Company and the report of the statutory auditors of its subsidiary company incorporated in India, none of the directors of the companies of the Group incorporated in India, is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary company incorporated in India and the operating effectiveness of such controls, refer to our separate Report in Annexure A.
- (g) The actuarial valuation of liabilities for life policies in-force and for policies where premium has been discontinued but liability exists as at March 31, 2018 of Holding company has been duly certified by the Appointed Actuary. The Appointed Actuary has also certified that in his opinion, the assumptions for such valuation are in accordance with the generally accepted actuarial principles and practices, requirements

of the Insurance Act, regulations notified by the IRDAI and Actuarial Practice Standards issued by the Institute of Actuaries of India in concurrence with the IRDAI;

- (h) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated financial statements disclose the impact, if any, of pending litigations as at March 31, 2018 on the consolidated financial position of the Group.
 - ii. Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts as at March 31, 2018.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiary company incorporated in India during the year ended March 31, 2018.

Annexure A to Independent Auditors' Report

(Referred to in Paragraph 10 (f) of our Report on Other Legal and Regulatory Requirements forming part of the Independent Auditors' Report dated April 18, 2018)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2018, we have audited the internal financial controls over financial reporting of HDFC Standard Life Insurance Company Limited (hereinafter referred to as "the Holding Company") and its subsidiary company which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding company and its subsidiary company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on "internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial

controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and

Annexure A to Independent Auditors' Report

directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company and a subsidiary company which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018,

based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

9. Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to the subsidiary company, which is company incorporated in India, is based on the corresponding report of the auditors of such company incorporated in India. Our opinion is not qualified in respect of this matter.
10. The actuarial valuation of liabilities for life policies in force and policies where premium is discontinued is required to be certified by the Appointed Actuary as per the regulations, and has been relied upon by us, as mentioned in Para 9 and 10(g) of our audit report on the consolidated financial statements for the year ended March 31, 2018. Accordingly, our opinion on the internal financial controls over financial reporting does not include reporting on the operating effectiveness of the management's internal controls over the valuation and accuracy of the aforesaid actuarial valuation.

Corporate Information

HDFC Standard Life Insurance Company Limited ('HDFC Life' or 'The Company'), is formed as a joint venture between Housing Development Finance Corporation Limited ('HDFC Ltd. '), and Standard Life Aberdeen plc (formally known as Standard Life plc).

The Company was incorporated at Mumbai on August 14, 2000 as a public limited company under the Companies Act, 1956. The Company obtained a certificate of commencement of business on October 12, 2000 and a certificate of registration from the Insurance Regulatory and Development Authority of India ('IRDAI') on October 23, 2000 for carrying on the business of life insurance. The Company offers a range of individual and group insurance solutions. The portfolio comprises of various insurance and investment products such as Protection, Pension, Savings, Investment and Health.

During the year ended March 31, 2018, the Company was listed on National and Bombay Stock Exchange on November 17, 2017 by an Initial Public Offer (IPO) of 299,827,818 equity shares of face value of ₹ 10 of the Company at an offer price of ₹ 290 per equity shares aggregating to ₹ 8695 Crs through an offer for sale by Housing Development Finance Corporation Limited and Standard Life (Mauritius Holdings) 2006 Limited of 191,246,050 equity shares and 108,581,768 equity shares, respectively.

The Company has two wholly owned Subsidiaries, HDFC Pension Management Company Limited ('HDFC Pension') and HDFC International Life and Re Company Limited. HDFC Pension ('the Indian Subsidiary') is a public limited company domiciled in India and was incorporated under the provisions of the erstwhile Companies Act, 1956 on June 20, 2011 with the purpose of managing pension fund business. HDFC International Life and Re Company Limited ('the Foreign Subsidiary') incorporated in Dubai on January 10, 2016 under the DIFC (Dubai International Finance Centre) Companies Law No. 2 of 2009 under registration number 2067. HDFC International Life & Re Company Limited is regulated by the Dubai Financial Services Authority ("DFSA") and is licensed to undertake life reinsurance business in the UAE.

These consolidated financial statements comprise the financial statements of HDFC Standard Life Insurance Company Limited, the parent company and its wholly owned subsidiaries 'HDFC Pension Management Company Limited' and 'HDFC International Life and Re Company Limited' (together referred to as "the Group").

A. SIGNIFICANT ACCOUNTING POLICIES

1. Basis of consolidation

- a) These consolidated financial statements for the Group are prepared in accordance with the principles and procedures for preparation and presentation of consolidated financial statements as laid down under the Accounting Standard (AS) 21, "Consolidated Financial Statements" and are presented in the same format as that of the Company. The financial statements of the Company and its subsidiaries have been combined on a line-by-line basis by adding together similar items of assets, liabilities, income and expenses in respective components of financial statements after eliminating intra-group balances, transactions and resulting unrealised profits/losses. The Policyholders' account specifically dealing with direct insurance business governed by IRDAI regulations has retained its distinct independent form in these consolidated financial statements.
- b) The Company, its Indian Subsidiary and its Foreign Subsidiary are governed by different operation and accounting regulations and lack homogeneity of business, hence only material adjustments have been made to the financial statements of the two subsidiaries to bring consistency in accounting policies at the time of consolidation to the extent it is practicable to do so. Where it is not practicable to make adjustments and as a result the accounting policies differ, such difference between accounting policies of the Company and its subsidiaries have been disclosed.
- c) The notes to the consolidated financial statements for the Group are intended to serve as a means of informative disclosure and a guide towards better understanding of the consolidated position of the Group. The Group has disclosed such notes from the standalone financial statements of the Company and its subsidiaries which are necessary for presenting a true and fair view of the consolidated financial statements.

2. Basis of preparation

These consolidated financial statements are prepared under the historical cost convention on an accrual basis of accounting in accordance with the accounting principles and in the manner prescribed by the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 ('the Financial Statements Regulations'), the Master Circular on 'Preparation of Financial Statements and Filing Returns of Life Insurance Business' Ref No. IRDA/F&A/Cir/232/12/2013 dated December 11, 2013 ('the Master Circular') and other circulars issued by the IRDAI from time to time, provisions of the Insurance

Schedules

Act, 1938 as amended from time to time including the amendment brought by the Insurance Laws (Amendment) Act, 2015, the Insurance Regulatory and Development Authority Act, 1999, as amended from time to time, the Companies Act, 1956, as amended from time to time, to the extent applicable and the Companies Act, 2013 and amendments and rules made thereto, as applicable. Pursuant to Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014, whereby till the accounting standards or any addendum thereto are prescribed by the Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing accounting standards notified under Companies Act, 1956, shall continue to apply. Consequently, these consolidated financial statements have been prepared also to comply in all material aspects with the accounting standards notified under Section 211 (3C) of the Companies Act, 1956 i.e., Companies (Accounting Standards) Rules, 2006, as amended and to the extent applicable. Accounting policies have been consistently applied to the extent applicable and in the manner so required, except to the extent specified in 1 above.

Notes to these consolidated financial statements are intended to serve as a means of informative disclosure and a guide to better understanding of the consolidated position of the companies. Recognising this purpose, the Company has disclosed only such notes from the individual financial statements, which fairly present the needed disclosures.

The accounting policies, notes and disclosures made by the parent are best viewed in its standalone financial statements to which these consolidated financial statements are attached. Differences in accounting policies followed by the other entities consolidated have been reviewed and no adjustments have been made, since the impact of these differences is not significant.

Since the operations of the wholly owned subsidiaries are, at this stage, not material, the accounting policies herein largely reflect those policies of the parent and in all material aspects to that of the consolidated group.

3. Use of estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles in India ('Indian GAAP') requires that the Company's management makes estimates and assumptions that affect the reported amounts of income and expenses for the year, reported balances of assets and liabilities and disclosures relating to contingent liabilities as on the date of the consolidated financial statements. The estimates and assumptions

used in the accompanying consolidated financial statements are based upon management's evaluation of the relevant facts and circumstances upto and as on the date of the consolidated financial statements. Actual results could differ from the estimates. Any revision to the accounting estimates is accounted for prospectively.

4. Revenue recognition

i) Premium income

Premium income including rider premium is accounted for when due from the policyholders and as reduced for lapsation expected based on the experience of the Company. Investments in Venture Funds and Security Receipts are valued at the latest available net asset values of the respective underlying funds. Fixed Deposits and investment in Reverse Repo are valued at cost.

Unrealised gains or losses arising on valuation of debt securities including Government Securities are accounted for in the Consolidated Revenue Account.

Securities with call options are valued at the lower of the values as obtained by valuing the security to the final maturity date or to the call option date by using the benchmark rate based on the matrix released by CRISIL on daily basis. In case there are multiple call options, the security is valued at the lowest value obtained by valuing the security to the various call dates or to the final maturity date. Securities with put options are valued at the higher of the value as obtained by valuing the security to the final maturity date or to the put option date by using the benchmark rate based on the matrix released by CRISIL on daily basis. In case there are multiple put options, the security is valued at the highest value obtained by valuing the security to the various put option dates or to the final maturity date.

Securities with both put and call options on the same day are deemed to mature on the put and call option day and would be valued on a yield to maturity basis, by using the benchmark rate based on the matrix released by CRISIL on daily basis.

III. Equity shares, Equity Exchange Traded Funds (ETFs), Investment Trusts (InvIT) and Additional Tier I Bonds (AT1 Bonds)

a) Non-linked business, non-unit reserve investments and shareholders' investments

Listed equity shares, equity ETFs and InvIT are valued at fair value, being the last quoted closing price on the Primary Exchange i.e. National Stock Exchange (NSE) at the Balance Sheet date. In case, the equity shares and equity ETFs are not traded on the Primary Exchange on the Balance Sheet date, the closing price on the Secondary Exchange i.e. Bombay Stock Exchange (BSE) are considered.

If the equity shares are not traded either on the Primary or the Secondary Exchange on the Balance

Schedules

Sheet date, then the price at which the equity shares are traded on the Primary or the Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation provided such previous day price is not more than 30 days prior to the Balance Sheet date.

Equity shares lent under the Securities Lending and Borrowing scheme (SLB) continue to be recognised in the Balance Sheet as the Company retains all the associated risks and rewards of these securities.

In case the equity ETFs and InvITs are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the equity ETFs are valued at the latest available Net Asset Value (NAV). In case of InvITs where the market quote is not available for the last 30 days, the InvITs shall be valued at the latest NAV (not more than 6 months old) as published by the Infrastructure Investment Trust.

The AT1 Bonds are valued at market value, using applicable market yields published by SEBI registered rating agency Credit Rating Information Services of India Limited ('CRISIL'), using Bond Valuer.

Unrealised gains or losses arising due to changes in fair value are recognised under the head 'Fair Value Change Account' in the Consolidated Balance Sheet.

Unlisted equity shares and listed equity shares that are not regularly traded in active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by Securities Exchange Board of India (SEBI) are valued at historical cost, subject to provision for diminution, if any, in the value of such investments determined separately for each individual investment.

Listed equity ETFs that are not regularly traded in the active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by SEBI are valued at the latest available NAV.

Bonus entitlements are recognised as investments on the 'ex-bonus date'. Right entitlements are accrued and recognised on the date the original shares (on which the right entitlement accrues) are traded on the stock exchange on an 'ex-rights' date.

b) Linked business

IV. Preference Shares

a) Non-linked business, non-unit reserve investments and shareholders' investments

Redeemable preference shares are considered as "held to maturity" and accordingly valued at historical cost, subject to amortisation of premium or accretion of discount.

Schedules

Listed preference shares other than redeemable preference shares are valued at fair value, being the last quoted closing price on the Primary Exchange i.e. National Stock Exchange (NSE) at the Balance Sheet date. In case, the preference shares are not traded on the Primary Exchange on the Balance Sheet date, the closing price on the Secondary Exchange i.e. Bombay Stock Exchange (BSE) are considered.

If preference shares are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the price at which the preference shares are traded on the Primary or the Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation, provided such previous day price is not more than 30 days prior to the Balance Sheet date.

Unrealised gains or losses arising due to changes in fair value are recognised under the head 'Fair Value Change Account' in the Consolidated Balance Sheet.

Unlisted preference shares other than redeemable preference shares and listed preference (other than redeemable preference) shares that are not regularly traded in active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by Securities Exchange Board of India (SEBI) are valued at historical cost, subject to provision for diminution in the value, if any, of such investments determined separately for each individual investment.

b) **Linked business**

Listed preference shares are valued and stated at fair value, being the last quoted closing price on the Primary Exchange i.e. the NSE at the Balance Sheet date. In case, the preference shares are not traded on the Primary Exchange on the Balance Sheet date, the closing price on the Secondary Exchange i.e. the BSE are considered.

If preference shares are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the price at which the preference shares are traded on the Primary or the Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation, provided such previous day price is not more than 30 days prior to the Balance Sheet date.

Unrealised gains or losses arising on such valuations are accounted for in the Consolidated Revenue Account.

Listed preference shares that are not regularly traded in active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds

for valuation of thinly traded securities laid down by SEBI, are valued at historical cost, subject to provision for diminution in the value, if any, of such investment determined separately for each individual investment.

V. **Mutual funds**

a) **Non-linked business, non-unit reserve investments and shareholders' investments**

Mutual fund units held at the Balance Sheet date are valued at previous business day's Net Asset Value (NAV) per unit. Unrealised gains or losses arising due to changes in the fair value of mutual fund units are recognised under the head 'Fair Value Change Account' in the Consolidated Balance Sheet.

b) **Linked business**

Mutual fund units held at the Balance Sheet date are valued at previous business day's NAV per unit. Unrealised gains or losses arising due to changes in the fair value of mutual fund units are recognised in the Consolidated Revenue Account.

VI. **Interest Rate Derivatives**

Interest Rate Derivatives (IRDs) contracted to hedge highly probable forecasted transactions on insurance contracts in life, pension and annuity business are recognised at fair value, on the date on which the interest rate derivative contracts are entered into and are re-measured at the fair value on the Balance Sheet date.

Interest rate derivative contracts for hedging of highly probable forecasted transactions on insurance contracts are accounted for in the manner specified in accordance with 'Guidance Note on Accounting for Derivative Contracts' issued by the Institute of Chartered Accountants of India (ICAI) in June 2015 effective from FY 2017.

At the inception of the hedge, the Company documents the relationship between the hedging instrument and the hedged item, the risk management objective, strategy for undertaking the hedge and the methods used to assess the hedge effectiveness. Hedge effectiveness is the degree to which changes in the fair value or cash flows of the hedged item that are attributable to a hedged risk are offset by changes in the fair value or cash flows of the hedging instrument. Hedge effectiveness is ascertained at the time of inception of the hedge and periodically thereafter. The portion of fair value gain/loss on the IRD that is determined to be an effective hedge is recognised directly in appropriate equity account i.e. 'Hedge Reserve' under the head 'Credit/(Debit) Fair Value Change Account'. Such accumulated gains or losses that were recognised directly in the Hedge

Schedules

Reserve are reclassified into Consolidated Revenue Account, in the same period during which the asset acquired or liability assumed affects the Consolidated Revenue Account. In the event that all or any portion of loss, recognised directly in the Hedge Reserve is not expected to be recovered in future periods, the amount that is not expected to be recovered is reclassified to the Consolidated Revenue Account. Gains or losses arising from hedge ineffectiveness, if any, are recognised in the Consolidated Revenue Account. Costs associated with derivative contracts are considered as at a point in time cost.

C) Valuation of investments of Subsidiaries

(to the extent they differ from the company, which are as per their respective regulations)

In respect of the Indian Subsidiary, short term investments (current investments) are valued at lower of cost or fair value for which valuation is determined for each individual investment. Long term investments are valued at cost, subject to amortisation of premium or accretion of discount computed at the time of purchase of investments, over the period of maturity/holding, on a straight line basis. Provision for diminution in value is made to recognise a decline, other than temporary, in the value of the investments.

In respect of the Foreign Subsidiary non-derivative financial assets with fixed or determinable payments and fixed maturities are classified as held to maturity when the company has the positive intention and ability to hold until maturity. After initial measurement, held to maturity financial assets are measured at amortised cost, using the EIR, less impairment.

D) Impairment of investments

The Company periodically assesses at each Balance Sheet date whether there is any indication of impairment of investments or reversal of impairment loss earlier recognised. An impairment loss is accounted for as an expense and disclosed under the head 'Provision for diminution in the value of investment (net)' in the Consolidated Revenue Account or the Consolidated Profit and Loss Account to the extent of the difference between the re-measured fair value of the investments and its acquisition cost as reduced by any earlier impairment loss accounted for as an expense in the Consolidated Revenue Account or Consolidated Profit and Loss Account.

Any reversal of impairment loss earlier recognised for in Consolidated Revenue Account or Consolidated Profit and Loss Account, is accounted in the Consolidated Revenue Account or Consolidated Profit and Loss Account respectively.

E) Provision for Non Performing Assets (NPA)

All assets where the interest and/or instalment of principal repayment remain overdue for more than 90 days at the Balance Sheet date are classified as NPA and provided for in the manner required by the IRDAI regulations on this behalf.

F) Transfer of investments from Shareholders' fund to Policyholders' fund

Transfers of investments other than debt securities, as and when made from Shareholders' fund to the Policyholders' fund, to meet the deficit in the Policyholders' account, are made at the cost price or market price, whichever is lower.

Transfers of debt securities, from Shareholders' fund to Policyholders' fund, as and when made, are made at the net amortised cost or the market value, whichever is lower.

G) Transfer of investments between non-linked Policyholders' funds

No transfers of investments are made between non-linked Policyholders' funds.

H) Purchase and sale transactions between unit linked funds

The purchase and sale of equity, preference shares, ETF's, InvIT's and Government Securities between unit linked funds is accounted for at the prevailing market price on the date of purchase or sale of investments, if prevailing market price of any security is not available on the date of transfer of investment, then the last available price is considered.

In case of debt securities, other than Government Securities transfer of investment is accounted at previous day valuation price w.e.f. January 1, 2017 (applicable date of IRDAI (Investment) Regulations, 2016). Prior to this, such transfers were accounted at prevailing market price on the date of purchase or sale of investments and if prevailing market price of any security was not available on the date of transfer of investment, then the last available price was considered.

9. Life Insurance Policy liabilities

The actuarial liabilities, for all inforce policies and policies where premiums are discontinued but a liability exists as at the valuation date, are calculated in accordance with the generally accepted actuarial principles and practices, requirements of Insurance Act, 1938, as amended from time to time including amendment brought by the Insurance Laws (Amendment) Act, 2015, regulations notified by the IRDAI and Actuarial Practice Standard (APS) issued by

Schedules

the Institute of Actuaries of India with the concurrence of the IRDAI.

The specific principles adopted for the valuation of policy liabilities are set out as per the IRDAI (Assets, Liabilities and Solvency Margin) Regulations, 2016 and the APS2 & APS7 issued by the Institute of Actuaries of India.

A brief of the methodology used for various lines of business is as given below:

1. The policy liabilities are valued on policy by policy basis, i.e. each policy is valued separately.
2. The reserves for linked business (individual and group) comprises of unit reserves and non-unit reserves. The unit reserves are determined on the basis of NAV of the units outstanding as at the valuation date and non-unit reserves are calculated using gross premium method.
3. The liabilities for individual non-linked non-participating and participating business are calculated using gross premium method and are subject to the minimum floor of surrender value. Additionally, individual non-linked participating policies also have a reference to the asset share of policies at valuation date.
4. The liabilities for one year renewable group protection business are calculated on the unexpired risk premium basis. For other than one year renewable group protection business, the liabilities are calculated using gross premium valuation method.
5. The liabilities for the group non-linked savings products are determined as the higher of policy account balances (including accrued interest/bonuses) and reserves calculated by gross premium valuation method.
6. The liabilities in respect of rider benefits are determined as the higher of unexpired premium reserves and reserves calculated by gross premium valuation method.
7. Additional reserves are determined to:
 - a. allow for the claims that may have occurred already but not yet reported (Incurred But Not Reported).
 - b. allow for the servicing of existing policies if the Company were to close the new business one year from the valuation date (Closure to New Business).
 - c. meet the expected liabilities that would arise on the revival of lapsed policies on the basis of the

proportion of the policies expected to be revived based on the revival experience of the Company (Revival Reserve).

- d. allow for the additional amount required to be paid on account of cancellation of policies due to look in, on the basis of the proportion of the policies expected to exercise the look-in option based on the experience of the Company (Look in Reserve).
- e. allow for the cost of guarantees, wherever applicable.

10. Reinsurance contract Liabilities

- a. Reserve for future expected claims
Reserve created for long term insurance contracts (products more than one year) to cover all future claim liabilities as determined by the Actuary. The reserve is held for the claims expected to be incurred in future on the reinsurance contracts in force at the date of valuation.
- b. Incurred But Not Reported (IBNR)
As significant time lags may exist between incurrence of claims and notification of the claims to the Company, a reserve for incurred but not reported claims is held.
- c. Allocated Loss Adjustment Expense (ALAE)
These represents future claim expenses and related handling costs.

11. Fixed assets and Depreciation/ Amortisation

The fixed assets are stated at cost less accumulated depreciation and impairment, if any. Cost includes the purchase price and any cost directly attributable to bring the asset to its working condition for its intended use. Fixed assets individually costing less than ₹ 5,000, being low value assets are fully depreciated in the month of purchase. Subsequent expenditure incurred on existing fixed assets is expensed out except where such expenditure increases the future economic benefits from the existing assets. Any additions to the original fixed assets are depreciated over the remaining useful life of the original asset.

Cost of assets as at the Balance Sheet date not ready for its intended use as at such date are disclosed as capital work in progress. Advances given towards acquisition of fixed assets are disclosed in 'Advance and other assets' in Consolidated Balance Sheet.

Depreciation/amortisation is charged on pro-rata basis from the month in which the asset is put to use and in case of asset sold, up to the previous month of sale. In respect of expenditure incurred on acquisition

Schedules

of fixed assets in foreign exchange, the net gain or loss arising on conversion/settlement is recognised in the Consolidated Revenue Account / Consolidated Profit and Loss Account.

Tangible assets

The Group has adopted straight line method of depreciation so as to depreciate the cost of following type of assets over the useful life of these respective assets which are as follows:

Asset class	Useful life of assets (years)
Building	60
Information technology equipment-End user devices [^]	3
Information technology equipment-Servers and network ^{*^}	4
Furniture & Fixtures ^{*^}	5
Motor Vehicles ^{*^}	4
Office Equipment [^]	5

* For these class of assets, based on internal and/or external assessment/ technical evaluation carried out by the management, the management believes that the lives as mentioned above best represent the useful life of these respective assets, however these are lower than as prescribed under Part C of Schedule II of the Companies Act, 2013.

[^] For these class of assets, based on internal assessment carried out by the management, the residual value at the end of life being very negligible is considered to be nil.

Leasehold improvements are depreciated over the lock in period of the leased premises subject to a maximum of five years.

Intangible assets

Intangible assets comprising of computer software are stated at cost of acquisition, including any cost attributable for bringing the same to its working condition for its intended use, less accumulated amortisation and impairment, if any. These are amortised over the useful life of the software subject to maximum of four years. Subsequent expenditure incurred on existing assets is expensed out except where such expenditure increases the future economic benefits from the existing assets, in which case the expenditure is amortised over the remaining useful life of the original asset.

Any expenditure for support & maintenance of the computer software is charged to the Consolidated Revenue Account.

12. Impairment of assets

The Company periodically assesses, using internal and external sources of information and indicators, whether there is any indication of impairment of asset. If any such indication of impairment exists, the recoverable amount of such assets is estimated. An impairment loss is recognised where the carrying value of these assets exceeds its recoverable amount. The recoverable amount is the higher of the asset's net selling price and their value in use, which is the present value of the future cash flows expected to arise from the continuing use of asset and its ultimate disposal. When there is an indication that an impairment loss recognised for an asset in earlier accounting periods is no longer necessary or may have decreased, such reversal of impairment loss is recognised, except in case of revalued assets.

13. Loans

Loans are valued at historical cost (less repayments), subject to adjustment for accumulated impairment losses and provision for NPA, if any.

14. Foreign currency transactions

In accordance with the requirements of Accounting Standard (AS) 11, "The Effects of Changes in Foreign Exchange Rates", transactions in foreign currency are recorded in Indian Rupees at the rate of exchange prevailing on the date of the transaction, at the time of initial recognition. Monetary items denominated in foreign currency are converted in Indian Rupees at the closing rate of exchange prevailing on the Balance Sheet date. Non-monetary items like fixed assets, which are recorded at historical cost, denominated in foreign currency, are reported using the closing exchange rate at the date of transaction. Non-monetary items other than fixed assets, which are recognised at fair value or other similar valuation, are reported using exchange rates that existed when the values were determined.

Exchange gains or losses arising on such conversions are recognised in the period in which they arise either in the Consolidated Revenue Account or the Consolidated Profit and Loss Account, as the case may be.

In case of Foreign Subsidiary, being non-integral foreign operations, income and expenses are translated at the average rate prevailing during the year. All the assets and liabilities, both monetary and non-monetary are translated at the rate prevailing at Balance Sheet date. The resultant translation gains and losses are disclosed as 'Foreign currency translation reserve' in 'Reserve and Surplus' under Shareholders' Funds in the Consolidated Balance Sheet.

15. Segmental reporting

Identification of segments

As per Accounting Standard (AS) 17, "Segment Reporting", the Company has prepared the Consolidated Segmental Revenue Account and the Consolidated Segmental Information for the primary business segments namely Participating Life (Individual & Group), Participating Pension (Individual & Group), Participating Pension Group Variable, Non Participating Life (Individual & Group), Non Participating Pension (Individual & Group), Non Participating Life Group Variable, Non Participating Pension Group Variable, Non Participating - Annuity, Non Participating - Individual & Group Health, Unit Linked - Individual Life, Unit Linked - Individual Pension, Unit Linked - Group Life and Unit Linked - Group Pension. Reinsurance and Pension Business are categorised with "others" as they are below the recognition thresholds of 10%.

The company operates in two geographical segments i.e India & Middle East region. However, since the revenues and assets in Middle East region are less than 10% of the total assets, no separate geographical segments has been disclosed.

Allocation methodology

The allocation of revenue, expenses, assets and liabilities to the business segments is done on the following basis:

- a) Revenue, expenses, assets and liabilities, which are directly attributable and identifiable to the respective business segments, are directly allocated for in that respective segment; and
- b) Revenue, expenses, assets and liabilities which are not directly identifiable to a business segment though attributable and other indirect expenses which are not attributable to a business segment, are allocated based on one or combination of some of the following parameters, as considered appropriate by the management in adherence with the policy approved by the board of directors :
 - i) effective premium income
 - ii) number of policies
 - iii) number of employees
 - iv) man hours utilised
 - v) premium income
 - vi) commission
 - vii) sum assured
 - viii) mean fund size
 - ix) operating expenses
 - x) benefits paid

The accounting policies used in segmental reporting are the same as those used in the preparation of the consolidated financial statements.

16. Employee benefits

A) Short term employee benefits

All employee benefits payable within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries and bonuses, short term compensated absences, premium for staff medical insurance (hospitalisation), premium for Employee Group Term Insurance Scheme, Employee State Insurance Corporation Scheme, Employee Deposit Linked Insurance Scheme and Employee Labour Welfare Fund Scheme are accounted for in the period in which the employee renders the related service. All short term employee benefits are accounted for on an undiscounted basis.

B) Post-employment benefits

The Company has both defined contribution and defined benefit plans.

(i) Defined contribution plans:

The Superannuation Scheme, Employee Provident Fund Scheme (Company contribution) and the National Pension Scheme (Company contribution) are the defined contribution plans. The contributions paid/payable under the plan are made when due and charged to the Consolidated Revenue Account on an undiscounted basis during the period in which the employee renders the related service. The Company does not have any further obligation beyond the contributions made to the funds.

(ii) Defined benefit plans:

In case of the Company, the Gratuity plan is the defined benefit plan, which is a funded plan. The gratuity benefit payable to the employees of the Company is in compliance with the provisions of 'The Payment of Gratuity Act, 1972'. The present value of the obligations under such defined benefit plan is determined on the basis of actuarial valuation using the projected unit credit method which considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation, The discount rate used for actuarial valuation is based on the yield of Government Securities.

The Company fully contributes the net ascertained liabilities under the plan to the HDFC Life Insurance Company Limited Employees Group Gratuity Plan. The Company recognises the net defined benefit obligation of the gratuity

Schedules

plan, taking into consideration the defined benefit obligation using actuarial valuation and the fair value of plan assets at the Balance Sheet date in accordance with Accounting Standard (AS) 15 (Revised), 'Employee Benefits'.

In case of both the subsidiaries, Gratuity plan is an unfunded defined benefit plan. In case of Indian Subsidiary, gratuity benefit payable to the employees is as per the provisions of 'The Payment of Gratuity Act, 1972'. In case of the Foreign Subsidiary, the gratuity benefit payable to the employees employed in UAE is in accordance with the DIFC Employment Law. The present value of the obligation under such defined benefit plans in case of both the subsidiaries is determined based on the actuarial valuation at the Balance Sheet date using the projected unit credit method. Provision for gratuity is accounted for taking into consideration the actuarial valuation of plan obligation as at the Balance Sheet date.

Actuarial gains or losses, if any, due to experience adjustments and the effects of changes in actuarial assumptions are accounted for in the Consolidated Revenue Account or the Consolidated Profit and Loss Account, as the case may be, in the period in which they arise.

C) Other long term employee benefits

Other long term employee benefits include accumulated long term compensated absences and long term incentive plans. Accumulated long term compensated absences are entitled to be carried forward for future encashment or availment at the option of the employee subject to Company's policies and are accounted for based on actuarial valuation determined using the projected unit credit method.

Long term incentive plans are subject to fulfilment of criteria prescribed by the Company and are accounted for at the present value of future expected benefits payable using an appropriate discount rate.

Actuarial gains or losses, if any, due to experience adjustments and the effects of change in actuarial assumptions are accounted for in the Consolidated Revenue Account or the Consolidated Profit and Loss Account, as the case may be in the period in which they arise.

17. Employee Stock Option Scheme (ESOS)

The Company has formulated Employee Stock Option Scheme 2005 (ESOS 2005), Employee Stock Option Scheme 2010 (ESOS 2010), Employee Stock Option Scheme 2011 (ESOS 2011), Employee Stock Option Scheme 2012 (ESOS 2012) and ESOS (Trust) 2017,

which are administered through the HDFC Standard Life Employees Stock Option Trust ("the Trust") and Employee Stock Option Scheme 2014 (ESOS 2014) and Employee Stock Option Scheme 2015 (ESOS 2015), Employee Stock Option Scheme 2016 (ESOS 2016), Employee Stock Option Scheme 2017 (ESOS 2017) which is directly administered by the Company. The schemes provide that eligible employees are granted options that vest in a graded manner to acquire equity shares of the Company. The options are accounted for on an intrinsic value basis in accordance with the 'Guidance Note on Accounting for Employee Share based Payments', issued by the Institute of Chartered Accountants of India (ICAI). The intrinsic value is the amount by which the value of the underlying share determined by an independent valuer exceeds the exercise price of an option. The intrinsic value of options, if any, at the grant date is amortised over the vesting period.

18. Provisions, contingent liabilities and contingent assets

Provisions are accounted for in respect of present obligations arising out of past events where it is probable that an outflow of resources will be required to settle the obligation and the amounts of which can be reliably estimated. Provisions are determined on the basis of best estimate of the outflow of economic benefits required to settle the obligation at the Balance Sheet date. Where no reliable estimate can be made, a disclosure is made as contingent liability.

Contingent liabilities are disclosed in respect of;

- a) possible obligations arising out of past events, but their existence or otherwise would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or
- b) present obligations that arise from past events, where it is probable but not likely that an outflow of resources embodying economic benefits will be required to settle the obligations or a reliable estimate of the amounts of the obligations cannot be made.

Contingent assets are neither accounted for nor disclosed.

19. Leases

A) Finance leases

Leases under which the lessee assumes substantially all the risk and rewards of ownership of the asset are classified as finance leases. Such leased asset acquired are capitalised at fair value of the asset or present value of the minimum lease rental payments at the inception of the lease, whichever is lower.

Schedules

B) Operating leases

Leases where the lessor effectively retains substantially all the risk and the benefits of ownership over the lease term are classified as operating leases. Leased rental payments under operating leases including committed increase in rentals are accounted for as an expense, on a straight line basis, over the non-cancellable lease period.

20. Taxation:

A) Direct tax

I) Provision for income tax

In case of the Company, provision for income tax is made in accordance with the provisions of Section 44 of the Income Tax Act, 1961 read with Rules contained in the First Schedule and other relevant provisions of the Income Tax Act, 1961 as applicable to a company carrying on life insurance business.

In case of the Indian Subsidiary, provision for income tax is made in accordance with the provisions of the Income Tax Act, 1961 as applicable to the company carrying on pension business. Where tax liability has been provided based on Minimum alternate tax (MAT) provisions, MAT credit is recognised as an asset only when and to the extent there is convincing evidence that normal income tax will be paid during the specified period.

There is no tax liability as per the local tax laws in case of the Foreign Subsidiary.

II) Deferred tax

In accordance with the provisions of the Accounting Standard (AS) 22, "Accounting for Taxes on Income", with respect to the carry forward of losses under the Income Tax regulations, the deferred tax asset is recognised only to the extent that there is a virtual certainty supported by convincing evidence that future taxable income will be available against which the deferred tax asset can be realised.

B) Indirect tax

The Company claims credit of service tax / goods and services tax on input services, which is set off against service tax / goods and services tax on output services.

As a matter of prudence, unutilised credits towards service tax / goods and services tax on input services are carried forward under 'Schedule 12 -Advances and Other Assets' in the Balance Sheet, wherever there is reasonable certainty of utilisation.

21. Funds for Future Appropriations

Funds for Future Appropriations (FFA), in the participating segment, represents the surplus, which is not allocated to policyholders or shareholders as at the Balance Sheet date. Transfers to and from the fund reflect the excess/deficit of income over expenses respectively and appropriations in each accounting period arising in the Company's Policyholders' Fund. Any allocation to the par policyholders would also give rise to a transfer to Consolidated Profit and Loss Account in the required proportion.

22. Earnings per share

In accordance with the requirement of Accounting Standard (AS) 20, "Earnings Per Share", basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. Potential equity shares are treated as dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations.

23. Cash and cash equivalents

Cash and cash equivalents for the purposes of Consolidated Receipts and Payments account comprise of cash and cheques in hand, bank balances, fixed deposits with original maturity of three months or less, CBLO, Reverse Repo, highly liquid mutual funds and highly liquid investments that are readily convertible into measurable amounts of cash and which are subject to insignificant risk of change in value. Consolidated Receipts and Payments Account is prepared and reported using the Direct Method in accordance with Accounting Standard (AS) 3, "Cash Flow Statements" as per requirements of Para 2.2 of the Master Circular.

The Company has filed appeals against the demand notices/assessment orders with the appellate authorities and has been advised by the experts that the grounds of appeal are well supported in law in view of which the Company does not expect any liability to arise in this regard.

* As per IRDAI Master Circular on Unclaimed Amounts of Policyholders dated July 25, 2017, the unclaimed amount of policyholders outstanding for a period of more than 10 years as on September 30, 2017 has been transferred to Senior Citizen's Welfare Fund on March 01, 2018. The transferred amount has been disclosed here as a contingent liability as required by the Circular.

2. Indian Subsidiary

HDFC Pension Management Company Limited ("HDFC Pension") is a wholly owned subsidiary of HDFC Standard Life Insurance Company Limited and has been a licensed pension fund manager since 2013. Since then, HDFC Pension has been a preferred pension fund manager and the asset under its management have grown to over ₹ 2,560 Crs. In

2014, the Pension Fund Regulatory & Development Authority ("PFRDA") issued a Request for Proposal ("RFP") inviting bids from Sponsors to select new pension fund managers. The bid of HDFC Life to this RFP was rejected by the PFRDA on the ground that it did not meet certain eligibility criteria under the RFP. The Hon'ble Delhi High Court, however, set aside the rejection, directing the PFRDA to grant a Letter of Appointment to HDFC Life thereby allowing the HDFC Pension to continue its business. While the PFRDA issued a letter of appointment to HDFC Life, it also challenged the Hon'ble High Court's decision before the Hon'ble Supreme Court of India by way of a Special Leave Petition ("SLP"). The Hon'ble Supreme Court, by its order dated July 31, 2017, dismissed the PFRDA's SLP and refused to interfere with the Hon'ble High Court's decision. Accordingly, the Letter of Appointment issued to HDFC Life stands unqualified, with the appointment of HDFC Pension as a pension fund manager being confirmed.

3. Actuarial assumptions

The policyholders' actuarial liabilities are determined based on assumptions as to the future experience of the policies. The principal assumptions are related to interest, expenses, mortality, morbidity, persistency and additionally in the case of participating policies, bonuses and tax. The assumptions are based on prudent estimates of the future experience, and hence include margins for adverse deviations over and above the best estimate assumptions. A brief of the assumptions used in actuarial valuation is as below:

Schedules

a) Interest rate assumptions:

The valuation rate of interest is determined based on the expected return on existing assets, current asset mix, expected investment return on the future investment taking into consideration the asset classes mix and expected future asset mix. The interest rates used for the valuation vary according to the type and term of the product and are in the range of 5.20% to 7.00% (Previous year ended March 31, 2017: 5.20% to 7.35%).

b) Expense assumptions:

The expense assumptions are set on the basis of the expense analysis. These are fixed renewal expenses and investment expenses charged as a % of fund. The renewal and claim expenses are increased at an inflation rate of 6.5% p.a.

c) Mortality assumptions:

Mortality assumptions are set in accordance with Clause 5(2) of Schedule II of the IRDAI (Assets, Liabilities and Solvency Margin of Life Insurance Business) Regulations, 2016, in reference to the published Indian Assured Lives Mortality table (2006-08) and are based on the latest experience analysis of the business. In the case of annuity benefits, mortality assumption is based on the LIC Annuitants (1996-1998) table.

d) Morbidity assumptions:

Morbidity assumptions are set in accordance with Clause 5(3) of Schedule II of the IRDAI (Assets, Liabilities and Solvency Margin of Life Insurance Business) Regulations, 2016, in reference to the

published CIBT 93 Table and are based on the latest experience analysis of the business.

e) Persistency assumptions:

The persistency assumptions are also based on the most recent experience of the Company and vary according to the premium frequency and type of the product.

f) Provision for free-look period:

If a policy which is in force as at the valuation date is subsequently cancelled in the free-look period, then there could be a strain in the policyholder fund on account of the amount payable on free-look cancellation, to the extent the amount is higher than reserves held for that policy. In order to avoid the future valuation strain as a result of the free-look cancellations, reserves on account of the above are held. The free-look reserve is calculated as total strain for all policies that are eligible for free-look cancellations at the valuation date, multiplied by a factor, representing the expected assumptions for free-look cancellations.

g) Bonus rates:

The bonus rates for the participating business as required to be declared in the future is based on the interest expected to be earned as per the valuation assumptions.

h) Tax:

The tax rate as applicable to insurance companies carrying on insurance business is 14.42 % p.a. (For the year ended March 31, 2017 14.42% p.a.)

I. Gratuity:

a) General description of defined benefit plan

In case of HDFC Life, this is a funded defined benefit plan for qualifying employees under which the Company makes a contribution to the HDFC Standard Life Insurance Company Limited Employees Gratuity Trust (Trust). In case of both the subsidiaries, this is an unfunded defined benefit plan. In case of HDFC Life and its Indian Subsidiary, the plan provides for a lump sum payment as determined in the manner specified under 'The Payment of Gratuity Act, 1972', and in case of Foreign Subsidiary, the plan provides for end of service benefits in accordance with the DIFC Employment Law to the vested employees either at retirement or on death while in employment or on termination of employment. The benefit vests after five years of continuous service in case of HDFC Life and the Indian Subsidiary

and in accordance with the DIFC Employment Law for the Foreign Subsidiary. Defined benefit obligations are actuarially determined at each quarterly Balance Sheet date using the projected unit credit method as required under Accounting Standard (AS) 15 (Revised), "Employee benefits", in case of the Company and its Indian Subsidiary and in case of the Foreign Subsidiary as per International Financial Reporting Standard (IFRS), IAS 19, 'Employee Benefits'. Actuarial gains or losses are recognised in the Consolidated Revenue Account/ Consolidated Profit and Loss Account.

5. Employee Stock Option Scheme (ESOS)

- (i) The Company has granted options to employees under the ESOS 2005, ESOS 2010, ESOS 2011 and ESOS 2012 and ESOS (Trust) 2017 schemes. These schemes are administered by the HDFC Standard Life Employees Stock Option Trust. The Trust had subscribed to the capital of the Company and also acquired shares of the Company from Housing Development Finance Corporation Limited, the holding company. The options are granted to the employees from these tranches of shares. For all the grants, the mode of settlement is through equity shares. All the grants have graded vesting. The exercise price of ESOS 2005 is based on the holding cost of the shares in the books of the Trust and that of ESOS 2010, ESOS 2011 and ESOS 2012 is based on the fair market value as determined by the Category I Merchant Banker registered with SEBI. The exercise price, of the options granted under ESOS (Trust) 2017 is based on the market price of the shares of the Company, as defined in the ESOS (Trust) 2017 scheme.
- (ii) The Company has also granted options to its employees under the ESOS 2014 scheme, ESOS 2015 scheme, ESOS 2016 scheme and ESOS 2017 scheme. The said schemes are directly administered by the Company. For all the grants, the mode of settlement is through equity shares. All the grants have graded vesting. The exercise price of ESOS 2014, ESOS 2015 and of ESOS 2016 schemes is based on the fair market value as determined by the Category I Merchant Banker registered with SEBI. The exercise price, of the options granted under ESOS 2017 is based on the market price of the shares of the Company, as defined in the ESOS 2017 scheme.
- (iii) The Company follows the intrinsic value method of accounting for stock options granted to employees. The intrinsic value of the options issued under the above referred schemes is 'Nil' as the exercise price of the option is the same as fair value of the underlying share on the grant date and accordingly, no expenses are recognised in the books. Had the Company followed the fair value method for valuing its options, the charge to the Revenue Account/ Profit & Loss Account for the year would have been aggregated to ₹ 144,712 thousands (Previous year ended March 31, 2017 ₹ 224,706 thousands) and the profit after tax would have been lower by ₹ 77,997 thousands (Previous year ended March 31, 2017 ₹ 122,056 thousands). Consequently, Company's basic and diluted earnings per share would have been ₹ 5.48 and ₹ 5.45 respectively (Previous year: ₹ 4.38 and ₹ 4.36 respectively).

- (iv) Exercise Period under the various ESOS:

The Company's shares were listed on National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) on November 17, 2017. Prior to listing, for all grants issued under the ESOS 2010, ESOS 2011, ESOS 2012, ESOS 2014, ESOS 2015 and ESOS 2016 schemes, the vested options were required to be exercised by the employees within five years from the date of vesting or the date of an Initial Public Offering (IPO) whichever is later subject to the norms prescribed by the Nomination & Remuneration Committee. Under ESOS 2005, the vested options were required to be exercised by the employees within three years from the date of vesting subject to the norms prescribed by the Nomination & Remuneration Committee. Post listing of the company's shares, vested options under all ESOS schemes are required to be exercised by the employees within five years from the date of vesting subject to the norms prescribed by the Nomination & Remuneration Committee.

6. Leases

In accordance with the Accounting Standard (AS) 19, "Leases", the following disclosures are made in respect of operating leases:

- a) The Company has hired motor vehicles on cancellable operating lease for a term of up to five years. In respect of these operating leases, the lease rentals debited to the Consolidated Revenue Account are ₹ 2,410 thousands (Previous year ended March 31, 2017: ₹ 4,891 thousands).

The terms of the lease agreements do not contain any exceptional/restrictive covenants which will have significant detrimental impact on the Company's financials nor are there any options given to the Company to purchase the motor vehicles. The agreements provide for pre-decided increase in lease rentals over the lease period and for change in the rentals if the taxes leviable on such rentals are revised.

- b) The Company has taken properties under operating lease. In respect of these operating leases, the lease rentals debited to rent in the Consolidated Revenue Account are ₹ 6,33,586 thousands (Previous year ended March 31, 2017: ₹ 466,385 thousands). The minimum future lease rentals payable under non-cancellable operating leases for specified duration in respect of such leases amount to the following:

Not later than 1 year	66,914	72,607
Later than 1 year but not later than 5 years	81,244	211,352
Later than 5 years	-	-

The lease arrangements contain provisions for renewal and escalation. The terms of the lease agreements do not contain any exceptional/restrictive covenants which will have significant detrimental impact on the Company's financials.

- c) The Company has taken furniture and generators under cancellable operating lease. In respect of these operating leases, the lease rentals debited to rent in the Consolidated Revenue Account are ₹ 22,551 thousands (Previous year ended March 31, 2017: ₹ 19,872 thousands).

7. Foreign exchange gain/(loss)

The amount of net foreign exchange loss debited to consolidated revenue Account ₹ 1,260 thousands is included in Schedule 3 - Operating expenses related to insurance business (Previous year ended March 31, 2017, net foreign exchange gain credited to Consolidated Revenue Account ₹ 1,080 thousands) included in Schedule 3 - Operating expenses related to insurance business.

The amount of net foreign exchange gain/(loss) accumulated in 'Foreign currency translation reserve' in 'Reserves and Surplus' under Shareholders' Funds is ₹ 47,514 thousands (Previous year ended March 31, 2017 ₹ 49,900 thousands).

8. Derivative contracts:

In accordance with the IRDAI circular no. IRDA/F&I/INV/CIR/138/06/2014 dated June 11, 2014 ('the IRDAI circular on Interest Rate Derivatives') and Investment Regulation, 2016 allowing insurers to deal in rupee interest rate derivatives, the Company has in place a derivative policy approved by Board which covers various aspects that apply to the functioning of the derivative transactions undertaken to substantiate the hedge strategy to mitigate the interest rate risk, thereby managing the volatility of returns from future fixed income investments, due to variations in market interest rates.

- a) The Company during the financial year 2017-18, has not transacted in exchange traded Interest Rate Future (IRF) transactions and total notional principal amount of exchange traded interest rate futures outstanding at the end of the year is ₹ Nil. However, the Company during the previous financial year 2016-17, as part of

its Hedging strategy, entered into exchange traded Interest Rate Future (IRF) transactions to hedge the interest rate sensitivity for highly probable forecasted transactions as permitted by the IRDAI circular on Interest Rate Derivatives.

Exchange Traded Interest rate futures are standardised interest rate derivative contracts traded on a recognised stock exchange to buy or sell a notional debt security or Government Bond (GOI) or Treasury Bill (T-Bill) of at a specified future date, at a price determined at the time of the contract with an objective to lock in the price of an interest bearing security at a future date.

The fair value for IRF instrument is considered as the daily settlement price on NSE. If the settlement price is not available on NSE, then the daily settlement price on BSE is considered for valuation of IRFs.

Qualitative Disclosures on risk exposure in Fixed Income Derivatives:

Overview of business and processes:

a) Fixed Income Derivative Hedging instruments:

Derivatives are financial instruments whose characteristics are derived from the underlying assets, or from interest and exchange rates or indices. These include forward rate agreements, interest rate swaps and interest rate futures.

The Company uses derivative instrument (IRF) to minimise exposure to fluctuations in interest rates on plan assets and liabilities. This hedge is carried in accordance with its established policies, goals and applicable regulations. The Company does not engage in derivative transactions for speculative purposes.

b) Derivative policy/process and Hedge effectiveness assessment:

The Company has well defined Board approved Derivative Policy and Process document setting out the strategic objectives, regulatory and operational framework and risks associated with interest rate derivatives along with having measurement, monitoring processes and controls thereof. The accounting policy has been clearly laid out for ensuring a process of periodic effectiveness assessment.

The Company has clearly identified roles and responsibilities to ensure independence and

accountability through the investment decision, trade execution, to settlement, accounting and periodic reporting and audit of the Interest Rate Derivative exposures. The overall policy, risk management framework for the Interest Rate Derivatives are monitored by the Risk Management Committee.

c) Scope and nature of risk identification, risk measurement and risk monitoring:

The Risk Management Policy and Derivative Policy as approved by the Board sets appropriate market limits such as sensitivity limits and value-at-risk limits for exposures in interest rate derivatives.

As the IRFs are traded and settled by the recognised stock exchanges i.e. National Stock Exchange or Bombay Stock Exchange, the risk of counterparty failure would not exist, however the following risks pertaining to hedging using IRFs still exist:

i) Roll over risk

Futures contracts traded in the markets usually expire in 1-3 months. Since the period for which the hedge is established is longer, it necessitates frequent roll-overs from contracts approaching expiry into new contracts. Roll over risk is the cost involved in rolling over futures contracts. The financial impact of this risk can be reduced by actively managing the roll-over from existing contracts into new contracts.

Schedules

ii) Basis Risk

Basis risk is the risk arising out of a mismatch in the tenure of the risk to be hedged and the tenure of available interest rate future contracts. The financial impact of this risk can be reduced to some extent by purchasing futures contracts so as to match the tenure of the risk to be hedged.

All financial risks of the derivative portfolio are measured and monitored on periodic basis.

9. Commitments made and outstanding for loans, investments and fixed assets

The estimated amount of commitments made and not provided for (net of advances) as at March 31, 2018 on account of investments is ₹ 1,974,308 thousands

(For the Previous year ended March 31, 2017 ₹ 873,648 thousands) and estimated amount of commitments made and not provided for (net of advances) as at March 31, 2018 on account of fixed assets is ₹ 65,177 thousands (For the Previous year ended March 31, 2017 ₹ 129,015 thousands).

10. Provision for NPA (non standard assets) for debt portfolio

Provision for doubtful debts is made in line with the 'Guidelines on Prudential norms for income recognition, Asset classification, Provisioning and other related matters in respect of Debt portfolio' as specified by IRDAI vide the Master Circular dated December 11, 2013 and has been recognised in the Revenue Account as per below table:

Particulars	For the year ended

Provision/(reversal) of provision for doubtful debt	(58,240)	(58,240)

* During the year ended March 31, 2018 there is a reversal of provision for doubtful debt recognised in earlier years due to sale of security previously classified as NPA.

During the year ended March 31, 2017 there is a reversal of provision for doubtful debt recognised in earlier years due to transfer of assets to shareholder's fund being "other investments" as required under IRDAI (Investment) Regulations, 2016.

Regulations, Consolidated Segmental Accounts are disclosed in Annexure 1.

11. Segmental reporting

As per Accounting Standard (AS) 17, "Segment Reporting", read with the IRDAI Financial Statements

12. Earnings per equity share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for effects of all dilutive equity shares.
