We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the Company's Director's report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard, based on the Draft Director's Report provided to us.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Independent Auditor's Report

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs, will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit

evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Any additions to the original fixed assets are depreciated over the remaining useful life of the original asset.

Depreciation/amortisation is charged on pro-rata basis from the month in which the asset is put to use and in case of assets sold, up to the previous month of sale.

Advances given towards acquisition of fixed assets are disclosed under 'Long term loans and advances' in Balance Sheet.

Tangible assets

Depreciation on tangible assets is provided on the straight-line method over the useful lives of assets estimated by the Management.

Useful lives of the tangible assets are as follows:

Asset class	Useful life of assets (in years)
Information technology equipment-End user devices [^]	3
Information technology equipment- Non end user devices* [^]	3-4
Furniture & Fixtures* [^]	5
Office Equipment [^]	2-5
Motor Vehicles* [^]	4

** For these class of assets, based on internal assessment and internal technical evaluation carried out by the management, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.*

[^]For these class of assets, based on internal assessment carried out by the management, the residual value is considered to be nil.

Intangible assets

Intangible assets are stated at cost of acquisition, including any cost attributable for bringing the same to its working condition for its intended use, less accumulated amortisation and impairment

Notes Forming Part of the Financial Statements

if any. These are amortised over the useful life of the asset subject to maximum of four years.

Any expenditure for support & maintenance of the intangible asset is charged to the Statement of Profit & Loss Account.

Capital work in progress / Intangible assets under development

Cost of assets as at the Balance Sheet date not ready for its intended use as at such date are disclosed as capital work in progress/Intangible assets under development.

2.6 Impairment of assets

The Company's management periodically assesses, using internal and external sources, whether there is any indication that an asset may be impaired. If any such indication of impairment exists, the recoverable amount of such asset is estimated in order to determine the extent of impairment loss, if any. An impairment loss is recognised in the Statement of Profit and Loss where the carrying value of an asset exceeds its recoverable amount. The recoverable amount is the higher of the asset's net selling price and value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and its ultimate disposal. When there is an indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit & Loss Account. The increased carrying amount of an asset due to reversal of an impairment loss should not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior accounting periods.

2.7 Employee benefits

a) Short term employee benefits: All employee benefits payable within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries and bonuses and contribution towards Employee State Insurance Corporation Scheme and Employee Deposit Linked Insurance are recognised in the period in which the employee renders the related service. All short term employee benefits are accounted for on an undiscounted basis.

b) Post employment benefits

Defined contribution plan:

The Company's Provident Fund Scheme (Company contribution) and National Pension Scheme (Company contribution) is a defined contribution plan. The contributions paid/payable towards the fund are charged to the Statement of Profit & Loss Account during the year in which the employee renders the related service on an undiscounted basis.

Defined benefit plan:

The Company's Gratuity plan is an unfunded defined benefit plan. The gratuity benefit payable to the employees of the Company is recognised as per the provisions of 'The Payment of Gratuity Act, 1972'. The present value of the obligation under such defined benefit plan is determined based on the actuarial valuation at the Balance Sheet date using the projected unit credit method which considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. Provision for gratuity is accounted for taking into consideration the actuarial valuation of plan obligation as at the Balance Sheet date, in accordance with Accounting Standard (AS) 15 (Revised), 'Employee Benefits'.

Actuarial gains / losses, if any, due to experience adjustments and the effects of changes in actuarial assumptions are recognised in the Statement of Profit & Loss Account, in the year in which they arise.

c) Other long term employee benefits

The obligation for long term employee benefits such as accumulated long term compensated absences, are accounted for based on actuarial valuation determined using the projected unit credit method.

Actuarial gains / losses, if any, due to experience adjustments and the effects of changes in actuarial assumptions are recognised in the Statement of Profit & Loss Account, in the year in which they arise.

2.8 Operating Leases

Leases, where lessor effectively retains substantially all the risks and rewards of ownership of the asset over the lease term are classified as operating leases. Rental payments

Notes Forming Part of the Financial Statements

under operating leases including committed increase in rentals are recognised as an expense, on a straight line basis, over the lease term.

2.9 Taxation

a) Direct tax

i) Provision for current tax

Tax expense comprises of current tax (i.e. amount of tax for the period determined in accordance with the Income Tax Act, 1961), deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period). The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the Balance sheet date.

ii) Deferred tax

Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carry forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed as at each Balance Sheet date to reassess realisation.

b) Indirect tax

The Company claims credit of Goods and Services Tax ('GST') on input services, which is set off against GST on output services. As a matter of prudence, unutilised credits towards GST on input services are carried forward under the head "Long-term loans and advances" in the Balance Sheet, wherever there is reasonable certainty of utilisation.

2.10 Provisions, contingent liabilities and contingent assets

Provisions are recognised in respect of present obligations that arise as a result of past events where it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount of obligation can be made. Provisions are determined on the basis of best estimate of the outflow of economic benefits required to settle the obligation at the Balance Sheet date. Where no reliable estimate can be made, a disclosure is made as contingent liability.

Contingent liabilities are disclosed in respect of ;

- a) possible obligations that arise from past events, the existence or otherwise of which will be confirmed by the occurrence or non-occurrence of one or more uncertain future events, not wholly within the control of the Company or
- b) present obligation that arises from past events, but is not recognised because there is remote probability that an outflow of resources embodying economic benefits will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are neither recognised nor disclosed.

2.11 Earnings per equity share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to the equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events, such as bonus shares, bonus element in a rights issue and shares split that have changed the number of equity shares outstanding without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to the equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

2.12 Cash flow statement

Cash flows are reported using the indirect method as explained in Accounting Standard (AS) - 3, "Cash Flow Statements", whereby profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are separately presented.

2.13 Cash and cash equivalents

Cash comprises cash, cheques in hand and bank balances. Cash equivalents comprise money market instruments including highly liquid mutual funds and highly liquid investments that are readily convertible into measurable amounts of cash having original maturity of three months or less and which are subject to insignificant risk of change in value.
