Valuation time – Means the time we value the assets in an Investment Linked fund as described in Provision 3 (Valuation of Investment Linked funds).

Accounts – Are separately held sets of units for each member. You will instruct us on which Account(s) to apply premiums to and remove encashments from.

2 Investment Linked Funds

- 1 We will maintain a number of investment linked funds in order to determine the benefits under this policy and certain other policies issued by us from time to time. Our liability under the policy lies only to you and is limited to the extent of the unit value of your policy less any charges due to us. We are not liable to meet the scheme's financial obligations to the members of the scheme.
- 2 Each fund is divided into units. In any investment linked fund units of any particular type shall be of equal value. You will not hold the units directly and the assets of each fund will belong to us.
- 3 We decide what the funds invest in. We may borrow money on behalf of a fund and use the assets of that fund as security. We may participate in stock lending with the assets of the fund. We may reinsure all or part of the funds.
- 4 We may close, withdraw, modify, split or combine funds or introduce new funds. 'Withdraw' means no further payments will be accepted into the fund, any existing units held in the fund will continue to be allocated. 'Close' means we will encash all the units which exist for a fund and terminate the fund.

Where we close or withdraw a fund, we will notify you, (at the last address you intimated to us), that, in three months' time, we will switch any existing units in that fund and / or apply any future premiums which would have been applied to that fund to another fund that has, in our opinion, the closest investment objectives to the original fund. During the three months period, you can switch to any other available fund in terms of Provision 9 (Fund Switches). Any charges which are normally deducted for a switch of funds, as outlined in Provision 9 (Fund Switches) will not be deducted in these circumstances.

- 5 We will not allocate units in any investment-linked fund unless assets equivalent to those units are added at the same time to the fund. We will also not withdraw assets from any such fund (except to meet the deductions described in section (7) of this Provision) unless units equivalent to those assets are cancelled at the same time. Units will only be cancelled in any such fund under the terms of Provisions 9, 11,14 or 15, and assets equivalent to the cancelled units will be withdrawn from the same fund at the same time.
- 6 We will add the income from the assets of an investment linked fund to that fund, which will result in a change in the unit price.
- 7 We can deduct from the assets of an investment linked fund any amounts that we decide are appropriate to cover
 - (a) expenses, taxes, duties and other charges for buying, managing, maintaining, valuing and selling assets;
 - (b) interest on any money we have borrowed for the fund;

- (c) any other expenses, taxes, duties and charges arising from our operation of the fund:
 - (d) part or all of any tax, levy or other charge on us allocated to the fund; and
 - (e) the management charges described in Provision 4 (Management Charges).
- 8 Units invested in any of our investment linked funds do not participate in the profits of the HDFC Standard Life Insurance Company Limited or any of its participating funds.

3 Valuation of Investment Linked Funds

- 1 At such intervals as we may decide, but normally not less frequently than once each month, we will value each investment linked fund so that we can set the prices of units as specified in Provision 5 (Unit Prices).
- 2 The maximum and minimum values of a fund are based on the maximum and minimum values of assets in that fund, less any money we have borrowed for the fund and allowing for any cash that has not been invested, an estimate of income earned but not received, an estimate of charges incurred but not yet paid, allowance for future deductions of the types described in Provision 2 section 7, allowance for investment transactions made but not yet settled and allowing for the expenses of purchasing or selling assets.
- 3 The maximum value of an asset will not be greater than the market price at which it could be bought allowing for the expenses of buying assets.
- 4 The minimum value of an asset will not be less than the market price at which it could be sold allowing for the expenses of selling assets.
- 5 The value of quoted securities (such as stocks and shares) will normally be based on Indian market practice of market or fair value in accordance with regulations/guidelines/directives from the IRDA or any applicable regulator. The investments in buildings and land will be based on valuations prepared and certified by independent valuers appointed by us and adjusted to take account of changes in prices, where material, since the last valuations. We will determine the values of all other assets.
- 6 We will always make best endeavour to value the assets at least once a month. In certain extreme circumstances this may not be possible as the value of assets may be too uncertain. In such circumstances we may defer the valuation of assets until normality returns. Examples of such circumstances are:
 - (a) When one or more stock exchanges which provide a basis for valuation for a substantial portion of the assets of the fund are closed otherwise than for ordinary holidays.
 - (b) When, as a result of political, economic, monetary or any circumstances out of our control, the disposal of the assets of the unit fund are not reasonable or would not reasonably be practicable without being detrimental to the interests of the remaining unit holders.

- (c) During periods of extreme volatility of markets during which surrenders and switches would, in our opinion, be detrimental to the interests of the existing unit holders of the fund.
- (d) In the case of natural calamities, strikes, war, civil unrest, riots and 'bandhs'.
- (e) In the event of any force majeure or disaster that affects our normal functioning.
- (f) If so directed by the IRDA or any applicable regulator.

4 Management Charges on Investment Linked Funds

Each time we work out the value of a fund we will take the appropriate management charges from the fund. Management charges are compounded daily. The daily charge is a percentage of the maximum value of the assets in the fund divided by 365. Currently the percentage we use is 0.8% for all funds and types of units. This rate may be reviewed by us at any time, and may differ by fund or type of unit, subject to a maximum of 2% per annum.

5 Unit Prices

- 1 Once we calculate the value of the assets in the fund at the valuation time as specified in Provision 3 (Valuation of Investment Linked Funds), we will set the unit price for use on that day by dividing the value of the assets in the Fund by the number of units in existence for the Fund. The resulting price will be rounded to the nearest Rs. 0.0001. This price will be published on our company's website.
- 2 For the purposes of Provision 6 (Premiums): if we receive your premium and all necessary documentation to allow the payment to be processed, and we are satisfied that the information received is correct, before the Cut-off time for the next Valuation then we will use the prices of units set at the next Valuation to allocate your premium. If we receive your premium and all necessary documentation to allow the payment to be processed, and we are satisfied that the information received is correct, after the Cut-off time for the next Valuation then we will use the prices of units set at the Valuation after the next one.

Where you instruct us to apply a premium on a date in the future we will action your instructions as if they arrive at the start of the business day you instructed us to process the premium, subject to the cut-off time rules defined above. If you wish to amend any future dated instructions you may do so until the cut off time for that premium. If amendment instructions are received after the cut-off time for that premium they will not be acted upon.

- 3 For the purposes of Provision 9 (Fund Switches): if you instruct us to switch funds at the next Valuation and we receive your instructions to switch funds and all necessary documentation to allow the switch to be processed, before the Cut-off time for the next Valuation then we will use the prices of units set at the next Valuation to switch your funds. If you instruct us to switch funds at

the next Valuation and we receive your instructions to switch funds and all necessary documentation to allow the switch to be processed, after the Cut-off time for the next Valuation then we will use the prices of units set at the Valuation after the next one.

Where you instruct us to switch funds on a date in the future we will action your instructions as if they arrive at the start of the business day you instructed us to process the switch, subject to the cut-off time rules defined above. If you wish to amend any future dated fund switch instructions you may do so until the cut off time for the switch. If amendment instructions are received after the cut-off time for the switch they will be treated as a separate switch instruction.

We can delay a switch of funds in terms of Provision 9, section 5.

- 4 For the purpose of Provision 11 (Charges): the prices of units used to cancel units will be those set on the Valuation on the effective date the charges are deducted from the policy, or if no such Valuation is made, on the most recent Valuation prior to the effective date.
- 5 For the purpose of Provision 14 (Cash payments from the policy): if you instruct us to make a cash payment from the policy at the next Valuation and we receive your instructions to make a cash payment from the policy and all necessary documentation to allow the cash payment to be processed, before the Cut-off time for the next Valuation then we will use the prices of units set at the next Valuation to cancel units from your policy. If we receive your instructions to make a cash payment from the policy and all necessary documentation to allow the cash payment to be processed, after the Cut-off time for the next Valuation then we will use the prices of units set at the Valuation after the next one.

Where you instruct us to make cash payment from the policy at a date in the future we will action your instructions as if they arrive at the start of the business day you instructed us to process the cash payment, subject to the cut-off time rules defined above. If you wish to amend any future dated cash payment instructions you may do so until the cut off time for that cash payment. If amendment instructions are received after the cut-off time for that cash payment they will not be acted upon.

- 6 Cut-off times and valuation times may vary over time and by fund. Details of our current practices are available on request.

6 Premiums

- 1 Premiums received will be accounted for at the member level. The premium received for each member will be used to allocate units for each member separately. Accordingly we will maintain separate accounts for each member.
- 2 Premiums can be paid into the policy by you, the policyholder. In addition, we may agree to a request by you to accept premiums paid by someone else but not by individual members separately. Any agreement to accept premiums from a payer other than you, the policyholder may be ended by us at any time. Premiums can be paid by any method agreed by us.

- 3 A proportion of each premium, the Investment Content, will be used to buy units . The Investment Content Rate for all premiums is stated on your Policy Schedule.
- 4 The policy will not come into force until the first premium is accepted by us.
- 5 You will agree with us when premiums are expected to be paid. The policy schedule will show the dates premiums are expected to be paid. Additional premiums can be paid at any time.
- 6 If premiums are not paid within 15 days of the due date with respect to any member, such a member will become a paid-up member. The existing funds held for such members will continue to be used to meet the charges due on the member within the policy.
- 7 All payments will be accepted subject to realisation of funds. We will not make cash payment from the policy, as described in Provision 14 (Cash payments from the policy) in respect of a premium until the funds in respect of that premium have been realised by us.
- 8 You will need to state which members you wish a premium to be applied to. If the relevant information is not supplied along with the premium, the premium will not be processed until such a time that all the information is supplied.
- 9 The minimum premium that we will accept is specified in the policy schedule. These minimums are subject to review by us at any time.

7 Choosing your investment linked funds

- 1 Initially your premium for each member will be used to allocate units in the funds specified by you in the Application Form or as specified for each member in the Member Information Form.
- 2 At any time you can ask for some or all of your future premiums for any member to be allocated to units in different funds. Premiums will only be applied as per the revised instructions if we accept your instructions before the Cut-off time for that premium. We will only act on your instructions to change the fund choice for future premiums when we have all necessary information to allow the change of fund choice to be processed and we are satisfied that the information received is correct.
- 3 If written instructions have not been received as to which fund a premium should be invested in and the members towards whom the premium applies then the premium will not be invested until such time as the instructions are received. The premium will then be allocated using the unit price applicable after the next Cut-off time.
