APPENDIX-1 TO THE POLICY SCHEDULE
Unit Linked Guidelines
Effective Date: 01/09/2005

Unit Linked Guidelines

On 21 December 2005, the Insurance Regulatory and Development Authority issued Guidelines for Unit Linked Life Insurance Products via Circular 032/IRDA/Actl/Dec-2005. Our Unit Linked Products conform to these Guidelines and subsequent clarifications and modifications to these guidelines under circulars 010/IRDA/Actl/May-2006 and 008/IRDA/Actl/ULIP_G/May-2007. Where the Standard Policy Provisions refer to the Unit Linked Guidelines, we have extracted the relevant sections (*in italics*), with the numbering as in the guidelines.

Minimum Sum Assured

Our HDFC SimpliLife product only allows Sums Assured, Annual Premiums and Policy Terms that conform to the Unit Linked Guidelines. The relevant sections from the Guidelines are extracted below.

1. Benefit payable on death:

1.1. *The table 1.2 below specifies the minimum sum assured in respect of death benefit under unit linked life insurance contracts where:*

- 1.1.1** *T is the Policy Term (PT) chosen by the policyholder (T shall be taken as 70 minus the age at entry in case of Whole Life Products).*
- 1.1.2** *AP is the Annualized Premium selected by the policyholder at the inception of the policy.*
- 1.1.3** *SP is the Single Premium chosen by the policyholder at the inception of the policy*

1.2 The minimum sum assured shall be at least equal to:

Table: 1.2

<u>Type of products</u>	<u>Minimum Sum Assured</u>
<i>Single Premium Products where policy term is less than 10 years</i>	<i>125% of the SP</i>
<i>Single Premium Products where policy term is 10 years or more</i>	<i>110% of the SP</i>
<i>Non-Single Premium Products</i>	<i>5 x AP</i>

1.2.1 *In respect of products under pension and annuity business **Table 1.2** is not mandatory*

Unit pricing and Cut-off time for applicability of Net Asset Value (NAV)

Our current unit pricing and Cut-off time conform to the following extract from the Insurance Regulatory and Development Authority's 'Guidelines for Unit-Linked Life Insurance Products'. These times are subject to change with prior approval from the Insurance Regulatory and Development Authority.

10.2 *The unit pricing shall be computed based on whether the company is purchasing (appropriation price) or selling (expropriation price) the assets in order to meet the day to day transactions of unit allocations and unit redemptions i.e. the life insurer shall be required to sell/purchase the assets if unit redemptions/allocations exceed unit allocations/redemptions at the valuation date.*

10.3 *The **Appropriation price** shall apply in a situation when the company is required to purchase the assets to allocate the units at the valuation date as stated in 10.2. This shall be the amount of money that the company should put into the fund in respect of each unit it allocates in order to preserve the interests of the existing policyholders.*

10.4 The **Expropriation price** shall apply in a situation when the company is required to sell assets to redeem the units at the valuation date as stated in 10.2. This shall be the amount of money that the company should take out of the fund in respect of each unit it cancels in order to preserve the interests of the continuing policyholders.

10.5. Computation of NAV:

10.5.1 when Appropriation price is applied: The NAV of a Unit Linked Life Insurance Product shall be computed as: Market value of investment held by the fund plus the expenses incurred in the purchase of the assets plus the value of any current assets plus any accrued income net of fund management charges less the value of any current liabilities less provisions, if any. This gives the net asset value of the fund. Dividing by the number of units existing at the valuation date (before any new units are allocated), gives the unit price of the fund under consideration.

10.5.2 When Expropriation price is applied: The NAV of a Unit Linked Life Insurance Product shall be computed as: Market Value of investment held by the fund less the expenses incurred in the sale of the assets plus the value of any current assets plus any accrued income net of fund management charges less the value of any current liabilities less provisions, if any. This gives the net asset value of the fund. Dividing by the number of units existing at the valuation date (before any units are redeemed), gives the unit price of the fund under consideration.

10.6 Uniform Cut-off timings for applicability of Net Asset Value:

The allotment of units to the policyholder should be done only after the receipt of premium proceeds as stated below:

10.6.1: Allocations (premium allocations, switch in):

10.6.1.1 In respect of premiums/funds switched received up to 3:00 p.m. by the insurer along with a local cheque or a demand draft payable at par at the place where the premium is received, the closing NAV of the day on which premium is received shall be applicable.

10.6.1.2 In respect of premiums/funds switched received after 3:00 p.m. by the insurer along with a local cheque or a demand draft payable at par at the place where the premium is received, the closing NAV of the next business day shall be applicable.

10.6.1.3 In respect of premiums received with outstation cheques/demand drafts at the place where the premium is received, the closing NAV of the day on which cheques/demand draft is realized shall be applicable.

10.6.2: Redemptions:

10.6.2.1 In respect of valid applications received (e.g. surrender, maturity claim, switch out etc) up to 3:00 p.m. by the insurer, the same day's closing NAV shall be applicable.

10.6.2.2 In respect of valid applications received (e.g. surrender, maturity claim, switch etc) after 3:00 p.m. by the insurer, the closing NAV of the next business day shall be applicable.

APPENDIX-2 TO THE POLICY SCHEDULE
Cap on Charges Circular
Effective Date: 01/10/2009

Unit Linked Products - Cap on charges Circular

On 22 July 2009, the Insurance Regulatory and Development Authority specified an overall cap on the charges on Unit Linked Life Insurance Products via Circular No. 20/IRDA/Act/ULIP/09-10. Our Unit Linked Products conform to this circular and subsequent clarifications and modifications issued to the circular via Circular No. 29/IRDA/Act/ULIPs/2009-10. Where the Standard Policy Provisions refer to the Charge Cap Circular, we have extracted the relevant sections (in italics), with the numbering as in the Circular.

I. Limit on the charges based on net yield

This policy is issued only after it conforms to the requirement of the circular, which requires that the overall prescribed charges are capped at a limit such that the difference between the illustrated gross yield and the net yield after specified charges have been deducted is within the limit prescribed by the circular. The relevant section from the circular and from the clarification to the circular is extracted below.

*To encourage long term business and enable policyholders to earn additional returns thereby and taking into account the product features and the current cost structure, it is mandated that the cap on charges will be based on the difference between gross and net yields of any product. The net yield is the gross yield adjusted for all charges. **For insurance contracts which are of a tenor of less than or equal to 10 years duration, the difference between gross and net yields shall not exceed 300 basis points. For other contracts, i.e. those whose contract period is above 10 years, the difference between gross and net yields shall not exceed 225 basis points.***

Further, the following must be observed.

- a. *Extra premium due to underwriting emanating from extraordinary health conditions, cost of all rider benefits, service tax on charges (as applicable) and any explicit cost of investment guarantee shall be excluded in the calculation of net yield.*
 - c. *Please refer IRDA circular letter IRDA/ACTL/ULIP/2008-09 of January 25, 2008 on 'benefit illustration'. There should be a specific mention of the gross yield and net yield to the customer at the point of sale. This benefit illustration must be approved by the IRDA.*
 - d. *At the time of sale, for benefit illustration purpose, the insurer may assume a growth rate of 10% per annum of the investment as a model, as suggested by the Life Council. This will help the customer to understand the product and charges easily so that the prospect could consider the gross yield and net yield while making an informed decision.*
1. *Mortality and Morbidity charges may be excluded in the calculation of the net yield for the purpose of the sub-para (a);*

The Benefit Illustration of this policy, signed by you (copy enclosed along with this policy document) confirms that your policy meets requirement of the above circular.

II. Limit on Fund Management Charge

Our Unit Linked Product confirms to the limit prescribed on the fund management charge. The relevant section given in the clarification to the circular is extracted below.

2. *Within the overall cap prescribed in paragraph 5 of the reference cited, the Fund Management Charge shall not exceed 135 basis points irrespective of the tenor of the contract;*

III. Surrender Charge after 5 years

As already mentioned in the Schedule of Charges given above, our Unit Linked Product does not levy any surrender charge on surrender after the 5th policy anniversary. This is in line with the requirement of the circular. The relevant section given in the clarification to the circular is extracted below:

3. *No surrender charge can be levied by an insurer for policies surrendered from the 5th policy year and thereafter and consequently the policyholder will be entitled to receive the full fund value on such surrender.*

If you die before this payment has been made we will make the payment immediately on receipt of all relevant documents in support of the claim.

Once this payment has been made, the Policy terminates, no further benefits are payable and the policy cannot be revived.

(iii) Premium unpaid after the first 3 years of the Policy

For a Paid-Up Policy the Unit funds will continue to be invested; risk cover will continue; all charges including the mortality charge will continue to be deducted; and the Policyholder will be entitled to all Policy servicing. Premiums can be paid into a Paid-Up Policy only during the period of 5 years from the due date of the earliest outstanding premium. Any premiums paid into a Paid-Up Policy are used to clear the outstanding premiums in the order of their due dates, the earliest being the first to be cleared. The level of the outstanding premiums will be the same as the premium at the time when the policy was Paid-Up. The premiums paid will be used to allocate units to the Policy in accordance with Provision 9(ii).
- b. A Paid-Up Policy can be revived anytime during the period of 5 years from the due date of the earliest outstanding premium, subject to any terms and conditions which we may specify from time to time. A Revival Charge, as specified in the Schedule of Charges, may be levied. The Revival

Charge will be deducted by cancellation of units. The Revival Charge will be determined by us at our sole discretion from time to time with prior approval from the Insurance Regulatory and Development Authority, subject to the maximum as stated in the Schedule of Charges. - c. If the Paid-Up Policy is not revived within the period of 5 years from the due date of the earliest outstanding premium, then you can either choose to continue the Policy in a Paid-Up state for the remaining term of the Policy or choose to surrender the policy.

If you choose to continue the policy in a Paid-Up state, then the Unit funds will continue to be invested; risk cover will continue; all charges including the mortality charge will continue to be deducted; and the policyholder will be entitled to all policy servicing. However no further premiums would be accepted into the Policy.

If you choose to surrender the policy, then the Policy will be surrendered in accordance with Provision 5(i).

'Withdraw' means no further payments will be accepted into the Fund, any existing units held in the Fund will continue to be allocated. 'Close' means we will encash all the units, which exist for a Fund and terminate the Fund.
- (v) Where we close or withdraw a Fund, we will notify you, three months in advance that, we will switch any existing units in that Fund and / or apply any future Premiums which would have been applied to that Fund to another Fund that has, in our opinion, the closest investment objectives to the original Fund. During the three month notice period, you can switch to any other available Fund in terms of Provision 12 (Fund Switches). Any charges, which are normally deducted for a switch of Funds, as outlined in Provision 14 (Charges) will not be deducted in these circumstances.
- (vi) We will not allocate units in any investment-linked Fund unless assets equivalent to those units are added at the same time to the Fund. We will also not withdraw assets from any such Fund (except to meet the deductions described in section (viii) of this Provision) unless units equivalent to those assets are cancelled at the same time. Units will only be cancelled in any such Fund under the terms of Provision 14 (Charges), and assets equivalent to the cancelled units will be withdrawn from the same Fund at the same time.

We will determine the values of all other assets.

In certain extreme circumstances this may not be possible, as the value of assets may be too uncertain. In such circumstances we may defer the valuation of assets until normality returns. Examples of such circumstances are:
- When one or more stock exchanges which provide a basis for valuation for a substantial portion of the assets of the Fund are closed other than for ordinary holidays.
