- Investment Fund(s) allocation

Your premium shall be invested in the fund(s) you select and in the proportion you specify.

In case of death of the life assured (Single Life Variant) or on death of both the lives assured (Joint Life Variant), the nominee shall receive the Death Benefit.

9. Including Top-up Fund Value, if any

BENEFITS IN DETAIL

Maturity Benefit:

- Single Life Coverage Variant: On survival until maturity the Fund Value will be paid.
- Joint life Coverage Variant: On survival until maturity of at least one of the lives assured, Fund Value will be paid.

Fund Value will be calculated by multiplying balance units in your fund(s) by the then prevailing unit price(s). Your policy matures at the end of Policy Term and all risk cover ceases.

You can take your Fund value at maturity in periodical instalments under **Systematic Withdrawal Plan**. Please refer Section E of Terms and Conditions section for more details.

Death Benefit:

Insured event for both the coverage variants is as follows:

- Single Life Coverage Variant: Sum Assured on death is payable as a lump sum **on death of the life assured** during the Policy Term.
- Joint life Coverage Variant: Sum Assured on death is payable as a lump sum on the second death of the two lives assured during the Policy Term.

Sum Assured on death is the highest of:

- Total Sum Assured less an amount for Partial withdrawals made, if any (as detailed below), where Total Sum Assured is Basic Sum Assured plus any additional Sum Assured in respect of Top-ups
- Total Fund value where Total Fund value includes Single Premium Fund Value plus Top-up Premium Fund value
- 105% of Total premiums paid (including Top-up premiums, if any)

The partial withdrawals to be deducted from the Total Sum Assured shall be: to the extent of the partial withdrawals made during the two-year period immediately preceding the death of the life assured.

Upon payment of Death Benefit, the policy shall terminate and no further benefits shall be payable.

In addition, if Joint Life coverage variant is opted then, on first death¹⁰, the fund value will be set to be higher of 125% of Single premium or balance in the unit fund.

Further in case of death of one of the lives, the surviving life assured will have an option to either:

1. fully withdraw this amount and continue the policy with the coverage as per the policy provisions, OR
2. not withdraw any amount and continue the policy with the coverage as per the policy provisions

10. Not applicable on death due to suicide

The restriction of withdrawal during first 5 years shall not apply in this case since this is a contingency withdrawal.

If the surviving life opts for Option 1, then a lump sum mortality charge shall be deducted from the fund value towards future mortality cover to be provided to the surviving life.

This lump sum mortality charge shall be determined as a present value of future mortality charges discounted at the prevailing 10-yr G-Sec yield less 2%.

Loyalty Additions

Loyalty additions will be higher of:

- 1) Total Premium allocation charge and Policy Administration charge deducted on your policy till date
- 2) 5% of Single Premium

The charges considered for Loyalty Additions shall exclude taxes and levies, if any.

Loyalty Additions will be allocated between the funds in the same proportion as the value of total units held in each fund at the time of allocation.

Loyalty additions once added to the fund are irreversible. The policyholder is eligible to make Partial Withdrawals in subsequent years and the already allocated loyalty additions would be a part of the fund value, which would be paid at maturity.

- vi) Partial withdrawals shall be allowed from the fund value built up from the top-up premiums, if any, as long as such fund value supports the partial withdrawal and subsequently, the partial withdrawals shall be allowed from the fund value built up from the base premium.
- vii) Top-up premiums once paid cannot be withdrawn from the fund for a period of 5 years from the date of payment of the Top-up premium, except in case of complete surrender of the policy
