Unit Linked Guidelines
On 21 December 2005, the Insurance Regulatory and Development Authority issued Guidelines for Unit Linked Life Insurance Products via Circular 032/IRDA/Actl/Dec-2005. Our Unit Linked Products conform to these Guidelines and subsequent clarifications and modifications to these guidelines. Where the Standard Policy Provisions refer to the Unit Linked Guidelines, we have extracted the relevant sections (in italics), with the numbering as in the guidelines.

Unit pricing and Cut-off time for applicability of Net Asset Value (NAV)
Our current unit pricing and Cut-off time conform to the following extract from the Insurance Regulatory and Development Authority’s ‘Guidelines for Unit-Linked Life Insurance Products’. These times are subject to change with prior approval from the Insurance Regulatory and Development Authority.

10.2 The unit pricing shall be computed based on whether the company is purchasing (appropriation price) or selling (expropriation price) the assets in order to meet the day to day transactions of unit allocations and unit redemptions i.e. the life insurer shall be required to sell/purchase the assets if unit redemptions/allocations exceed unit allocations/redemptions at the valuation date.

10.3 The Appropriation price shall apply in a situation when the company is required to purchase the assets to allocate the units at the valuation date as stated in 10.2. This shall be the amount of money that the company should put into the fund in respect of each unit it allocates in order to preserve the interests of the existing policyholders.

10.4 The Expropriation price shall apply in a situation when the company is required to sell assets to redeem the units at the valuation date as stated in 10.2. This shall be the amount of money that the company should take out of the fund in respect of each unit it cancels in order to preserve the interests of the continuing policyholders.

10.5. Computation of NAV:
10.5.1 when Appropriation price is applied: The NAV of a Unit Linked Life Insurance Product shall be computed as: Market value of investment held by the fund plus the expenses incurred in the purchase of the assets plus the value of any current assets plus any accrued income net of fund management charges less the value of any current liabilities less provisions, if any. This gives the net asset value of the fund. Dividing by the number of units existing at the valuation date (before any new units are allocated), gives the unit price of the fund under consideration.

10.5.2 When Expropriation price is applied: The NAV of a Unit Linked Life Insurance Product shall be computed as: Market Value of investment held by the fund less the expenses incurred in the sale of the assets plus the value of any current assets plus any accrued income net of fund management charges less the value of any current liabilities less provisions, if any. This gives the net asset value of the fund. Dividing by the number of units existing at the valuation date (before any units are redeemed), gives the unit price of the fund under consideration.
10.6 Uniform Cut-off timings for applicability of Net Asset Value:
The allotment of units to the policyholder should be done only after the receipt of premium proceeds as stated below:

10.6.1: Allocations (premium allocations, switch in):
10.6.1.1 In respect of premiums/funds switched received up to 3:00 p.m. by the insurer along with a local cheque or a demand draft payable at par at the place where the premium is received, the closing NAV of the day on which premium is received shall be applicable.
10.6.1.2 In respect of premiums/funds switched received after 3:00 p.m. by the insurer along with a local cheque or a demand draft payable at par at the place where the premium is received, the closing NAV of the next business day shall be applicable.
10.6.1.3 In respect of premiums received with outstation cheques/demand drafts at the place where the premium is received, the closing NAV of the day on which cheques/demand draft is realized shall be applicable.

10.6.2: Redemptions:
10.6.2.1 In respect of valid applications received (e.g. surrender, maturity claim, switch out etc) up to 3:00 p.m. by the insurer, the same day’s closing NAV shall be applicable.
10.6.2.2 In respect of valid applications received (e.g. surrender, maturity claim, switch etc) after 3:00 p.m. by the insurer, the closing NAV of the next business day shall be applicable.
Unit Linked Products - Cap on charges Circular
On 22 July 2009, the Insurance Regulatory and Development Authority specified an overall cap on the charges on Unit Linked Life Insurance Products via Circular No. 20/IRDA/Actl/ULIP/09-10. Our Unit Linked Products conform to this circular and subsequent clarifications and modifications issued to the circular. Where the Standard Policy Provisions refer to the Charge Cap Circular, we have extracted the relevant sections (in italics), with the numbering as in the Circular.

I. Limit on the charges based on net yield

This policy is issued only after it conforms to the requirement of the circular, which requires that the overall prescribed charges are capped at a limit such that the difference between the illustrated gross yield and the net yield after specified charges have been deducted is within the limit prescribed by the circular. The relevant section from the circular and from the clarification to the circular is extracted below.

To encourage long term business and enable policyholders to earn additional returns thereby and taking into account the product features and the current cost structure, it is mandated that the cap on charges will be based on the difference between gross and net yields of any product. The net yield is the gross yield adjusted for all charges. For insurance contracts which are of a tenor of less than or equal to 10 years duration, the difference between gross and net yields shall not exceed 300 basis points. For other contracts, i.e. those whose contract period is above 10 years, the difference between gross and net yields shall not exceed 225 basis points.

Further, the following must be observed:

a. Extra premium due to underwriting emanating from extraordinary health conditions, cost of all rider benefits, service tax on charges (as applicable) and any explicit cost of investment guarantee shall be excluded in the calculation of net yield.

b. Please refer IRDA circular letter IRDA/ACTL/ULIP/2008-09 of January 25, 2008 on ‘benefit illustration’. There should be a specific mention of the gross yield and net yield to the customer at the point of sale. This benefit illustration must be approved by the IRDA.

c. At the time of sale, for benefit illustration purpose, the insurer may assume a growth rate of 10% per annum of the investment as a model, as suggested by the Life Council. This will help the customer to understand the product and charges easily so that the prospect could consider the gross yield and net yield while making an informed decision.

The Benefit Illustration of this policy, signed by you (copy enclosed along with this policy document) shows your policy meets requirement of the above circular.

II. Limit on Fund Management Charge

Our Unit Linked Product conforms to the limit prescribed on the fund management charge. The relevant section given in the clarification to the circular is extracted below.
2. Within the overall cap prescribed in paragraph 5 of the reference cited, the Fund Management Charge shall not exceed 135 basis points irrespective of the tenor of the contract;

III. Surrender Charge after 5 years

As already mentioned in the Schedule of Charges given above, our Unit Linked Product does not levy any surrender charge on surrender after the 5th policy anniversary. This is inline with the requirement of the circular. The relevant section given in the clarification to the circular is extracted below:

3. No surrender charge can be levied by an insurer for policies surrendered from the 5th policy year and thereafter and consequently the policyholder will be entitled to receive the full fund value on such surrender.

premiums will be used to allocate units to the Policy in accordance
with Provision 9(xii). On Revival, the Surrender Charges taken on
automatic surrender due to a Lapse are reversed.
c. If a Policy automatically surrendered due to a Lapse is not revived, the Unit Fund Value at the date of lapse less the Surrender Charge as specified in the Schedule of Charges would be paid to the Policy holder at the end of 2 years from the date of lapse or at the end of 3 years from inception whichever is later. In case of your unfortunate death before this payment has been made we will make the payment immediately on receipt of all relevant documents in support of the claim.

Once a policy is lapsed and automatically surrendered and the resulting payout has been made, the Policy terminates, no further benefits are payable and the policy cannot be revived.

(iii) Premium unpaid after the first 3 years of the Policy

a. If any Premium remains unpaid as described in Provision 4 after the first 3 years of the Policy, the Policy will be made Paid-Up. For a Paid-Up Policy the unit funds will continue to be invested; risk cover will continue; all applicable charges will continue to be deducted; and the Policyholder will be entitled to all Policy servicing. Premiums can be paid into a Paid-Up Policy only during the period of 5 years from the due date of the earliest outstanding premium. Any premiums paid into a Paid-Up Policy are used to clear the outstanding premiums in the order of their due dates, the earliest being the first to be cleared. The premiums paid will be used to allocate units to the Policy in accordance with Provision 9(ii).

b. A Paid-Up Policy can be revived anytime during the period of 5 years from the due date of the earliest outstanding premium, subject to any terms and conditions which we may specify from time to time. These terms will include payment of all outstanding regular premiums. A Revival Charge, as specified in the Schedule of Charges, may be levied. The Revival Charge will be deducted by cancellation of units. The Revival Charge will be determined by us at our sole discretion from time to time with prior approval from the Insurance Regulatory and Development Authority, subject to the maximum as stated in the Schedule of Charges. On revival the outstanding premiums will be used to allocate units to the Policy in accordance with the Provision 9(xii).

c. If the Paid-Up Policy is not revived within the period of 5 years from the due date of the earliest outstanding premium, then you can either choose to continue the Policy in a Paid-Up state for the remaining term of the Policy or choose to surrender the policy.

If you choose to continue the policy in a Paid-Up state, then the Unit funds will continue to be invested; death cover of Rs 1000 will continue; all applicable charges will continue to be deducted; and the policyholder will be entitled to all policy servicing. However no further premiums would be accepted into the Policy.

If you choose to surrender the policy, then the Policy will be surrendered in accordance with Provision 5(i).

6. Investment Linked Funds
(i) We will maintain a number of investment-linked Funds in order to determine the benefits under this Policy and certain other policies issued by us from time to time.

(ii) Each Fund is divided into units. In any investment linked Fund, units of any particular type shall be of equal value. You will not hold the units directly and the assets of each Fund will belong to us.

(iii) We decide what assets the Funds invest in.

(iv) We may close, withdraw, modify, split or combine Funds or introduce new Funds with prior approval from the Insurance Regulatory and Development Authority. ‘Withdraw’ means no further payments will be accepted into the Fund, any existing units held in the Fund will continue to be allocated. ‘Close’ means we will encash all the units, which exist for a Fund and terminate the Fund.

(v) Where we close or withdraw a Fund, we will notify you, three months in advance that, we will switch any existing units in that Fund and / or apply any future Premiums which would have been applied to that Fund to another Fund that has, in our opinion, the closest investment objectives to the original Fund. During the three month notice period, you can switch to any other available Fund in terms of Provision 12 (Fund Switches). Any charges, which are normally deducted for a switch of Funds, as outlined in Provision 14 (Charges) will not be deducted in these circumstances.

(vi) We will not allocate units in any investment-linked Fund unless assets equivalent to those units are added at the same time to the Fund. We will also not withdraw assets from any such Fund (except to meet the deductions described in section (viii) of this Provision) unless units equivalent to those assets are cancelled at the same time. Units will only be cancelled in any such Fund under the terms of Provision 14 (Charges), and assets equivalent to the cancelled units will be withdrawn from the same Fund at the same time.

(vii) We will add the income from the assets of an investment linked Fund to that Fund.

(viii) We can deduct from the assets of an investment linked Fund any amounts that we decide are appropriate to cover:

- expenses, taxes and statutory duties due to the buying and selling of assets;

- part or all of any tax, statutory levy or other statutory/regulatory charge on us allocated to the Fund; and

- the management charges described in Provision 8 (Management Charges on Investment Linked Funds).

7. Valuation of Investment Linked Funds

(i) At such intervals as we may decide, but usually each day all the financial markets are open, we will value each investment linked Fund so that we can set the prices of units as specified in Provision 9 (Unit Prices).
(ii) The maximum and minimum values of a Fund are based on the maximum and minimum values of assets in that Fund, allowing for any cash that has not been invested, an estimate of income earned but not received, an estimate of charges incurred but not yet paid, allowance for future deductions of the types described in Provision 6(viii), allowance for investment transactions made but not yet settled and allowing for the expenses of purchasing or selling assets.

(iii) The maximum value of an asset will not be greater than the market price at which it could be bought allowing for the expenses of buying assets.

(iv) The minimum value of an asset will not be less than the market price at which it could be sold allowing for the expenses of selling assets.

(v) The value of quoted securities (such as stocks and shares) will normally be based on Indian market practice of market or fair value in accordance with regulations/guidelines/directives from the Insurance Regulatory and Development Authority (IRDA) or any applicable regulator. The investments in buildings and land will be based on valuations prepared and certified by independent valuers appointed by us and adjusted to take account of changes in prices, where material, since the last valuations. We will determine the values of all other assets.

(vi) We will always make best endeavour to value the assets on each day all the financial markets are open. In certain extreme circumstances this may not be possible, as the value of assets may be too uncertain. In such circumstances we may defer the valuation of assets until normality returns. Examples of such circumstances are:

- When one or more stock exchanges which provide a basis for valuation for a substantial portion of the assets of the Fund are closed other than for ordinary holidays.
- When, as a result of political, economic, monetary or any circumstances out of our control, the disposal or valuation of the assets of the unit Fund are not reasonable or would not reasonably be practicable without being detrimental to the interests of the remaining Unit holders.
- During periods of extreme volatility of markets during which surrenders and switches would, in our opinion, be detrimental to the interests of the existing Unit holders of the Fund.
- In the case of natural calamities, strikes, war, civil unrest, riots and ‘bandhs’.
- In the event of any force majeure or disaster that affects our normal functioning.
- If so directed by the IRDA or any applicable regulator.
8. Management Charges on Investment Linked Funds

We will take the appropriate Fund Management Charge as specified in the Schedule of Charges, from the Fund. This Charge will be taken on a daily basis and incorporated into the Unit Prices for each Fund. This Charge will be determined by us at our sole discretion from time to time with prior approval from the Insurance Regulatory and Development Authority, subject to the maximum as stated in the Schedule of Charges.

9. Unit Prices

(i) We will calculate the unit price of a fund as per the Unit Linked Guidelines. The relevant section from the Unit Linked Guidelines is reproduced in the Appendix-1 to the Policy Schedule. The resulting price will be rounded to the nearest Rs. 0.0001. This price will be published on our company’s website.

If we receive your Premium and all necessary documentation to allow the Premium to be processed, and we are satisfied that the information received is correct, after the Cut-off time for the next Valuation then we will use the Unit prices set at the Valuation after the next one.

(iii) Where you instruct us to apply a Premium on a date in the future we will action those instructions as if they arrive at the start of the business day you instructed us to process the Premium, subject to the Cut-off time rules defined above. If you wish to amend any future dated instructions you may do so until the Cut-off time for that Premium and provided we have not acted upon your instructions. If amendment instructions are received after the Cut-off time for that Premium they will not be acted upon.

(iv) For the purposes of Provision 12 (Fund Switches) if you instruct us to switch Funds at the next Valuation and we receive those instructions and all necessary documentation to allow the switch to be processed, before the Cut-off time for the next Valuation then we will use the Unit prices set at the next Valuation to switch your Funds. If amendment instructions are received after the Cut-off time for the switch they will be treated as a separate switch instruction.

(vi) We can delay a switch of Funds in terms of Provision 12.
(vii) For the purpose of Provision 14 (Charges), the Unit prices used to cancel units will be those set on the Valuation on the effective date the charges are deducted from the Policy, or if no such Valuation is made, on the most recent Valuation prior to the effective date.

(viii) For the purpose of paying a benefit under your Policy described in Provision 3(i) (Benefits) if you instruct us to pay a benefit under your Policy and we receive those instructions and all necessary documentation to allow the benefit payment to be processed, before the Cut-off time for the next Valuation then we will use the Unit prices set at the next Valuation to cancel units from your Policy. If we receive those instructions and all necessary documentation to allow the benefit payment to be processed, after the Cut-off time for the next Valuation then we will use the Unit prices set at the Valuation after the next one.

(ix) For the purpose of Surrendering your Policy described in Provision 5(i)a and 5(i)b, if you instruct us to Surrender your Policy and we receive those instructions and all necessary documentation to allow the Surrender to be processed, before the Cut-off time for the next Valuation then we will use the Unit prices set at the next Valuation to cancel units from your Policy. If we receive those instructions and all necessary documentation to allow the Surrender to be processed, after the Cut-off time for the next Valuation then we will use the Unit prices set at the Valuation after the next one.

(x) Where you instruct us to Surrender your Policy in accordance with (ix) of this Provision, at a date in the future we will action those instructions as if they arrive at the start of the business day you instructed us to process the cash payment, subject to the Cut-off time rules defined above. If you wish to amend any future dated Surrender instructions you may do so until the Cut-off time for that cash payment and provided we have not acted upon your instructions. If amendment instructions are received after the Cut-off time for that cash payment they will not be acted upon.

(xi) Where we lapse your Policy according to Provisions 5(ii)a and 5(ii)c, we will use the latest available Unit prices on the date of lapse of the policy to cancel units from your Policy.

(xii) Where we revive your Policy according to Provisions 5(ii)b and 5(iii)b if we process the revival before the Cut-off time for the next Valuation then we will use the Unit prices set at the next Valuation to allocate units to your Policy. If we process the revival after the Cut-off time for the next Valuation then we will use the Unit prices set at the Valuation after the next one.

(xiii) For the purpose of monitoring against the Minimum Fund Value in accordance with Provision 15, we will use the latest available Unit prices to determine the value of the funds in your Policy.

If we cancel your Policy in accordance with Provision 15, we will use the latest available Unit prices to cancel units from your Policy.

(xiv) Details of our current unit valuation processes and Cut-off times are shown in Provision 7 (Valuation of Investment Linked Funds) and in the Appendix-1 to the Policy Schedule respectively and they may change as and when directed by the Insurance Regulatory and Development Authority.

The second instruction will be acted upon on the next valuation day after the completion of the first transaction and so on till all received instructions have been acted upon.
