Unit Linked Guidelines
On 21 December 2005, the Insurance Regulatory and Development Authority issued Guidelines for Unit Linked Life Insurance Products via Circular 032/IRDA/Act/Dec-2005. Our Unit Linked Products conform to these Guidelines and subsequent clarifications and modifications to these guidelines under circulars 010/IRDA/Act/ULIP_G/May–2006 and 008/IRDA/Act/ULIP_G/May–2007. Where the Standard Policy Provisions refer to the Unit Linked Guidelines, we have extracted the relevant sections (in italics), with the numbering as in the guidelines.

Minimum Sum Assured
Our HDFC Unit Linked Wealth Maximiser Plus product only allows Sums Assured, Annual Premiums and Policy Terms that conform to the Unit Linked Guidelines. The relevant sections from the Guidelines are extracted below.

1. Benefit payable on death:
   1.1. The table 1.2 below specifies the minimum sum assured in respect of death benefit under unit linked life insurance contracts where:
      1.1.1 T is the Policy Term (PT) chosen by the policyholder (T shall be taken as 70 minus the age at entry in case of Whole Life Products).
      1.1.2 AP is the Annualized Premium selected by the policyholder at the inception of the policy.
      1.1.3 SP is the Single Premium chosen by the policyholder at the inception of the policy.
   1.2 The minimum sum assured shall be at least equal to:

Unit pricing and Cut-off time for applicability of Net Asset Value (NAV)
Our current unit pricing and Cut-off time conform to the following extract from the Insurance Regulatory and Development Authority’s ‘Guidelines for Unit-Linked Life Insurance Products’. These times are subject to change with prior approval from the Insurance Regulatory and Development Authority.

10.2 The unit pricing shall be computed based on whether the company is purchasing (appropriation price) or selling (expropriation price) the assets in order to meet the day to day transactions of unit allocations and unit redemptions i.e. the life insurer shall be required to sell/purchase the assets if unit redemptions/allocations exceed unit allocations/redemptions at the valuation date.
10.3 The Appropriation price shall apply in a situation when the company is required to purchase the assets to allocate the units at the valuation date as stated in 10.2. This shall be the amount of money that the company should put into the fund in respect of each unit it allocates in order to preserve the interests of the existing policyholders.
10.4 The Expropriation price shall apply in a situation when the company is required to sell assets to redeem the units at the valuation date as stated in 10.2. This shall be the amount of money that the company should take out of the fund in
respect of each unit it cancels in order to preserve the interests of the continuing policyholders.

10.5. Computation of NAV:
10.5.1 when Appropriation price is applied: The NAV of a Unit Linked Life Insurance Product shall be computed as: Market value of investment held by the fund plus the expenses incurred in the purchase of the assets plus the value of any current assets plus any accrued income net of fund management charges less the value of any current liabilities less provisions, if any. This gives the net asset value of the fund. Dividing by the number of units existing at the valuation date (before any new units are allocated), gives the unit price of the fund under consideration.

10.5.2 When Expropriation price is applied: The NAV of a Unit Linked Life Insurance Product shall be computed as: Market Value of investment held by the fund less the expenses incurred in the sale of the assets plus the value of any current assets plus any accrued income net of fund management charges less the value of any current liabilities less provisions, if any. This gives the net asset value of the fund. Dividing by the number of units existing at the valuation date (before any units are redeemed), gives the unit price of the fund under consideration.

10.6 Uniform Cut-off timings for applicability of Net Asset Value:
The allotment of units to the policyholder should be done only after the receipt of premium proceeds as stated below:

10.6.1: Allocations (premium allocations, switch in):
10.6.1.1 In respect of premiums/funds switched received up to 3:00 p.m. by the insurer along with a local cheque or a demand draft payable at par at the place where the premium is received, the closing NAV of the day on which premium is received shall be applicable.

10.6.1.2 In respect of premiums/funds switched received after 3:00 p.m. by the insurer along with a local cheque or a demand draft payable at par at the place where the premium is received, the closing NAV of the next business day shall be applicable.

10.6.1.3 In respect of premiums received with outstation cheques/demand drafts at the place where the premium is received, the closing NAV of the day on which cheques/demand draft is realized shall be applicable.

10.6.2: Redemptions:
10.6.2.1 In respect of valid applications received (e.g. surrender, maturity claim, switch out etc) up to 3:00 p.m. by the insurer, the same day’s closing NAV shall be applicable.

10.6.2.2 In respect of valid applications received (e.g. surrender, maturity claim, switch etc) after 3:00 p.m. by the insurer, the closing NAV of the next business day shall be applicable.

A Surrendered Policy will not be re-instated under any circumstances.

b. Surrender after the first three years of the Policy.

A Policy may be surrendered at any time after the first three years of the Policy. On request for surrender, the Life Assured will not be covered for the death benefit, as described in Provision 3(i), with immediate effect.

The amount payable on surrender will be the Unit Fund Value on surrender less the Surrender Charge as specified in the Schedule of Charges.
Upon payment of this benefit, the Policy terminates and no further benefits are payable. A Surrendered Policy will not be re-instated under any circumstances.

6. Investment Linked Funds

(i) We will maintain a number of investment-linked Funds in order to determine the benefits under this Policy and certain other policies issued by us from time to time.

(ii) Each Fund is divided into units. In any investment linked Fund, units of any particular type shall be of equal value. The Policyholder will not hold the units directly and the assets of each Fund will belong to us.

(iii) We decide what assets the Funds invest in.

(iv) We may close, withdraw, modify, split or combine Funds or introduce new Funds with prior approval from the Insurance Regulatory and Development Authority. ‘Withdraw’ means no further payments will be accepted into the Fund, any existing units held in the Fund will continue to be allocated. ‘Close’ means we will encash all the units, which exist for a Fund and terminate the Fund.

(v) Where we close or withdraw a Fund, we will notify the Policyholder, three months in advance that, we will switch any existing units in that Fund to another Fund that has, in our opinion, the closest investment objectives to the original Fund. During the three month notice period, the Policyholder can switch to any other available Fund in terms of Provision 12 (Fund Switches). Any charges, which are normally deducted for a switch of Funds, as outlined in Provision 14 (Charges) will not be deducted in these circumstances.

(vi) We will not allocate units in any investment-linked Fund unless assets equivalent to those units are added at the same time to the Fund. We will also not withdraw assets from any such Fund (except to meet the deductions described in section (viii) of this Provision) unless units equivalent to those assets are cancelled at the same time. Units will only be cancelled in any such Fund under the terms of Provision 14 (Charges), and assets equivalent to the cancelled units will be withdrawn from the same Fund at the same time.

(vii) We will add the income from the assets of an investment linked Fund to that Fund.

(viii) We can deduct from the assets of an investment linked Fund any amounts that we decide are appropriate to cover:

- expenses, taxes and statutory duties due to the buying and selling of assets;

- part or all of any tax, statutory levy or other statutory/regulatory charge on us allocated to the Fund; and

- the management charges described in Provision 8 (Management Charges on Investment Linked Funds.)
7. Valuation of Investment Linked Funds

(i) At such intervals as we may decide, but usually each day all the financial markets are open, we will value each investment linked Fund so that we can set the prices of units as specified in Provision 9 (Unit Prices).

(ii) The maximum and minimum values of a Fund are based on the maximum and minimum values of assets in that Fund, allowing for any cash that has not been invested, an estimate of income earned but not received, an estimate of charges incurred but not yet paid, allowance for future deductions of the types described in Provision 6(viii), allowance for investment transactions made but not yet settled and allowing for the expenses of purchasing or selling assets.

(iii) The maximum value of an asset will not be greater than the market price at which it could be bought allowing for the expenses of buying assets.

(iv) The minimum value of an asset will not be less than the market price at which it could be sold allowing for the expenses of selling assets.

(v) The value of quoted securities (such as stocks and shares) will normally be based on Indian market practice of market or fair value in accordance with regulations/guidelines/directives from the Insurance Regulatory and Development Authority (IRDA) or any applicable regulator. The investments in buildings and land will be based on valuations prepared and certified by independent valuers appointed by us and adjusted to take account of changes in prices, where material, since the last valuations. We will determine the values of all other assets.

(vi) We will always make best endeavour to value the assets on each day all the financial markets are open. In certain extreme circumstances this may not be possible, as the value of assets may be too uncertain. In such circumstances we may defer the valuation of assets until normality returns. Examples of such circumstances are:

- When one or more stock exchanges which provide a basis for valuation for a substantial portion of the assets of the Fund are closed other than for ordinary holidays.
- When, as a result of political, economic, monetary or any circumstances out of our control, the disposal or valuation of the assets of the unit Fund are not reasonable or would not reasonably be practicable without being detrimental to the interests of the remaining Unit holders.
- During periods of extreme volatility of markets during which surrenders and switches would, in our opinion, be detrimental to the interests of the existing Unit holders of the Fund.
- In the case of natural calamities, strikes, war, civil unrest, riots and ‘bandhs’.
- In the event of any force majeure or disaster that affects our normal functioning.
- If so directed by the IRDA or any applicable regulator.
8. Management Charges on Investment Linked Funds

We will take the appropriate Fund Management Charge as specified in the Schedule of Charges, from the Fund. The resulting price will be rounded to the nearest Rs. 0.0001. This price will be published on our company's website.

(ii) For the purposes of Provision 4 (Premiums) if we receive the Premium and all necessary documentation to allow the Premium to be processed, and we are satisfied that the information received is correct, before the Cut-off time for the next Valuation then we will use the Unit prices set at the next Valuation to allocate the Premium. If we receive the Premium and all necessary documentation to allow the Premium to be processed, and we are satisfied that the information received is correct, after the Cut-off time for the next Valuation then we will use the Unit prices set at the Valuation after the next one.

(iii) For the purposes of Provision 12 (Fund Switches) if the Policyholder instructs us to switch Funds at the next Valuation and we receive those instructions and all necessary documentation to allow the switch to be processed, before the Cut-off time for the next Valuation then we will use the Unit prices set at the next Valuation to switch the Funds. If amendment instructions are received after the Cut-off time for the switch they will be treated as a separate switch instruction.

If we receive those instructions and all necessary documentation to allow the benefit payment to be processed, after the Cut-off time for the next
Valuation then we will use the Unit prices set at the Valuation after the next one.

(vii) For the purpose of Surrendering the Policy described in Provision 5(i)a and 5(i)b, if the Policyholder instructs us to Surrender the Policy and we receive those instructions and all necessary documentation to allow the Surrender to be processed, before the Cut-off time for the next Valuation then we will use the Unit prices set at the next Valuation to cancel units from the Policy. (ix) Where an instruction is to Surrender the Policy in accordance with (vii) of this Provision, or to make a Partial Withdrawal from the Policy in accordance with (viii) of this Provision, at a date in the future we will action those instructions as if they arrive at the start of the business day on which the cash payment was instructed to be processed, subject to the Cut-off time rules defined above. Amendments to any future dated Surrender or withdrawal instructions may be done until the Cut-off time for that cash payment. If amendment instructions are received after the Cut-off time for that cash payment they will not be acted upon.

(x) For the purpose of monitoring against the Minimum Fund Value in accordance with Provision 15, we will use the latest available Unit prices to determine the value of the funds in the Policy.

If we automatically surrender the Policy in accordance with Provision 15, we will use the latest available Unit prices to cancel units from the Policy.

(xi) Details of our current unit valuation processes and Cut-off times are shown in Provision 7 (Valuation of Investment Linked Funds) and in the Appendix to the Policy Schedule respectively and they may change as and when directed by the regulator.

(xii) Where the Policyholder gives us instructions to process more than one Fund related transaction and we receive those instructions and all necessary documentation for each of the transactions on the same day, subject to the Cut-off rules, we will only act upon the instruction that is received first on that day.
