## HDFC Life Click 2 Retire Plus II

A Unit Linked Non-Participating Individual Pension Savings Plan

*Sar utha ke jiyo!*

**Retirement is inevitable, but to plan for it is just a click away!!**

**IN THIS POLICY, THE INVESTMENT RISK IN INVESTMENT PORTFOLIO IS BORNE BY THE POLICYHOLDER. The Unit Linked Insurance Products do not offer any liquidity during the first five years of the contract. The policyholder will not be able to surrender or withdraw the monies invested in Unit Linked Insurance Products completely or partially till the end of the fifth year.**

One of the biggest challenges of retirement planning is to ensure that you have gathered enough money during your working years that will take care of your expenses once you retire. Given the rising cost of living, increased life expectancy and inflation, investments towards your retirement fund is a must to have in your financial calculations. What is equally important is to ensure that there is adequate investment made towards retirement kitty. But how can one ensure that the contribution made towards post retirement fund is "adequate"?

**The exact amount behind "adequate" money you will need when you retire, lies in the answer to two simple questions!**

**The first question is HOW MUCH MONEY will you need when you retire?**

Contrary to other investment instruments, when you plan for retirement, think of how much you spend and not how much you want to earn

Once you have defined your expenses, you need to evaluate your anticipated expenses as in the last year before your retirement

With a clear view of your expected lifestyle costs, you can then work towards building a fund that steadily supports your future financial needs and helps you maintain your standard of living with confidence.

**The next question is WHAT PART OF INCOME should be invested towards retirement planning?**

Once you know how much money you will need at the time of retirement, evaluate it against your current investments. Balance amount is what you need to invest for

Depending on your age and balance amount which you need to provision for retirement, you can derive the amount and the duration for which you need to invest

Each fund has its own Investment policy, based on asset allocation between equity, debt and money market instruments. The allocations between the funds are solely determined by us and depend upon the policy term chosen at inception and the policy year.

The premium received from you for HDFC Life Click 2 Retire Plus II would be invested in different funds namely Pension Equity Plus Fund & Pension Income Fund. The proportions of assets to be invested in the Pension Equity Plus Fund are stated in the 'Equity Backing Ratio' table given below. The balance assets shall be invested in the Pension Income Fund.
