Please note: Some benefits in these sample illustrations shown below are guaranteed and some benefits are variable with return based on the future performance of your insurer carrying on life insurance business. If your policy offers guaranteed benefits then these will be clearly marked "guaranteed" in the illustration table on this page. If your policy offers variable benefits then the illustrations on this page will show two different rates of assumed future investment returns, of 8% p.a. and 4% p.a.

These assumed rates of return are not guaranteed and they are not the upper or lower limit of what you might get back, as the value of your policy is dependent on a number of factors including future investment performance.

Terms and Conditions:

A. Grace Period: Grace Period means the time granted by the insurer from the due date for the payment of premium, without any penalty or late fee, during which time the policy is considered to be in force with the risk cover without any interruption, as per the terms & conditions of the policy. The grace period for payment of the premium for all types of non-linked insurance policies shall be: fifteen days, where the policyholder pays the premium on a monthly basis; and 30 days in all other cases.

B. Lapsation: If at least 2 full years' premiums have not been paid, the policy will lapse on the date of expiry of grace period. Once the policy lapses, all benefits under the policy will cease until the policy is revived for full benefits.

C. Reduced Paid up: If at least 2 full years' premiums have been paid and further premiums are unpaid and the policy is not surrendered, the policy will acquire the status of reduced paid up on the date of expiry of grace period till the policy is revived for full benefits. The benefits payable under the policy will reduce on policy acquiring reduced paid up status, as per the formula mentioned below:

C.1 Reduced Paid Up - Guaranteed Benefits

Reduced Paid up Sum Assured On Death

The lump sum benefit will be payable immediately on death during the Policy Term as defined below -

$$\text{Reduced Paid-up Sum Assured on Death} = \frac{\text{Number of premium paid}}{\text{Total Number of premiums payable}} \times \text{Sum Assured on Death}$$

Reduced paid up Survival Benefit/Maturity Benefit

All survival benefits or maturity benefit to be paid out in future, both guaranteed and non-guaranteed, will be determined using the reduced paid-up Basic Sum Assured.

Reduced paid up Basic Sum Assured will be calculated as follows -

$$\text{Reduced Paid-up Sum Assured (RPUBSA)} = \frac{\text{Number of premium paid}}{\text{Total Number of premiums payable}} \times \text{Basic Sum Assured on Death}$$

Reduced Paid up Guaranteed Benefit

Reduced Paid-Up Benefit / Guaranteed Benefit Option	Lump Sum Option	Income Option	Lump sum with Income Option	Income with Lumpsum Option
Maturity Benefit	RPUBSA	Not Applicable	Not Applicable	Reduced Paid up Basic Sum Assured
Survival Benefit	Not Applicable	RPUBSA X Guaranteed Income Benefit (%)	RPUBSA (Payable at the end of Policy Year in which Life Assured attains age 60) + RPUBSA X Guaranteed Income Benefit (%) every year thereafter till Policy Maturity Date	RPUBSA X Guaranteed Income Benefit (%)

C.2 Reduced Paid up - Non Guaranteed Benefit

If at least 2/3rd of total Premiums payable during the Policy Term have been paid and no further Premiums are paid, then in addition to the full bonus vested, if any and unpaid before the Policy acquiring reduced paid-up status, the Policy will also be eligible for all future bonuses, if declared, after Policy acquiring reduced paid-up status. However, this eligibility for future bonuses, if declared, will be reduced by the reduced paid-up factors. The reduced paid-up non-guaranteed benefits applicable will be as follows -

Reduced paid-up Simple Reversionary Bonus/Simple Reversionary Income Bonus

If the Policyholder opts for Simple Reversionary Bonus/Simple Reversionary Income Bonus Option, then any such bonus, if declared, but unpaid prior to the date of policy acquiring reduced paid up status will be payable in full along with the reduced paid up death benefit/reduced paid up maturity benefit.

In addition, post the policy acquiring the reduced paid up status, all the future bonuses, if declared will be vested on pro-rata basis using the following formula, subject to fulfillment of condition mentioned in C.2.

Reduced Paid up Simple Reversionary Bonus/Simple Reversionary Income Bonus = $RPUBSA \times \text{Future Simple Reversionary Bonus (\%)/Simple Reversionary Income Bonus (\%), if declared} \times \text{Reduced Paid Up Factor}^{\wedge\wedge}$

Reduced paid-up Cash Bonus

If the Policyholder opts for Cash Bonus Option, then any Cash Bonus, if declared, but not paid out for the Policy Year will be also be payable along with the reduced paid up death benefit.

On survival of Life Assured, and post the policy acquiring the reduced paid up status, all the future Cash Bonuses, if declared, and paid every Policy Year on pro-rata basis using the following formula subject to the fulfillment of condition mentioned in C.2.

$$\text{Reduced Paid up Cash Bonus} = \text{RPUBSA} \times \text{Future declared Cash Bonus (\%), if any} \times \text{Reduced Paid up Factor}^{^^}$$

^^Applicable Reduced Paid up Factors based upon duration and Premium Payment Term are stated in the table given below.

Duration in completed Policy Years for which Premium is paid\ Premium Payment Term	6	8	10	12	15
4	50%	NA	NA	NA	NA
5	75%	40%	NA	NA	NA

11				90%	50%
12				100%	60%
13					75%
14					90%
15					100%

In case the Bonus Option 4 or Bonus Option 5 have been chosen, then the applicable reduced paid-up non-guaranteed benefit will be sum of reduced paid-up Simple Reversionary Bonus/Simple Reversionary Income Bonus and reduced paid-up Cash Bonus as stated above.

In case you have chosen Paid-up Additions under Bonus option 3 or Bonus option 4, then reduced paid-up Cash Bonus will be utilized to purchase Paid-up Additions. The benefits under such Paid-up Additions, which is Paid-up Addition Survival Benefit and Paid-up Additions on death, will be paid at the end of policy term or on earlier death, respectively.

Terminal Bonus, if declared, shall be payable in the same proportion as described above for Simple Reversionary Bonus/Simple Reversionary Income Bonus, if declared and Cash Bonus, if declared as a part of reduced paid-up maturity benefit

D. Revival: Policy can be revived during the policy term but within a period of five years from the date of first unpaid premium by submitting the proof of continued insurability to the satisfaction of the board approved underwriting policy and making the payment of all due premiums together with payment of late fees calculated at such interest rate as may be prevailing at the time of the payment. If needed the company may refer it to its medical examiner in deciding on revival of lapsed policy.

The revival interest rate is set as per the formula below and is subject to IRDAI's approval:

The current rate of interest is 9.50% p.a. Any change in the revival interest rates will be in accordance with the following formula: Average Annualised 10-year benchmark G-Sec Yield (over last 6 months & rounded up to the nearest 50 bps) + 2%. During revival campaigns, the company may offer reduced interest rates subject to the rules of the special revival campaign. The rebates offered during the revival campaign may vary from year to year. The maximum interest rate rebate may be set up to the prevailing revival interest rate.

Any change to the basis of determination of interest rate for revival is subject to prior approval of IRDAI

E. Surrender: In order to honour unexpected commitments or needs, a Surrender option is available. This policy can be surrendered if at least two full year's premiums are paid by the Policyholder. Policy cannot be surrendered after the death of the Life Assured. The surrender benefits are payable immediately on surrender and upon payment of the surrender value, the Policy will stand terminated with no further benefits payable under the policy and the Company shall be relieved and discharged from all obligations under this policy thereafter.

The surrender benefit is higher of the Guaranteed Surrender Value (GSV) or the Special Surrender Value (SSV), plus cash value of vested paid-up additions, if any. GSV and SSV are as follows:

Guaranteed Surrender Value (GSV): GSV depends on the year of Surrender. GSV (subject to minimum of zero) is the sum of the following:

1. GSV Factor 1 multiplied by the total premiums paid excluding the premium for extra mortality rating, if any.
2. GSV Factor 2 multiplied by vested Simple Reversionary Bonus / vested Simple Reversionary Income Bonus, if declared, till the date of surrender, less
3. Sum of Guaranteed Income Benefit already paid till date of surrender, if any, less
4. Any Simple Reversionary Bonus/Simple Reversionary Income Bonus/Cash Bonus already paid till the date of Surrender

The GSV Factors increase with the policy duration and are provided in the table given in Annexure I

Special Surrender Value (SSV): A policy will acquire a special surrender value, if at least two full years' Premiums have been paid. SSV will be declared by Company from time to time subject to prior approval of IRDAI and is not guaranteed.

All benefits under the policy shall automatically terminate upon payment of Surrender Value.

F. Policy Loan: At any time if at least two full years' premiums have been paid and if any surrender value is available under the policy, policyholder may obtain a loan on the sole security of the policy and on its proper assignment to the Company. The maximum loan amount advanced at any one time or more than one time shall not exceed 80% of the available surrender value at that point of time subject to minimum amount of Rs. 1,000. The interest rate charged shall be determined by the Company from time to time. The current interest rate on loan is 9.50% p.a. The interest rate on loan shall be calculated as the Average Annualised 10-year benchmark G-Sec Yield (over last 6 months & rounded up to the nearest 50 bps) + 2%. The interest rate shall be reviewed half-yearly and any change in the interest rate shall be effective from 25th February and 25th August each year. In case upon review the interest rate is revised, the same shall apply until next revision. The source of 10-year benchmark G-sec yield shall be RBI Negotiated Dealing System-Order Matching segment (NDS-OM). Any change on the basis of determination of interest rate can be done after approval of the Authority.

Any fresh loan within the permissible limit will be the difference between maximum permissible loan amount and any outstanding loan with accumulated interest, if any. All outstanding loans and interest thereon shall be deducted from any benefits payable under the Policy. In case of other than in-force and fully paid-up policies, if at any point of time, the loan along with outstanding accrued interest exceeds the surrender value payable under the Policy, the Policy will be foreclosed after giving intimation and reasonable opportunity to the Policyholder to continue the Policy.

G. For Minor lives: Death Benefit for Minor Life Assured: If Age of the Life Assured is greater than or equal to 12 years, the risk will commence immediately from the Policy Commencement Date. If the Age of Life Assured is less than 12 years, the risk will commence under the Policy (that is full death benefit will become payable on death of Life Assured) on the last day of second Policy Year. If the Age of Life Assured is less than 12 years and if the Life Assured dies before the last day of the second Policy Year, the Death Benefit shall be restricted to refund of total Premiums paid without interest.

If the Policy is issued on the life of a minor, the Policy will vest on him/her automatically on his/her attainment of Age of majority and on such vesting; the Company will recognize him/her to be the holder of the Policy.

H. Free Look Period: In case you disagree with any of the terms and conditions of the policy, you have a period of 15 days (30 days if the Policy is sourced through Distance Marketing# as provided in Distance Marketing Guidelines IRDA/ADMN/GDL/MISC/059/04/2011 dated 05/04/2011) from the date of receipt of the Policy Document to review the terms and conditions of this Policy and if you disagree with any of the terms and conditions, you shall have the option to return the Policy to the Company for cancellation, stating the reasons for your objections. Upon such Free-Look cancellation, the Company shall return the Premium paid subject to deduction of a proportionate risk Premium for the period of insurance cover in addition to the expenses incurred on medical examination (if any) and the stamp duty charges. All Benefits and rights under this Policy shall immediately stand terminated on the cancellation of the Policy.

J. Modal Factors: You may choose to pay your premiums Annually, Half-Yearly or Monthly. Following factors are applied to monthly premium for the premium paying modes available

In case the premium payment mode change is sought from annual to monthly mode, the annual premium shall be divided by Annual modal factor, that is 11.50, to calculate the monthly premium payable from effective policy anniversary date.

In case the premium payment mode change is sought from monthly to annual mode, the monthly premium shall be multiplied by Annual modal factor, that is 11.50, to calculate the Annual premium payable from effective policy anniversary date.

In case the premium payment mode change is sought from annual to half-yearly mode, the annual premium shall be divided by Annual modal factor, that is 11.50, and then multiplied by Half-Yearly modal factor, that is 5.86, to calculate the half-yearly premium payable from effective policy anniversary date.

In case the premium payment mode change is sought from half-yearly to annual mode, the half-yearly premium shall be divided by Half-Yearly modal factor, that is 5.86, and then multiplied by Annual Modal factor, that is 11.50, to calculate the annual premium payable from effective policy anniversary date.
